Welcome from the President

Dear Friends,

On behalf of nearly 5,800 students, many hundreds of professors and staff members, and more than 26,000 alumni, let me welcome you to Sacred Heart University. You will find in these pages just some of the reasons that the Princeton Review has included our University among The Best 366 Colleges in America and U.S. News & World Report ranks us among the finest in the Northeast. The second-largest Catholic university in New England, Sacred Heart offers more than 40 undergraduate, graduate, and doctoral programs on its main campus in Fairfield, Connecticut, and satellites in Connecticut, Luxembourg and Ireland.

The University is made up of four distinctive colleges: Arts and Sciences, Education and Health Professions, University College, and the John F. Welch College of Business. Educating students in the legacy and tradition of GE's legendary Jack Welch, this College is accredited by the AACSB International, an elite designation belonging to fewer than 10% of business schools worldwide. A leader in the use of educational technology, SHU has been ranked by Intel as the #11 "unwired" college in the United States. It fields 32 Division I varsity teams and sponsors an award-winning program of community service.

Sacred Heart University is rooted in the Catholic intellectual tradition. We are here to assist you in your journey of learning and to travel with you as you work to build a better, more peaceful world. Please call on anyone listed in these pages with your questions and concerns. We welcome your interest in our community of active and engaged learners and hope your time with us is both challenging and productive. With every best wish, I am

Sincerely,

Anthony J. Cernera, Ph.D.

Statement of University Policies

While every effort is made to ensure the accuracy of information provided in this catalog, accuracy cannot be guaranteed. Sacred Heart University reserves the right to make changes at any time without prior notice. The University provides the information in this catalog solely for the convenience of the reader, who may not rely upon it as a promise or legal obligation. Sacred Heart University expressly disclaims any liability based on the contents.

The University is committed to the concept of equal educational opportunities for all. Individuals are considered for admission to student status, and its services, facilities, programs and activities are administered in a nondiscriminatory manner as required by law without regard to race, religion, color, sex, national or ethnic origin, gender, age or handicap.

The institution recognizes the Family Rights and Privacy Act of 1974, which defines the rights and protects the privacy of students with regard to their educational records.

The University is an Equal Opportunity Employer in accordance with its Affirmative Action Policy. It does not discriminate as required by law in its employment practices on the basis of race, color, national or ethnic origin, religion, age, sex, sexual orientation, or handicap.

Sacred Heart University is committed to the maintenance of a community environment where respect for the dignity and worth of each individual is demonstrated and where diversity and the free exchange of ideas can flourish. The maintenance of that community requires its members to avoid behavior that creates division, to promote behavior that enhances cooperation among groups and to encourage the development of each person as a unique individual.

The University does not condone racism, sexism, sexual harassment, intolerance or any other acts of discrimination. The University is authorized under federal law to enroll nonimmigrant alien students.

Any person who has a complaint regarding any unlawful discrimination may obtain the policies and procedures to file a complaint from the Human Resources Department. A complaint by a student for unlawful discrimination in violation of Sacred Heart University policies or state or federal law regarding disability may also be filed with the Director of Special Services located at the University's Jandrisevits Learning Center who will direct the complaint to Human Resources.

Sacred Heart University has been granted institutional accreditation by the New England Association of Schools and Colleges, one of six regional associations in the United States that accredit schools and colleges. Institutional accreditation is the means used by regional accrediting commissions to assure the educational community, the general public and other agencies and organizations that an institution has clearly defined and appropriate educational objectives and that it has established conditions under which its achievements can be met. Accreditation also provides that an institution is so organized, staffed and supported that it can continue to meet its objectives in the future.

In addition, several University programs have received either specialized accreditation or approval by the state of Connecticut or have been granted specialized accreditation by national professional organizations. The Master of Arts in Teaching program is accredited by the Connecticut State Department of Higher Education; the Education program for teacher certification at the elementary and secondary levels is approved by the Connecticut State Department of Education; the Bachelor of Science in Nursing and Master of Science in Nursing programs are accredited by the Commission on Collegiate Nursing Education (CCNE); National League for Nursing; the Master of Science in Occupational Therapy is accredited by the American Occupational Therapy Association; the Doctor of Physical Therapy is accredited by the American Physical Therapy Association; the Bachelor of Arts or Science in Social Work program is accredited by the Council on Social Work Education; and the John F. Welch College of Business is accredited by the Association to Advance Collegiate Schools of Business (AACSB). The University is approved by the Connecticut State Department of Education for the education of veterans and their eligible dependents.

Sacred Heart University is a coeducational, independent, comprehensive institution of higher learning in the Catholic intellectual tradition whose primary objective is to prepare men and women to live in and make their contributions to the human community. The University aims to assist in the development of people knowledgeable of self, rooted in faith, educated in mind, compassionate in heart, responsive to social and civic obligations, and able to respond to an ever-changing world. It does this by calling forth the intellectual potential of its students, nurturing each one's spiritual and moral growth, and deepening in them a sense of social responsibility. The University is committed to combining education for life with preparation for professional excellence. Sacred Heart University is Catholic in tradition and spirit. As a Catholic university, it seeks to play its appropriate role in the modern world. It exemplifies in its life the Judeo-Christian values of the Godgiven freedom and dignity of every human person. Inspired by the ecumenical spirit of the Second Vatican Council, Sacred Heart University welcomes men and women of all religious traditions and beliefs who share its concerns for truth, scholarship, the dignity of the human person, freedom, and the betterment of human society. It values religious
diversity as enhancing the University community and creating opportunities for dialogue in the common search for truth. Through its curricular and co-curricular activities and campus ministry programs, the University provides the context in which students have the opportunity to appropriate in a critical fashion their own religious traditions. Sacred Heart University challenges its students to think critically, analyze carefully, evaluate with a sense of justice and proportion, and convey conclusions in an intelligible and articulate fashion. The University provides the environment in which its students can develop the aesthetic dimension of life by nurturing their abilities to imagine, create and appreciate. It assists students to acquire a rich understanding of their own cultural and family heritages so as to assume their responsibilities as conveyors and creators of culture and family. As a community of teachers and scholars, Sacred Heart University exists for the pursuit of truth. It joins with other colleges and universities in the task of expanding human knowledge and deepening human understanding. It encourages and supports the scholarly and artistic work of its faculty and students. Further, it has a responsibility to share its resources and its special gifts and talents for the betterment of the human community. All members of the University community are encouraged to participate in the wider community through service to others, especially the poor. From its founding, the University has been recognized for its caring approach to students. This expresses the University's belief that each student is born with a unique set of qualities and skills. It respects the personal and academic freedom of each of its members while, at the same time, fostering a genuine experience of community. By so doing, it creates the environment in which each person in the University shares in common goals and a common commitment to truth, justice, and concern for others.

HISTORY
Sacred Heart University was founded in 1963 by the Most Reverend Walter W. Curtis, Bishop of the Diocese of Bridgeport. It was established to provide an affordable, quality education at a Catholic university. From its outset, the University bore the mark of innovation. Charting a new direction within American Catholicism, the University was to be led and staffed by the laity, as an independent Catholic University. Signs of the University's growth and vibrancy are evident. The enrollment has risen from the original class of 173 students to more than 5,700 full- and part-time undergraduate and graduate students in Fall 2006. Correspondingly, the faculty has increased from 9 to over 190 full-time professors and a cadre of dedicated affiliate faculty members. The University has grown and has enhanced the undergraduate student experience in several other ways. In 1990, it accepted for the first time students who wanted the "residential" experience. It now has ten residence halls, and 66% of the full-time undergraduate students live in University housing. New degree programs and majors in relevant disciplines are consistently added to our curriculum. The University offers Division I athletics with 32 varsity teams. The expansive William H. Pitt Health and Recreation Center is available to all students and the community at large. Recognizing the importance of technology, Sacred Heart University provides all undergraduate students with a laptop computer. The University campus is a wireless environment. The University consists of four colleges: College of Arts and Sciences, John F. Welch College of Business, College of Education and Health Professions, and University College. The latter is committed to the adult learner and provides continuing education programs. Its evening, weekend and accelerated courses earn praise for their diversity and relevance to changing lifestyles. An ever-widening outreach to the community balances the University's commitment to academic excellence. The Center for Spirituality and Ministry educates men and women for pastoral, administrative, catechetical and other
Church ministries. The Center for Christian-Jewish Understanding, which earned the personal endorsement of Pope John Paul II, has become a global leader in fostering interreligious dialogue. Closer to home, hundreds of students, faculty and staff volunteer their services in the community each year. The Center for Strategic Planning for Not-for-Profit Organizations provides business assistance to qualified groups at no cost. Through the Sacred Heart University–St. Charles Health and Wellness Center, faculty and students from Nursing, Physical Therapy, Psychology, Occupational Therapy and related disciplines bring the assets of contemporary health care practices and services to an at-risk population to the multicultural communities of St. Charles Church and neighborhood residents on Bridgeport’s East Side. The administration, faculty and staff, and students are proud to carry the Founder’s vision and the University’s mission into the third millennium.

Locations

Located on 56 suburban acres and adjacent properties in Fairfield, Connecticut, the main campus is just minutes from Exit 47 off the Merritt Parkway (Route 15), about one hour north of New York and less than three hours south of Boston. Major extension sites of the University are located in Stamford and Griswold, Connecticut. The University also offers a Master of Business Administration degree in the Grand Duchy of Luxembourg.

Admissions

ADMISSIONS PROCESS FOR FULL-TIME STUDY

The Office of Undergraduate Admissions coordinates the admission of prospective students under 23 years old interested in full-time study (12 credits or more per semester). The different categories of full-time admission and the appropriate application requirements are described below.

Freshman Admissions

A candidate for full-time admission to Sacred Heart University as a freshman should submit to the Office of Undergraduate Admissions a completed application (the University uses the Common Application) with the application fee, a high school transcript, one letter of recommendation, a writing sample, and SAT or ACT scores. (Sacred Heart University’s code is 3780 for the SAT and 0589 for the ACT.) An interview on campus is strongly recommended to complement the required credentials.

Transfer Admissions

The University accepts full-time students transferring from other regionally accredited colleges. Prospective transfer students are required to submit to the Office of Undergraduate Admissions an application for transfer admission (the University uses the Common Application) along with their high school transcript, SAT scores, official college or university transcripts, one letter of recommendation, a writing sample, and the application fee. An interview on campus is strongly recommended.

A student who has left Sacred Heart University for more than a year is required to reapply for full-time admission to the University through the transfer admissions process.

International Admissions

In addition to the appropriate full-time admissions requirements for either a prospective freshman or transfer student, international applicants must submit the International Student Application Supplement. The supplement includes requirements for proficiency in the English language (i.e., TOEFL—Test of English as a Foreign Language) and submission of education credentials with English translations, as well as a financial statement for an F-1 Visa application.

Acceptance Process

Sacred Heart University enrolls full-time students in undergraduate programs of study in September and January. The University accepts full-time students through the Early Decision program or on a Rolling Admissions basis.

A student who is denied full-time admission is not allowed to begin classes on a part-time basis.

Early Decision Program

Students who consider Sacred Heart University their first choice and have demonstrated above-average academic performance may apply under the Early Decision program. Contact the Office of Undergraduate Admissions for the Early Decision program application deadline. In addition, all Early Decision candidates are required to interview with an Admissions Counselor in the Office of Undergraduate Admissions prior to the Early Decision deadline. The University’s Early Decision program is binding; therefore, students accepted to the University under the Early Decision program are required to submit a nonrefundable acceptance deposit. Students deferred through the Early Decision program will be considered through the Rolling Admissions process.

Rolling Admissions Process

All other candidates for admission will be evaluated through the Rolling Admissions process. Decision letters for completed applications will begin to be sent in January. If financial assistance and housing are a consideration, students should submit their applications no later than February 1 for September enrollment and December 1 for January enrollment.
Students who are accepted and who choose to enroll at the University are required to submit a nonrefundable acceptance deposit. The University observes a May 1 deposit deadline for all students accepted prior to April 15. Deposits received after May 1 will be accepted on a space-available basis.

ADMISSIONS PROCESS
FOR PART-TIME STUDY

All part-time undergraduate students, (summer and winter intersession students) are admitted through University College.

If an individual is a first-time student, he/she must submit a high school transcript or its equivalent and meet with an academic advisor to discuss educational goals.

After receiving acceptance into a degree program, the student will review the individualized plan of study with an advisor, and use this worksheet when registering for future classes.

New students should follow these easy steps to become students at Sacred Heart University:

Complete an application and make an appointment to meet with a part-time admissions advisor. The application form is available online at www.sacredheart.edu/applyuc.cfm. Whenever possible, transfer students should fax a copy of their college transcript(s) to University College at 203-365-7500 prior to their appointment. The advisor will perform a preliminary evaluation of any transfer credits, and during the initial meeting will answer any questions, discuss program requirements, and help students register for a class.

If transcripts have been reviewed, but an acceptance has not yet been issued, students may register for up to 12 credits. Registration forms are available on our web-site. http://www.sacredheart.edu/PTRegistration.cfm

Visiting Students

Visiting students are required to complete a registration form and make sure that they have completed any prerequisites for the course(s). Students are responsible for checking with their home institution if they are planning to transfer the credits.

Connecticut law requires that students born after December 31, 1956, provide proof of measles immunization: www.sacredheart.edu/download/27_2008_shu_uc_student_health_services_form.pdf

Registration is ongoing.

Although not required, it is recommended that students meet with an advisor from their major periodically to ensure completion of the program in a timely manner. Students seeking admission to University College do not need prior college experience to begin their studies, and standardized tests are not required.

Correspondence should be directed to:

Weekend University

The Weekend University offers University core curriculum courses that facilitate the pursuit of a degree. There are two sessions offered in an alternating weekend schedule, allowing students to take two courses per semester.

Taste of College for High School Seniors and Senior Citizens

The Taste of College program is a special admissions program to encourage currently enrolled high school juniors and seniors who show exceptional academic accomplishments to participate in college-level courses. Students need to present an application, a letter of recommendation from their high school guidance counselor and a high school transcript and SAT/
ACT scores. Students will receive three college credits after successful completion of the course. Also, adults 62 years or older may take college courses on a seat-available basis. Selected course offerings vary each semester. High school seniors must be recommended by their high school counselor and should contact the Undergraduate Admissions Office at 203-371-7880 for information. Senior citizens should contact University College at 203-371-7830 for more information.

TRANSFER, ADVANCED PLACEMENT AND COLLEGE EQUIVALENT CREDIT

Transfer Credit

Credit is awarded for courses that carry grades of C or better and that parallel Sacred Heart University offerings. The University reserves the right to examine selected courses to determine whether or not their content and quality fit the University’s purpose and goals. Sacred Heart University will accept a maximum of 56 credits from two-year colleges and 90 credits from four-year institutions.

The Advanced Placement Program

Beginning with academic year 2008-2009, credit will be given for scores of 4 or 5 on the College Entrance Examination Board Advanced Placement Examination. A grade of T is assigned for these credits. When Advanced Placement credit is awarded, as determined by the Academic Department, for work that is the equivalent of specific Sacred Heart University courses (e.g., Biology 111, English 101), students may not take those courses for credit. All requests and applications for Advanced Placement should be made to the Office Undergraduate Admissions before classes begin in the year of entrance to the University. Receipt by the Office of Undergraduate Admissions of an Advanced Placement score report, directly from the College Board, will be considered an application for Advanced Placement and college credit.

College Credit by Examination—National Testing Programs

EXCELSIOR, CLEP and DANTES

These are national programs awarding college credit by examination. The University awards credit for CLEP, DANTES, and certain EXCELSIOR exams, but does not administer these exams. College credit is awarded when a student successfully passes an exam with a score of at least 50. Credit is awarded only in areas where the student does not have prior credit applied toward a degree. Students may not take exams in a graduating semester. Speech and composition waivers, and term paper/essay requirements for the EN 110 CLEP exam must be submitted within the first five weeks of the semester. Contact the Director of Freshman English at 203-371-7810 for further information about these policies.

Sacred Heart University offers the nursing student the opportunity to take EXCELSIOR exams in Anatomy and Physiology I and II, and the National League for Nursing (NLN) challenge exam in Microbiology. For additional information concerning these exams, contact the Nursing Programs Office at 203-371-7715.

International Baccalaureate Program

Sacred Heart University considers the International Baccalaureate outstanding for its integrated curriculum and rigor. A student awarded the International Baccalaureate Diploma will be granted the option of sophomore standing and will have his or her individual diploma examinations recorded as transfer credit. If a student does not attain the International Baccalaureate Diploma but presents individual Higher Level examinations with scores of 4, 5, 6 or 7, he or she will receive 6-8 credits per examination (depending on the Sacred Heart University course equivalency), up to a total of 30 credits. These individual credits may be applied to general education/core, a major or an elective. No credit will be awarded for Subsidiary examinations. A student who
has been granted credit in a particular area may not enroll for courses that will repeat his or her work in the subject. Students should have their International Baccalaureate Diploma or International Higher Level examination scores sent to the Office of the Registrar.

Other International Examinations

Students who wish to receive credit for international school leaving examinations other than the International Baccalaureate should have copies of their results sent to the Office of Undergraduate Admissions who, in consultation with the Registrar and respective academic departments, will determine the amount of credit to be given and the distribution of such credit. A student who has been granted credit in a particular area may not enroll for courses that will repeat his or her work in the subject.

For the most commonly presented international/foreign examinations, the guideline of acceptance of college credit is:

- **French Baccalaureate** — scores of 12-20
- **German Abitur** — scores of 7-15 ("befriedigend" or better)
- **Swiss Matura** — scores of 5 or 6
- **United Kingdom "A" Level General Certificate Examinations** — grade of A, B or C

Other international/foreign examinations presented are evaluated for credit by the University Registrar, in consultation with appropriate departments and appropriate international evaluation credential agencies, such as the World Education Services, Inc., located in New York City.

Assessment of Prior Learning Program

Recognizing that higher education also occurs outside the classroom, the University awards academic credit to students for what they have learned through life and/or work experience in very exceptional circumstances. This experience can be the result of self-education, professional certification, in-service training programs, volunteer work or management work.

In order to apply for credit, the student must be enrolled at the University in the semester in which the portfolio is submitted. Credit is awarded only for experience that parallels the University's courses and programs. This credit can be used in the core curriculum, in the major or as free electives, as long as the student completes at least 30 credit hours in the classroom, with one-half of the major taken in the classroom at Sacred Heart University. No more than 60 credits can be awarded for prior learning and CLEP, DANTES and EXCELSIOR combined. This credit is not awarded in areas where National Testing Programs are applicable.

University College will assist the student in assembling the portfolio. The portfolio should include a brief work resume, a detailed description of the individual's experience tailored to particular courses offered by the University and supporting documentation. Supporting documentation may include certificates, awards, letters of recommendation, job descriptions and samples of work. As the portfolio is being composed, the student should be reflecting on the learning that has been derived from his or her experience.

The portfolio and application form are submitted to University College, along with the application fee. The portfolio is referred to the appropriate faculty for a determination of any credit award. Some academic departments review the portfolio as a committee, while other departments prefer to test the student in the particular subject matter.

After the faculty committee has evaluated the portfolio, it is then reviewed by the department chairperson. A letter of award is prepared.

For additional information on the Assessment of Prior Learning program, contact University College at 203-371-7830. Withdrawals from courses must be made in person through the Office of the Registrar. Official withdrawal is necessary.

FAMILY DISCOUNT PLAN
The Family Discount Plan offers a reduction in undergraduate tuition costs when two or more individuals from the same family are enrolled as full-time undergraduates at the University. Each full-time undergraduate student must take at least 12 undergraduate credits during the period of the award.

Family discount forms can be obtained from the Financial Assistance Office prior to registration, or go to the Financial Assistance webpage www.sacredheart.edu.

HEALTH INSURANCE
All full-time undergraduate students are required to have Health Insurance, therefore, students are automatically enrolled in the University's Health Insurance Plan. Students already covered by health insurance may waive the University plan by going to www.kostergallagher.com. All full-time Undergraduate International Students
are enrolled in the University insurance program and cannot waive out. For further information, contact Health Services at 203-371-7838.

PAYMENT OF TUITION AND FEES

Students can pay tuition and other fees in full by cash, check, or money order. All checks should be made payable to Sacred Heart University. Cash payment must be made in person at the Cashiers Window (SC100) in the Academic Building.

For online payments, go to www.sacredheart.edu/e-cashier.cfm. The payment options are ACH and Credit Card. Credit card payments can only be made online using MasterCard, American Express, and/or Discover Card. Credit Card payments carry a convenience fee (%), which is the responsibility of the party making the payment.

Monthly Payment Plan Options

A monthly payment plan is available during regular terms (Fall and Spring). For additional information and/or to enroll, go to www.sacredheart.edu.

*Finance charge. If a payment is received later than the due date, a finance charge will be assessed at the rate of .75% per month, annual rate of 9%.

Guaranteed Payment Plan

This program enables part-time students to register for a term without tuition payment at the time of registration. Further information regarding the Guaranteed Payment Plan can be obtained online at www.sacredheart.edu/pages/1096_payment_plans.cfm.

WITHDRAWALS/REFUNDS

Withdrawals from courses must be made in person through the Office of the Registrar. Full-time students withdrawing from the University must see the Assistant Dean, College of Arts and Sciences or the Director of Advisement for an exit interview.

Part-time students withdrawing from the University or from individual classes must obtain a course withdrawal form from the Registrar's Office.

Official withdrawal is necessary to ensure the proper entry of grades on the transcript and the determination of any refund, if applicable.

Withdrawal from the University within four weeks from the beginning of a semester entitles the candidate to a proportional refund of tuition. Refunds are granted only if the candidate complies with the withdrawal procedures as prescribed by the Registrar's office.

Tuition refunds based on full tuition charges are: 100% - Before start of the semester
80% Before start of second week of classes
60% Before start of third week of classes
40% Before start of fourth week of classes
20% Before start of fifth week of classes
0% After start of fifth week of class

Tuition refund for Weekend University charges are:

- Deduct 40% per meeting for a Weekend University course. Registration and lab fees are nonrefundable, unless the course is canceled.

All refunds can take four to six weeks to process. After withdrawing, students must contact Student Accounts at 203-371-7925 to receive a refund. Refunds are only given to students who have no outstanding balances.

REFUND ALLOCATION POLICY FOR FEDERAL FINANCIAL AID FUNDS

Withdrawing from all courses is considered withdrawing from the University. If you do this before 60% of the semester is completed (approximately 8–9 weeks into the semester), your financial aid award will be recalculated, according to the percentage of the semester you have completed. The formula for calculating this percentage is:

\[
\frac{\text{(Days enrolled)} - \text{(Official breaks of five days or longer)}}{\text{Total number of class days in the semester}} \times 100
\]
RETURNING AID

If you have been awarded Title IV (federal) or state aid and you withdraw before completing 60% of the semester, some portion of your financial aid must be returned. The above formula determines what portion of the aid must be returned and the list below indicates the order in which the aid is returned.

Refunds to Federal Title IV programs are made in this order:
1. Federal Unsubsidized Stafford Loan
2. Federal Subsidized Stafford Loan
3. Federal Perkins Loan
4. Federal Graduate Plus Loan
5. Federal Prent Loan for Undergraduate Students Plus
6. Federal Pell Grant
7. Federal Academic Competitiveness Grant
8. Federal Smart Grant
9. Federal Supplemental Educational Opportunity Grant (SEOG)
10. Other federal sources of aid
11. Other state, private, or institutional aid
12. The student

Refund examples are available in the Student Financial Assistance Office. It is important to discuss withdrawal and refund as it pertains to the individual student, and its implications for federal student loan repayment and future eligibility for financial assistance.

ELIGIBILITY

Undergraduate students are eligible for financial assistance provided they are citizens or permanent residents of the United States and are enrolled in the University on at least a half-time basis. In addition, students must maintain satisfactory academic progress and be in good standing in their course of study. Students in default on any loan made from a student loan fund at any university or in default on a loan made, insured or guaranteed under the Federal Stafford Loan or Federal PLUS Program are not eligible for assistance.

APPLICATION PROCEDURES

To be considered for financial assistance at Sacred Heart University each year, the student must meet the requirements outlined below:

1. All students must complete a Free Application for Federal Student Aid (FAFSA). Sacred Heart University's Title IV Code is 001403.
2. New full-time undergraduate student financial assistance applicants must also complete the PROFILE Application with the College Scholarship Service (CSS) in addition to the FAFSA. To have an official report sent directly to Sacred Heart University, use the University's CSS code number 3780.
3. Priority deadline to apply for financial assistance is:
   - New full-time undergraduate students: February 15
   - Returning undergraduate students: April 1

Student Financial Assistance

The University is committed to helping students plan financially for their college education. The Office of Student Financial Assistance advises students in their effort to locate appropriate financial resources. Financial assistance is generated from a variety of sources including federal, state, institutional and other private or local resources. These sources provide grants, loans, scholarships and part-time employment to assist students with the cost of their education.

Students who need assistance in formulating a financial plan for college should contact the Office of Student Financial Assistance at 203-371-7980. Confidential appointments can be arranged to discuss personal financial situations and all possible avenues of financial assistance.
2. The following forms may be requested by the Office of Student Financial Assistance for each application year:
   • a completed, signed copy of parent's federal income tax return (1040 or 1040A, etc., all schedules and W-2s);
   • a completed, signed copy of the student's federal income tax return (1040EZ, 1040 etc., all schedules and W-2s); and
   • a completed and signed confidential information form available either online at www.sacredheart.edu/pages/766_forms.cfm or from the Office of Student Financial Assistance.

3. Additional verification and documentation may be required according to individual circumstances, such as a Verification Worksheet, signed copies of federal income tax returns, W-2 statements and others. You will receive instructions from the Office of Student Financial Assistance regarding submission of the required documents.

NOTIFICATION AND ACCEPTANCE OF FINANCIAL AID AWARDS

All students will be notified of the status of their financial assistance applications and the amount of their awards in writing and/or via our online inquiry system — accessed by clicking on www.sacredheart.edu. Click on Admissions, Financial Assistance, SHU awards — Check your Award Status. If satisfied with the award package, the student must accept the award package online within two weeks of notification. Students have the right to request a review of their awarded assistance.

Programs

Several federally funded programs are available to qualified students who are U.S. citizens.

FEDERAL PELL GRANTS

Pell Grants are funded by the federal government and are designed to provide financial assistance to undergraduate students who exhibit financial need pursuing their first undergraduate degree. Pell awards range from approximately $400 to $5,350 a year.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG)

SEOG awards are provided by federal and institutional funds and are restricted to undergraduate students who demonstrate exceptional financial need. Grants range in amounts from $100 to $4,000 a year.

FEDERAL COLLEGE WORK-STUDY (CWS)

Work-Study is funded by federal and institutional sources. Students who qualify for this program may be assigned a part-time job on campus. Earnings assist in meeting the cost of attending college. Students are paid weekly at a rate established in accordance with federal and University standards.

FEDERAL PERKINS LOAN

The Perkins Loan is a low-interest loan that students may borrow to assist in meeting the cost of a college education. No interest accrues while the student is enrolled on at least a half-time basis. Payment of the loan begins nine months after graduation, or after a change in enrollment to less than half-time or withdrawal from the University.
The ACG is awarded to undergraduate students who are eligible for the Federal Pell Grant, are U.S. citizens, and who have completed a rigorous secondary school program of study. Awardees receive $750 for the first year and $1,300 for the second year.

The TEACH Grant Program is a nonneed based federal program that provides up to $4,000 per year to students enrolled in an eligible program and who agree to teach as a high-qualified teacher in a high-need field at a low-income elementary or secondary school for at least four years within eight years of completing the program for which the TEACH Grant was awarded. If the grant recipient fails to complete the required teaching service, the TEACH Grant is converted to a Federal Direct Unsubsidized Loan with interest accruing from the date the grant was disbursed.

The SMART Grant is awarded to undergraduate students who are eligible for the Federal Pell Grant, are U.S. citizens, majoring in physical life or computer science, engineering, mathematics, psychology, or a critical foreign language and have at least a 3.0 GPA in the coursework required for their major. Awardees receive $4,000 for each of the third and fourth academic years of study.

The Subsidized Stafford Loan is available to students who demonstrate financial need. The government pays the interest on the loan while the student is in school. The Unsubsidized Stafford Loan is available to students regardless of financial need (i.e., regardless of family income). Students are responsible for interest payments on the loan while attending college, or they may choose to have the interest capitalized.

Students start repayment of the loan(s) (plus interest) six months after they graduate, withdraw or change to less than half-time status. Repayment of principal and interest is spread over a 10-year period. Undergraduate freshmen may borrow up to $3,500 per year; sophomores, up to $4,500 per year; and juniors and seniors, up to $5,500 per year.

Additional Unsubsidized Stafford Loan limits to undergraduate students has increased by $2,000 for loans disbursed on or after July 1, 2008. Independent undergraduate students and dependent students whose parents cannot borrow a PLUS Loan can receive an additional $4,000 for their freshman and sophomore years and $5,000 for their junior and senior years.

PLUS is a loan for parents with good credit histories who have dependent students in school. The yearly loan limit is the cost of education minus financial assistance. Parents begin making payments 30 to 60 days after they receive the loan and must make payments of at least $50 per month. Parents also may take up to 10 years to pay back the loan.

Financial assistance programs are available to qualified students from the state of Connecticut, including the Connecticut Independent College Student Grant. Many other states also have scholarship programs for residents of their state. For more information, contact your state's agency for higher education.
CAPITOL SCHOLARSHIP PROGRAM (CSP)

Connecticut residents who are undergraduate students can apply to the Connecticut Board of Higher Education for consideration. Eligibility is based on SAT scores of at least 1,800, or rank in the top 20 percent of their high school class. Financial need is also a criterion. Applications are available at high schools and must be submitted by February 15. Grant amounts are up to $3,000 for private colleges and universities. Students who are recipients of CSP awards must follow the state renewal process each academic year.

CONNECTICUT INDEPENDENT COLLEGE STUDENT GRANT (CICSG)

The Connecticut Independent College Student Grant is a need-based grant program available to Connecticut residents enrolled in an undergraduate program at a private college or university in Connecticut.

UNIVERSITY LIFE
University Life
A complete college education extends beyond the walls of the classroom and outside the pages of the textbook. Sacred Heart University’s Student Life, Intercollegiate Athletics and Career Development departments are committed to the holistic growth of students through both co-curricular and extracurricular programming. The University’s goal is to provide the support services and life skills that will help students succeed in the classroom as well as in their pursuits after graduation.

BOOKSTORE
The newly renovated bookstore is located on the first floor of the Academic Center, in the Humanities Center wing. Operated by Follett College Stores, it offers textbooks, supplies, clothing with the University’s name and logo and related items. Bookstore purchases can be made online. Visit the bookstore’s website at www.sacredheart.edu/campuslife/bookstore.

CAMPUS MINISTRY
The Office of Campus Ministry provides opportunities for persons of all religious traditions to share in the faith life of the University community. Campus Ministry serves students, faculty, staff and the local community through daily liturgies, pastoral counseling, community outreach, educational programming, special projects, retreats, events and programs. Campus Ministry responds to student needs for worship, integration, social interaction, meaningful discussion of life issues, responsible social action for justice, and exploration of moral, religious and relational issues.

The Eucharist is celebrated on Sundays and weekdays during the academic year. In addition, University-wide liturgical celebrations mark special days and seasons. Other interfaith worship and prayer opportunities are provided regularly.

OFFICE OF CAREER DEVELOPMENT
The Office of Career Development offers services for students from Freshman year through graduation. Career Development programs and services include:
- Major in Success program assists students in gaining self-knowledge, selecting a major, and researching compatible career options;
- career testing including the Strong Interest Inventory, and the Myers-Briggs Personality Type Indicator (MBTI);
- assistance finding paid and unpaid internships for which students may be able to earn academic credit;
- one-on-one career counseling for any career-related issues students are facing;
- help finding part-time and summer employment;
- resume writing and interviewing skills workshops;
- career panel discussions, networking and etiquette events, employer on-campus interviewing, and job fairs;
- online resume management system and job bank exclusively for Sacred Heart students; and
- guidance in conducting a senior-year job search for a full-time position after graduation; and planning for and researching graduate school options.

The Career Development Office is located in Curtis Hall, Room 215 and can be reached by phone at 203-371-7975 or via e-mail at careerdev@sacredheart.edu.

COMMUTER STUDENTS
The University is committed to providing commuter students a comprehensive college experience—keeping in mind the special needs and concerns of commuter students. Commuter students are encouraged to participate in Commuter Student Roundtable discussions and become part of Commuter Assistants, a peer-matching program.

Commuter students are also urged to join the Commuter Council, a student-run organization dedicated to providing
programs and services for commuters. The Commuter Life Office is part of the University's Student Life Department and can be reached at 203-371-7956.

**DINING SERVICES**

The University has contracted with Chartwell's, a professional food service corporation, to provide meals for students. The Dining Service Director works closely with students and staff to ensure the dining needs of the University community are met.

The University's meal plan is a declining balance program. Prepaid plans are available to resident, commuter, faculty, or staff members. Points in this program can be used for many purchases, ranging from entrees to snacks and ice cream to grocery items to convenience items such as toiletries and necessities.

All first-year residents are required to be on a "silver" meal plan. All other students are required to be on a meal plan, a level which is determined by their resident hall. Information concerning the meal plans is available through the Student Life Office.

Points may also be used in Outtakes (a convenience-style store), Coyote Jack's Grill (Roncalli Hall), Holy Grounds Café located in the Christian Witness Commons, and the Cambridge Café located in the College of Education and Health Professions on Cambridge Drive, Trumbull, and at all home football and basketball games.

**HEALTH INSURANCE**

All full-time students must show proof of health insurance coverage or else enroll in the University's Health Insurance Plan at www.kosterweb.com. Undergraduate students who attend at least half-time (six credits per term) are eligible to enroll in the University's student health insurance program. All international students are required to participate in the insurance program. Information regarding specific coverage under student health insurance should be directed to the Health Services Office at 203-371-7838 or online at www.kosterins.com.

**WELLNESS CENTER**

**Counseling Services**

The Counseling Center provides support services of a holistic student development nature, and attends to members of the University community who may be experiencing some difficulty in adjusting to emotional wellness issues. The University provides professional councilors who are available weekdays for individual, personal counseling sessions and psychotropic counseling.

Many personal development workshops are offered by the Counseling Center, as well as group topical counseling sessions. For longer-term therapy, the staff makes referrals to local professionals at an individual cost to the student.

For additional information about the Counseling Center, call 203-371-7955.

**Health Services**

Health Services offers daily first-response treatment for minor health-related issues. A physician and nurse practitioners are on campus for appointments throughout the week (Monday–Friday) at no cost to students. In September 2008, St. Vincent's Medical Center began serving as the Physician/Medical Director for the Sacred Heart Health Center.

Staffed by registered nurses and open five days per week, Health Services also handles state immunization requirements and University insurance requirements and coordinates health promotion workshops. Health Services can also make referrals to local health care facilities, fill many basic prescriptions on campus, and arrange with a local pharmacy to deliver to campus. For additional information about Health Services, call 203-371-7838.

Students needing medical attention when the Student Health Center is closed can see a physician at St. Vincent Immediate Health Care (urgent care center) 4600 Main Street Bridgeport, CT 203-371-4445 or St. Vincent Medical Center (hospital) 2800 Main Street Bridgeport, CT 203-576-6000.
Measles Immunization Law

Connecticut law requires students born after December 31, 1956, to provide proof of two doses of measles vaccine administered at least one month apart. The first dose of vaccine must have been given after the student's first birthday and after January 1, 1969; the second dose must have been given after January 1, 1980. The student is also required to provide proof of one dose of rubella vaccine administered after the student's first birthday. Laboratory evidence (blood test) is acceptable in lieu of administration of vaccine. All students must be in compliance with this state law before registering.

Meningococcal Vaccine Law

Beginning with the 2002–2003 academic year, the State of Connecticut requires that all students who reside in on-campus halls must be vaccinated against meningitis. Proof of this vaccination must be presented to the appropriate University officials before a student can obtain entry to their resident hall. This new guideline for Connecticut colleges and universities is provided in Public Act 01-93.

For additional information, call the University's Health Services (203-371-7838), or stop by the lower level of the Park Avenue House.

ATHLETICS AND RECREATION

At Sacred Heart University a comprehensive athletics and recreation program exists for all members of the university community. During the academic year, the following opportunities are available:

- Division I Intercollegiate Athletics. The University's 32 NCAA D-I varsity athletic programs are open to all full-time undergraduate students. Eligibility requirements, scholarship availability, team overviews, schedules and player and coaches profiles can be reviewed on the intercollegiate webpage (http://sacredheartpioneers.cstv.com).

- Intercollegiate Club Sports. The 18 individual and team (single-sex and coed) club sport programs are open to all full-time undergraduate and graduate students. Most of the club sport teams are members of athletic conferences. Unlike varsity athletics, club sports do not offer scholarships, practice and playing seasons are shorter and in some cases less intense than their D-I counterparts. All skill levels are encouraged to participate, and all programs have direct student involvement in the management of their sport. Similar to varsity athletics, each team has a professional head coach and athletic trainer. Additional information about intercollegiate club sports can be reviewed on the club sports webpage (http://www.sacredheart.edu/clubsports.cfm).

- Recreation and Intramurals. Activities in this area are varied and are offered throughout the academic year. Multiple fitness centers, a dedicated aerobics/dance room, an exceptional weight training facility, and numerous sport leagues such as flag football, basketball, volleyball, softball, etc. (which are organized by residential hall floors, within academic departments or most frequently by friends organizing a team) are all designed to allow members of the university community time to relax, exercise, socialize, compete and enjoy healthy activity to balance out a rigorous academic schedule. Additional information about recreation and intramural sports programming can be reviewed at http://www.sacredheart.edu/athletics.cfm.

INTERNATIONAL STUDENTS

The University provides academic and social support to its growing number of international students. International and Multicultural Affairs is a part of the University's Student Life Department. All international students are encouraged to use the University services to seek assistance for their concerns and to become involved in campus activities. University services include the English as a Second Language (ESL) program, the International Club and Focused international student programming.

International Student Visa Certification

An international student requesting an application for a student visa (F-1) must be accepted to the University in a full-time program of study. Since federal and/or state financial assistance is not available to international students, the student is also required to present certified evidence of sufficient funding to cover education and living expenses.

If, after attending the University, the student decides not to return, notification must be made in writing to the Office of Student Life. If a student wishes to travel during the authorized time of study at the University, he or she must present a current I-20 form to the Office of Student Life for certification prior to departure.

A student not following the regulations of the U.S. Department of Justice Immigration and Naturalization Service is considered out of status and may be subject to deportation from the United States.

PUBLIC SAFETY AND PARKING

The Department of Public Safety, located in the Academic Center, is committed to fostering an environment in which all those who live, study, work or visit within the University campus are able to do so in a safe and secure environment. The department is committed to providing professional, timely and efficient public safety services to all of its constituents on a 24-hour-a-day, seven-day-a-week basis.

Public Safety officers patrol the buildings and grounds of the University via vehicle, bicycle and foot. Services provided by the department include personal safety escorts, motor vehicle assistance (unlocks and jump starts) and emergency medical response and treatment, as well as maintaining a lost-and-found department. Public Safety enforces parking and traffic regulations, provides key control and locksmith services and investigates and documents incidents on campus. Public Safety is the emergency response department on campus, and acts as the liaison with the local police, fire and ambulance services.

All vehicles parked on the campus must display a University decal. Parking permits are available from and distributed by the Student Accounts Office located in the SC Wing of the Main Academic Building. For general information, call 203-371-7924. You can also apply online at www.sacredheart.edu/pages/27536_parking.cfm.

RESIDENTIAL LIFE AND HOUSING SERVICES
The Office of Residential Life and Housing Services coordinates all University housing options for students. The office staff, hall directors and resident assistants work with students to make the halls a "home away from home" by creating a healthy, living/learning atmosphere. Students have direct input to their living environment through the Residence Hall Associations and the Hall Councils, which address concerns and organize activities for members of the hall community.

The University currently houses students in nine different areas: Angelo Roncalli Hall, Elizabeth Ann Seton Hall, Thomas Merton Hall, Christian Witness Commons, Scholars Commons, Park Ridge Apartments, Taft Commons, Park Royal, and Oakwood Gardens. These varied areas offer distinct residential lifestyles, from traditional high-rise resident halls to on-campus apartments to off-campus apartments.

STUDENT ACTIVITIES
The Student Activities Office seeks to enhance the college experience outside the classroom by offering both cocurricular and extracurricular opportunities for students. In addition, the Student Activities Office teaches life skills to students through formal training sessions and leadership opportunities.

A vital component of the Department of Student Life, the office is responsible for scheduling, planning and overseeing all student events on campus. The Student Activities Office is a center for information on events, student groups, Student Government and student leadership. The Student Activities Office can be reached at 203-365-7675.

STUDENT CLUBS AND ORGANIZATIONS

Another area in the Department of Student Life is the Student Union Office. Many of the nonacademic services provided by the University are facilitated by the Student Union, including:

- Class ring sales
- Game Room (Hawley Lounge)
- One-Card program
- Outpost Pub Room/facilities reservations
- Shuttle Service
- Student Handbook
- Student ID cards

The Student Union Office can be reached at 203-365-7663.

Every student (full-time and part-time) is responsible for being aware of the policies and procedures of Sacred Heart University as outlined on the Student Handbook web link (www.sacredheart.edu/pages/3911_student_handbook.cfm). All students will be held accountable for their actions and subsequent consequences with regard to these policies and may be subject to any judicial action as detailed in the Student Handbook.
UNIVERSITY FACILITIES AND COMMUNITY RESOURCES
Sacred Heart University currently has 17 buildings on its 56-acre campus and adjoining properties in the northeast corner of Fairfield, Connecticut. The William H. Pitt Health and Recreation Center opened in September 1997, as did significant enhancements of the main academic facilities. Plans also call for expansion of the library, a new classroom building, a free standing chapel, and other improvements.

ACADEMIC CENTER
The Academic Center contains most classrooms and faculty, administrative and academic departmental offices. The Academic Center is divided into four wings: Science Center, Humanities Center, Student Union, and University Commons. The Science Center includes offices of the Dean and Assistant Dean of Arts and Sciences, Registrar, Student Accounts, and Academic Advising. Also included are the faculty offices for Biology, Chemistry and Mathematics. The Science Center houses many state-of-the-art classrooms and the biology, chemistry, and physics laboratories.

The Humanities Center includes the Academic and Administrative Computing Center, Bookstore, and Faculty Lounge. Also included are the faculty offices for Criminal Justice, Computer Science and Information Technology, English, English as a Second Language, Modern Foreign Language, Psychology and Social Work. The Humanities Center also includes multiple classrooms and computer labs.

The Student Union includes the faculty offices for Campus Ministry, Music, Public Safety, Student Affairs and Student Government, as well as a multipurpose activity center, housing, chapel, dining halls, Mahogany Room, Gallery of Contemporary Art, Hawley Lounge, mailroom/print shop and Center for the Performing Arts.

University Commons includes offices for public safety, the neuroscience lab, classrooms, a multipurpose assembly room, the Mail and Copy Center, and Campus Operations.

CURTIS HALL
Curtis Hall, named for the University founder, the Most Reverend Walter W. Curtis, D.D., Bishop of the Diocese of Bridgeport, houses the offices of Undergraduate and Graduate Admissions, Student Financial Assistance, Career Development, the Center for Irish Cultural Studies, Web Content Management and the Office of the Vice President for Enrollment Planning and Student Affairs. The Community Room also is located in Curtis Hall.

LIEBERMAN ADMINISTRATION BUILDING
The Lieberman Administration Building houses the office of the President; offices of the Provost and Vice President for Academic Affairs; offices of University College; the Media Studies Center; faculty offices for the departments of Government and Politics, History, Media Studies and Digital Culture, Philosophy and Religious Studies, and Sociology.

JANDRISEVITS LEARNING CENTER (JLC)
The Jandrisevits Learning Center is located in the lower level of the Ryan-Matura Library. The JLC provides specialized tutoring for students with learning disabilities (LDs) as well as for students who are linguistically diverse (ESL). Staffed by highly experienced faculty tutors and well-trained peer tutors, the JLC provides a warm, friendly learning environment where the academic success of individual students is the primary concern. An adaptive technology lab is available for students with visual, auditory, physical, or learning disabilities. For an appointment, call all 203-371-7820, or come to the Jandrisevits Learning Center.
OAKVIEW DRIVE
Located off campus in neighboring Trumbull, Connecticut, the building at 101 Oakview Drive houses the office of the Senior Vice President for Finance and Administration, the Business Office, office of Facilities Management and Construction, office of Institutional Research, Motion Analysis Laboratory, Center for Christian-Jewish Understanding, SHU Polling Institute, Center for Spirituality and Ministry, office of the Vice President and Division of Institutional Advancement, Art Department and faculty offices, administrative offices of WSHU Radio, office of the Vice President of Human Resources, department of Human Resources, and Payroll.

CAMBRIDGE DRIVE, COLLEGE OF EDUCATION AND HEALTH PROFESSIONS
The faculty offices and many of the instructional spaces of the College of Education and Health Professions are located at Cambridge Drive, a short drive or shuttle ride from the Park Avenue campus. This newly created, 52,000-square-foot facility houses state-of-the-art labs, classrooms, and library facilities for the College, which includes the Departments of Education, Nursing, Physical Therapy and Human Movement, and Occupational Therapy. All graduate study for the College and many laboratory and didactic undergraduate courses are scheduled in this facility. In addition to the highly sophisticated classrooms, laboratories, and library spaces, there are new dining facilities, a physical therapy clinic, a reading clinic, and administrative and faculty offices. There is ample parking and the facility is served by a regular university shuttle service.

PARK AVENUE HOUSE
The Wellness Center, which includes Personal Counseling Services and Health Services, is located in the Park Avenue House at the southeast corner of the campus.

THE WILLIAM H. PITT HEALTH AND RECREATION CENTER
The William H. Pitt Health and Recreation Center is home to the Pioneer mens and womens basketball, volleyball, and wrestling programs, as well as many intramural and recreational programs. The three-level, 141,000-square-foot complex features four multipurpose basketball courts, which can be easily converted for indoor tennis or convention use, and seats 2,100 for basketball. The facility has undergone extensive renovation and equipment upgrades.

The Health and Fitness Center is located on the lower level of the Pitt Center. Offering a wide range of fitness equipment and classes, the 5,000 square foot facility features an enclosed aerobics studio and main fitness area, where the latest generation of cardiovascular exercise machines and free weight equipment can be used. Locker rooms for both the Pioneer athletic teams and Health and Fitness Center members are adjacent to the fitness area. The upper level of the Pitt Center houses the Department of Athletics suite of offices and the Board Room, which serves as a meeting/reception room for the Board of Trustees and other on-campus organizations.

CAMPUS FIELD
Campus Field is the home of the Pioneer football, mens and womens soccer, field hockey, mens and womens lacrosse, and mens and womens outdoor track and field. Built in 1993, Campus Field features newly installed lights and $1.2 million state-of-the-art SprintTurf synthetic-surface, multipurpose field. The field is surrounded by an eight-lane synthetic-surface running track available for competition and recreational use. With a seating capacity of 3,500, Campus Field is an ideal location for large-scale events and has been host to athletic tournaments, graduations and outdoor fairs. Adjacent to Campus Field are six new state-of-the-art tennis courts, a project completed in the Spring of 2007. Rounding out the outdoor athletic facilities, and adjacent to the Sacred Heart tennis courts, is Pioneer Park softball field, most recently upgraded in 2007.
RYAN-MATURA LIBRARY

The Ryan-Matura Library is the source for information, whether it is the answer to a factual question or research for a term paper. Librarians are available to answer questions and assist students with extended research projects. Instruction sessions are conducted for class groups to familiarize them with the library, with subject-specific research, and the research process. Librarians also assist students with finding information in other libraries, in commercial databases, or on the Internet.

Periodicals and periodical indexes, including newspapers are found in print, film and electronic format. Any book or periodical not found in the library can be obtained from another library through interlibrary loan. Materials can usually be obtained within 10 days.

At present the Ryan-Matura Library holds approximately 125,000 print volumes and 50,000 nonprint items and more than 15,000 periodical subscriptions. These include a significant number of full-text journals available on more than 50 online index and abstracting databases. These can be reached 24 hours a day/7 days a week from links on the library home page. Databases are available from campus and home.

The library's website is located at http://library.sacredheart.edu. It provides access to the library catalog, information about the library, electronic reserve reading, links to research databases and other related information.

The library building also houses the Landriesevits Learning Center.

SCHINE AUDITORIUM

The Schine Auditorium, located in the lower level of the Ryan-Matura Library, provides an appropriate setting for lectures, workshops, academic convocations and other special programs. To reserve the 220-seat auditorium, call 203-371-7846 between 8:30am and noon, Monday through Friday.

Community Resources

CENTER FOR CHRISTIAN-JEWISH UNDERSTANDING (CCJU)

The CCJU, an educational and research division of Sacred Heart University, is located at Oakview Drive. The center draws together clergy, laity, scholars, theologians and educators in various modes of interaction to focus on current religious thinking within Christianity and Judaism.

As each tradition reevaluates attitudes toward the other, the center fosters the exploration of the major philosophical and theological issues on the frontier of the Christian-Jewish dialogue, as these are formulated by scholars at the international and national levels.

The center's mission is to develop programs and publications to overcome deep-seated antagonisms, based on centuries of hostility and mutual estrangement, that recent progress has not yet healed. It fosters greater knowledge and understanding of the religious traditions of Christianity and Judaism and the history of their relationship, and provides a forum for dialogue. It promotes independent research and serves as a vehicle for processing and circulating its findings to appropriate institutions around the world.

For further information about the Center for Christian-Jewish Understanding, call 203-365-4809 or visit its website at www.ccju.org.

RESIDENCE HALLS

The University currently houses students in nine different facilities: Angelo Roncalli Hall, Elizabeth Ann Seton Hall, Thomas Merton Hall, Christian Witness Commons, Scholars Commons, Park Ridge Apartments, Oakwood Apartments, Park Royal, and Taft Commons. These offer distinct residential lifestyles, from traditional high-rise resident halls to on-campus apartments to off-campus apartments.
The Center for Strategic Planning for Not-For-Profit Organizations was established by Sacred Heart University within the John F. Welch College of Business to provide business assistance to qualified groups. Through the application of skills developed during their studies, teams of MBA students, under the guidance of an experienced advisor, address strategic issues central to the client’s longer term viability and effectiveness. In doing so, students provide a valuable service while being exposed to “realities of life” that transcend the formal academic environment.

It is the mission of the Center to engender in the University’s MBA students a sense of community and an appreciation for those less fortunate by providing them a unique opportunity to give of their talents in the service of others. Functioning as teams, students will assist not-for-profit organizations with the development and implementation of strategic, business, and marketing plans necessary to meet their goals and objectives. In doing so, students will apply the skills learned in the SHU MBA program in a cooperative effort carried out in the spirit of the Catholic intellectual tradition to produce an outcome worthy of a grade.

The mission of the Center is directly aligned with, and in support of, key elements of the mission of Sacred Heart University and the John F. Welch College of Business. The Center’s office is located at on Oakview campus. For further information call, 203-371-7853.

EDGERTON CENTER FOR THE PERFORMING ARTS

Since its opening in 1986, the Edgerton Center for the Performing Arts has presented the Fairfield County community with professional-quality theatrical, musical, and dance performances that are both accessible and affordable. Located on the main campus, the center, with a house that seats 776+, has been host to more than 52,000 patrons from over 29 towns since its opening.

In 2005, the Edgerton embarked on a partnership with Connecticut Family Theatre to establish the center as Connecticut’s only professional family theatre. Now offering year-round productions, the Edgerton Center for the Performing Arts features programming designed to complement the educational development and cultural experience of local youth. In addition to offering year-round professional theatre for families, the Edgerton Center also features programming for a variety of audiences.

In addition to offering professional productions to the community, the Edgerton Center for the Performing Arts provides a venue through which Sacred Heart University’s students and faculty can express their artistic voice. The Edgerton Center is host to productions from a variety of University organizations including the Concert Choir, Concert Band, Jazz Ensemble, and the SHU Players.

Thanks to the contributions of Charles and Freda Edgerton, the Edgerton Center for the Performing Arts is a center for all seasons. The theatre is fully renovated and air conditioned, permitting it to remain available to students, faculty, and the community for a wide variety of artistic endeavors.

For all questions and ticketing information, call the box office at 203-371-7908, or visit the center at www.edgertoncenter.org.

THE GALLERY OF CONTEMPORARY ART

The Gallery of Contemporary Art presents exhibits of contemporary works of art in a wide variety of approaches and media. The gallery offers exhibits annually, which include a Student Exhibit, an exhibit of the Art Faculty’s work and exhibits by professional artists. Most exhibits have associated lectures.

The gallery also administers the University’s Collection, the Sculpture on
the Grounds program and the Voluntary Percent for Art program. For further information and exhibit hours, call the gallery at 203-365-7650.

HERSHER INSTITUTE FOR APPLIED ETHICS

Established in 1993, the Hersher Institute for Applied Ethics serves both the University community and the wider Fairfield County community by addressing issues of major ethical concern. The institute assists Sacred Heart University faculty from all disciplines to raise and examine broad ethical concerns and issues specific to their respective disciplines.

The Hersher Institute brings speakers to campus to address the faculty and provides training for integrating ethical viewpoints into the University curriculum. The institute supports the University’s wider mission by cosponsoring, with other departments and institutes, colloquia and conferences that raise important ethical questions for the University scholarly community and the general public. For further information, call 203-365-7657.

THE CENTER FOR SPIRITUALITY AND MINISTRY

The Center for Spirituality and Ministry provides educational and pastoral programs addressing needs and concerns of laity. A special emphasis of the center is to contribute to the spiritual, educational and professional formation of leaders for Church and society in the spirit of Gaudium et Spes. Programs sponsored through the center include a certificate in religion for Catholic school educators; and a graduate certificate in Pastoral and Catholic School Administration*, also offered through the University’s College of Education and Health Professions.

The center’s office is located within the Administration Building under the aegis of University College and may be reached by phone at 203-371-7843.

*The programs in Catholic School Administration are on moratorium. Presently enrolled candidates will be supported through the completion of their program until June 30, 2010. New applications will not be accepted.

RADIO STATIONS

WSHU Public Radio is a professionally operated group of public radio stations licensed to Sacred Heart University with studios and control centers located on the Fairfield campus. A full member of National Public Radio (NPR), it is one of only two such stations in Connecticut and 356 in the United States.

WSHU is the principal public radio source for Fairfield and New Haven Counties in Connecticut and Suffolk County, New York. More than 245,700 listeners tune in to the station’s blend of award-winning NPR news and talk programs, locally produced classical music, in-depth regional reporting, and unique entertainment.

WSHU utilizes student support in the form of internships, work-study students, and board operators. It also serves as a lab for audio production.

In addition to its original 91.1 FM signal, WSHU operates two other radio stations—WSUF 89.9 FM in Noyack, New York, and WSHU 1260 AM in Westport, Connecticut—and seven translators: 90.1 FM (Stamford, CT), 91.3 FM (Huntington Station, NY), 91.7 FM (Ridge, NY), 93.3 FM (Northford, CT), 103.3 FM (Greenport, NY), 105.7 FM (Selden, NY), and 106.5 FM (Derby, CT).

SPORTS MEDICINE AND REHABILITATION CLINIC

The University operates two physical therapy and hand therapy clinic facilities, one on campus affiliated with the academic program in Physical Therapy, and one in Shelton, Connecticut. The on-campus clinic is located in the William H. Pitt Health and Recreation Center and at the Cambridge Drive facility. The clinics provide physical therapy and hand therapy services to students, employees and the public. Clinic staff includes several members of the Physical Therapy program faculty as well as several staff members who are advanced clinicians in orthopedic, sports physical therapy and hand therapy.
All are licensed physical therapists. The clinics operate five days per week, 12 hours per day. This clinic service is also closely affiliated with the University's athletic training program to serve the rehabilitation needs of our student-athletes.

The clinical facility features the latest technological equipment in isokinetic testing with a new Biodex II system, a full range of orthopedic and sports physical therapy evaluation resources, a therapeutic pool and a full hand rehabilitation center. Patients of the clinic may take advantage of the comprehensive fitness facilities of the William H. Pitt Health and Recreation Center under the supervision of a Physical Therapy staff member. The clinics are authorized providers for most major medical insurance carriers. For further information, call 203-396-8181.
DEGREES AND CURRICULA
Degrees and Curricula
The goal of Sacred Heart University is to provide an educational experience for the student that will result in his/her development as a whole person; a person who possesses the intellectual ability to know, judge, reason, analyze, synthesize, discern and appreciate; a person who is sensitive and responsible to the needs of society and accepts the responsibility to preserve the dignity of fellow human beings; a person who is aware of the laws that govern the physical world and who is alert to the preservation of the beauty of nature; a person who possesses a sense of moral responsibility to self, community and nation.

Baccalaureate Degrees
At the undergraduate level, Sacred Heart University offers two baccalaureate degrees: Bachelor of Arts (BA) or Bachelor of Science (BS) depending upon the nature of the discipline of the major. The University offers 26 majors and 30 minors. The University also offers Associate in Arts (AA) and Associate in Science (AS) degrees. All candidates for the baccalaureate degree must complete at least 120 credits, with a minimum of 30 credits taken at Sacred Heart University. A minimum cumulative grade point average (GPA) of 2.0 is required.

THE UNIVERSITY CORE CURRICULUM
A central component of undergraduate study is the University’s Core Curriculum, which embodies the University’s commitment to academic excellence, social responsibility, and ethical awareness. Consistent with its Mission, Sacred Heart University provides its students with a liberal arts curriculum that is:

- fundamental to becoming a knowledgeable, educated, and ethically responsible person;
- foundational to studies in the major and to lifelong learning; and is
- essential preparation for personal and professional success in a global and ever-changing world.

STRUCTURE OF THE UNIVERSITY CORE CURRICULUM
The Core Curriculum is composed of three components:
I. Foundational Core (10 credits)
II. Common Core: The Human Journey (12 credits)
III. Elective Core (33–35 credits)

I. Foundational Core (10 credits)
The Foundational Core provides students with competency, at the college level, in the communications, mathematics, and information-literacy skills that are necessary for academic success and that are essential in a global and ever-changing world.
EN 110 Academic Writing (3 credits)
CA 101 Effective Oral Communication (3 credits)
IL 101 Information Literacy (1 credit)
MA TBD Mathematics (college level) (3 credits)

II. Elective Core (33–35 credits)
The Elective Core provides students with the body of knowledge, critical thinking abilities, and ethical and moral thinking that are needed for studies in the major, for life-long learning, and for the education of the whole person.
The Elective Core is comprised of courses in the Humanities, the Social and Behavioral Sciences, the Natural Sciences/Mathematics/Computer Science, and Religious Studies and Philosophy. These courses introduce students to the perspectives and ways of knowing in these disciplines.

Humanities (9 credits)
The Humanities are the historical,
aesthetic, language and literature disciplines that study the human condition and human experience using methods that are largely critical, creative, analytical, theoretical, interpretive, and speculative. To accomplish the Humanities area, students are required to complete 9 credits from at least two difference disciplines of the following:

- Art
- History
- Literature
- Music (excluding applied music courses)
- Media Studies
- Modern Foreign Languages

Students may take no more than 3 credits of English and no more than 3 credits of History to complete this area.

Students are strongly encouraged to take 6 credits of the same Modern Foreign Language in consecutive semesters as part of their Humanities requirement in this area.

For students majoring in Nursing or Athletic Training, 6 credits in two departments completes this area.

**Social and Behavioral Sciences (9 credits)**

The Social and Behavioral Sciences use the scientific method and analytical approach to study human behavior, and the social nature of human beings, and to examine the social and political structures that result from human interaction and that shape human behavior.

To accomplish the Social and Behavioral Sciences area, students are required to complete 9 credits from at least two different disciplines of the following:

- Anthropology
- Economics
- Political Science
- Psychology
- Sociology

**Natural Sciences/Mathematics/Computer Science (6-8 credits)**

The Natural Sciences use the empirical or scientific method to study the laws that govern nature and the natural world. Mathematics and Computer Science use rigorous logic as their primary methodology.

To accomplish the Natural Sciences/Mathematics/Computer Science area, students are required to complete 6-8 credits, and one of the courses must be Biology, Chemistry, or Physics.

- Biology
- Chemistry
- Computer Science
- Mathematics
- Physics

**Religious Studies and Philosophy (9 credits)**

Religious Studies uses reason and critical and analytical thought to study religions, religious beliefs and practices, and to examine the relationship between the human and the Divine as well as to explore questions of truth, justice, ethics, and the moral dimensions of existence. Philosophy uses logic, analysis, and reason to examine fundamental questions about existence, meaning and knowledge, and ethics.

To accomplish the Religious Studies and Philosophy area, students are required to complete 9 credits from the two different disciplines:

- Philosophy
- Religious Studies

**III. Common Core: The Human Journey**

Sacred Heart University's academic signature centerpiece, The Human Journey, is a coherent, integrated, and multidisciplinary study of the liberal arts and sciences and the Catholic Intellectual Tradition. The five courses of The Human Journey are framed and unified by the following four fundamental and enduring questions of human meaning and value:

1. What does it mean to be human?
2. What does it mean to live a life of meaning and purpose?
3. What does it mean to understand and appreciate the natural world?
4. What does it mean to forge a more just society for the common good?

*The Human Journey* introduces students
to some of the most significant thinkers, artists, writers and scientists from Western, Catholic, and non-Western traditions who have wrestled with these central and complex questions about human life. The Common Core courses which comprise The Human Journey are:

**HICC 101 The Human Journey: Historical Paths to Civilization**

**ENCC 102 Literary Expressions of The Human Journey**

**CC 103 A The Human Community: The Individual and Society (Social and Behavioral Sciences) or CC 103 B The Human Community and Scientific Discovery (The Natural Sciences)**

**CC 104 The Human Search for Truth, Justice, and the Common Good**

### Course Descriptions

**HICC101 The Human Journey: Historical Paths to Civilization 3 CR**

HICC101 is part of Sacred Heart University's Common Core, The Human Journey. Framed by the Common Core's four fundamental questions of human meaning and value, this course is designed to provide first-year college students with an understanding of the elements of Western Civilization from the ancient world to the end of the Renaissance, including the Catholic intellectual tradition. HICC101 will also provide students with sufficient knowledge of the history and culture of a non-Western civilization (China) to allow for meaningful comparison of the two cultures. Primary texts will be used to bring students into close contact with the main thinkers of the period and to show how historians use written records to interpret the past.

**ENCC102 Literary Expressions of The Human Journey 3 CR**

ENCC102 is part of Sacred Heart University's common core sequence The Human Journey. This course will address the four fundamental questions of human meaning and value that serve as the unifying frame for all the courses in The Common Core. In ENCC102 we will read and examine significant works of literature. We read serious literature because it presents us with images of, dramatizes for us, or tells us stories about ourselves, our human experience throughout time, and the way we live. This course engages students in conversations about these literary stories, images, and dramatizations. We will critically and analytically read and examine works of literature from different cultures – western and non-western, including Catholic, and from different time periods – classical to contemporary, with an aim toward understanding and appreciating how these very different works give us insight in the four core questions.

**ANCC103 The Human Community: The Individual and Society 3 CR**

This is the third of four courses in The Human Journey, Sacred Heart University's Common Core Curriculum. As part of the University's Common Core, The Human Journey, ANCC103 addresses the four core questions from the anthropological perspective. With an emphasis on the unity, diversity and development of human biology and culture, the anthropological perspective offers a unique opportunity to engage the Catholic intellectual tradition and examine the enduring questions of human existence.

**POCC103 The Human Community: The Individual and Society 3 CR**

This is the third of four courses in The Human Journey, the Common Core Curriculum at Sacred Heart University. The course explores questions regarding human meaning and value by specifically focusing on the social and political dimensions of the Core Questions. This course will include an analysis of the major political philosophers and their perspectives on the following: What does it mean to be human? What does it mean to live a life of meaning and purpose? What does it mean to forge a more just society for the common good? What does it mean to appreciate and understand the natural world? The course will also incorporate key thinkers from the Catholic Intellectual tradition as they approach the core questions.
PSCC103 The Human Community: The Individual and Society  
This course is the third of four courses in Sacred Heart University's Common Core Curriculum, *The Human Journey*. This course will address the four fundamental questions of human meaning and value that serve as the unifying frame for all the courses in *The Human Journey*. This particular course engages students in a study of the relationship between psychology - the science of human behavior and mental processes, and the Catholic intellectual tradition – which is characterized by rigorous intellectual inquiry and an openness to scientific ideas. This course aims to help us understand ourselves as human persons, as well as to understand the social and physical environments in which we live.

SOCC103 The Human Community: The Individual and Society  
This is the third of four courses in *The Human Journey*, Sacred Heart University's Common Core Curriculum. As part of the University's Common Core: *The Human Journey*, this course takes up the enduring questions of human existence: 1) What does it mean to be human? 2) What does it mean to live a life of meaning and purpose? 3) What does it mean to appreciate and understand the natural world? 4) What does it mean to forge a more just society for the common good? Investigations are primarily guided by insights from sociology about the social nature of human beings and the structure of societies while also including the contributions from the natural sciences and the Catholic intellectual tradition.

BICC103 The Human Community and Scientific Discovery  
This is the third of four courses in *The Human Journey*, Sacred Heart University's Common Core Curriculum. This course focuses on the scientific approach and its uses and limits in addressing the four fundamental core questions of human meaning and value. The practice of scientific inquiry with respect to political, social and cultural factors will also be examined, particularly in the context of the Catholic intellectual tradition. Potential topics to be discussed include learning about your own ancient genetic lineage, evolution, genetic testing, environmental pollution, global climate change, and disease prevention.

CHCC103 The Human Community and Scientific Discovery  
This is the third of four courses in Sacred Heart University's Common Core Curriculum, *The Human Journey*. This course will examine the core's four fundamental questions of human meaning and value. From the perspective of Chemistry, students will learn about science and the natural world and science's engagement with the Catholic intellectual tradition.

PYCC103 The Human Community and Scientific Discovery  
This is the third of four courses in Sacred Heart University's Common Core Curriculum, *The Human Journey*. As part of *The Human Journey* curriculum, this course will address the four fundamental questions of human meaning and value from the perspective of the academic disciplines of Physics and Theology. PYCC103 will examine the relationships between our human explorations of the universe through science, in general, and physics, in particular. We will examine Physics as a fundamental and practical human endeavor which helps us understand and appreciate the natural world as part of God's provision and revelation for us. As with all of the courses that make up the Common Core, the four fundamental questions will serve as the threads that will serve as the framework for the fabric of the course.

RS/PHCC104 The Human Search for Truth, Justice, and the Common Good  
This course is the capstone course in Sacred Heart University's Common Core sequence of study, *The Human Journey*. As the capstone, this course addresses the Core's four fundamental questions
Sacred Heart University 2009-2010 Undergraduate Catalog

of human meaning and value. This course will investigate the religious or philosophical understanding of the human condition as a theme running through the four stated questions. Students will study both classic and contemporary texts from a range of religious and some philosophical traditions, particularly the Catholic intellectual tradition. A vital component of the course will be students’ own responses to the four questions, especially as those responses evolve through the enrichment of the course material. As a capstone course, RS/PHCC104 enables students to develop a personal, integrated set of answers to the common core questions through a range of modalities and media, including service projects, research papers, artistic productions, student “portfolios” of completed assignments for all four Core courses, and other similarly integrated and interdisciplinary work.

THE MAJOR FIELD
(30-58 CREDITS)

The major provides the student an area of specialty as preparation for a career or as a foundation for graduate study. Several baccalaureate majors offer multiple specialization programs. One half of the credit for the student’s major must be completed at Sacred Heart University. Sacred Heart University offers the following baccalaureate major programs, with concentration options listed after the major:

College of Arts and Sciences

Art/Graphic Design
Biology: Traditional, Biotechnology, Ecology and Conservation Biology, Neuroscience
Chemistry: Biochemistry, Traditional
Communication and Technology Studies
Computer Science: Computer Science, Information Technology
Criminal Justice English:
Communications, English Education, Literature, Theater, Writing
History
Mathematics
Media Studies
Philosophy
Political Science
Psychology
Religious Studies
Social Work
Sociology
Spanish

John F. Welch College of Business

Accounting
Business Administration:
International Business, Management Information Systems, Management, Marketing, Sport Management
Business Economics
Finance
Sport Management

College of Education and Health Professions

Athletic Training
Exercise Science
Nursing (B.S. only): First Professional Degree Program, BSN Completion Program, RN to BSN/Web, RN to MSN

University College

General Studies

ELECTIVES (0-36 CREDITS)

Electives are courses offered by the University in subject areas that interest the student. Electives should be selected in consultation with the student’s academic advisor.

Students majoring in any discipline may also elect courses in the following pre-professional areas: Pre-Law, Pre-Medical/Pre-Dental, Pre-Occupational Therapy, Pre-Optometry, Pre-Physical Therapy, and Pre-Veterinary. Qualified students may also elect courses in the Thomas More Honors Program or in Education. These are explained in the Academic Enhancement Programs chapter in this catalog.

MINOR PROGRAMS

In addition to a major, the student may choose an optional minor program from the following:

College of Arts and Sciences

Art
Biology
POLICY ON AWARDING OF SECOND BACCALAUREATE DEGREE

Students will be eligible to receive a second baccalaureate degree from Sacred Heart University, with a major other than that obtained with their first degree, if they meet the following criteria:

1. They will have fulfilled the requirements of the second degree and major.
2. They will have completed at least 30 credits at Sacred Heart University after the date of the first degree.
3. That up to 90 credits of the first degree can be used toward the fulfillment of the new degree/major.

If the above conditions are not met, the transcript would then indicate the completion of a second major if requirements for that major have been achieved.

ASSOCIATE OF ARTS DEGREE—GENERAL STUDIES PROGRAM

All Associate of Arts degrees are offered by University College. The candidate for the AA degree in General Studies must complete 60 credits, which include the AA Core Curriculum as well as an emphasis of not less than 15 credit hours and elective courses chosen in consultation with the student’s advisor. A minimum of 30 of these credits must be taken at Sacred Heart University, and a minimum cumulative GPA of 2.0 is required.

Core Curriculum

The Core Curriculum for the AA degree provides the student with the opportunity to experience other disciplines, obtain a background for further study, and gain the knowledge to become a knowledgeable and educated human being.

Foundational Core

*EN 110 *CA 101 *MT TBD *A grade of C or better is required.
Common Core: The Human Journey

Sacred Heart University's academic signature centerpiece, The Human Journey, is a coherent, integrated, and multidisciplinary study of the liberal arts and sciences and the Catholic Intellectual Tradition.

See description of the Common Core: The Human Journey courses listed previously in this chapter.

Elective Core

To accomplish the elective core, students will complete the following: Humanities (3 credits) Social and Behavioral Sciences (3 credits) Natural Sciences (3 credits) Religious Studies/Philosophy (3 credits)

EMPHASIS

Credits range from 15-32, depending on the emphasis.

Note: The required courses for each emphasis are listed under each college and department section.

A grade of C or better is required in all emphasis courses. Area discipline courses cannot be used in above core areas. Areas of emphasis with required courses are:

College of Arts and Sciences

Art
Biology
Chemistry
English
French
History
Italian
Mathematics
Media Studies
Music
Philosophy
Political Science
Psychology
Religious Studies
Sociology
Spanish

John F. Welch College of Business

Accounting
Business
Business Economics

ASSOCIATE OF SCIENCE DEGREE

The University offers the Associate of Science degree in Computer Science and Information Technology.

Note: The requirement for this degree is listed in the College of Arts and Sciences chapter.

ACADEMIC ADVISING
At Sacred Heart University, academic advising is an integral part of a student’s education, and meetings with an academic advisor should be an important and regular feature of a student’s life. The Assistant Dean of the College of Arts and Sciences coordinates academic advising for all first-year students while the Director of Academic Advising oversees the advisement for incoming transfer students and for upperclass students. First-year students are assigned a faculty advisor from one of the Freshman Advising Programs for their first semester. Freshmen who are ready to decide are encouraged to declare their major soon after the start of their second semester. Once a student officially declares a major by filling out the Declaration of Major form, he or she will receive a new faculty advisor in the chosen discipline. An academic advisor works not only to assist students with course, program, and schedule selection, but also to provide the guidance and support needed to assist students in exploring personal and professional goals. It is very important that students meet with their academic advisors regularly.

ACADEMIC INCENTIVE PROGRAM (AIP)
Sacred Heart University’s Academic Incentive Program offers academic and personal support to a segment of each year’s entering freshman class. The Assistant Dean of the College of Arts and Sciences and the Director of Freshman Communication codirect this program designed to enhance the success of highly motivated, academically unprepared freshmen. Selected academic advisors assist these freshmen with their transition to the challenging academic environment of college. Freshmen are selected for the Academic Incentive Program based on a profile consisting of their high school performance records (grade point averages, rank in class), SAT scores, and performance on the Sacred Heart University English Placement Exam.

Freshmen in the Academic Incentive Program have regular and frequent access to their freshman academic advisor, who also serves as a professor in each student’s fall semester EN 109 course. Freshmen in the program are encouraged to meet frequently with their freshman academic advisor, who monitors their academic progress and intervenes with appropriate support. The Academic Incentive Program offers:

- Our 3-credit EN 109 (Introduction to Academic Writing) course in a student’s first semester. The course is limited to 15 students per section.
- A freshman academic advisor, who serves as the student’s EN 109 professor.
- Specially designated sections of selected core courses in the first and second semesters.

Freshman academic advisors assist their advisees as they select courses, choose academic programs, and decide on an academic major. Many Academic Incentive Program freshmen declare their major during their second semester and move to a faculty advisor in their field. Students who choose to remain undeclared stay with their AIP academic advisor until they do declare.

ENGLISH AS A SECOND LANGUAGE (ESL)
The ESL program is intended for students whose native language is not English and who wish to study English either full or part time. The program is designed to help students improve their oral and written communication skills in English, preparing them for successful study in an American academic institution.

The program offers six levels of English language courses, from beginning to advanced. Levels 1–4 are noncredit, preacademic, intensive courses. Full-time ESL students enroll in eight-week sessions, taking a cluster of oral communication, written communication, pronunciation, and service learning, totaling 20 hours per week.
Levels 5 and 6 are credit-bearing, semester-long courses that focus on college reading and writing. Students in these levels may take University classes while they complete their language training. Placement in both the noncredit and credit ESL programs is determined by the University College English Placement Test, an oral interview, and the student's language profile. For more information regarding the program, contact the Interim Director at 203-365-7528. For further support, tutoring is also available at the University Learning Center.

Placement in the ESL program depends on TOEFL, SAT scores, University placement tests, an oral interview and the student's language profile. For more information regarding the program, call 203-365-7528.

THOMAS MORE SCHOOL OF HONORS STUDIES

The Honors Program is home to some of the University's brightest and most committed students. The Honors version of the Common Core, *The Human Journey*, is rigorous, but also highly student-directed, in that students are given greater latitude in selecting readings and designing assignments and, in general, are invited to take active responsibility for what they are learning.

Honors students also organize and participate in their own seminars and discussions on topics inspired by the core or other areas of common interest. The relative size of the University's program and the number of course offerings means that honors students receive highly individualized instruction. Since the best learning can sometimes take place out of the classroom, the program coordinates and funds opportunities every semester to travel as a group to off-campus cultural events, and provides a stipend for students who study abroad.

The mission of the students in the Honors Program is to serve as leaders in the intellectual, cultural, and spiritual life of the University. In this way, Honors students can themselves become leaders and active learners.

For more information, visit the Honors website, or contact the director of the program, at 203-396-8324.

INDEPENDENT STUDY AND INDIVIDUAL INSTRUCTION

Independent study is available for the qualified student who wants more advanced or specialized work in a given academic area. Faculty members guide the student in the research needed for the study. Only the student who has officially declared a major and who has successfully completed at least 15 credits will be able to enroll. A maximum of 6 credits of independent study or individualized instruction is permitted toward the baccalaureate degree.

Independent study courses are designated as course number 399 in the appropriate subject area (e.g., EN 399 Independent Study in English). Usually, an independent study course is awarded three credits.

Individual instruction is available for the student who needs a specific course to fulfill degree requirements but is unable to schedule the course for a valid reason (involvement in student teaching, field experience or unavailability of the course). The syllabus for individual instruction conforms to the usual requirements, including required assignments, for that course. Ordinarily, no student will be permitted to take more than one individual course per semester, and no more than two individual courses to fulfill degree requirements.

INSTRUCTIONAL TECHNOLOGY AND STUDENT MOBILE COMPUTING PROGRAM

Recognizing the increasingly important role of technology in our society and in education, Sacred Heart University has made a commitment to, and a serious investment in computers, networking and its supporting technologies. The University's network infrastructure provides connectivity to every facility on campus via a fiber-optic Gigabit Ethernet backbone. The network architecture is capable of supporting well over 5,000
Simultaneous users at any given time. Network services are provided to the student community via 100-megabit data jacks and 54 Mbps wireless access points. These provide access to the University library, Internet and student e-mail 24 hours a day, seven days a week. Wireless access is also provided in the academic buildings, library and most other indoor and outdoor locations where students gather on campus.

VPN, Citrix and terminal services are available to provide connectivity solutions for even the most sophisticated applications, from anywhere on the Internet. Outlook Web Access (OWA) is available through the web, for sending and receiving campus e-mail from any computer connected anywhere on the Internet.

To promote its “Anytime, Anywhere Learning” initiative, Sacred Heart University deployed wireless networking in the summer of 2000 to create one of the first wireless network campuses in New England. This infrastructure allows students to use their laptops in nearly all outdoor areas on campus, and in most public areas indoors. The current wireless standard is 54Mbps 802.11g.

The students' computing laboratories are currently comprised on 300 desktop computers dispersed throughout several academic facilities. Seven laboratories are used for computer-related instruction, and an additional lab provides 24/7/365 access for Sacred Heart University students, faculty and staff. The University continues to upgrade regular classrooms to “smart” classrooms with fixed multimedia capabilities that allow instructors to fully integrate technology in their classroom presentations. All general-purpose classrooms are equipped with LCD projectors, DVD, VCR, audio capabilities, and PC/laptop connections. All classrooms on campus are equipped with an active data jack for instructors or students to access the network. Additionally, there are data/CATV connections in every room and wireless networking is accessible throughout the campus. The network infrastructure is designed with future technologies in mind and with excess capacity to allow for significant growth. The University is making a serious financial commitment to maintaining the network at peak performance capability and reliability. Upgrading the software and hardware that support the network is a continuous process and not one the University will ever say is complete. Sacred Heart's commitment is to keeping a state-of-the-art system in place for all our campus customers.

In 1995, Sacred Heart University became the first university in Connecticut and the fourth in New England to require incoming freshmen to own a notebook computer that meets a specified standard (networking connectivity to access the Internet, e-mail, University library and other libraries across the country and other networked resources). By fall 1998, all of the University's full-time undergraduate students had notebook computers. In the fall of 2000 the laptop program was changed in order to replace every student-used laptop after two years of use, thereby ensuring that students have the latest hardware and most current software available. The Mobile Computing Program, and the universal nature of the program on this campus, makes integrating technology across the curriculum and into the daily lives of our students, a much easier process. In addition, Sacred Heart University provides all of its full-time faculty members with a choice of laptop, tablet or Mac laptop refreshed every two years. We offer similar program to our adjunct faculty who are issued a two year old laptop refreshed every year. We build and install on our laptops the same image which contains the latest Microsoft Office software and other necessary tools and utilities. Faculty members are able to incorporate more electronic course information into the curriculum and use computers as a key component of classroom instruction; faculty and students are able to communicate using Sacred Heart's Online Web-based Course Management System, "BLACKBOARD," for class content, assignments, questions and classroom discussion groups; as well as virtual office hours. To expand on the mobile learning initiative, the University...
now offers the ITUNESU platform to provide the community with the tools required to download electronic content to portable players and replay the content when appropriate.

COMPUTER FACILITIES

Sacred Heart University offers a state-of-the-art campus network. The library, classrooms, on-campus residence facilities, health and recreation center, and faculty and administrative offices are all networked. With its fiber-optic infrastructure, the University is positioned to support a wide range of emerging technologies.

The University has established itself as a pioneer in the implementation of technology across the curriculum. A host of multiprocessor campus servers supports the labs and educational programs. The University’s 140 Mbps Internet, 10 Mbps Internet2 and Gigabit backbone support 100 Mbps wired and 54 Mbps wireless links throughout the campus. The network also supports video, voice and data across the campus. State-of-the-art routers and firewalls provide high-speed connectivity and security to Wide Area Network segments and are completely managed in-house. This has allowed the administrators to implement traffic-shaping, intrusion prevention and wireless security measures for access as secure as it is convenient.

The University has adopted the “Blackboard” Transaction system to create a simplified means for identification and commerce transactions on campus. The Sacred Heart ID can also be used at select off-campus merchant locations to facilitate additional commerce transactions.

In support of the laptop program, the University has an on-site Notebook Service Center and Call Center staffed 12 hours a day, 5 days a week, so that members of the University community can call trained technicians for assistance with anything on campus that pertains to technology. The Call Center can be accessed on campus through the internal telephone system and off campus via a toll-free telephone number. This facility is specifically designed to service and troubleshoot problems with laptops. In addition, Sacred Heart University has a full-time trainer who provides basic, intermediate and advanced instructional courses on all supported applications included on the laptop. Through Sacred Heart’s telephone support hotline, students, faculty and staff can dial a toll-free number to obtain technical assistance.

JANDRISEVITS LEARNING CENTER

Office of Academic Support

The Jandrisevits Learning Center (JLC) is located in the lower level of the Ryan-Matura Library. Staffed by highly experienced faculty tutors and well-trained peer assistants, the JLC provides a warm, friendly learning environment where the successful academic accomplishments of students are our primary concern. The JLC offers the following support services to all undergraduate and graduate SHU students:

- individualized one-hour tutoring in all disciplines provided by a staff of 10 faculty tutors;
- monthly workshops on college-level learning skills such as note-taking, time management and test-taking;
- classroom learning assistants (70 peer tutors who provide academic support in disciplines across the curriculum);
- learning disability specialists in compliance with § 504 of the 1973 Rehabilitation Act;
- adaptive technology instruction for learning and physically challenged students;
- an online writing service (JI.LC.OWL); and
- drop-in tutoring for selected courses and referrals for individualized tutoring.

The JLC is open 7 days a week: Monday–Thursday, 10 am–9 pm; Friday, 10 am–3 pm; and Saturday–Sunday, 2 pm–6 pm.

Office of Special Services

Though there is not a separate application process to be admitted to the Office
of Special Services, all students with disabilities must submit appropriate documentation prior to the start of the academic year or prior to the student's request for services. The University's documentation policy can be obtained by contacting the Office of Special Services.

**Federally Mandated Services**

*Disclosure Letters.* At the written request of students, the Director of Special Services writes letters to some or all of the students' professors that clearly states the nature of the disability and the appropriate classroom accommodations.

*Extended-Time and Separate Environment Testing.* Extended-time testing (usually time and a half or double time) takes place either in classrooms designated by professors or in a separate, secluded environment within the JLC.

*In-Class Notetaker.* In-class notetakers are fellow students who are also taking the class. By agreement, these students make copies of their notes or allow students in need to duplicate notes on a copy machine paid for by the JLC Disabilities Office.

*Interpreting and/or Technical Services.* Deaf or hard-of-hearing students can request either an oral interpreter or an American Sign Language interpreter. If they do not use interpreters, but have a significant hearing loss, technology can be requested to assist in understanding classroom lectures and obtaining notes.

*Alternative Forms of Testing.* Depending on the students' documentation and disabilities, the Special Services Office negotiates appropriate alternative testing methods on a case-by-case basis.

*Course Substitutions when Appropriate.* A course substitution policy enables physically and learning challenged students on a case-by-case basis to request previously approved alternatives in place of specific required courses, but only when it is clear that the required courses would severely disadvantage students' ability to successfully compete in those courses.

*Classroom Learning Assistants Program.* Tutoring in disciplines across the curriculum is provided for all Sacred Heart University students free of charge by graduates and undergraduates in the Classroom Learning Assistants Program (CLA). The CLAs are responsible for providing students with a full set of notes for the class, assisting them with tests, study or paper preparations.

*Books on Tape.* Students can be provided with recorded books either through Sacred Heart University's institutional membership with Reading for the Blind and Dyslexic (RFB&D).

**Additional Billable Services**

*L.D. Trained Specialists.* The Director of Special Services along with L.D. specialists, who collectively provide services day and evening for a total of 35 hours a week, assist students with special needs on a one-to-one basis. These tutors have expertise in specialized pedagogy for the learning disabled and, thus, provide services over and beyond those offered by the University's regular tutorial program.

*Technical Services.* A closed-caption note-taking system provides notes for students who choose to avail themselves of an additional academic accommodation beyond those required by law.

*Content Tutors.* Tutoring in disciplines across the curriculum is provided for all Sacred Heart students free of charge by graduates and undergraduates in the Classroom Learning Program. While students with disabilities may attend group CLA tutoring sessions, some also need the special expertise of faculty tutors—over and beyond what is provided by tutors in the Classroom Learning Assistants Program—to provide them with individual assistance on a regular basis.

*Hired Scribes.* An upperclass student not registered for the class who attends the class for the sole purpose of taking notes for the student requesting the service is available. Scribes are paid not only for taking class notes but also for assisting with homework assignments.

*Academic Coaching.* A personal service is available that assists learning and physically challenged students to develop organizational life-skills that will foster independence and increase their
opportunities for academic success. Appointments: Call 203-371-7820, or come to the JLC, located in the lower level of the Ryan-Matura Library.

INTERNSHIP AND CO-OP PROGRAMS
Sacred Heart University embraces the concept of experiential learning as a way of supplementing the classroom experience, exploring different career paths and enhancing the student's marketability when seeking post-graduate employment. Opportunities include both internships and co-ops.

Internships may be paid or unpaid and can be completed by the student for academic credit. The length of the internship and the number of credits awarded vary. A typical placement lasts for one semester and involves 10 to 20 hours of work per week.

In co-op placements, the student works full-time for one or two semesters for a set hourly wage and 6-12 academic credits per semester. This allows the student to maintain full-time student status while earning a salary and gaining valuable experience.

The student works with his or her faculty advisor to gain approval for the content of an internship or co-op, and to determine the number of credits that will be awarded. The student must also complete the required documentation from the Office of the Registrar. The Office of Career Development assists the student in locating an appropriate position.

Experiential learning opportunities are available in all fields including the sciences, business, health care, media and government. Students interested in these programs should consult their faculty advisor as well as the Office of Career Development.

THE NEWCOMER (NC) PROGRAM
The Newcomer Program, the largest of SHU's Freshman Advisory Programs, provides academic advising for all freshmen not enrolled in one of the University's specialized programs. Faculty advisors in the Newcomer Program provide academic advice and support, assist with course and program selection, and make referrals, when appropriate, to other University support services. For the first semester, a student's Newcomer advisor is a full-time faculty member who also serves as the professor in one of the student's freshman courses. This allows for regular and continuous interaction throughout the semester. Students and advisors will also meet regularly outside of class for additional support and guidance.

PROFESSIONAL PROGRAMS
Sacred Heart University offers pre-professional advising in Pre-Law, Pre-Medical/Pre-Dental, Pre-Optometry, Pre-Occupational Therapy, Pre-Physical Therapy and Pre-Veterinary.

Pre-Law Program
There is no prescribed pre-law course required for admission to law school. The student interested in law as a career is advised to secure a strong education in the liberal arts. The Pre-Law advisor will help design a Pre-Law program and will aid in the law school admission process.

Pre-Medical/Pre-Dental, Pre-Optometry and Pre-Veterinary Programs
The Pre-Medical/Pre-Dental, Pre-Optometry and Pre-Veterinary programs give the student the required educational background to pursue a career in medicine, dentistry or related health professions at a professional college or university. The balanced curriculum for the program consists of studies in biology, chemistry, English, humanities, mathematics and the social sciences, and provides the student with the humanistic values and scientific background needed to pursue a career in the health care field.
Pre-Occupational Therapy and Pre-Physical Therapy Programs

STUDY ABROAD

Sacred Heart University sponsors undergraduate study abroad programs in Rome, Italy, in partnership with the American University of Rome; in Fremantle, Australia, in partnership with University of Notre Dame Australia; and at Sacred Heart University's own site in Dingle, Ireland. With the help of the Coordinator of Study Abroad, students participating in the Rome and Australia programs select courses from a wide variety of offerings which will further the completion of their degree requirements. Students participating in these programs pay the regular Sacred Heart tuition rate plus a study abroad fee. Federal and state financial assistance as well as Sacred Heart University grants may be applied to the Rome, Australia, and Ireland programs. Students interested in the Ireland program are assisted by the director of the Center for Irish Cultural Studies.

Students may also participate during the fall and/or spring semester in a variety of study-abroad opportunities preapproved by the Office of Study Abroad. These preapproved programs are sponsored by a number of U.S. accredited institutions through the CCIS Consortium (College Consortium for International Studies). The coordinator of Study Abroad assists students in selecting and applying to these programs and facilitates the transfer of credits from these programs by clarifying prior to participation how these courses will be used in their Sacred Heart University degree programs. Students who participate in these programs are assessed a study-abroad fee. While federal and state financial assistance may be applied to these programs, Sacred Heart University grants will not.

Short-term programs of two to four weeks in January, March (spring break) and during the summer, led by Sacred Heart faculty, are also available. Recent short-term summer experiences include programs in Ireland, Amsterdam, Granada, and various cities in Europe. For more information, contact the coordinator of Study Abroad at 203-396-8022 or the director of the SHU In Ireland Program at 203-365-7626.

WOMEN'S STUDIES PROGRAM

Women's Studies is an academic, interdisciplinary program oriented to the study of women and gender roles. The program draws on the new scholarship about women from different cultures and socioeconomic backgrounds in order to examine and critique traditional models of thinking and to develop creative ways of exploring women and their experiences. Theoretical and critical debates that have influenced modern feminist thought are also an integral part of the curriculum. Students select courses cross-listed in Women's Studies and a variety of other disciplines including: Criminal Justice, Literature, Media Studies, Nursing, Philosophy, Political Science, Psychology, Religious Studies and Sociology.

The Women's Studies program provides students with the opportunity to broaden their education by enriching their understanding of women through multiple fields of inquiry. The program supports critical thinking about women's and men's social, economic, cultural and political roles in the past, present and future. It challenges students to develop their intellectual understanding of the impact of gender as an organizing force in society. Students are encouraged to explore the meaning and application of this knowledge to their own lives.
Academic Standards, Policies and Procedures
NOTIFICATION OF RIGHTS UNDER FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. Students may ask the University to amend a record that they believe is inaccurate or misleading. A student who wishes to ask the University to amend a record should write the University official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and advise the student of his/her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the University discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is the disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a legitimate educational interest if the official needs to review an education record to fulfill his/her professional responsibilities for the University.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-5901.

STUDENT RESPONSIBILITY

Students are responsible to know and apply the University's academic policies and procedures. They are responsible for meeting deadlines as outlined in the academic calendar or in other sections of this publication. Students are
responsible to know and apply graduation requirements in their major and should check their program evaluations on Web Advisor regularly. Questions should be addressed to the academic advisor or the Assistant Registrar for Graduation Services. Academic advisors can assist in understanding degree requirements and planning course selections but the primary responsibility for meeting these requirements rests with the student.

SACRED HEART UNIVERSITY NETWORK ACCOUNT AND OFFICIAL COMMUNICATIONS

When students are enrolled at Sacred Heart University, a University network account is created. The student is required to activate the account and is thereby given access to online services including Sacred Heat University email. Official communication is directed to the student's University's electronic mailbox. In some cases official communications may be delivered by U.S. mail or campus mail. Students are expected to access their email regularly to stay abreast of important, time-sensitive information. Information on how to access Sacred Heart University's network is available from the University's website under MYSHU.

Sacred Heart University offers on-line and blended courses. Students must activate their Sacred Heart University network account and be registered to have access to course material and on-line applications.

MATRICULATION

Matriculation is an agreement with the University to a particular set of degree requirements. Full-time undergraduate students are automatically matriculated upon admission and fall under the degree requirements of the catalog of the year in which they first enrolled. Full-time students who are on an Official Leave of Absence will maintain their matriculation status during the period of their leave (see policy under Interruption in Attendance.) Students who are not on an official leave of absence or have withdrawn from the University must reapply for readmission.

Students who have been readmitted will fall under the catalog in effect at the time of their readmission. Full-time students who have not attended the University for up to two consecutive major semesters (fall and spring or spring and fall) must apply for readmission and, if accepted, will ordinarily be governed under the catalog that was in effect when they left the University. Students who have not attended the University for more than two consecutive major semesters (fall and spring or spring and fall) will be under the catalog in effect at the time of their readmission.

Part-time students who have not attended the University for more than 24 months are no longer considered matriculated and must apply for readmission through University College. Part-time students not yet admitted to the University must apply for matriculation once they earn 12 credits. After 12 credits of non-matriculated status, a part-time student will not be allowed to register unless they are admitted to the University through University College or appeal for one more additional semester while they complete their application.

CONTINUOUS ENROLLMENT

A degree candidate has the right to graduate under the requirements that existed at the time of his or her matriculation as long as continuous enrollment has been maintained. Continuous enrollment means that a full-time student is enrolled in every fall and spring semester or is on an approved leave of absence (see policy under Interruption of Attendance.) For part-time students continuous enrollment means that the student must not allow a 24-month period to elapse without being enrolled at Sacred Heart University.

PLACEMENT TESTS

All students registering for English composition and/or mathematics must take a placement exam or have completed the appropriate prerequisite courses. Students are placed in the appropriate course by the respective departments.
Placement exams must be taken prior to registration. Once placement has been determined, students are obliged to accept their placement and course sequence. Additional testing is required for ESL (English as a Second Language) placement. Placement exams for full-time students are scheduled during orientation. Part-time students should contact University College for more information at 203-371-7830.

MEASLES AND RUBELLA IMMUNIZATION/MENINGITIS VACCINATION

Connecticut law requires students born after December 31, 1956, to provide proof of two doses of measles vaccine administered at least one month apart. The first dose of vaccine must have been given after the student's first birthday and after January 1, 1969; the second dose must have been given after January 1, 1980. The student is also required to provide proof of one dose of rubella vaccine administered after the student's first birthday. Laboratory evidence (blood tests) of immunity is acceptable in lieu of administration of vaccine.

A meningitis vaccine is required for any student living in University housing. Hepatitis B vaccines are strongly recommended for all students.

All students must be in compliance with this state law before registering. For further information regarding immunization requirements, contact the University's Health Services Office at 203-371-7838.

ACADEMIC YEAR

The academic year consists of two major semesters. Courses are offered during the day, evenings and on weekends. In addition to this traditional schedule, courses are offered throughout the year in varying course formats, in other terms of study, in accelerated course modules, intensive courses and through online learning. Sacred Heart University uses the semester credit system of awarding credits. Lecture time for one semester credit is generally 50 minutes per week. For a laboratory course, a longer period of laboratory work is required for a semester credit. The calendar and important dates for the traditional semester and accelerated terms is posted on the University website.

DECLARING A MAJOR

Students are expected to declare a major as soon as possible and no later than the end of the of their year. Each year Sacred Heart University sponsors a "Majors Fair" to assist students with choosing a major. The Office of Career Development also assists students through workshops for undecided students. Students who have not declared a major are encouraged to seek assistance from their advisor, academic departments, and from the Office of Career Development. Students must fill out a Declaration of Major form available in the Academic Departments, University College and the Registrar's Office. Completed forms must be submitted to the the academic department for the major. This office will assist in obtaining all appropriate signatures. Students who wish to change a major, add a second major, minor or make similar declarations should contact the appropriate academic departments.

CLASS ATTENDANCE

Regular class attendance is expected of each student in every class. Instructors are encouraged to base a portion of the final grade on attendance. All work missed because of absence from a class must be completed by the student. Excessive absence could result in failure of the course.

ACADEMIC INTEGRITY

The Meaning of Academic Integrity

As an institution of higher learning, Sacred Heart University places special emphasis on academic integrity, which is a commitment to the fundamental values of honesty, trust, fairness, respect, and responsibility. Only when these values are widely respected and practiced by all
members of the University—students, faculty, administrators and staff—can make the University maintain a culture that promotes free exploration of knowledge, constructive debate, genuine learning, effective research, fair assessment of student progress, and development of members' characters.

These aims of the University require that its members exercise mutual responsibilities. At its core, academic integrity is secured by a principled commitment to carry out these responsibilities, not by rules and penalties. Students and faculty should strive to create an academic environment that is honest, fair and respectful of all. They do this by evaluating others' work fairly, by responding to others' ideas critically yet courteously, by respecting others' intellectual and physical property, and by nurturing the values of academic integrity in all contexts of University life.

Appropriate disciplinary action will be taken for violations of academic integrity, including plagiarism, cheating, any use of materials for an assignment or exam that is not permitted by the instructor, and theft or mutilation of intellectual materials or other University equipment. Faculty will assign failing grades for violations of the University's policy on academic integrity and students may immediately receive an F for a course in which they commit a violation. Violations of academic integrity are kept on file; second violations will bring additional sanctions, up to dismissal from the University. For any disciplinary action, the University affords the student the right of due process in an appeals procedure. All matriculated students will be provided with a full description of the University's standards for academic integrity, consequences for violations, and the appeals procedure.

Mutual Responsibilities of Faculty and Students

Sacred Heart University faculty have an ethical and professional obligation to take the following steps to promote academic integrity among students:

1. Refer in course syllabi to the University's policy on academic integrity.
2. Clearly explicate in course syllabi behaviors and actions that constitute academic dishonesty, especially those that may be specific to the assignments of the course.
3. Clearly explicate in course syllabi consequences for violations of academic integrity.
4. Reinforce these expectations and consequences periodically during the semester, such as when giving information for assignments.
5. Model and, where appropriate, teach students those scholarly practices that embody academic integrity.
6. Abide by this policy on academic integrity, including its reporting requirements.

Sacred Heart University students have the ethical obligation to take these steps to promote academic integrity among their peers:

1. Act with integrity in all their coursework.
2. Abide by this policy on academic integrity and any policies established by their professors and the department in which they are majoring.
3. Refuse to share materials with peers for the purpose of cheating, or that they believe will be used for cheating.
4. Take care with their own papers, tests, computer files, etc., lest these be stolen or appropriated by others.
5. Notify the professor of a course if they become aware that any form of cheating or plagiarism has occurred. Such notification is not dishonorable but maintains an academic environment in which all students are evaluated fairly for their work; it may also protect a student from a charge of dishonesty (if, for instance, the student's work was appropriated by another).
Violations of Academic Integrity

Academic integrity can flourish only when members of the University voluntarily govern their personal behavior by high ethical standards. However, it is also crucial for the University to define the boundaries of ethical behavior and to prohibit attacks on the principles of academic integrity. Policies that govern faculty members' ethical responsibilities are treated in the *Facility Handbook*. Students' ethical responsibilities are governed by the policy stated here. Departments and programs at the University may supplement this policy with additional guidelines and faculty members may specify additional guidelines in the syllabi for their classes. Students must adhere to such guidelines as well as to University-wide policy.

All Sacred Heart University students in all degree programs, are prohibited from engaging in any of the following types of behavior.

Cheating

Forms of cheating include, but are not limited to:

1. Having unpermitted notes during any exam or quiz. Only materials that a professor explicitly instructs students they may use during an examination are permitted.

2. Copying from other students during any exam or quiz.

3. Having unpermitted prior knowledge of any exam or quiz.

4. Copying or rewriting any homework or lab assignment from another student, or borrowing information for such assignments with the intention of presenting that work as one's own.

5. Using unpermitted materials or taking information from other students for a take-home exam. A take-home exam is an exam; therefore, it requires independent work. Students should follow the procedures given by the professor.

Note: These standards require independent work by a student, except for those contexts where professors have specified forms of permitted collaboration with other students. If no form of collaboration has been specified, students must assume that none is permitted. Because assignments that involve group-based work can cause students to question what forms of collaboration are proper, they should seek guidance from their professors in all cases of doubt. Professors should make clear to students what forms of collaboration are permissible and impermissible. The standards on cheating do not prohibit students from studying together or from tutoring each other.

Plagiarism

Plagiarism is any act of misrepresenting the sources of one's information and ideas. When writing essays, it is the act of presenting another person's written words or ideas as one's own. When reporting experimental work, it includes the acts of falsifying data and presenting another's data as one's own. In speeches, it involves quoting passages of others' speeches or written words without mention of the author. Plagiarism is also possible in art and music, if one makes use of a work of art or music in a way that violates the standards of attribution in those fields.

Plagiarism may be willful, as when a student knowingly copies a source without attribution, or negligent, as when a student fails to cite sources properly. Both willful and negligent instances of plagiarism are subject to penalty—in part because professors must judge the result of a student's work, not his or her intentions, and in part because students are expected to know and follow the standards for proper citation of sources.

Forms of plagiarism therefore include, but are not limited to:

1. Copying whole papers or passages from another student or from any source.

2. Allowing another student to copy or submit one's work.

3. Buying or obtaining a paper from any source, including term-paper sellers and Internet sources, and submitting that paper or
passages of it as one's own work.

4. Pasting a passage from the Internet or any computer source into one's paper without quoting and attributing the passage.

5. Fabricating or falsifying a bibliography.

6. Falsifying one's results in scientific experiments, whether through fabrication or copying them from another source.

7. Appropriating another person's computer programming work for submission as an assignment.

8. When creating a web page, film or musical composition as a course assignment, failing to attribute material that comes from other media or failing to obtain proper permission for the use of such material.

9. Any other appropriation of another's intellectual property without proper attribution.

10. Submitting an assignment that one wrote during a previous semester or submitting the same assignment for more than one class simultaneously. This action includes reusing substantial portions of previously written work for a current assignment. (Students who are unsure of what work of their own they may use in preparing an assignment should consult their professors.) Assignments must be written the semester in which they are assigned unless a professor approves of the use of previously written material with specific guidelines. Assignments may be submitted for credit in a single course only unless professors in multiple courses are informed of and approve of the multiple submissions.

Note: Improper citation of sources occurs when a student presents all the sources he or she used in preparing a paper but fails to attribute quotations and information from those sources in the body of the paper. Specific examples include:

1. Failure to use quotation marks for direct quotes or for an author's distinctive phrases. (A rule of thumb to follow is that five or more words in succession from a source must be enclosed in quotation marks.)

2. Following an author's structure of writing and ideas, but rephrasing the sentences partially to give the impression that the whole passage reflects the student's structure and ideas.

3. Failure to give page numbers for quotations or for other information that did not originate with the student.

Such acts fall under the rubric of plagiarism. Because they sometimes do not involve willful misrepresentation, professors may have more lenient policies in dealing with them. Yet students should strive to cite all information properly and should note that professors have the discretion to treat these cases as seriously as the forms of plagiarism listed above.

Other Violations

Other forms of unethical behavior that disrupt the processes of learning, teaching and research include:

1. Providing to other students exams or papers of one's own or from any source with the reasonable expectation that these will be used for the purpose of cheating or plagiarism.

2. Maintaining a file of exams or papers with the reasonable expectation that these will be used for the purpose of cheating or plagiarism.

3. Theft and defacement of library materials.

4. Theft of other students' notes, papers, homework and textbooks.

5. Posting another person's work on the Internet without that person's permission.

Course-Based Sanctions for Violations of Academic Integrity

When a faculty member encounters a suspected case of academic dishonesty, he or she should address the matter with the student, after collecting whatever evidence may be available and relevant. The faculty member has the right to ask the student
to provide evidence about sources used or other reasonable requests to establish the work the student did.

If the faculty member discovers that the student did act dishonestly, he or she will assign a penalty of a failing grade for the assignment; he or she may immediately assign the student a grade of F for the course. Cases of improper citation are a matter of faculty discretion.

Faculty will report in writing the incident of academic dishonesty and the sanction imposed to the faculty's chairperson or program director, dean of the college in which the course was taken, and dean of the student's college within five working days of the sanction. The faculty member will provide all parties with appropriate documentation of the incident. The dean of the student's college will inform the student and his or her academic advisor in writing of the accusation, instructor's course-based sanction, and appeals process available to the student within five working days of the notification from the faculty member. In the instance of a second confirmed violation, the letter sent to the student will stipulate that this is a second violation. These timelines apply under normal circumstances barring institutional exigencies.

Appeals of Course-Based Penalties

The student will initially have presented his or her explanation to the faculty member when the faculty member first consulted the student about the work in question. The student who claims he or she did not act dishonestly should ordinarily attempt a resolution with the faculty member. If the resolution was not satisfactory following when a student failed a course or received a reduced course grade based on a formerly reported accusation of dishonesty, the student may appeal the grade by presenting a written statement demonstrating that he or she did not violate the present policy. The student should present supporting documentation. A documented appeal associated with a grade must be presented in writing within fifteen working days of the notification from the dean of the student's college.

The procedure for a documented appeal is:

1. If the faculty member imposes a sanction because he or she finds the student acted in violation of the policy, the student may present the case in writing with supporting evidence to the department chairperson or program director of the faculty member involved. The chairperson/program director will consult with the faculty member in an attempt to resolve the matter. If the chairperson/program director is unable to resolve the matter, he or she will inform the student in writing. If the student wishes to pursue the matter further, the student may appeal in writing to the dean of the college in which the course was taken.

2. If the dean of the college in which the course was taken or the dean's designee finds that the appeal has merit, he or she will convene an appeal committee. This committee will consist of three faculty members: one selected by the student, one selected by the faculty member who taught the course, and one selected by the dean. After reviewing all documented evidence, the appeal committee will then propose a solution that the grade either stands or should be reviewed by the faculty member. This concludes the process.

Consequences for Second and Subsequent Violation of Academic Integrity

The deans will maintain central files on all reported cases of student academic dishonesty in their colleges. Should a student transfer his or her major to another college, the dean will transfer files pertaining to that student to the dean of the other college.

When the dean of any college receives confirmed notice of a second violation by a student in that college, the dean will refer the matter to a standing faculty committee on academic integrity. This
committee will consist of one faculty member each from the Colleges of Arts and Sciences, Business, and Education and Health Professions. The committee will also include the Dean of Students as a non-voting member. This committee will consist of one faculty member each from the Colleges of Arts and Sciences, Business, and Education and Health Professions. The committee will also include the Dean of Students as a non-voting member. Faculty members of the committee will be elected from their respective colleges for two-year terms in elections run by the Standing Committee on Academic Integrity. The purpose of this committee is to recommend additional sanctions to be taken against the student, including exclusion from the University for one or two semesters or dismissal from the University.

The committee will have available to it the full documentation of the student's previous violation of academic integrity and authority to request additional information and documentation as warranted; however, the committee is not to reconsider the student's guilt or innocence in those incidents. The committee will hear from the student's academic advisor and the chair or program director of the student's major department(s). The student will have an opportunity to address the committee if he or she wishes. The student may be accompanied by an advocate who is a current employee of the University who may not act as the student's legal counsel.

The committee will make a recommendation of sanction to the dean of the student's college, who will in turn make a recommendation to the Vice President for Academic Affairs. The decision of the Vice President for Academic Affairs will be final.

Violations and Appeals of Violations Outside of a Course

When a student is suspected of having violated academic integrity by an action that did not occur in the context of a course (see section above, Other Violations), the student, faculty, staff or administrator who suspects the violation and has plausible evidence should present this information to the Dean of Students. The Dean of Students will decide how to pursue the matter, and the student will have the right to appeal any consequences according to the Student Handbook.

GRADING SYSTEM

Quality Grade points earned in a course are determined by multiplying the point value of the letter grade (shown below) by the number of credits of the course. A term grade point average is obtained by dividing the total number of quality grade points (QP x Course Credit) by the total number of credits taken during the term. A cumulative average is obtained by dividing the total number of quality grade points (QP x Course Credit) by the total number of credits taken at Sacred Heart University. Courses transferred into Sacred Heart University from another institution do not factor into Sacred Heart University grade point Average. Grades of P/NP, W, I and NG are not included in the calculation of the GPA.

The Undergraduate System of Grades, along with points issued for each grade, is:

```
GRADE      QP
A           4.00
A-          3.75
B+          3.50
B            3.00
B-          2.75
C+          2.50
C            2.00
D+          1.50
D            1.00
F            0.00
P (Pass)     0.00 (For courses designated as pass/fail)
NP (No Pass) 0.00 (For courses designated as pass/fail)
*W (Withdrawal) 0.00
*WF (Withdrawal Failing) 0.00
I (Incomplete) 0.00
*NG (No Grade) 0.00
```
*I (Incomplete) grades may be changed by completing the deficient coursework no later than six weeks after the beginning of the following semester. All incomplete grades not changed within the six-week period will revert to Fs. In unusual circumstances, the six-week period can be extended. An Incomplete Extension (IX) will be in effect until the next conversion date which is six-weeks into the next major semester. After that date the Incomplete Extension grade will convert to an F. An Incomplete Extension may only be made once with the approval of the course instructor and the department chairperson. *W (Withdrawal) grades are recorded when a student officially withdraws from a course within the approved time frame or if the instructor assigns the grade at the point of official withdrawal. *WF (Withdrawal Failing) is assigned to students who never attended but who have not officially withdrawn or if the instructor assigns the grade at the point of official withdrawal.

*NG (No Grade) is recorded by the Registrar when a grade is not reported by the instructor. Students will not receive credit for courses assigned a NG grade. A grade below C is not an acceptable grade in Academic Writing (EN 110), Effective Communication (CA 101), or major coursework. In addition, some courses have as their prerequisite a grade of C or better. In these cases, the courses must be repeated until a C or better is obtained. A repeated course can only be credited once toward degree requirements.

**STUDENT GRADE GRIEVANCE—POLICY AND PROCEDURE**

A student's dissatisfaction with a course grade is, in general, not sufficient grounds for warranting a grievance, convening a committee, or meriting a hearing. Grounds for a grievance exist upon presentation of written documented evidence indicating:

- Discriminatory treatment;
- The process determining the grade differs from that outlined in the course syllabus; or
- The process determining the grade was not presented in writing to the students.

A documented grievance associated with a grade must be presented within six (6) months after the original grade was issued.

The procedure for a documented grievance is as follows:

- The student is ordinarily expected to resolve the issue at hand with the faculty member.
- If the solution as provided by the faculty member is unacceptable to the student, the student may present the case in writing with supporting evidence to the department chairperson of the faculty member involved. The department chairperson will then make a judgment, after consultation with the faculty member and the student, in an attempt to bring the matter to resolution.
- If the department chairperson is unable to bring the matter to resolution or the judgment is unacceptable to the student, the student may present a formal appeal in writing to the dean of the college in which the course was taken or to his/her designee.
- If the dean of the college or his/her designee finds that the appeal has merit, he/she will convene a grievance committee. This committee will consist of only faculty members: one faculty member selected by the student, one faculty member selected by the faculty member concerned, and one faculty member selected by the dean of the college or selected by his/her designee.
The chairperson of the faculty member against whom the grievance is filed is not eligible to serve on the Grade Grievance Committee. After reviewing all documented evidence, the grievance committee will then propose a solution, supported by a rationale in writing, that the grade either stands or should be changed by the faculty member. If the faculty member is unavailable to change the grade, the department chairperson shall serve in lieu of the unavailable faculty member.

- In the extraordinary circumstances in which the faculty member does not accept the recommendation of the Grade Grievance Committee to change the grade after the Grade Grievance Committee ascertains that one or more grounds for a grievance outlined above has been substantiated, then the issue shall return to the Grade Grievance Committee, which will make the final grade decision to be implemented by the department chairperson. This step concludes the process.

ACADEMIC STANDARDS

Satisfactory Progress

Satisfactory academic progress is determined by two criteria: good academic standing and normal progress:

Good Academic Standing

A student is in Good Standing if he/she is not on academic probation or dismissed from the University.

Any student not in Good Standing may not represent the University in any public manner as a member or officer of a University registered club or organization, delegate to any association meeting or convention or participant in intercollegiate athletic competitions. Any student who is placed on academic probation or dismissed from the University is immediately ineligible to represent the University in any of the above activities.

Normal Academic Progress

A student whose credits completed fall below the minimum listed is considered as not making normal academic progress.

</thead>
<tbody>
<tr>

</tr>
<tr>
<td>8</td>
<td>Senior 73-96</td>
</tr>
<tr>

<td>Fifth Year 97-120</td>
</tr>
</tbody>
</table>

Financial Aid may require additional standards for 'Normal Academic Progress.' Students should, therefore, contact the department of Student Financial Assistance to confirm required credits to maintain Normal Progress.

ACADEMIC HONORS

Academic honors include the Dean's List and Graduation Honors.

Dean's List

The Dean's List is calculated on a semester basis. A student completing a minimum of 6 credits with a GPA of 3.6 or better is eligible for the Dean's List if, in addition, there is no grade below a C and there is no Incomplete (I), Withdrawal without Penalty (W), or Withdrawal with Penalty (WF). Students who complete fewer than 6 credits per semester are not eligible for the Dean's List.

Graduation Honors

Upon graduation, students who complete the undergraduate program of study with the following cumulative GPAs are eligible for these honors:

- Summa Cum Laude 3.8 or better
- Magna Cum Laude 3.6 to 3.79
- Cum Laude 3.5 to 3.59

Transfer students must complete at least 60 credits for a bachelor's degree or 30 credits for an associate's degree in residence at Sacred Heart University to be eligible to graduate with honors.
ACADEMIC PROBATION

1. All students, except first-semester freshmen, whose cumulative grade point average (GPA) falls below 2.0 will be placed on Academic Probation. Any student (including first-semester freshmen) who receives a one-semester GPA of less than 1.8 will also be placed on Academic Probation. If a student's cumulative GPA is 2.2 or above and the semester GPA is lower than 1.8 but not lower than 1.5, the student will be administrated an Academic Warning, rather than placed on Academic Probation. However, two consecutive semesters of less than a 1.8 GPA, regardless of cumulative GPA, will automatically result in Academic Probation.

2. A student who receives two or more Fs or WFs in any given semester will be placed on Academic Probation.

3. Any full-time student (enrolled for 12 or more credits) who fails to complete 12 credits in a semester will be reviewed and ordinarily placed on Academic Probation.

4. A student on Academic Probation may choose to enroll in courses at Sacred Heart University during the University's Winter session and Summer sessions. Grades from the Winter session will be applied to the Fall-semester probationary status, while grades from the Summer session(s) will be applied to the Spring-semester probationary status. This will include grades from all courses taken during Winter session and Summer sessions not just repeats of failed courses. Winter session and Summer sessions grades will also apply to the cumulative GPA but will not be transcripted to the fall or spring semester.

DISMISSAL

All students subject to dismissal for academic reasons will be reviewed individually by the Academic Review Board of their college prior to a final decision and notification:

1. A student who is on Academic Probation for two consecutive semesters will be subject to dismissal.

2. Any student who incurs three Academic Probations during his or her academic career will be subject to dismissal.

3. Any student whose cumulative GPA falls below the following levels will be subject to dismissal:

<table>
<thead>
<tr>
<th>CUMULATIVE GPA</th>
<th>AFTER ONE SEMESTER 1.00</th>

</thead>
<tbody>
<tr>
<td>16-30 Credits Attempted</td>

</tr>
<tr>
<td>31-90 Credits Attempted</td>
<td>1.70</td>
</tr>
<tr>
<td>91+ Credits Attempted</td>
<td>1.90</td>
</tr>
</tbody>
</table>

A student who has been dismissed can appeal the dismissal to the Academic Review Board through the dean of his or her college for reinstatement.

ACADEMIC POLICIES

Academic Appeals

Students placed on Academic Probation or dismissed can submit a request for change of status to the Academic Review Board through the dean of the college. Students who have been dismissed in previous semesters must obtain permission from the Academic Review Board of the college who dismissed them before re-enrolling in the University. For more information, contact the dean of the student's college.

Academic Forgiveness

When a failed course is successfully repeated, only the more recent of the two grades will be counted in the computation of the grade point average (GPA). The original grade, however, will be kept on the transcript. This policy is limited to the first two F's repeated during undergraduate study. If an F course grade was the result of a violation of the University's policy on academic integrity, the grade is not subject to forgiveness. That is, the grade will remain in the computation of the grade point average (GPA).

A student who has successfully repeated a failed course and wants to make an
adjustment to his or her transcript must submit the Repeated Course Request form to the Registrar's Office.

A student who has not been in attendance at Sacred Heart University for five years or more may apply for academic forgiveness of grades for courses taken at Sacred Heart during a problem semester—defined as one in which the student's GPA was lower than 2.0. Prior to a written filing for academic forgiveness, the student must complete 12 total credits over a two-semester period at Sacred Heart University, with a cumulative average of at least 3.0 in these courses. Upon the successful completion of the 12-credit requirement, the student submits a formal written request for academic forgiveness to the Dean of the College in which the student intends to enroll. The student's written request should provide detailed information regarding the kinds of problems that the student experienced during the period for which forgiveness is requested, how those problems have been remedied and why the University should consider forgiveness in his or her case. The Dean will make the decision whether to grant forgiveness. Academic forgiveness means that the grades from the problem semester remain visible on the student's transcript, but those grades are not calculated in the student's overall GPA. Forgiveness will affect the entire semester and not individual courses within a semester. Academic forgiveness will be noted on the student's official transcript.

ACADEMIC PROCEDURES

Registration

Prior to the regularly scheduled registration period each student will be notified of their scheduled registration date and time. Policies and procedures are available on the Registrar's webpage at http://www.sacredheart.edu/registrar.cfm. Students are required to meet with advisors prior to registration to discuss academic progress and registration options. All registration blocks must be cleared by appropriate department indicated before a student will be allowed to register.

New students interested in full-time study must apply to the Office of Undergraduate Admissions for matriculation prior to registration. For an appointment, contact the Office of Undergraduate Admissions.

New part-time students should contact University College prior to registration for academic advising.

Winter Intensive and Summer Registration at Sacred Heart University

Students may take only one course during the Winter and May Intensive sessions at Sacred Heart University. Students may take 2 courses during each of the summer sessions (summer session 1 and summer session 2.)

Web Advisor

Web Advisor is a secure site with access for current students and faculty. Through Web Advisor students can search for open classes and register on line, add/drop courses, view their schedules with up-to-date room and instructor information, or check restrictions on their registration. Students may view their profile information and send corrections or view their grades and monitor their progress toward their degree goals.

Online Registration Using Web Advisor

Students are expected to register for classes through Web Advisor, provided they have met with their advisor, their advisor has flagged the student with permission to register, and the student does not have holds on their account (balance due, measles or meningitis in compliance, parking tickets, etc.). This ensures that all students comply with SHU polices on registration by meeting with their academic advisors and administrative departments to address any outstanding issues.

Students will be assigned time periods to register online. Messages will display on the screens whenever a student attempts to register for a class for which he or she is not qualified.

Online registration will only be available during specified date ranges but access to
Registration Conditions

The University reserves the right to make changes at any time in admission requirements, fees, charges, tuition, regulations and academic programs, if deemed necessary, prior to the start of any class.

The University also reserves the right to divide, cancel, reschedule classes or reassign instructors if enrollment or other factors require. If course cancellations occur, students will be notified in order to adjust their schedules.

Auditors

A student wishing to audit courses only must register for the courses as an "auditor." No credit is granted for an audited course. The University may restrict auditors from certain courses. No student will be permitted to change from credit to audit or audit to credit after the Add/Drop period. Auditors may register during the first week of classes through the add/drop period. Auditing a course requires instructor permission prior to registration.

Full-Time Overloads

The normal credit load for full-time students is 12 to 18 credits. Any student in good standing wishing to take more than 18 credits must make this request to the University Registrar with written recommendation from the student’s academic advisor. The request must also include the reason for the overload. The Registrar will review the request and recommendation and inform the student of the decision. An additional non-refundable fees is charged for overloads over 18 credits. A Request for Overload form is available through the Registrar’s office.

Pass/Fail Option

A student may choose a course with a pass/fail option. The University’s pass/fail policy carries these conditions:

1. Students are permitted to designate the pass/fail option for up to four courses toward the baccalaureate degree, and up to two courses toward the associate’s degree. Once the course is completed with a grade of pass (P), it cannot be repeated for a letter grade.

2. Courses can be taken under pass/fail only from general elective courses.

3. Courses taken under the pass/fail option will not count in the student's GPA.

4. The pass/fail option must be chosen during registration and cannot be changed after the end of the Add/Drop period for that semester.

Course Changes—Add/Drop

A student may change his or her course selection only within the first week of the semester (or the equivalent for accelerated/intensive courses). The procedure for schedule changes is available on the Registrar's webpage (http://www.sacredheart.edu/registrar). This process must be followed in order to ensure course registration and the proper calculation of tuition and issuance of refunds as listed in the Expenses and Student Financial Assistance chapters of this catalog. Students may not add a course after the first week (or the equivalent for accelerated/intensive session) of the class without written permission of the course instructor and the department chair.

Course Withdrawal

If withdrawal from a class becomes necessary, the student should obtain an official withdrawal form from the Registrar’s Office. Official withdrawal is necessary to assure proper grade entry on the transcript and the issuance of any refunds. A W grade will be issued for course withdrawals within the first five weeks of a semester (or the equivalent for accelerated/intensive courses). After that time, a grade of W or WF will be issued at the discretion of the instructor. The last date to withdraw from a course is prior to the last scheduled class. The official final examination date is not included in determining the last day to withdraw from a course. A student’s failure to withdraw properly will result
in a withdrawal failure (WF) grade. Phone withdrawals are not accepted. Students who are taking on-line courses only may submit a request to withdraw from a course with appropriate documentation from all required departments by sending an email to registrar@sacredheart.edu. Students who do not officially withdraw are still responsible for all tuition and fees. Nonattendance does not constitute official withdrawal. Course withdrawals may affect satisfactory academic progress (as defined in an earlier section) and may result in the loss of benefits or permission to participate in University activities or athletics. It is the student's responsibility to understand these consequences.

Verifying Student's Schedule

Each student is responsible for checking their schedule on Web Advisor to make sure the information is correct. Any problems should immediately be directed to the Registrar's Office. Students will be held academically and financially responsible for their registration as indicated on their schedule in Web Advisor.

Enrolling in Courses at Other Institutions

All matriculated students are expected to fulfill course requirements for their degree at Sacred Heart University. Under special circumstances, a student may appeal to take a course at another regionally accredited institution during the winter or summer sessions only. The following guidelines will be used to determine approval for taking courses at other institutions:

- The courses are required in the course sequence at this time for the degree as indicated by the student's academic advisor.
- The other institution's courses must be equivalent to the required Sacred Heart University courses in the major, as determined by the department chairperson.
- The last 30 credits required for graduation should be taken at Sacred Heart University.
- The last 60 credits toward the degree should be taken at a four-year institution.
- A maximum of 6 credits total for a winter inter-session and summer session may be taken at another institution during a 1 year period. (For example, one course in the winter and one course in the summer is permissible. One course in the winter and two courses in the summer is not permissible.)
- Final approval must be given by the student's academic advisor, the department chair of the discipline of the course, and the University Registrar. Credit will not be awarded without prior final approval by the Registrar.
- It is the student's responsibility to have an official transcript sent to the Registrar's Office to receive credit for the course. Only grades of C or better may be transferred into Sacred Heart University. The grade will not appear on the Sacred Heart University transcript and does not factor into the term or cumulative GPA.

Interruptions in Attendance

The following information outlines various leave and withdrawal options. Students are responsible for following all University policies before a leave or withdrawal is official. This may include but is not limited to returning laptops, ID cards, keys and obtaining all appropriate University signatures and approvals. University refund policies apply. Full-time students should contact the Assistant Dean before they return from a leave. Part-time students should contact University College before they return from a leave. Students who do not return at the end of the leave or do not obtain an extension must apply for readmission. Students on leave must follow University policy before they return to the University.

Leave of Absence

Full-time students may request approval for a leave of absence for good reason from the Assistant Dean. Leaves are
generally approved for one semester but an extension for an additional semester may be requested. Part-time students should contact a University College advisor. Graduation requirements in effect for students at the time their approved leave begins will remain in effect when they return from their leave under the following conditions:

- They are in good academic and disciplinary standing at Sacred Heart University when their leave begins. If a student is later placed on academic warning, put on probation, dismissed, suspended or expelled as the result of a judicial decision, the sanctions in place take precedence over the leave of absence.
- They may not take courses at another institution without prior written approval from the dean of their college, the department chair and the University Registrar.
- The leave is limited to one semester but may be renewed for additional semester(s) with written permission from the Assistant Dean or a University College advisor.

This policy does not bind the University to alter their curricula or major program, which may have been discontinued or substantially altered during the approved leave of absence. Students who change their major upon return will be under the major requirements in effect at the time of their return.

The student is responsible for obtaining all relevant information that may affect their standing and benefits including but not limited to financial aid and veteran's benefits.

A student on approved leave is considered to be in continuous matriculation during that leave period.

If a student does not return after the leave or extend it, the student must go through the readmission process to return.

**Medical Leave of Absence**

Students who must leave the University because of physical or psychiatric conditions may request a medical leave of absence. Full-time students may request approval for medical leave of absence from the Assistant Dean, who may consult with Health Services or Counseling as appropriate. Part-time students should contact a University College advisor.

Documentation of the serious nature of the medical condition must be provided. Medical leaves are generally approved for one semester but may be renewed for one additional semester with written permission from the Assistant Dean or University College advisor.

Students may return at the end of the leave when medical clearance is provided by Health Services/Director of Counseling based on appropriate documentation presented.

They may not take courses at another institution without prior written approval from the dean of their college, the department chair and the University Registrar.

The leave is limited to one semester but may be renewed for one additional semester with written permission from the Assistant Dean.

This policy does not bind the University to alter their curricula or major program, which may have been discontinued or substantially altered during the approved leave of absence. Students who change their major upon return will be under the major requirements in effect at the time of their return.

The student is responsible for obtaining all relevant information that may affect their standing and benefits including but not limited to financial aid and veteran's benefits.

A student on approved medical leave is considered to be in continuous matriculation during that leave period.

If a student does not return after the leave or extend it, he or she must go through the readmission process to return.

**Military Leave of Absence**

Full-time students called to active duty while enrolled in the University should contact the Assistant Dean. Part-time students should contact a University
College advisor. Students must present proof of being called to active duty. Students wishing to obtain a military leave of absence may be offered the following options after the Assistant Dean or University College advisor confers with financial aid, instructors, and other University officials:

- Withdrawing from the courses with a full tuition refund or tuition credit, in accordance with University and government guidelines.
- If a student completed at least 70% of the coursework and upon recommendation of his or her dean, the student may elect to take incompletes and make special arrangements for course completion with individual instructors.

Students are eligible to return within one year following active duty. However, the degree requirements may have changed, and the student may be required to comply with degree program requirements in effect at the time of their return to the University.

Complete Withdrawal from the University

Full-time students wishing to drop or withdraw from all their courses and thereby discontinue their enrollment must meet with the Assistant Dean. Part-time students should contact a University College advisor. No full-time or part-time student will be allowed to drop or withdraw from their last registered course of the term without meeting with the Assistant Dean or University College advisor.

University withdrawals are not official until all signatures are obtained. Any refunds will be determined by the official date of the withdrawal. All fees are nonrefundable.

If a student withdraws from the University prior to and through the add/drop period the courses will not appear on the student's transcript. A "W" grade will be recorded if the student withdraws from the University after the add/drop period and through the fifth week of the semester (or the equivalent for accelerated/intensive courses). Instructors will have the discretion to enter a W or WF grade after the fifth week of the semester. The W or WF grades will appear on the student's transcript.

Readmission

Students who leave the University without an approved leave of absence must apply for readmission and if accepted will be under the catalog in effect at the time of readmission.

Full-time students who have not attended the University for up to two consecutive major semesters (fall and spring or spring and fall) must apply for readmission and, if accepted, will ordinarily be governed under the catalog that was in effect when they left the University. Students who have not attended the University for more than two consecutive major semesters (fall and spring or spring and fall) will be under the catalog in effect at the time of their readmission. The Admissions Office will confer with the academic dean and the dean of students before a decision on readmission is made. Students may not be guaranteed readmission to the major in which he or she was enrolled prior to readmission.

Part-time students who have not attended the University for more than 24 months are no longer considered matriculated and must apply for readmission through University College.

In unusual circumstances, a student may appeal the decision regarding the catalog applied.

Substitutions and Waivers

In order to maintain academic quality and integrity, no student will be granted a substitution for a course or credits, unless it is in accordance with the University's policy. A substitution may be granted at the discretion of the department chair/program director for any course in the respective discipline.

If the basis for the requested substitution is a learning or physical disability, the student must submit verification of
the disability to the Director of Special Services prior to the request for the substitution. If the Director of Special Services concludes that the documentation is deficient or inconclusive, the director may require further documentation to establish the disability. The cost of the documentation shall be borne by the student. Once the student's documentation has been accepted by the Director of Special Services, the student may forward his or her request to the appropriate department chair/program director for determination of substitution, if appropriate.

Based on the appropriate documentation, a student is granted permission to fulfill a specific course requirement with a course approved by the department chair/program director.

Requests for a substitution not stemming from a disability may be forwarded directly to the appropriate department chair/program director. All waivers and substitutions must meet the requirements of any academic program accredited and/or licensed by an outside accrediting body or governmental agency.

**Proficiency Waivers**

The University core provides for proficiency waivers in the following areas: Speech, Mathematics, and Modern Foreign Languages. For waivers in Speech, contact the chairperson of the Department of English; the chairperson of the Department of Foreign Languages and Cultures should be contacted for waivers in Foreign Languages. For waivers in Mathematics, contact the chairperson of the Department of Mathematics. Proficiency waivers exempt the student from taking the course(s). No credits are awarded for waived courses. A student who is proficient in one of the above-listed areas should consider advanced-standing credits through one of the advanced placement tests (CLEP, DANTES, Excelsior).

**Application for Graduation**

To receive a degree, a student must complete all requirements for that degree as listed in the catalog in effect at the time of admission into the program. Degrees are conferred three times a year in May, August and December. The Commencement Convocation is held once a year in May.

A student eligible for a degree must apply for graduation to the Office of the University Registrar as follows. An online application is available through Web Advisor.

- **May graduation date:** Application due the prior June
- **August graduation date:** Application due the prior September
- **December graduation date:** Application due the prior January

Failure to comply with the above schedule may result in a delay of degree conferral. Part-time students will be billed a graduation fee upon submitting the application for graduation. The graduation application fee is not refundable. In the event the student does not complete the requirements for the degree within one year of the original indicated date, a new application and application fee will be required.

Students completing a credit certificate must submit an application for the certificate at least one semester in advance of completing the requirements. Failure to comply may result in a delay of receiving the certificate by the anticipated graduation semester. There is no fee for the application for credit certificates at this time.

**Transcripts**

The transcript is the student's official academic record. The student's written request must be received before a transcript will be released. The student can print and complete a Transcript Request form which is available on the Registrar's Office website at www.sacredheart.edu/registrar.cfm. This form is also available from the Registrar's office. A fee is charged for each transcript requested. Transcripts will be withheld if the student has a financial obligation to the University. Allow 7 to 10 business days for processing a transcript request. Additional time to process requests may be required at peak
times such as the start and close of each semester.

University Cross-Registration Program

Full-time students may take courses at Fairfield University and the University of Bridgeport as part of their regular full-time course load, provided the courses are not offered during the requested semester at Sacred Heart University. Contact the Office of the Registrar for details and other requirements.

The College of Arts and Sciences is the largest, and the most diverse, of the four colleges at Sacred Heart University. The college offers Bachelor of Arts and Bachelor of Science degrees; Associate in Arts and Science degrees; Master's degrees in Chemistry, Computer Science, Criminal Justice, and Religious Studies; and a variety of minors. The degrees are offered through the following academic departments: Art, Biology, Chemistry, Criminal Justice, Computer Science, English, Foreign Languages and Cultures, Government and Politics, History, Mathematics, Media Studies and Digital Culture, Philosophy and Religious Studies, Psychology, Social Work, Sociology, and Special Programs. The College of Arts and Sciences strives to provide a learning environment that fosters the growth, development, and nurturing of the entire individual.

### Anthropology

Anthropology is the study of human culture, behavior and biology from a holistic, global and comparative perspective. As a field of study it examines the similarities, differences and development of human culture, behavior and biology. The Anthropology curriculum emphasizes the subfield of cultural anthropology. Cultural anthropology focuses on the concept of culture, role of culture in contemporary problems and issues, and on the wide range of human cultural patterns in the contemporary world.

### Course Descriptions

ANCC103 The Human Community: The Individual and Society  3 CR

This is the third of four courses in The Human Journey, Sacred Heart University's Common Core Curriculum. As part of the University's Common Core, The Human Journey, ANCC103 addresses the four core questions from the anthropological perspective. With an emphasis on the unity, diversity and development of human biology and culture, the anthropological perspective offers a unique opportunity to engage the Catholic intellectual tradition and examine the enduring questions of human existence.
AN 103 Archeology 3 CR
Focuses on how archeology as a scientific discipline attempts to understand the development of the cultural adaptations of human groups throughout prehistory and history, and how archeology interprets the past. Topics include how archeological sites are formed, dating techniques and the analysis of plant, animal, and human artifacts and remains. With a hands-on approach, students are presented case scenarios relating to archeological digs to better understand the thinking process involved in reconstructing the past.

†AN 110 Human Cultural Diversity 3 CR
The aim of this course is for students to develop an anthropological imagination and understand its relevance for living in the contemporary world. An anthropological imagination involves cultivating an interest in and understanding of the unity, diversity, and development of human biology, society, and culture. As an introduction to the study of human cultural diversity, this course emphasizes the concept of culture, human sociocultural variation, and patterns of sociocultural change in contemporary human societies.

†AN 201 World Cultures 3 CR
Examines a cross section of societies, including hunter-gatherer, horticultural, peasant, pastoral and industrial. Themes of cultural diversity, cultural contact and understanding "the other."

†AN 205 North American Indians 3 CR
Covers the cultural development and diversity of aboriginal North America, the impact of European contact on Native American societies and contemporary issues among North American Indians.

†AN 250 Doing Ethnography: Qualitative Research in the Social Sciences 3 CR
The aim of this course is for students to develop an understanding of and an ability to use ethnography as a method of social science research. Combining theoretical and applied readings and practical assignments, the focus is on participant observation and interviewing, writing field notes, and the transformation of field data into ethnographic documents. In addition, students develop an understanding of the epistemological, political, and ethical issues surrounding ethnographic research. Prerequisite: SO110 or AN110

†AN 280 Native American Literature 3 CR
Native American literature is explored in order to develop an understanding of the history, society and culture of Native Americans, and an appreciation of their literary contributions.

AN 299 Special Topics in Anthropology 3 CR
Designates new or occasional courses (i.e., one capitalizing on a timely topic). Prerequisites: Established by the department as appropriate for the specific course.

Art and Design
Real world Graphic Design training set within a liberal arts-based curriculum is the mission of the Department of Art & Design at Sacred Heart University. Striking a balance between cutting edge digital technology and the foundations of drawing, illustration, and painting, affords invaluable diversity for preparation for the professional marketplace. Through its extensive offerings in Graphic Design, carried out by means of intense active and engaged learning programs, the department supports the overall mission of the University. Along with the most up-to-date digital design facilities and a commitment to Art & Design as it exists today and in anticipation of changes in the near future, the department develops designers and artists who are critical thinkers and contributing members of
society, their communities, and their professions. It is the department's goal to educate designers who are always able to respond to an ever-changing world.

The Department of Art & Design is committed to combining education for life with preparation for professional excellence. The department is ideally situated within the vast design, art, and cultural resources of the metropolitan New York City area. Being part of Fairfield County, Connecticut provides access to the country's richest base of world-class digital design, marketing, art, and advertising firms. Combined with a professionally active and experienced faculty in graphic design, illustration, and art, an extensive internship program with some of the region's most prestigious firms, and exemplary support from the University, the Department of Art & Design offers an unmatched opportunity to prepare students for the transition from the classroom to the visual arts workplace.

ART AND DESIGN COMPUTER LAB AND STUDIOS

Facilities include a digital design laboratory with state-of-the-art Macintosh computers, and a second audiovisual studio, both with complete wireless computer support; a full complement of the latest versions of all industry-standard software; multiple professional-grade color printers; and large and standard format scanners. Facilities also include painting, design, drawing, and illustration studios.

APPLE LAPTOP PROGRAM FOR ART AND DESIGN MAJORS

The Department of Art & Design is able to offer all art majors worldwide 24/7 access to all Adobe CS3 Design Premium software from anywhere in the world with internet access. The university provides students participating in our laptop program with access to a key license server for the software used in all of the department's courses. This means that any student at anytime from anywhere in the world can obtain access to the entire Adobe Premium Software suite in order to work on their projects. Art & Design is also able to offer on site certified Apple-certified technical support through the department's Technology Manager in order to handle training, updates, maintenance, and repair issues.

MAJOR IN ART AND DESIGN

The major in Art and Design requires the completion of 51 credits for a concentration in Graphic Design. All Art and Design majors complete 24 credits in foundation courses plus 27 credits in the area of concentration.

COURSE DESCRIPTIONS  

†AR 101 Art in the Western World  
3 CR  
Explores ideas and arts of cultures that initiate and develop into the Western tradition. Includes an analysis of the basic characteristics of the art and architecture of these eras in the context of general cultural trends.  

†AR 104 American Art: Colonial to Modern  
3 CR  
Covers the ideas and ideals in American art in reference to the European mainstream. Emphasis is on styles and forms of the American environment and experience that constitute the characteristic tradition in painting, sculpture and architecture.  

†AR 110 Design: Visual Organization  
3 CR  
Investigates the compositional elements of art structure. Principles and elements of two-dimensional design line, shape, value, texture and space are examined, with emphasis on the visual communication of ideas.  

AR 111 Design: Color  
3 CR  
Design principles are explored through the investigation of color interaction and color theory. Emphasis is on pigment mixing and the control of intervals of value, chroma and intensity. Prerequisite: AR 110  

AR 112 Three-Dimensional Design  
3 CR  
Explores ideas dealing with mass, volume and planes in space using various materials. Prerequisite: AR 110  

†AR 120 Drawing I  
3 CR  
Explores fundamental problems of composition and perception as related to drawing. Experimentation is with varied media directed toward both the descriptive and expressive visual conceptualization of ideas.  

AR 130 Painting I  
3 CR  
An introduction to painting methods and media. Guided experimentation in oil or acrylic with emphasis on content, color interaction and properties of the media.  

AR 131 Watercolor  
3 CR  
An introduction to varied techniques of paint application. Assignments are based on direct studies of nature, still life and conceptual thinking. Prerequisites: AR 111 and AR 120  

AR 160 Illustration I  
3 CR  
Introduction of fundamental techniques used in professional illustration. Secondary emphasis on business aspects of commercial art. Assignments range from portraiture to sequential art storyboards. Prerequisite: AR 220  

AR 161 Animation, Comic and Fantasy Art I  
3 CR  
The academic study of the human body in motion, with an emphasis on dynamic positions that are the common...
denominators in animation, comic or fantasy art. Prerequisite: AR 120 or permission of instructor

**AR 162 Animation, Comic and Fantasy Art II** 3 CR
Emphasis on each student's given area of professional interest, such as animation cells, comic storytelling, or fantasy book cover art. Prerequisite: AR 161

**tAR 201 Studies in Modern Art** 3 CR
An analysis of the works and questions raised by the arts of the 19th and 20th centuries. Examines the roles of modern artists as they reflect and project or comment on life in the 20th century.

**tAR 204 Renaissance Art** 3 CR
A critical discussion of the historical, conceptual and formal changes in the visual arts within the 15th and 16th centuries. Includes an analysis of the influence of Italian and northern European painting on European cultures.

**tAR 205 European Art: 17th-18th Century** 3 CR
Discussion of the major developments in painting, sculpture and architecture during the 17th and 18th centuries as modified by the historical situations and humanistic values in specific countries.

**tAR 206 Contemporary Art** 3 CR
Examines art currently in galleries and museums. Surveys the development of new approaches to form and analyzes the formal idea as related to execution and content. Prerequisite: AR 201

**tAR 208 Introduction to Eastern Art** 3 CR
Explores issues such as continuity and dichotomy of subject and style and other significant issues of Eastern art. Eastern attitudes are compared and contrasted with the art and ideas of parallel Western periods.

**AR 211 Graphic Design I** 3 CR
An introduction to classical and modern typefaces, the mechanics of type composition and the fundamentals of layout. Consideration is given to the selection of typefaces that enhance thought and idea. Prerequisite: AR 110 and AR 214

**AR 214 Computer Design Basics** 3 CR
An introduction and exploration of primary graphic design programs concentrating on Adobe Photoshop and Adobe Illustrator. Only the most basic design concepts are explored in assignments, ensuring a basic understanding of the technological tools of design.

**AR 220 Drawing II** 3 CR
Development of the student's ability to conceive the figure as form and volume with stress on gesture, proportion and anatomy. Emphasis is on a refinement of techniques for individual expression and self-awareness. Prerequisite: AR 120

**AR 221 Drawing III** 3 CR
An intensive investigation of media and form as related to the figure. Problems progress from structural ideas to more sophisticated exploitation of subject matter and finally to individual interpretations. Prerequisite: AR 220

**AR 223 Three-Dimensional Drawing** 3 CR
Deals with the rendering of three-dimensional space and forms. Visual processes relating to depth of field, objects in deep space, volume modeling and conceptualizing are explored. Prerequisites: AR 110 and AR 120

**AR 224 Multimedia** 3 CR
An introduction to multimedia as it applies to presentation methods and as an interactive/animation tool. Students explore this media through development of painting techniques with emphasis on pictorial organization and color sensitivity.
Focus on the development of creativity and individuality. Prerequisite: AR 130

**AR 231 Painting III** 3 CR
Development of individual expression through exploration of independent compositional ideas and technical means related to content. Critiques and evaluations are constant. Prerequisite: AR 230

**AR 260 Illustration II** 3 CR
Emphasis is on the technical study of color pencils and watercolor. As the semester progresses, greater emphasis is placed on content and imaginative solutions. Focus is on the information gathering inherent in illustrative problem solving. Prerequisite: AR 160

**AR 261 Illustration III** 3 CR
Continued emphasis on traditional illustrative techniques used in conjunction with the digital application of Adobe Photoshop. Students are encouraged to create works of substance and complexity in regard to composition and thematic content. Prerequisite: AR 260

**AR 262 Head Painting and Drawing** 3 CR
Covers structural painting and drawing of the head and its character. Emphasis on historical and traditional methods of representation using various media and techniques. Prerequisite: AR 220

**AR 264 Advertising Illustration** 3 CR
Deals with imparting visual impact and excitement for the selling of products and services. Developing illustrations for advertising with consideration of reproduction requirements. Problems deal with line, black-and-white, limited and full-color advertising. All media. Prerequisite: AR 261

**AR 270 Graphic Design II** 3 CR
Includes development of ideas as related to print media, package design, publication design and corporate identity systems. Emphasis on the ability to create effective problem-solving concepts. Prerequisites: AR 211 and AR 214

**AR 271 Graphic Design III** 3 CR
Focuses on solving specific design problems by establishing ideas from rough layout to tight comps and coordinating the elements to create effective visual statements. Prerequisite: AR 270

**AR 272 Advertising Design** 3 CR
Explores aspects of print and rich media advertising, including its creation and presentation. Stresses concepts as related to advertising promotion. Prerequisite: AR 270

**AR 274 Computer Graphic Design** 3 CR
Explores complex design software programs with primary focus on the application of computer design in the preparation of print material. Prerequisite: AR 270

**AR 275 Web Page Design** 3 CR
The development of fundamental skills for creating web sites, with particular emphasis on the effective organization and visual presentation of information. Students analyze existing sites as well as create one of their own. Includes an introduction to HTML, Dreamweaver, and Flash. Prerequisites: AR 224 and AR 270

**AR 299 Special Topics in Art** 3 CR
New or occasional courses that may become part of the department's permanent offerings. Courses capitalize on timely topics, an instructor's particular interest or alternatives to existing courses. Prerequisite: Established by department

**AR 320 Drawing IV** 3 CR
Focuses on advanced problems of perception, structure, anatomy and concepts in drawing the human figure. Emphasis on independent development of the expressive use of various drawing media. Prerequisite: AR 221
AR 330 Painting IV 3 CR
Studio emphasis on development and clarification of personal and imaginative statements. Initiative and discipline toward the production of a sustained body of consistent work is expected. Prerequisite: AR 231

AR 360 Illustration IV 3 CR
Focus is on editorial- and thematic-based subject matter utilizing illustrative tools and techniques introduced in previous illustration classes including traditional and digital applications. Emphasis is on the continued development and preparation of idea sketches in relation to problem solving of illustrative art. Prerequisite: AR 261

AR 363 Editorial Illustration 3 CR
A study of illustration with short story and editorial views. Preparation of idea sketches in relation to the text, page layout and finished illustrations. Prerequisite: AR 260

AR 370 Graphic Design IV 3 CR
An in-depth investigation of realistic promotional programs ranging from concept to finished visual. Emphasis on individual creative solutions relative to product and idea, budget and client. Prerequisites: AR 112 and AR 271

AR 390 Graphic Design Capstone 3 CR
Development of a professional portfolio, resume and promotional materials, culminating in a public presentation to area design, advertising, marketing, and recruitment professionals. Guidance from faculty and visiting professionals. Prerequisites: All required art courses in major emphasis

AR 391 Senior Project Capstone 3 CR
Encompasses problem-solving and techniques indicative of the ability to work as a mature and independent artist. Includes preparation and presentation of work. Prerequisites: All required art courses in major emphasis

AR 392 Illustration Capstone 3 CR
The continued development and final construction of a professional presentation portfolio, resume and promotional materials. Additional focus on business-related information, such as taxes, expenses and contracts. Prerequisites: AR 360. All required art courses in major emphasis

AR 396 Internship 3 CR
By permission of department chair. Based on availability, qualified students are placed in positions with leading design, advertising, and marketing firms.

Biology

The Biology Department's curriculum is designed to reflect the complexity and diversity of the living world. Graduates will be conversant in the cellular and molecular basis of life, the design and functioning of individual organisms and the ecological interactions of organisms. They will respect the primacy of evidence and appreciate its role in the historical development and advancement of a discipline. Graduates will be able to analyze evidence in a critical fashion through exposure to data analysis in literature and in laboratory coursework. Finally, graduates will be cognizant of the possible social impact of biological progress and will be prepared to wrestle with the difficult ethical conflicts resulting from such advancement.

Students may choose from one of four different concentration areas to support these academic objectives: Traditional, Biotechnology, Ecology and Conservation Biology and Neuroscience. The foundation of each of these concentrations is a common set of core biology courses, including genetics, evolutionary analysis, cell biology or animal physiology, and ecology. The Traditional program emphasizes a broad training in biology by requiring one upper-division elective in each of three modules.
corresponding to different levels of biological organization. The Biotechnology concentration emphasizes coursework in biotechnology, microbiology and cell/molecular biology, and is ideal for students preparing for graduate or professional training in the biomedical sciences or employment in the pharmaceutical and biotechnology industries. The Ecology and Conservation Biology concentration is designed to prepare students for graduate training and/or careers in environmental protection and restoration, and emphasizes field work in ecology and conservation. Students concentrating in Neuroscience will have the opportunity to integrate coursework in neurobiology with coursework in psychology. This concentration is excellent preparation for graduate and professional training in the biomedical sciences and careers in the health professions. The Biotechnology, Ecology and Conservation Biology and Neuroscience concentrations also require hands-on learning in the form of supervised research and/or internship, and these experiences are also strongly encouraged for students pursuing the Traditional program. Admission to the Biotechnology, Ecology and Conservation Biology, and Neuroscience concentrations is by application only.

BIOLOGY LABORATORIES

The University supports the biology program with four teaching laboratories, four research laboratories, a field van and a climate-controlled greenhouse. Modern equipment is available for such techniques as electrophoresis, spectrophotometry, high-speed centrifugation, recombinant DNA work, biochemical purification and analyses, oscillography, histological preparation, cell culture, microinjection, digital data and image acquisition, fluorescence microscopy, physiological measurement and aquatic and terrestrial environmental studies.

MAJOR IN BIOLOGY

The B.S. degree in Biology requires the completion of 40-49 credits in biology and 23-39 credits in supporting courses, many of which also fulfill University elective requirements.

REQUIRED COURSES FOR ALL CONCENTRATIONS

Required Biology Core Courses
BI 111, 112 Concepts in Biology I and II
BI 113, 114 Concepts in Biology I and II Laboratory
BI 220/BI 221 Genetics and Genetics Laboratory
BI 225/BI 226 Evolutionary Analysis and Evolutionary Analysis Laboratory
BI 311: Cell Biology
BI 350/BI 351 Ecology and Ecology Laboratory
BI 399 Senior Seminar

Required Supporting Courses for All Concentrations
CH 151, 152, 153, 154 General Chemistry I and II w/Lab
CH 221, 223 Organic Chemistry I w/ Lab
MA 131 Statistics for Decision Making or MA 133 Business Statistics
At least 4 credits in physics at the 100 level or above
One other mathematics course:
  MA 140 or above
MA 151 is recommended
One course in bioethics or medical ethics is recommended

Additional Required Courses for the Traditional Concentration

Students must elect at least one course from each of the three following modules. Where a course appears in more than one module, its selection can satisfy only one of those modules.

Environmental Biology Module
  BI 245 Vertebrate Biology
  BI 255 Animal Behavior
  BI 260 Marine Biology
  BI 265 Conservation Biology

Organisnmal Biology Module
  BI 205 Essentials of Neuroscience
  BI 210 Plant Biology
  BI 212 Developmental Biology
  BI 230 Microbiology
  BI 240 Invertebrate Biology
  BI 245 Vertebrate Biology
  BI 255 Animal Behavior
  BI 260 Marine Biology
  BI 312 Systems Physiology
  BI 325 Immunology
  BI 345 Neurobiology

Molecular Biology Module
  BI 212 Developmental Biology
  BI 230 Microbiology
  BI 235 Principles of Biotechnology
  BI 311 Cell Biology
  BI 325 Immunology
  BI 345 Neurobiology
  BI 355 Molecular Biology

In addition to the three module electives, a student in the Traditional program must elect one additional biology course from the 200 level or above. BI 132 is the only exception to this rule. Both BI 390 Supervised Research and BI 360 Internship can be used to meet this elective requirement.

Additional Required Supporting Courses for the Traditional Concentration
  CH 222, 224 Organic Chemistry II w/Lab

ADDITIONAL REQUIRED COURSES FOR THE MOLECULAR AND CELLULAR CONCENTRATION

Additional Required Biology Electives for the Molecular and Cellular Concentration
  BI 230 Microbiology
  BI 235 Principles of Biotechnology
  BI 311 Cell Biology (fulfills the biology core requirement)
  BI 355 Molecular Biology
  BI 360 Internship or
  BI 390 Supervised Research

Additional Required Supporting Courses for the Molecular and Cellular Concentration
  CH 341, 342 Biochemistry I and II
  CH 343, 344 Biochemistry Laboratory I and II
  MA 151 Calculus I (fulfills the MA 140 or above requirement)

ADDITIONAL REQUIRED COURSES FOR THE ECOLOGY AND CONSERVATION BIOLOGY CONCENTRATION

Additional Required Biology Electives for the Ecology and Conservation Biology Concentration
  BI 210 Plant Biology
  BI 240 Invertebrate Biology or
  BI 245 Vertebrate Biology
  BI 265 Conservation Biology
  BI 390 Supervised Research or one field course at a preapproved biological field station.

Two additional biology courses from the 200 level or above, replaces CH 222, 224 Organic Chemistry II with laboratory.
Required Supporting Courses for the Ecology and Conservation Biology Concentration
MA 151 Calculus I (Fulfills the MA 140 or above requirement)

**ADDITIONAL REQUIRED COURSES FOR THE NEUROSCIENCE CONCENTRATION**

Additional Required Biology Electives for the Neuroscience Concentration
BI 205 Introduction to Neuroscience
BI 255 Animal Behavior
BI 345 Neurobiology
BI 360 Internship or BI 390 Supervised Research

Additional Required Supporting Courses for the Neuroscience Concentration
CH 222, 224 Organic Chemistry II w/Lab
PS 110 Introduction to Psychology
PS elective 200 level or above
Two psychology electives from the following:
PS 335 Learning and Memory
PS 351 Physiological Psychology
PS 352 Hormones and Behavior
PS 353 Psychopharmacology
PS 380 Advanced Psychological Research
PS 389 Special Topics in Neuroscience

**MINOR IN BIOLOGY**
The minor in Biology requires the completion of the following 23-24 credits:
BI 111 Concepts in Biology I
BI 112 Concepts in Biology II
BI 113 Concepts in Biology I Laboratory
BI 114 Concepts in Biology II Laboratory
CH 151 General Chemistry I
CH 153 General Chemistry Laboratory I
Three biology courses at the 200 or 300 level chosen in consultation with a Biology advisor

**ASSOCIATE IN ARTS GENERAL STUDIES**

**Emphasis Requirements (24 credits)**
BI 111 Concepts in Biology I
BI 112 Concepts in Biology II
BI 113 Concepts in Biology I Laboratory
BI 114 Concepts in Biology II Laboratory
CH 151 General Chemistry I
CH 153 General Chemistry Laboratory I
Three biology electives at the 200 or 300 level chosen in consultation with a Biology advisor

**Biology Common Core Course**
BI CC 103 Human Journey: Scientific Discovery

**COURSE DESCRIPTIONS**

†BICC103 The Human Community and Scientific Discovery 3 CR
This is the third of four courses in The Human Journey, Sacred Heart University's Common Core Curriculum. This course focuses on the scientific approach and its uses and limits in addressing the four fundamental core questions of human meaning and value. The practice of scientific inquiry with respect to political, social and cultural factors will also be examined, particularly in the context of the Catholic intellectual tradition. Potential topics to be discussed include learning about your own ancient genetic lineage, evolution, genetic testing, environmental pollution, global climate change, and disease prevention.

†BI 010 The Nature of Life 4 CR
Examines molecular and cellular nature of life, energy systems in plants and animals, origin of life, basic evolutionary strategies and ecological principles. Three hours of lecture and two hours of experiment and discussion per week. Non-science majors.

†BI 020 Heredity and Society 3 CR
A genetics course examining the evidence for proposing the existence of genes, the molecular nature of genes and the ethical
implications of recent advances in genetic research. Three hours of lecture per week. Non-science majors.

**tBI 025 Connecticut Wildlife** 3 CR
A laboratory and field-oriented core course. Emphasis on wildlife and habitat diversity in the American Northeast, especially Connecticut. The central theme is adaptation. Topics include predation, migration, reproduction and species identification. Five hours per week. Non-science majors.

**tBI 026 Winter Wildlife** 3 CR
A laboratory and field-oriented core course. Emphasis on winter adaptations of wildlife in the American Northeast, especially Connecticut. Topics include migration, species identification, tracking and feeding ecology. Five hours per week. Non-science majors.

**tBI 030 The Human Body** 3 CR
Focuses on human physiology and the role humans play in the health and maintenance of their bodies. Topics include human organization, processing and transporting, integration and coordination and reproduction. Three hours of lecture per week. Non-science majors.

**tBI 040 Coastal Ecology** 3 CR
This course investigates the interrelationship between coastal environments and the organisms living in these environments. It also looks at related societal implications. Non-science majors.

**tBI 050 Biology of Poisons** 3 CR
This course presents the principles of toxicology within a human context, discusses how toxicology affects everyday life, and investigates the broader issues for public health and disease prevention. This is an online course for non-science majors.

**tBI 052 Humans and the Environment** 3 CR
Students will learn about environmental science, exploring how human activity changes our natural environment. The importance of clean air, land, and water will also be discussed. Non-science majors.

**tBI 111 Concepts in Biology I** 3 CR
Discusses cell biology, energetics, genetics, origin of life and evolution. Three hours of lecture, one hour of discussion per week. Corequisite: BI 113

**tBI 112 Concepts in Biology II** 3 CR
Addresses organismal organization, transport, nutrition, control of the internal environment, hormonal and neural control and reproduction in plants and animals. Three hours of lecture, one hour of discussion per week. Prerequisite: BI 111; Corequisite: BI 114

**BI 113 Concepts in Biology I Laboratory** 1 CR
Focuses on fundamental biological methods, including microscopic techniques; cell structure; biological chemistry; cellular physiology; molecular biology and cell division. One three-hour session per week. Corequisite: BI 111

**BI 114 Concepts in Biology II Laboratory** 1 CR
A survey of biodiversity including bacteria, fungi, plants, and animals. Selected topics include investigations of plant and animal physiology. One three-hour session per week. Prerequisite: BI 113; Corequisite: BI 112

**BI 126 Nursing Anatomy and Physiology I** 3 CR
Lecture on the investigation of cell structure and function, tissues, skeletal, muscular and nervous systems. Nursing students only. Three hours of lecture and one hour of discussion. Corequisite: BI 127

**BI 127 Nursing Anatomy and Physiology I Laboratory** 1 CR
Laboratory involves investigation of cell structure and function, tissues, skeletal, muscular and nervous systems. Three hours of laboratory. Corequisite: BI 126
BI 128 Nursing Anatomy and Physiology II 3 CR
Lecture involves the investigation of the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. Nursing students only. Three hours of lecture and one hour of discussion. Prerequisites: BI 126 and BI 127; Corequisite: BI 129

BI 129 Nursing Anatomy and Physiology II Laboratory 1 CR
Laboratory involves the investigation of the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. Three hours of laboratory. Corequisite: BI 128

BI 131 Human Anatomy and Physiology I 3 CR
Lecture on the investigation of the tissues, skeletal, muscular, and nervous systems. This section is for students interested in athletic training, exercise science, physical therapy, occupational therapy, or physician assistant programs. Three hours of lecture per week. Prerequisites: BI 111 and BI 113; Corequisite: BI 133

BI 132 Human Anatomy and Physiology II 3 CR
Lecture involves the investigation of endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. Three hours of lecture per week. This section is for students interested in athletic training, exercise science, physical therapy, occupational therapy, human movement or physician assistant programs. Three hours of lecture. Prerequisites: BI 131 and BI 133; Corequisite: BI 134

BI 133 Human Anatomy and Physiology I Laboratory 1 CR
Laboratory involves investigation of the tissues, skeletal, muscular, and nervous systems. Three hours of laboratory. Corequisite: BI 131

BI 134 Human Anatomy and Physiology II Laboratory 1 CR
Laboratory involves the investigation of endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. Three hours of laboratory. Corequisite: BI 132 Note: BI 132 may not be taken for credit after completion of BI 312

BI 161 Introduction to Microbiology 3 CR
The study of microorganisms with emphasis on morphology; cultivation, genetics of bacteria, viruses and fungi, and infectious diseases caused by these microbes. Nursing students only. Three hours of lecture per week. Corequisite: BI 162

BI 162 Introduction to Microbiology Laboratory 1 CR
Laboratory work stresses aseptic technique and the microscopic, nutritional and biochemical characteristics of bacteria. One three-hour laboratory period per week. Corequisite: BI 161

BI 205 Essentials of Neuroscience 3 CR
This course is an introduction to neuroscience, a discipline in which the biological and psychological sciences are integrated. This broad overview addresses topics ranging from the cellular physiology of neurons to issues of human language, cognition and mental illness. Prerequisite: BI 111, BI 113, PS 101

BI 210 Plant Biology 4 CR
Three diverse topics in plant biology are introduced: plant evolution and diversity, the physiological ecology of plants, and the linked topics of ethnobotany and economic botany. Laboratory work concentrates on intensive investigations of the life cycle and physiology of the popular laboratory organisms Arabidopsis thaliana and Ceratopteris richardii. Three hours of lecture and three hours of laboratory per week. Prerequisites: BI 112 and BI 114
BI 212 Developmental Biology 4 CR
Examines cellular and molecular aspects of animal development, from gametogenesis to morphogenesis and pattern formation. Laboratory work includes investigations on fertilization, cellular differentiation, regeneration and the development of vertebrate organ systems. Three hours of lecture and three hours of laboratory per week. Prerequisites: BI 112, BI 114 and BI 220

BI 220 Genetics 3 CR
The study of inheritance, with emphasis on the evidence that led to the emergence of the areas of transmission and the development of molecular genetics. Ethical issues precipitated by genetic research are discussed. Three hours of lecture per week. Prerequisites: BI 111 (minimum grade of C), BI 113 (minimum grade of C), MA 131 or MA 133, CH 151 and CH 153 (math and chemistry courses may be taken concurrently). Corequisite: BI 221

BI 221 Genetics Laboratory 1 CR
Laboratory work demonstrates the power of organisms such as E. coli, Drosophila, and S. cerevisiae in studying transmission genetics and mutagenesis. Basic techniques in molecular biology and microbiology are introduced. Three hours of laboratory per week. Corequisite: BI 220

BI 225 Evolutionary Analysis 3 CR
Utilizing an investigative framework, students explore the relevance of evolution to real-life problems, and understand that both evolution and natural selection are observable processes. Mechanisms of evolutionary change and the history of life on earth will also be explored. Three hours of lecture per week. Prerequisite: MA 131 or MA 133, BI 112 (minimum grade of C), BI 114 (minimum grade of C); Corequisite: BI 226

BI 226 Evolutionary Analysis Laboratory 1 CR
Three hours of laboratory per week. Corequisite: BI 225

BI 230 Microbiology 4 CR
Microbial diversity and the evolution, physiology, genetics and ecology of microbes are addressed. Specific topics include: epidemiology and infectious disease and the use of microorganisms in industry and research. Laboratory work focuses on modern molecular methods of experimental microbiology and bacterial identification, including a student-designed research project. Three hours of lecture and three hours of laboratory per week. Prerequisites: BI 111, BI 113, CH 151 and CH 153

BI 235 Principles of Biotechnology 4 CR
This course focuses on the fundamental biotechnology techniques (e.g., nucleic acid analysis and genomics, bioinformatics, cell culture and proteomics) used in modern industrial research laboratories through the application of a semester-long project. Prerequisite: BI 220, MA131; Prerequisite or Corequisite: CH 221/223

BI 240 Invertebrate Biology 4 CR
Examines the evolution and ecology of invertebrates including: phylogenetic relationships, life history, physiology, and morphological adaptations. Laboratory component includes dissections and field trips to Long Island Sound. Three hours of lecture and three hours of laboratory per week. Prerequisites: C or better in BI 112 and C or better in BI 114

BI 245 Vertebrate Biology 4 CR
Examines the evolution and ecology of the vertebrates, including taxonomy, life history, anatomy and physiology of extant and extinct vertebrates. Three hours of lecture and three hours of laboratory per week. Prerequisites: C or better in BI 112 and C or better in BI 114

BI 255 Animal Behavior 4 CR
An introduction to how animals of all different types use behaviors as strategies for interacting with the environment. Behaviors studied include communication, habitat selection, migration, mate choice, breeding and parental care. Development
and physiological control of behaviors are also examined. Three hours of lecture and one laboratory/field session per week. 

Prerequisites: BI 112, BI 114, MA 131

BI 260 Marine Biology 4 CR 
Examines the structure and function of marine habitats at the organismal, population community, and ecosystem levels. Laboratory includes field investigation of different types of estuarine and coastal habitats and design of basic and applied marine ecological investigations. One mandatory overnight weekend field trip. Three hours of lecture and one three-hour laboratory per week. 

Prerequisites: C or better in BI 112 and C or better in BI 114; MA 131

BI 265 Conservation Biology 4 CR 
The focus of this course is on the science of conservation biology in the context of environmental policy, socioeconomic demands and environmental ethics. 

Prerequisite: BI 112, BI 114

BI 299 Special Topics in Biology 3–4 CR 
Designates new or occasional courses that may or may not become part of the department's permanent offerings. Prerequisites are established by the department as appropriate for the specific course. Course title is shown on the student's transcript. Consult the current course schedule for available topics and prerequisites.

BI 311 Cell Biology 4 CR 
Covers advanced topics in eukaryotic cell biology with emphasis on cell identity, protein transport, and cellular physiology. Laboratory work includes cell culture, immunocytochemistry, and other biological analyses. Three hours of lecture and three hours of laboratory per week. 

Prerequisites: BI 220, CH 152 and CH 154

BI 312 Systems Physiology 4 CR 
Investigation of the physiology of vertebrate systems. Topics include cardiovascular, respiratory, neural, muscular, digestive, endocrine, reproductive and excretory physiology. Laboratory instruction includes practical investigation and research projects into the physiology of vertebrates. 

Prerequisites: BI 112, BI 114, CH 152 and CH 154

BI 325 Immunology 3 CR 
Examines the immune response including characteristics of antigens, antibodies, and antigen-antibody interactions. Three hours of lecture per week. 

Prerequisite: BI 220/BI 221

BI 345 Neurobiology 4 CR 
Covers cell biology of neurons, electrical and biochemical signaling, motor control, sensation and perception, learning and memory, and brain anatomy. Laboratory instruction includes practical investigations and survey research projects into the above topics and related illnesses. 

Prerequisites: BI 112, BI 114, CH 152 and CH 154

BI 350 Ecology 3 CR 
Examines fundamental concepts of plant and animal interactions as revealed by field and laboratory studies of populations, communities and ecosystems. Three hours of lecture per week. 

Prerequisites: BI 112, BI 114, CH 152, CH 154 and MA 131; 
Recommended course: MA 151; Corequisite: BI 351

BI 351 Ecology Laboratory 1 CR 
One three-hour laboratory/field session per week. 

Corequisite: BI 350

BI 355 Molecular Biology 4 CR 
Provides foundations of molecular biology and recombinant DNA technology, analysis of relevant primary journal articles, hands-on training in recombinant DNA techniques, and exposure to the use of computers in DNA sequence analysis and scientific communication. 

Prerequisites: BI 220, CH 152 and CH 154

BI 360 Internship 3–6 CR 
A study of a biological topic or of an interdisciplinary project that provides majors with an opportunity to gain
experience not specifically available in Sacred Heart University's Biology curriculum. Students complete an internship portfolio under the direction of an appropriate professional in consultation with a biology faculty advisor.

BI 390 Supervised Research 3 CR
Individual research projects in the basic areas of Biology under the supervision of faculty. Prerequisites: A 3.0 GPA and permission of the supervising faculty member.

BI 398 Senior Seminar Preparation (Fall or Spring Junior Year) 1 CR
This course is designed for students to begin working on their Senior Thesis. Prerequisites: BI 220/221 and BI 225/226

BI 399 Senior Seminar 2 CR
A capstone course for the Biology major. A review of current research and literature in a specialized field of biological science. A research paper and final oral presentation on a selected topic is required. Prerequisites: Senior status and permission of advisor.

Catholic Studies

FACULTY
June-Ann Greeley, Ph.D.
Program Director

Catholic Studies refers to academic programs that allow students to explore the Catholic Intellectual Tradition as it is manifested in any and every academic field. Catholic Studies programs are broadly interdisciplinary, and so distinguished from programs of theological or religious studies. Catholic Studies embraces the humanistic quest for knowledge, with a particular focus on the role of Catholic thinkers, Catholic ideas and values, and Catholic institutions in that quest. The insight here is that the exploration of the particular gives a deeper appreciation of the universal. Thus, the word “Catholic” in the phrase “Catholic Studies” has two meanings. On the one hand, it conveys a scholarly focus on the Roman and Eastern Catholic heritage in its theological, philosophical, historical, literary, artistic, and scientific expressions; on the other, it suggests an intellectual quest that is truly catholic—“universal” in the sense of considering how a tradition of ideas, beliefs, and values has exerted influence “throughout the whole” of Western culture and, indeed, of global society.

The goal of the minor and certificates is to provide students an interdisciplinary exposure to the ideas that constitute the Catholic intellectual traditions. To complete the certificate, a student must take four courses identified by the Center for Christian Thought, Ethics, and Culture (CCTEC) as part of the Catholic Studies Program. The courses must come from at least two different departments/disciplines, one of which must be Religious Studies. The courses change every semester; they are listed in the schedule of courses issued by the Registrar's Office. Students should consult with the director of the program to plan their course of study.

MINOR IN CATHOLIC STUDIES
The minor in Catholic Studies requires the completion of 18 credits.

Required Foundation Course
CSP 101 Foundations of the Catholic Intellectual Tradition
Any two from the following core courses: PH 221, PH 241, PH 283, RS 242, RS 245, RS 268.
The remaining three courses must be selected from at least 2 distinct disciplines, but overall the minor course of study should include no more than 3 courses in any one discipline.

All students taking a minor in Catholic Studies must complete an Independent Study capstone course and capstone paper. The candidate for the minor in Catholic Studies has full discretion in the selection of department for the Independent Study; however, the director of the minor must
be able to participate in the criteria for the capstone paper. The purpose of the capstone course and paper is to afford the candidate an opportunity to integrate his/her Catholic Studies academic history of the Catholic intellectual tradition in Catholic Studies courses into a systematic and meaningful curriculum of readings and scholarship.

CERTIFICATE IN CATHOLIC STUDIES

General Track

The Certificate in Catholic Studies requires 12 credits, by the completion of four approved Catholic Studies courses. The courses must come from at least two different departments/disciplines, one of which must be Religious Studies. To receive the Catholic Studies Certificate, the student must compile a portfolio of at least one piece of writing or other creative work that was evaluated for credit in each course. Concurrent with or after the completion of the fourth course, the student will write, as part of the portfolio, a capstone paper. This paper will present the student's personal understanding of the Catholic intellectual tradition, or critically explain two major themes in the Catholic intellectual tradition; the paper must relate this discussion to each of the courses taken. The portfolio is due to the Catholic Studies coordinator no later than the add/drop date of the semester following the semester in which the fourth course was completed. For more information, contact the director of CCTEC.

Catholic Social Thought Track

A second track in the Catholic Studies Certificate will be available for students in the Catholic Social Thought Scholars (CSTS) Program. Since 2000, Sacred Heart University has offered the CSTS Program, a multiyear interdisciplinary learning experience that combines study of the Catholic Church's social teachings with a field placement in community service, culminating in a research project designed to address a particular social justice issue. Under this certificate, Catholic Social Thought Scholars take 10 credits in the following distribution:

Candidacy semester (typically spring of Freshman year)
CSP 100 CST Candidacy Seminar (1 credit)

Curriculum year (typically Sophomore year)
RS 259 Faith and Justice (3 credits) (prerequisite: RS 101)
SO 201 Poverty and Inequality in the U.S. (3 credits) (prerequisite: SO 110)

Capstone year (typically Junior year):
CSP 398 CST Capstone Project (3 credits)

The minor in Catholic Studies and both tracks in the certificate require the completion of a capstone project or a capstone paper. Catholic Studies students participate in a presentation ceremony held at the end of the academic year. All Catholic Studies candidates as well as interested faculty and staff are invited. During the ceremony Catholic Studies students present a short talk on their course of study and offer a summary of and reflection on their capstone project or paper, after which they are available for questions from the audience. At the close of the ceremony, each Catholic Studies student receives a certificate in honor of their accomplishment.

COURSE DESCRIPTIONS

CSP 100 Catholic Social Thought Candidacy Seminar 1 CR
Candidates in the Catholic Social Thought Scholars Program are introduced to volunteer service, economic problems of the local community, and theological reflection.

CSP 101 Foundations of the Catholic Intellectual Tradition 3 CR
A study of major ideas in the Catholic intellectual tradition — such as the continuity of faith and reason, sacramental imagination, incarnation, and the common good — through classical
and contemporary texts. The study is interdisciplinary and includes readings in theology, philosophy, literature, and the sciences.

CSP 398 Catholic Social Thought Capstone Project 3 CR

Continuing to employ the methodologies of theological, ethical, and social reflection, the Catholic Social Thought Scholar will develop an independent research project designed to address a specific aspect of a social justice issue that has informed the scholar's study thus far. Requires participation in a seminar with other CST scholars at the capstone level.

Chemistry

The Chemistry program is committed to academic excellence and seeks to prepare students for industry, graduate school or professional school. This is achieved through a broad-based education that includes exposure to the major areas of Chemistry (analytical, biochemistry, environmental, inorganic, organic and physical) in both the classroom setting and in the laboratory. The required undergraduate research component of the degree provides an opportunity for the investigation of an original project.

The strengths of the department include small class sizes; extensive interaction with faculty; an award-winning student affiliate American Chemical Society chapter; instruction that uses the latest innovations in technology, teaching pedagogy and lab equipment; opportunities for community service; and the possibility for internship and co-op positions. The department also provides strong support for students majoring in other sciences as well as for non-science majors.

The Chemistry program offers a balanced curriculum that prepares students for graduate study in the various areas of chemistry and for employment in the chemical industries. Also, the Chemistry major, coupled with selected supporting courses, provides excellent preparation for the study of medicine, dentistry and other health-related professions. To accomplish these objectives, the Chemistry program offers two degrees: the Bachelor of Science and the Bachelor of Arts. The student majoring in Chemistry with a BS degree can choose a Traditional, Biochemistry or Environmental concentration.

The Traditional concentration provides a curriculum with strong supportive courses in mathematics and physics. This program is recommended for graduate study in chemistry or as preparation for an industrial position.

The Biochemistry concentration is strongly recommended as preparation for a career in biochemistry, clinical chemistry or pharmaceutical chemistry. The program is also suitable for graduate study in biochemistry and pharmacology.

The Environmental concentration prepares the student for a career in the growing field of environmental chemistry. The student receives a strong chemistry background and takes appropriate courses in supporting disciplines. This concentration is appropriate for the student planning a career or graduate work in any of the allied environmental professions.

CHEMISTRY LABORATORIES

There are eight chemistry laboratories serving the needs of analytical chemistry.
biochemistry, environmental chemistry, inorganic chemistry, organic chemistry and physical chemistry. These laboratories contain the following major equipment:

**Spectroscopy**

NMR 400 MHz + Autosampler; Flame and Graphite Furnace Atomic Absorption Spectrometer + Autosampler; Raman Spectrometer; two FT-IR Spectrometers, Ultraviolet/Visible Spectrophotometers; Near Infrared Spectrometers; Spectrofluorometer.

**Chromatography**

Programmable Gas Chromatographs; HPLC system + Autosampler.

**Electrochemistry**

Polarographic Analyzer, Polarographic Analyzer/ Stripping Voltmeter, SMDE Electrode, RDE Electrode and Electrogravimetric Analyzer.

**GC-MS**

GC, MSD, Flame Ionization Detector with EPC, Purge-and-Trap Liquid Sample Concentrator, Library of Spectra and Chemical Structure Database.

**Other Equipment**

Automatic Polarimeter; Magnetic Susceptibility Balance; Flame Photometer.

**Computer Facilities**

Three SGI Molecular Modeling Stations; Chemistry server providing licensed software for the use of students.

- CH 334 Physical Chemistry Laboratory II
- CH 355 Advanced Inorganic Chemistry

**Additional Required Supporting Course for Traditional Concentration**

- MA 253 Mathematical Analysis II

A minimum of 10–12 credits of chemistry electives should be taken to enhance career and graduate study opportunities. Electives should be selected in consultation with the student’s faculty advisor.

**Additional Required Courses for Biochemistry Concentration**

- CH 341 Biochemistry I
- CH 342 Biochemistry II
- CH 343 Biochemistry Laboratory I
CH 344 Biochemistry Laboratory II

Additional Required
Supporting Course for
Biochemistry Concentration
BI 111 Concepts in Biology I
In addition to the above courses, two to three chemistry electives and one to three computer science courses are strongly recommended. For pre-health professions students, BI 111 and BI 112 and two Biology courses at the 200 level or higher are recommended.

REQUIREMENTS FOR THE BA DEGREE IN CHEMISTRY
The B.A. degree requires the completion of 32 major credits plus 16 credits in the related fields of mathematics and physics.

COURSE DESCRIPTIONS

†CHCC 103 The Human Community and Scientific Discovery 3 CR
This is the third of four courses in Sacred Heart University's Common Core Curriculum, The Human Journey. This course will examine the core's four fundamental questions of human meaning and value. From the perspective of Chemistry, students will learn about science and the natural world and science's engagement with the Catholic intellectual tradition.
†CH 015 Chemistry for the Artist  
Explores chemistry of the materials used by the artist, chemistry of color, detection of art forgeries, art restoration, art hazards and safety precautions. Two 75-minute lectures and one two-hour discussion/laboratory per week. Prerequisite: Art major or minor or permission of instructor

†CH 020 Drugs and Their Implications to Society  
Different classes of drugs, both legitimate and illicit, and their metabolism in the human body are studied. Basic organic chemistry is introduced. Designed for non-science majors.

†CH 025 Forensic Chemistry  
Examines the principles of chemistry as related to preservation and analysis of physical evidence in criminal cases and the presentation of evidence in a court of law. Two 75-minute lectures and one three-hour laboratory or one two-hour discussion on alternate weeks. Prerequisite: Criminal justice major or permission of instructor

†CH 030 The Chemistry of Nutrition  
Designed for non-science majors, this course explores the fundamentals of nutrition, elaborating on the essential chemistry needed for a basic understanding of the subject matter. The course examines how carbohydrates, lipids, proteins, minerals, vitamins and antioxidants are chemically related to nutrition. The course focuses also on nutrition throughout the various life stages and how this relates to one's environment.

†CH 035 The Chemistry of Foods and Beverages  
Evaluates the "definition" of a food, nutritional composition of foods and beverages, measurement of these nutrients and their basic activities in the human body. Some basic chemistry is covered, but only to provide some foundation for understanding the activity of nutrients in our diet. This course is intended for non-science majors.

†CH 040 Chemistry, Society and the Environment  
Explores the workings of chemistry as an experimental science in the context of the need for science literacy and of the things affecting the everyday world and the environment. Two 75-minute lectures per week.

CH 117 General, Organic and Biochemistry, An Overview  
Designated for Nursing students, this course previews the principles of general chemistry, followed by a survey of organic chemistry. An overview of biochemistry and biomolecules and a study of metabolism and its regulation are presented. Two 75-minute class periods. Prerequisite: High school precollege chemistry

CH 119 General, Organic and Biochemistry Lab  
Designated for Nursing students, this course consists of 11 to 12 lab periods. Three to four dry labs are embedded within the course as a guided inquiry-based approach to the curriculum and computer problem solving and molecular modeling using HyperChem. Experiments as well as dry labs are related to the subject matter covered in CH 117. A three-hour lab period. Corequisite: CH 117

†CH 151 General Chemistry I  
Explores modern theories of atomic and molecular structure, chemical bonding and periodic relations, chemical reactions and stoichiometry, states of matter, and solutions. Three 50-minute lectures and one 50-minute discussion per week. Prerequisite: High school chemistry

†CH 152 General Chemistry II  
Explores chemical thermodynamics; chemical kinetics; chemical, ionic and acid-base equilibria; electrochemistry; chemistry of the representative elements
and transition elements; and nuclear reactions. Three 50-minute lectures and one 50-minute discussion per week. Prerequisite: CH 151

CH 153 General Chemistry Laboratory I 1 CR
Illustrates basic concepts presented in CH 151. Experiments include qualitative analysis of cations and anions, chromatography, synthesis and FT-IR. One three-hour laboratory per week. Corequisite: CH 151

CH 154 General Chemistry Laboratory II 1 CR
Illustrates basic concepts presented in CH 152. Experiments include quantitative analysis, equilibria, thermochemistry, spectrophotometry and GC-MS. One, three-hour laboratory per week. Prerequisite: CH 153; Corequisite: CH 152

CH 221 Organic Chemistry I 3 CR
Covers hydrocarbons; stereochemistry; arenes; alkyl halides; nucleophilic substitution and elimination reactions; and IR, NMR, MS and UV spectroscopy in relation to structure determination. Two 75-minute lectures and one 50-minute discussion per week. Prerequisite: CH 152

CH 222 Organic Chemistry II 3 CR
Covers aromaticity; electrophilic and nucleophilic aromatic substitution reactions; ethers, epoxides, carboxylic acids and their functional derivatives; aldehydes; ketones; amines; phenols; carbanion reactions; and alpha-beta unsaturated compounds. Emphasizes organic reaction mechanisms, organic synthesis and structure determination. Two 75-minute lectures and one 50-minute discussion per week. Prerequisite: CH 221

CH 223 Organic Chemistry Laboratory I 1 CR
Covers basic techniques in organic chemistry: extraction, distillation, recrystallization; thin layer chromatography; gas chromatography and IR spectroscopy. Emphasizes techniques in organic synthesis. One three-hour laboratory per week. Corequisite: CH 221

CH 224 Organic Chemistry Laboratory II 1 CR
Covers simple and multistep organic syntheses using a wide variety of organic reagents and some important functional group analyses. Employs spectroscopy and GC-MS for structure determination. One three-hour laboratory per week. Prerequisite: CH 223; Corequisite: CH 222

CH 252 Analytical Chemistry 3 CR
Explores data analysis and classical methods of quantitative analysis. Focuses on the basics of analytical chemistry and the development and application of equilibrium models to all branches of classical analysis. Two 75-minute lectures per week. Prerequisite: CH 220 or CH 221

CH 254 Analytical Chemistry Laboratory 2 CR
Provides laboratory experience in volumetric, gravimetric and instrumental methods. Experiments correlate with lecture material in CH 252 to help students understand the chemistry involved and develop proper analytical procedures and techniques. One six-hour laboratory per week. Prerequisite: CH 154; Corequisite: CH 252

CH 331 Physical Chemistry I 3 CR
Explores thermodynamics, statistical thermodynamics, kinetic theory of gases, changes of state, solutions and kinetics. Two 75-minute lectures per week. Prerequisites: CH 152, CH 154, MA 151 and PY 152

CH 332 Physical Chemistry II 3 CR
Explores advanced kinetics and quantum mechanics. Two 75-minute lectures per week. Prerequisite: CH 331; co-or prerequisite: MA 253 or permission of instructor

CH 333 Physical Chemistry Laboratory I 1 CR
Explores various techniques used to apply
the fundamental concepts of physical chemistry to real chemical systems. 
One three-hour laboratory per week. 
Corequisite: CH 331

CH 334 Physical Chemistry Laboratory II 1 CR
Explores more advanced techniques of physical chemistry and applies theoretical concepts learned in CH 332 to real chemical systems. One three-hour laboratory per week. Prerequisite: CH 333; Corequisite: CH 332

CH 341 Biochemistry I 3 CR
Covers chemical and physiological properties of carbohydrates, lipids, amino acids, proteins, enzymes and nucleic acids. Explores metabolic pathways and enzymology. Two 75-minute lectures per week. Prerequisite: CH 222

CH 342 Biochemistry II 3 CR
Continues the study of metabolic pathways. Two 75-minute lectures per week. Prerequisite: CH 341

CH 343 Biochemistry Laboratory I 1 CR
Investigates chemical and physical properties of biologically important compounds using chromatography, electrophoresis, enzyme assays and various techniques for isolation and identification of biochemicals and enzymes. One three-hour laboratory per week. Corequisite: CH 341

CH 344 Biochemistry Laboratory II 1 CR
Examines isolation and purification of lipids, proteins, enzymes and nucleic acids from biological materials employing electrophoresis, chromatography, spectrophotometry and fluorometry. One three-hour laboratory per week. Corequisite: CH 342

CH 351 Instrumental Analysis 3 CR
Explores theory and practice of instrumental methods of analysis; spectrophotometric, electroanalytical and chromatographic methods of separation and quantification. Two 75-minute lectures per week. Prerequisites: CH 252 and CH 331 or permission of instructor

CH 353 Instrumental Analysis Laboratory 1 CR
Provides hands-on experience with modern analytical instrumentation, including UV/visible infrared, atomic absorption spectrophotometry, potentiometric and ion selective electrode methods, electrodeposition, gas chromatography and mass spectrometry. One three-hour laboratory per week. Corequisite: CH 351

CH 355 Advanced Inorganic Chemistry 4 CR
Explores physical and chemical properties of the elements and their compounds, periodic relations, theories of atomic and molecular structures and molecular symmetry with emphasis on coordination chemistry. Two 100-minute lectures per week. Prerequisite: CH 331

CH 361 Environmental Chemistry 3 CR
Explores chemical aspects of the human environment and sources, reactions, transport, effects and fates of chemical species in water, soil and living environments and effects of technology thereon. Two 75-minute lectures per week. Prerequisite: CH 222

CH 363 Hazardous Waste Management 2 CR
Explores types, sources, treatment and disposal of hazardous and solid wastes; conservation and reuse of material; economics of waste treatment, disposal and reuse. Prerequisite: CH 221

CH 365 Environmental Sampling and Analysis 3 CR
Laboratory and field work including sampling of surface and groundwater using EPA-approved methods for analyzing water, wastewater, soil and sediments. Also covers QA/QC plans and statistics in
chemical analysis and sampling protocols. One 100-minute lecture and one three-hour laboratory per week. Prerequisite: CH 361

CH 393 Undergraduate Project 3 CR
A special project may be carried out under the advisement of a Chemistry faculty member. Prerequisite: Permission of project advisor

CH 395 Undergraduate Research 3 CR
Research may be carried out under supervision of a Chemistry faculty member. Prerequisite: Permission of research advisor

CH 399 Special Topics in Chemistry 2-3 CR
Designates new or occasional courses that may or may not become part of the department's permanent offerings. Consult the current course schedule for available topics.

Communication and Technology Studies

An interdisciplinary program, the major in Communication and Technology Studies (CTS) is directed to students who wish to become leaders in creating the communication environment of the future, to those interested in the broader implications of communication technology, understanding the theory as well as the practice, and adapting to a changing world.

In response to the need for leadership in technology, CTS focuses on the macro social and ethical issues of mediated communication, such as policy making, data information privacy, intellectual property, moral agency and the notion of the community as global. At the heart of the major is the study of the social, ethical and historical implications of computer technology. Students study a core of interdisciplinary courses that focus on communication technology, including computer technology, media studies, oral and written communication, history, sociology, psychology, philosophy and art.

FACULTY
James Castonguay, Ph.D., Associate Professor
Gregory Golda, M.Ed. Clinical Instructor
Frances Grodzinsky, Ph.D. Professor
Robert McCloud, Ed.D. Associate Professor
Andrew Miller, Ph.D. Assistant Professor

MAJOR IN COMMUNICATION AND TECHNOLOGY STUDIES
The major in CTS consists of 42 credit hours, including 12 required courses and 6 elective credits. For Communication Technology majors CT 101 is a prerequisite for all other courses in the major.

REQUIRED COURSES
CS 101 Web Design and Visual Tools
CS 102 Multimedia for Non-Majors OR CS 104 Digital Animation and Gaming
CS 232 Human Computer Interaction
CS 319 Computer Ethics: Society and Technology
CT 101 Introduction to Communication and Technology Studies
CT 118 Technical Communications I
CT 218 Technical Communications II
CT 399 Capstone in Communication Technology
MS 280 Digital Culture
MS 287 Media and Democracy
MS 288 Democratic Technologies

ELECTIVE COURSES
Students are required to take an additional six credits of required course work, and most students select these courses from the departments of Art and Design, Computer Science, and/or Media
Studies and Digital Culture. CT Majors may venture into other departments for these required electives, but in all cases courses must be approved in writing by the program director. Possible course selections include:

AR 211 Graphic Design I
AR 214 Computer Design Basics
HI 276 The Rise of Modern Science
MS 195 History of Broadcasting
MS 198 History of Public Relations/Advertising
MS 200 Mass Media: Specific Subject
MS 213 Video Production
MS 215-315 Digital Film Production I, II
MS 293 Alternative Media
MS 298 Public Relations/Advertising: Practical Applications
MS 299 Special Topics in Media Studies
MS 300 Special Topics in Media Production
MS 395 Multimedia Field Production
PH 256 The Philosophy of Technology
SO 257 Technology, Culture and Society

COURSE DESCRIPTIONS

CS 100 Introduction to Information Technology 3 CR
An introduction to computing and data processing for non-computer science majors. This course is half theory and half hands-on application using Microsoft Office. It includes word processing, spreadsheets, databases and some work with the Internet. This course provides the knowledge and understanding necessary to communicate effectively in the personal computing environment of business today.

CS 101 Web Design and Visual Tools 3 CR
This course aids in the understanding of the design and production of web sites. It discusses what design elements go into web page development. Students browse sites and identify good design elements. They construct their own web page early on and allow it to evolve throughout the semester. Prerequisite: CS 100 or permission of department chair

CS 102 Multimedia for Non-Majors 3 CR
This course aids the non-programmer in the understanding of multimedia authoring, incorporating text, graphics, sound and video. It discusses design and planning elements that go into multimedia development. Students use Director and some of the scripting language, Lingo, to choreograph media objects onto a stage using a score. Prerequisite: CS 100 or permission of department chair

CS 232 Human Computer Interaction 3 CR
Focuses on how developers and designers of computer systems can produce computers that are beneficial to the user and easy to use. Human-computer interaction is the intersection of human behavior and computer technology. In understanding human behavior, developers can evaluate what makes the computer easy to learn and use. The course examines the ways people interact with computers and how to incorporate this knowledge into the design and evaluation of new technology. Prerequisite: CS 100 or CS 112

CS 319 Computer Ethics: Society and Technology 3 CR
This course focuses on the ethical and social issues associated with computer technology such as privacy, theft, intellectual property, accountability, hacking, and cracking, codes of ethics and professional responsibility. Students also examine philosophers such as Aristotle, Kant and Mill, as well as Virtue ethicists. This course is a Senior-level capstone course. It emphasizes both oral and written communication as students discuss and examine their own ethical beliefs. Prerequisite: Junior/Senior status, PH 101, RS 101, or permission of instructor

CT 101 Introduction to Communication Technology 3 CR
Explores the intersections and divergences of various technologies of mediated
communication, from traditional inscription (print) to film, radio, television and electronic media. Emphasizes student inquiry and encourages web-based study and digitally-enhanced final portfolios. **Prerequisite:** Permission of CT coordinator

**CT 118 Technical Communications I**
3 CR
Introduces the most important elements of communications in the professional world of technology and newer media. Students study common types of reports and learn fundamental techniques for preparing reports, final copy, and web page content. **Prerequisites:** EN 110, CT 101

**CT 218 Technical Communications II**
3 CR
Develops skills in research techniques and increases proficiency in technical communications by focusing on all phases of the preparation of a communication technology-related project. Emphasizes the acquisition of the ability to "translate" technical information to non-specialists. **Prerequisite:** CT 118

**CT 399 Capstone in Communication Technology**
3 CR
Culminating course for the CT major. Students integrate what they have learned in the major in an experiential setting. Must be accomplished under guidance of a faculty director and in consultation with CT Coordinator. **Prerequisite:** Senior standing

**MS 280 Digital Culture**
3 CR
Considers digital and technologically mediated environments as "mass media" in the tradition of film, radio or television. Using a variety of approaches, including historical, sociological, economic, technological, cultural and aesthetic, this course looks at questions such as how does the Internet codify reality? How are communities both created and thwarted? What are the characteristics of the global media culture? Readings, screenings and written reports required. **Prerequisite:** MS 101 or CT 101

**MS 213 Video Production**
3 CR
An introduction to basic video theory and production technique. Classes focus on mastering technical elements of production and developing a familiarity with the grammar of the moving image. Students conceive and produce individual final video projects using portable equipment. **Prerequisite:** MS 101 or CT 101

**MS 215–315 Digital Film & Video Production I, II**
3 CR each
An introduction to the basic techniques of cinematic composition and editing. Presents the basic administrative and aesthetic aspects of filmmaking. **Prerequisite:** MS 101 or CT 101

**MS 287 Media and Democracy**
3 CR
Examines the relationships between the mass media (film, television, newspapers and the Internet), the public and politics. Historical case studies analyze from ethical, economic, social, historical, aesthetic and technological perspectives how the media provide (or do not provide) a place through which people express their views as citizens in a democracy. Current media examples are also investigated. Readings, screenings and written reports required. **Prerequisite:** MS 101 or CT 101

**MS 288 Democratic Technologies**
3 CR
Focuses on the creative use of technologies available to the American consumer. Instruction in alternative audio and visual production encourages students to express themselves and distribute media content using available consumer and public access technologies. Laptop computers are required to digitize audio and visual projects and for Internet research. **Prerequisite:** MS 101 or CT 101

**MS 293 Alternative Media**
3 CR
Explores nonmainstream and noncommercial media—mechanical, electronic and digital—to understand their content, form and roles they play in our culture. The course looks at the aesthetic theories and/or social
motivations, implicit or explicit in the alternative culture and in individual works. Readings, screenings and written reports required. **Prerequisite:** MS 101 or CT 101

MS 298 Advertising and Public Relations Production 3 CR
Applies various theories of advertising and public relations to specific practical problems in the commercial and nonprofit world. Students experiment with form and style by producing advertising and public relations campaigns for new products, public service projects and/or political candidates in several different media. **Prerequisite:** MS 101 or CT 101

MS 300 Special Topics in Media Production 3 CR
New or occasional courses in advanced video production such as approaches to editing, audio recording techniques, digital storytelling or computer-aided design. Course title is shown on the student's transcript. Consult the current course schedule for available topics and required prerequisites.

MS 395 Multimedia & TV Field Production 1–3 CR
An opportunity for outstanding Media Studies majors to assist in the planning and production of media projects contracted by Sacred Heart University or by outside agencies. By permission of the chairperson of the faculty of Communication Studies. Offered only when appropriate projects are available. Consult the current course schedule for available topics and required prerequisites. **Prerequisite:** MS 213

AR 211 Graphic Design I 3 CR
An introduction to classical and modern typefaces, the mechanics of type composition and the fundamentals of layout. Consideration is given to the selection of typefaces that enhance thought and idea. **Prerequisite:** AR 214

Computer Design Basics 3 CR
An introduction and exploration of the three primary graphic design programs: Adobe Photoshop, Adobe Illustrator and Quark Express. Only the most basic design concepts are explored in assignments, ensuring a basic understanding of the technological tools of design. **Prerequisite:** AR

HI 276 The Rise of Modern Science 3 CR
Starting with their origins in the Scientific Revolution of the 16th century, this course presents the major scientific developments in Western life and their impact on society. Topics include the Copernican Universe, Darwinian biology and several major scientific advancements in the 20th century.

PH 256 The Philosophy of Technology 3 CR
Representative views of the social role of technology. Two fundamental questions are addressed. The extent of technology's impact on social institutions and individual lives. And, to what degree is this impact beneficial or harmful? **Prerequisite:** PH 101

SO 257 Technology, Culture and Society 3 CR
With the increasing saturation of biotechnology, cybertechnology, communication/media technology, etc., in the world, it is prudent to study the overall relationship of technology to culture and society and to consider the social impact of the next wave. While identifying serious problems and risks, the course also explores the proposition that technology can be shaped and guided to be a positive force. **Prerequisite:** SO 110
Communications

The undergraduate Communications concentration of the English major is designed to provide students with an opportunity to acquire an understanding of theory and practice of the process and impact of communications in a variety of social contexts. In addition to acquiring a broad awareness of the role of communications in society, students may study interpersonal communications, public speaking, oral interpretation of literature and nonverbal communications, and may enhance these skills further through service learning and/or internship placements. Students can utilize their learning in the fields of education, telecommunications, journalism, business, advertising, public relations, personnel, politics, medicine and law.

COURSE DESCRIPTIONS

CA 101 Effective Communication 3 CR
Explores and analyzes the communication process through instruction and practice in individual and group presentations and oral interpretation of literature. Laptop required. Does not count toward satisfying English minor or Communications concentration requirements. Students must pass this course with a grade of C or better.

CA 115 American Sign Language I 3 CR
An introduction to signing at Level 1, basic vocabulary through finger spelling, alphabet, numbers and colors. Introduction to the culture of the deaf. Does not count toward satisfying English minor or Communications concentration requirements.

CA 141 Introduction to Theater 3 CR
A survey course introducing theater as a form of literature, a performing art and a profession. Students are required to act in or work behind the scenes on a departmental production and will attend performances of plays at professional, university and/or community theaters. Several plays are read and discussed. Short papers required.

CA 171 Acting I 3 CR
An exploration of the actor’s “instrument,” body, voice, thoughts and feelings. Basic physical and vocal work including exercises in relaxation, flexibility, concentration, alignment, centering, breathing and sound. Theater games designed to free the actor’s imagination are performed to develop improvisatory skills. Prerequisite: CA 101 or permission of the department chairperson

CA 215 American Sign Language II 3 CR
An extension of CA 115. Signing at Level 2. Course deals with describing the family and the home. Grammar and classifiers are studied. Does not count toward satisfying English minor or Communications concentration requirements. Prerequisite: CA 115

CA/BU 221 Business Communications 3 CR
Corporate business-focused oral and written communication skills are analyzed and practiced. Individual and group presentations, memos, letters, reports, resumes, and interview preparation are included. Laptop required. Does not count toward satisfying major, minor or concentration requirements. Prerequisites: EN 110 and CA 101

CA 231 Interpersonal Communication 3 CR
Current research, student-designed projects and communication “games” provide opportunities for exploration of breakdowns, barriers and bridges in interpersonal contexts. Service learning may be required. Prerequisite: CA 101

CA 261 Public Speaking 3 CR
Organization and delivery of
extemporaneous, informative and persuasive speeches are stressed. Audience analysis, context and using support materials in diverse speaking situations are studied. Service learning may be required. Laptop required. Prerequisite: CA 101

CA 270 Nonverbal Communication 3 CR
Analyzes how we consciously and unconsciously communicate without words. Research and student-designed projects examine proxemics, gesture, touch, signs, and expressions. Prerequisite: CA 101

CA 271 Acting II 3 CR
A continuation of the work begun in CA 171 and its application to the process of scene study and the building of characters. Focus is on script analysis, rehearsal techniques, and selected special problems such as Shakespeare, acting styles, and auditioning. Prerequisite: CA 171 or permission of the department chairperson

†CA 280 Oral Interpretation of Literature 3 CR
Literature is “recreated” and analyzed through a use of voice and body as well as through study of theories of criticism and aesthetics. Public performances required. Service learning may be required. Prerequisite: CA 101

CA 299 Special Topics in Oral Communication 3 CR
Designates new or occasional courses, offered as an experimental alternative to existing courses, which may or may not become part of the department’s permanent offerings. Consult the current schedule for current topics and prerequisites.

CA 321 Communication Theory 3 CR
Explores communication theory and practice while building upon composition and presentation skills mastered in CA 101. Provides guided experimentation. Laptop required. Prerequisite: CA 101

CA 375 Theater Practicum 3 CR
This course offers students an opportunity to participate in an on-stage production sponsored by the Department of English and Modern Foreign Languages each spring. Students may receive credit for this course three times. Given on a pass/fail basis. Prerequisite: Permission of instructor

CA 380 Play Directing 3 CR
Covers a range of directorial skills, including play analysis and concept, blocking, casting, scheduling, and working with actors. Prerequisites: CA 141, CA 171 or permission of the department chairperson

CA 399 Special Topics in Communications or Theater 3 CR
Content varies each semester course is given.

Computer Science and Information Technology

The computer science field has demonstrated dramatic growth and technological development within the last decade. The 21st century is heralding the emergence of nanotechnology, ubiquitous computing and wireless networking. The Computer Science and Information Technology (CS/IT) Department is responding to these technological challenges by offering a dynamic course of study that is responsive to the ever-changing field of computer technology. (CS/IT) curriculum has two concentrations: Computer Science and Information Technology. The Computer Science concentration is geared to those students with strong mathematics and the desire to participate in the research and development side of computer science. Within the Computer Science concentration there are two tracks:
Computer Science and Computer Gaming. The Information Technology concentration is for those students interested in interface, multimedia and system design for various business applications.

COMPUTER SCIENCE FACILITIES

There are two state of the art computing labs dedicated to computer science courses. These contain the latest flat screen Dell Optiplex computers with DVD, CD-R/W drives. In addition the conference room of the CS/IT department serves as a mini-lab used exclusively by CS/IT majors for projects, homework and tutoring and is equipped with the same state of the art equipment. There is also a Networking/Unix lab equipped with 15 Linux machines and a variety of Cisco routers. This closed LAN laboratory is used for networking and Unix shell programming courses and is open 24 hours a day, seven days a week for those students. All labs are on a 3-year replacement cycle.

Software available in the labs include:

Microsoft Office 2007
Adobe Director 11
Flash CS4
Fireworks CS4
Dreamweaver CS4
V.B. Net 2008
Visual C++ 2008
Visual C# 2008

ASSOCIATE'S DEGREE IN COMPUTER SCIENCE
The Associate of Science degree in Computer Science offers two areas of emphasis: Computer Science and Information Technology. Both emphases require the completion of 60 credits. The program is designed for high school graduates who intend to make a career in the field of Computer Science and college graduates who want to obtain a sufficient level of computer experience.

The Computer Science emphasis is intended for college students majoring in mathematics or the sciences who wish to supplement their major in order to increase their employment opportunities after graduation. The Information Technology emphasis is intended for high school graduates who wish to make a career in information technology and for business students or individuals working with computers who want a formal education in order to advance their careers.

COURSE DESCRIPTIONS

CS 100 Introduction to Information Technology 3 CR
An introduction to computing and data processing for non-computer science majors. This course is half theory and half hands-on application using Microsoft Office. It includes word processing, spreadsheets, databases, presentation software, and using the Internet as a research tool effectively. This course provides the knowledge and understanding necessary to communicate effectively in the personal computing environment of business today. Non-majors only.

CS 101 Web Design and Visual Tools 3 CR
This course aids in the understanding of the design and production of web sites. It discusses what design elements go into web page development. Students browse sites and identify good design elements. They construct their own web page early on and allow it to evolve throughout the semester. Prerequisite: CS 100 or permission of department chair. Non-majors only.

CS 102 Multimedia for Non-Majors 3 CR
This course aids the non-programmer in the understanding of multimedia authoring, incorporating text, graphics, sound and video. It discusses design and planning elements that go into multimedia development. Students use Director and/or Flash and some of the scripting language, Lingo (or action scripting), to choreograph media objects onto a stage using a score. Prerequisite: CS 100 or permission of department chair.

CS 104 Digital Animation and Gaming 3 CR
The class will create electronic games using digital animation and timeline control. Topics covered include: creating gaming objects with drawing and color tools; timeline-based animation techniques; controlling screen action with buttons; integrating sound into a game; publishing and exporting a game to the web.

CS 106 Introduction to Information Technology for Business Administration 3 CR
An introduction to computing and data processing for non-Computer Science majors. This course is half theory and half hands-on application using Microsoft Office. It includes, spreadsheets, databases, and presentation software, and provides the knowledge and understanding necessary to communicate effectively in the personal computing environment of business today. For Business Administration majors.

CS 110 Introduction to Computer Science 3 CR
An introduction to programming logic, using a suitable introductory programming language. This course presents an overview of major programming concepts (selection, loops, input-output operations, procedures and functions) and serves as an introduction to the Unix operating system and Unix-based editors. For computer science majors.
Prerequisite: Computer Science major or permission of department chair

CS 111 Introduction to Structured Programming 3 CR
A first course in programming using a structured programming language. Topics include iteration, selection, procedures, functions and arrays with the use of flowcharts and modules. Presents applications in both business and scientific areas. Prerequisite: CS 110 or permission of department chair

CS 112 Data Structures 3 CR
A continuation of CS 111 using a structured programming language to implement multidimensional arrays, stacks, queues, linked lists and binary trees. Also introduces recursion, pointers, and generic packaging. Prerequisite: CS 111

CS 113 Discrete Structures 3 CR
Presents mathematical concepts for computer science, including sets, relations and functions; partitions; order relations; countability; permutations and combinations; probability; recurrences; big-Oh notation; elements of abstract algebra such as groups, rings and Boolean algebras. Prerequisite: MA 006

CS 171 Introduction to Computer Gaming 3 CR
Designing the vector gaming environment; Storyboarding; Tween and frame-by-frame animation; Using functions to control animation timelines; Using random number functions to instantiate digital objects; Artifact movement utilizing vector plot points.

CS 215 Computer Systems Organization with Assembler 3 CR
This course presents an overview of computer architecture and computer organization as they relate to computer science. Topics include computer components, interconnection structures, internal memory, instruction sets, number representation in computers, parallel processing and an elementary introduction to assembly programming. Prerequisite: CS 112

CS 232 Human–Computer Interaction 3 CR
Focuses on how developers and designers of computer systems can produce computers that are beneficial to the user and easy to use. Human-computer interaction is the intersection of human behavior and computer technology. In understanding human behavior, developers can evaluate what makes the computer easy to learn and use. The course examines the ways people interact with computers and how to incorporate this knowledge into the design and evaluation of new technology. Prerequisite: CS 100 or CS 112

CS 233 Visual Basic 3 CR
Explores the use of controls and tools, forms, menus, frames, file browsers and buttons, creating windows interfaces for databases, linking to Windows and Excel, writing and debugging Visual Basic code. Uses VB.net 2005. Prerequisite: CS 112

CS 241 Advanced Programming Concepts Using "C" 3 CR
Covers advanced programming techniques in "C," using pointers, data structures and recursion. Emphasis on algorithmic approach and use of mathematical functions. Prerequisite: CS 112

CS 242 Introduction to Graphics Using JAVA 3 CR
Introduces concepts of classes and main JAVA graphics tools. Topics include: structure of JAVA system, introduction to classes, dialog boxes, data types, introduction to applets, HTML files, graphics class and its methods, JAVA widgets, event-driven programming, class containers, and layouts. Prerequisites: CS 112 and CS 113
CS 261 Programming for the Web 3 CR
An introduction to Web-enabling technologies, this course addresses web design with HTML code, Cascading Style Sheets and Layers, Photoshop and JavaScript. Problems and trends faced by webmasters today are also discussed. Prerequisites: CS 111 and Sophomore status

CS 271 Advanced Computer Gaming 3 CR
An object-oriented approach to programming digital objects using Flash and Action Script 3.0. These programming techniques will be applied to both arcade and adventure games. Prerequisite: CS 171

CS 272 Introduction Computer Graphics 3 CR
An object-oriented approach to computer graphics using C#. Topics covered will include: classes, instantiation, event listeners, polymorphism, encapsulation, event handlers, functions and methods, and basic game logic. Prerequisite: CS 271

CS 299 Special Topics I 3 CR
Various courses of current interest to the Computer Science major are introduced from time to time. Prerequisite: Sophomore status

CS 311 Database Design 3 CR
Explores fundamentals of database design theory and applications. Includes data models with emphasis on the relational model. Prerequisites: CS 112 and CS 215

CS 312 Software Engineering 3 CR
The study of software development methodology, both procedural and object oriented. This is a project-based design course where teams develop software projects from requirements analysis through detailed design and testing. Umbrella activities such as configuration management, quality assurance, writing documentation, ethics and costing are covered. Automated software design tools are used and oral and written presentations required. Prerequisite: CS 311

CS 318 Project Course 3 CR
It is strongly recommended that students sign up for this course one semester before the graduating semester, because of the independent study/work involved. Students work with a faculty member in the department to define and implement an acceptable project. The student is required to write a report and is to make a public presentation of the work. Prerequisites: Senior status and permission from Computer Science Department

CS 319 Computer Ethics 3 CR
This course focuses on the ethical and social issues associated with computer technology such as privacy, theft, intellectual property, accountability, hacking and cracking, codes of ethics and professional responsibility. Students also examine philosophers such as Aristotle, Kant and Mill, as well as Virtue ethicists. This course is a Senior-level capstone course. It emphasizes both oral and written communication as students discuss and examine their own ethical beliefs. Prerequisites: Junior/Senior status, PH 101, RS 101 or permission of instructor

CS 331 Multimedia Applications 3 CR
This course aids in the understanding of multimedia authoring, incorporating text, graphics, sound and video. It discusses design and planning elements that go into multimedia development. Students use Director and its scripting language, Lingo, to choreograph media objects onto a stage using a score. It is designed for students with programming experience. Prerequisite: CS 112

CS 338 Systems Analysis and Design 3 CR
An advanced design course that studies the application of computer solutions to business problems. This is a project-based course where teams set milestones and present object-oriented analysis and design of their solutions. Oral and written
presentations are required and automated software tools are used. Prerequisite: CS 312

**CS 339 Networking and Data Communication** 3 CR
The study of networks and data communication concentrating on the first four levels of the OSI model including physical, datalink, network and transport. This is a laboratory-based course that includes projects implemented in the SUN Networking Laboratory. Topics such as LANs, WANs and MANs; hardware, software, protocols, routing, circuit-switching and packet-switching networks, analog and digital systems, compression and error handling are among those studied. Students use a simulation package to design and simulate networks. Prerequisites: CS 338 or CS 341 and Senior status

**CS 341 Analysis of Algorithms** 3 CR
Emphasis on theory and techniques underlying the analysis of algorithms including big/little-Oh, graphs and networks, searching, sorting, recursion and classical algorithms. Prerequisites: CS 112 and MA 151

**CS 348 Programming in Unix** 3 CR
Discusses main issues of Unix OS programming and administration. Explores the popular Unix text editor Emacs, Unix file system, process manipulation, regular expressions and their uses, filters, and system administration and security. Prerequisites: CS 241 and CS 341

**CS 349 Operating Systems** 3 CR
Examines resource management, including memory allocation and management, virtual memory, process scheduling, protection, deadlock and concurrency, case studies and multiprocessing. Prerequisite: CS 341

**CS 366 Object-Oriented Programming (OOP) in C++** 3 CR
Focuses on principles of OOP, including encapsulation, objects and classes, inheritance and polymorphism. This course covers the differences between C and C++ and includes a detailed discussion of C++ features such as classes, constructors, destructors, friends, exceptions, etc. Prerequisite: CS 241

**CS 367 Managing, Securing, and Designing Modern Networks** 3 CR
Focuses on wireless and mobile networks, multimedia networking, network management infrastructure, configuration management, network security, cryptography, authentication, access controls, network design (OpNet), designing network performance. Prerequisite: CS 339

**CS 368 Hands-on Network Security** 3 CR
Focuses on networking security topics, firewalls (using Linux), packet filters, NAT and PAT, public key infrastructure (using Microsoft Certification Server), encryption algorithms, decrypting passwords, dictionary decryption, brute force decryption, certificate servers, vulnerability assessment, identifying security holes, forensics. Layer 5 vulnerabilities, packet monitoring. Prerequisite: CS 367

**CS 371 Advanced Computer Graphics** 3 CR
A game oriented programming course focusing on advanced graphics techniques using OpenGL and/or DirectX. Prerequisite: CS 272

**CS 372 Fundamentals of Game Design** 3 CR
In this class we explore how logic and creativity work together in the well designed computer game. Topics include: genres of games; character development and gameplay; new and developing gaming concepts; creation and use of gaming engines; the role of sound and music; teaching a game to think. Prerequisite: CS 371
Criminal Justice

The Criminal Justice program provides students with a comprehensive understanding of the criminal justice system, which consists of public and private police, courts and corrections.

The course of study enables the graduate to pursue a career in law enforcement, correctional security and counseling, probation, parole, court administration, personnel management in various criminal justice agencies or private security. The program also prepares students to enter law school or graduate school in the social and behavioral sciences. It provides an excellent opportunity for criminal justice personnel, and community and junior college graduates, to obtain a bachelor’s degree in Criminal Justice. Applicants who have completed the municipal, state or FBI training may apply for advanced standing.

MAJOR IN CRIMINAL JUSTICE

The major in Criminal Justice requires the completion of 36 credits of Criminal Justice courses and 6 credits of required supporting courses.

Required Courses

CJ 101 Introduction to Criminal Justice
CJ 120 Crime and Criminal Behavior
CJ 201 Criminal Law
CJ 253 Criminal Justice Ethics
CJ 381 Research Methods in Criminal Justice

Choose 3 of the following:

CJ 200 Constitutional Law
CJ 220 Introduction to Corrections
CJ 251 Criminal Courts and Discretion
CJ 270 Issues and Problems in Criminal Justice

Elective Course Requirements

12 credits of Criminal Justice electives are required for the major. Elective course selections are made in consultation with an advisor.

Corrections Courses

CJ 213 Probation and Parole
CJ 216 Juvenile Justice
CJ 220 Introduction to Corrections
CJ 223 Interviewing and Counseling
CJ 390 Internship

Law Enforcement Courses

CJ 230 Introduction to Law Enforcement
CJ 231 Criminal Investigation
CJ 232 Police-Community Relations
CJ 235 Law of Evidence
CJ 239 Police Administration and Supervision
CJ 390 Internship

Security Courses

CJ 247 Security Administration
CJ 248 Introduction to Fraud Examination
CJ 390 Internship

Required Supporting Courses

CS 100 Introduction to Information Technology
MA 131 Statistics for Decision Making

MINOR IN CRIMINAL JUSTICE

The minor in Criminal Justice requires the completion of the following 18 credits

Required Courses in the Minor

CJ 101 Introduction to Criminal Justice
CJ 120 Crime and Criminal Behavior
Four Criminal Justice electives
COURSE DESCRIPTIONS

C J 101 Introduction to Criminal Justice 3 CR
Provides an overview of the criminal justice system and its processes.

C J 120 Crime and Criminal Behavior 3 CR
This course uses an interdisciplinary perspective to examine the causes, measurement, patterns and the effects of socioeconomic status on crime and criminal behavior.

C J 200 American Constitutional Law 3 CR
Focuses on the development of the Constitution through interpretations of the U.S. Supreme Court. A study of civil rights and civil liberties. Prerequisite: C J 101

C J 201 Criminal Law 3 CR
Substantive aspects of criminal law with emphasis on statutory criminal law. Examines the purpose and goals of criminal law and the historical development of its basic concepts. Prerequisite: C J 101

C J 211 Women and the Law 3 CR
Traces the development of sex discrimination as a legal and social phenomenon. The law is covered in terms of its historical perspective. Prerequisite: C J 101

C J 213 Probation and Parole 3 CR
Teaches the application of probation, pardon and parole methods for both juveniles and adults. Analyzes the most effective methods and techniques as they apply to these services. Prerequisite: C J 101

C J 216 Juvenile Justice 3 CR
Includes an in-depth examination of the juvenile justice system, its history and its practices. The course also examines the nature and causes of juvenile delinquency, sociological factors that influence such behavior, typologies of juvenile offenders, and current trends in the control of such behavior. Prerequisite: C J 101

C J 220 Introduction to Corrections 3 CR
A general overview of the corrections system including the historical development of control of human behavior in society. Analysis of the major issues confronting corrections. Prerequisite: C J 101

C J 223 Interviewing and Counseling 3 CR
Practice-oriented course designed to provide the basic techniques of counseling and interviewing. Prerequisite: C J 101

C J 224 Women and the Criminal Justice System 3 CR
Explores the changing roles of women in the criminal justice system. The course focuses on women offenders, women victims and women criminal justice professionals. Prerequisite: C J 101

C J 230 Introduction to Law Enforcement 3 CR
A study of investigative techniques, sources of information and an analysis of the relationships of investigative units with other law enforcement units and agencies. Prerequisite: C J 101

C J 232 Police–Community Relations 3 CR
Examines various human relations issues that affect policing and police management. Also explores programs established by the police in community relations and community involvement in police policies. Prerequisite: C J 101

C J 235 Law of Evidence 3 CR
An explanation and analysis of the rules of evidence. Examines court decisions concerning the rights of citizens and the rules for giving testimony and the protecting and safeguarding of evidence. Prerequisite: C J 101
CJ 239 Police Administration and Supervision 3 CR
Examines management principles as they apply to police organizations. This course includes discussion on the organization and management of police personnel at all levels of operation, leadership styles, policy formation and the internal control of the organization. Prerequisite: CJ 101

CJ 240 Introduction to Security 3 CR
Discusses the historical, theoretical and legal bases of security, including the purpose of security in modern society, ethics and security, standards and goals for the security industry. Prerequisite: CJ 101

CJ 242 White-Collar Crime 3 CR
Examines the parameters and magnitude of white-collar crime and the literature that has been proffered as explanation for it. Prerequisite: CJ 101

CJ 243 Private Security Law 3 CR
Examines the relationship between the law and private security operations and criminal law principles of particular concern to security personnel. Prerequisite: CJ 101

CJ 246 Organized Crime 3 CR
Explores how organized crime is structured and how it can be controlled. The impact of organized crime on major crimes is also assessed. Prerequisite: CJ 101

CJ 247 Security Administration 3 CR
Presents an overview of security operations in both the public and private sectors. This course includes an examination of loss prevention strategies and safety and fire prevention programs. Prerequisite: CJ 101

CJ 248 Introduction to Fraud Examination 3 CR
Examines the legal elements of fraud and fraud investigation. This course also explores the methods of preventing, detecting, and deterring fraud in organizations as well as preserving the chain of custody for the court and compiling evidence for court proceedings. Prerequisite: CJ 101

CJ 250 Crisis Intervention for Public Safety Personnel 3 CR
Examines the concepts and techniques used by criminal justice practitioners in handling crisis situations. Deals with limited, on-site crisis intervention provided by those first to respond. Prerequisite: CJ 101

CJ 251 Criminal Courts and Discretion 3 CR
Examines the criminal courts as the fulcrum of the criminal justice system. Emphasis on the actual mechanics of the system and the decision making of its functionaries. Prerequisite: CJ 101

CJ 252 Comparative Criminal Justice Systems 3 CR
Examines how culture, history and economics influence legal systems and the treatment of offenders in various countries. Prerequisite: CJ 101

CJ 253 Criminal Justice Ethics 3 CR
Examines the fundamentals of ethical theory, controversies and rules of moral judgment as they relate to criminal justice practitioners. Prerequisite: CJ 101

CJ 255 Constitutional Rights of Prisoners 3 CR
Examines the constitutional rights of prisoners focusing on recent Supreme Court rulings. The Eighth Amendment and its application to prisoners and prison officials are analyzed and discussed through court cases and current events. Prerequisite: CJ 101

CJ 256 Criminalistics 3 CR
An introduction to forensic science, this course examines the application of forensic science to criminal investigations as well as the techniques of the crime lab through actual and case histories. Prerequisite: CJ 101
CJ 257 Serial Killers and Profilers 3 CR
An introductory study of the topic of serial killers and criminal profiling. Analyzes both the individual and collective sociological, psychological and emotional aspects of serial killers in an effort to determine why they kill. Prerequisite: CJ 101

CJ 270 Issues and Problems in Criminal Justice 3 CR
Description and analysis of crucial issues and problems relating to selected structure and processes in the criminal justice system. Prerequisite: CJ 101

CJ 299 Special Topics in Criminal Justice 3 CR
Designates new or occasional courses that may or may not become part of the department’s permanent offerings. Consult the current course schedule for available topics and prerequisites. Prerequisite: CJ 101

CJ 381 Research Methods in Criminal Justice 3 CR
Examines the methods of research and the types of data used to develop an understanding of criminal behavior and to create and change policy in the criminal justice system. Prerequisites: CJ 101, MA 131, CS 100

CJ 304 Catholic Intellectual Tradition and the Criminal Justice System 3 CR
Exploration of the Catholic Intellectual Tradition. Catholic social teaching and the intersection of contemporary issues and policies of the criminal justice system are examined. Prerequisites: CJ 101, CJ 120, CJ 201

CJ 390 Internship 3–6 CR
Supervised placement in a criminal justice agency. Prerequisite: Permission of department chairperson

English

The major in English is concerned with the attempt to communicate, both orally and in writing. A variety of courses in literature, writing, speech/communications and drama is offered to develop skills for reading analytically, writing clearly and effectively, and expressing thoughts cogently, while providing a foundation experience in a broad spectrum of literature.

Selections from the wide range of courses within the major and its five concentrations, along with related studies in other areas, will prepare the English major for graduate school, for the professions (teaching, law, medicine), for business and industry (advertising, company writing, editing, personnel relations, press relations, sales) and for the arts (acting, radio/TV, journalism and cinema).

MAJOR IN ENGLISH

The major in English requires the completion of 39 credits and is organized to include the major core of 24 credits, plus 15 credits taken in one of five areas of concentration: Communications, English Education, Literature, Theater, or Writing.

Required Courses for All English Concentrations

EN 121/122 The British Tradition I/II
EN 131/132 American Voices I/II
EN 265 Shakespeare
EN 375 Advanced Composition
Two Literature offerings from the 200 level or above, one of which must deal with literature written prior to 1900.

Policy Statement Regarding the English Major Survey Courses

The four English survey courses—EN 121, 131, 122, and 132—are foundational to the English major and must be taken by every English major, irrespective of concentration, usually in his/her sophomore year. The courses must be taken in sequence over two semesters. Until they have been taken, no upper-level literature course, except for EN 390, Studies in Literary Criticism: Special Topics, may be taken. Upper-level literature courses cannot be taken simultaneously with any one of the survey courses. But any Communications course or writing course may be taken at the same time as the surveys.

Like all major courses, the four surveys must be passed with a grade of "C" or higher to count toward satisfying major requirements. These courses cannot be repeated. Students are given only one chance to pass them. (A student withdrawing within the first couple of weeks would not be deemed to have "taken" the course and consequently could sign up to take it at a later time.)

After passing all four of the surveys, students will be eligible to enroll in virtually any English course.

A student failing to receive at least a grade of "C" in any of the survey courses should consult with the chair of the department.

Additional Required Courses for Communications Concentration

CA 321 Advanced Effective Communication
Four courses from the following:
CA 171 Acting I
CA 231 Interpersonal Communication
CA 261 Public Speaking
CA 270 Nonverbal Communication
CA 271 Acting II
CA 280 Oral Interpretation of Literature
CA 299 Special Topics in Oral Communication
CA 375 Theater Practicum
CA 399 Special Topics in Communications or Theater

Additional Required Courses for English Education Concentration

The concentration is used only by Education minors. Required courses:

Elementary Education

EN 207 History and Structure of the English Language
EN/ED 387 Children's Literature
CA 280 Oral Interpretation of Literature
Two electives in Communications or English, in consultation with English academic advisor.

Secondary Education

EN 207 History and Structure of the English Language
MS 101 Introduction to Media Studies
EN 380 Rhetoric and Composition Pedagogy
EN 390 Literary Criticism
Elective, in consultation with English academic advisor.

Additional Required Courses for Literature Concentration

EN 390 Studies in Literary Criticism: Special Topics
Four courses from the 200-level or higher literature offerings exclusive of courses used to fulfill the English major core requirements

Students taking a concentration in Literature are urged to elect advanced
studies in related disciplines such as Fine Arts, History, Media Studies, Philosophy, Psychology and Religious Studies.

**Additional Required Courses for Theater Concentration**

CA 141 Introduction to Theater  
EN 230-239 Studies in Drama: Special Topics (one course)  
Three courses from the following:  
CA 171 Acting I  
CA 271 Acting II  
CA 375 Theater Practicum (may be taken 3 times for credit)  
CA 380 Play Directing  
CA 399 Special Topics in Communication or Theater (when topic relates to theater)

**Required Courses for Writing Concentration**

Five courses from the following:  
EN 170 Journal Writing  
EN 171-179 Studies in Writing: Special Topics  
EN 175 Introduction to Creative Writing  
EN/MS 211 Introduction to News Writing and Reporting I  
EN 270-274; EN 276-279 Studies in Creative Writing  
EN 275 Developing a Writing Voice  
EN/MS 311 News Writing and Reporting II  
EN/MS 333 Screenwriting  
EN 371-379 Studies in Writing: Special Topics  
EN 380 Rhetoric and Composition Pedagogy  
EN 399 Independent Study/Internship*  
*No more than one internship may be taken for major credits.

**Supporting Courses for the English Major**

All English majors must complete one year (two consecutive semesters) of a Modern Foreign Language.

**MINOR IN ENGLISH**

The minor in English requires the completion of 18 credits in the following areas of concentration: English and Theater.

**Required Courses for English Minor**

Three upper-level literature courses  
One upper-level writing course  
One upper-level Communications course (either communications or theater)  
One free elective from among upper-level English and Communications courses

**Required Courses for Theater Minor**

CA 141 Introduction to Theater  
EN 265 Shakespeare  
EN 230-239 Studies in Drama: Special Topics (one course)  
Three courses from the following:  
CA 171 Acting I  
CA 271 Acting II  
CA 375 Theater Practicum (may be taken 3 times for credit)  
CA 380 Play Directing  
CA 399 Special Topics in Communication or Theater (when topic relates to theater)

**ASSOCIATE IN ARTS GENERAL STUDIES**

Emphasis Requirements (15 credits)  
One British literature course, one American literature course and three English electives. EN 121, EN122, EN 131, EN 132 will not fulfill the AA requirements.

**COURSE DESCRIPTIONS**

*Note: Students must complete the Sacred Heart University English Placement Proficiency Exam before they are allowed to register for EN 109 or EN 110. Placement is based on a combination of high school GPAs, decile, rank, SAT and AP scores as well as on the three-part English Placement Proficiency Exam. The University's objective is to place every student in the appropriate English proficiency level in order to maximize student achievement and success.*

Once placement has been determined, the student is obliged to accept his/her placement and course sequence. The University deems this policy crucial in
meeting the needs of the student and for his/her success in college. Additional testing is required for students identified for English as a Second Language (ESL) placement.

ENCC102 Literary Expressions of The Human Journey 3 CR
ENCC102 is part of Sacred Heart University's common core sequence The Human Journey. This course will address the four fundamental questions of human meaning and value that serve as the unifying frame for all the courses in The Common Core. In ENCC102 we will read and examine significant works of literature. We read serious literature because it presents us with images of, dramatizes for us, or tells us stories about ourselves, our human experience throughout time, and the way we live. This course engages students in conversations about these literary stories, images, and dramatizations. We will critically and analytically read and examine works of literature from different cultures – western and non-western, including Catholic, and from different time periods – classical to contemporary, with an aim toward understanding and appreciating how these very different works give us insight in the four core questions.

EN 101 Approaches to Literature 3 CR
An introduction to the experience of literature, including fiction, poetry and drama. Introduces critical techniques, critical and technical vocabulary and a broad spectrum of critical approaches. It also requires written work and introduces research tools specific to literature. This is not a required course for English majors. Prerequisite: EN 110. Not available to students entering after July 1, 2007.

EN 109 Introduction to Rhetoric 3 CR
Introduces the student to rhetorical strategies and techniques for clear and effective writing. Stresses the recursive nature of writing, encouraging students to think of writing as a means to generate thinking and enhance learning as well as to communicate. English Placement/Proficiency Exam required. Students must pass this course with a grade of C or better.

EN 110 Academic Writing 3 CR

Foreign Languages and Cultures

The Department of Foreign Languages and Cultures is oriented toward developing students' linguistic abilities as well as providing a broad knowledge of foreign cultures and literatures. Communicative competence and oral proficiency are stressed in language classes, but all skill areas (reading, writing, listening, and speaking) are developed. Multimedia tools (DVDs, CDs, Internet sources) are integral to the methodology. The program also provides offerings in literature (including comparative literature and literature in translation), culture and civilization, linguistics, history, and film. Advanced content courses encourage students to think critically about foreign languages and cultures. These courses incorporate textual and linguistic analysis, as well as the examination of the social, cultural, and historical context of the given country or countries.

Study abroad is encouraged. Sacred Heart University has its own study abroad programs in Spain, Italy, Ireland, and Australia. The University is also affiliated with institutions that offer study abroad opportunities throughout the world, including locations in France, Canada, and Latin America.
Students can pursue a major in Spanish as well as minors in French, Italian, and Spanish. Courses are also offered in Arabic, Chinese, Japanese and Latin.

**MAJOR IN SPANISH**

The major in Spanish requires the completion of 33 credits.

**Required Courses for Major**

- SP 201* Advanced Spanish Composition and Grammar I
- SP 202 Advanced Spanish Composition and Grammar II
- Three courses in Spanish literature: one in Peninsular literature, one in Latin American literature, and one in either.
- Three courses in culture, civilization, and contemporary issues: one dealing with Spain, one dealing with Latin America, and one with either. Three Spanish electives, beyond the 200 level.

*For students placed into courses above this level, the required 33 credits will be completed through more advanced coursework.

Spanish majors seeking to pursue a 5th-Year Masters in Education must demonstrate oral and written proficiency in Spanish by their undergraduate senior year. The Department requires that these students take the ACTFL (American Council of the Teaching of Foreign Languages) Oral Proficiency Interview and the Writing Proficiency Test at the end of their junior year. If the student does not achieve a level of intermediate high in both tests, as required by the State of Connecticut, he/she must meet with an advisor and to discuss the possibility of studying abroad. Students in this situation may retake the exam during their senior year. Both exams can be taken at Sacred Heart University with one of the Spanish professors acting as proctor. For more information on these tests, check the ACTFL testing website at www.languagelearning.com.

Global Studies

GLOBAL STUDIES MINOR
The interdisciplinary 18-credit minor in global studies is designed to prepare students for a rapidly changing, increasingly complex and global interdependent world. The Internet, multinational corporate power,
international trade and international peacekeeping commitments, political and economic organizations of global magnitude, as well as the migration and integration of population groups from diverse religious, cultural and ethnic backgrounds, are clear indicators of a planet in a state of dramatic transition. Economics, politics and more generally the people of this world are becoming closely linked and interconnected. Sacred Heart's Global Studies minor is therefore a timely practical response to the unpredictable, but exciting, challenges of the 21st century.

Requirements

Students who minor in Global Studies must complete 18 credits, including a mandatory 3-credit course GS 150: World Geography. The remaining 15 credits are distributed over at least three of the five clusters, with not more than 6 credits per cluster.

In addition, students who minor in Global Studies must demonstrate competency in a foreign language at the intermediate level.

Coursework and Groupings

The following courses have been preapproved. New electives in these fields must be approved by the director of the Global Studies program and the chair of the Department of History. Approval will be based on the centrality of the course topic with respect to issues that are global interest.

COURSE DESCRIPTIONS
Note: each course at the 200 level is open to students who have taken HICC 101 or instructor’s permission, and each course at the 300 level is open only to students who have had HICC 101 and are in their sophomore year or higher or have permission of the instructor.

† HICC101 The Human Journey: Historical Paths to Civilization 3 CR
HICC101 is part of Sacred Heart University’s Common Core, The Human Journey. Framed by the Common Core’s four fundamental questions of human meaning and value, this course is designed to provide first-year college students with an understanding of the elements of Western Civilization from the ancient world to the end of the Renaissance, including the Catholic intellectual tradition. HICC101 will also provide students with sufficient knowledge of the history and culture of a non-western civilization (China) to allow for meaningful comparison of the two cultures. Primary texts will be used to bring students into close contact with the main thinkers of the period and to show how historians use written records to interpret the past.

HI 202 Europe and the World 3 CR
This course provides an introduction to the historical development of Europe from the Renaissance in the context of world history. Through the study of European colonialism, world wars and capitalist economic expansion, students are presented with the global nature of the history of the West.

†HI 207 History of Latin America to 1826 3 CR
Examines the Spanish and Portuguese conquest and empire building, culture and society during the colonial age and the disintegration of the empires by 1826.

†HI 208 History of Latin America since 1826 3 CR
Examines the historical development of Latin America beginning with the wars of independence to the end of the 21st century. Topics include Latin America and the world economy, 20th-century revolutions, the emergence of mass politics, the changing role of religion and foreign relations.

†HI 209 The U.S. and Latin America through History 3 CR
Traces the connections between the two regions from the colonial period to the present. Topics covered include political, economic and diplomatic relations, border conflicts, immigration; and questions of identity.

†HI 212 Twentieth-Century Latin America 3 CR
An in-depth study of the changes in Latin America during the 20th century. Examines the major issues from the Mexican Revolution of 1910 to the Cuban Revolution of 1959 as well as current problems. Topics include dependency, Marxism, Peronism, neo-liberalism, and social and political change in the region.

†HI 216 Princes to Peasants 3 CR
A survey of European social history from the 14th century to the late 19th century. Emphasis on the household and family, gender, social class and rank, the body and death and material and daily life.

†HI 218 Modern France 3 CR
Follows the political, economic and religious developments from 1789 to the 1960s. It examines the last monarchy under Louis Philippe, the rise of democracy by 1848 and numerous political factions and World War I and II, culminating in the person of Charles de Gaulle. Attention is given to continuity and change to understand the character of France.

†HI 221 Politics and Society in Colonial America 3 CR
Explores the cultural, social and political history of the British North American colonies from the eve of the first contact of indigenous and colonizing cultures to the
American Revolution (roughly 1492–1783).

**tHI 222 (Formerly 121) United States History to 1865 3 CR**
Examines American development from the period of exploration to the conclusion of the Civil War. Major themes include colonial society, the Revolution, 19th-century expansion and economic growth, slavery, and the War for the Union.

**tHI 223 (Formerly 122) United States History since 1865 3 CR**
Analyses United States development from Reconstruction to the present, examining major social, political, economic, and foreign policy developments and their impact on American life.

**tHI 224 (Formerly 222) Freedom in American History 3 CR**
Examines the history of freedom in America as a contested ideal. Treatment of blacks in slavery and the political rights of women are among the topics covered.

**tHI 229 (Formerly 129) History of Sports in America 3 CR**
Examines the development of major spectator sports in America from their fragmentary, localized beginnings to their highly organized and enormously powerful present condition.

**tHI 230 The Civil War 3 CR**
Examines an epic and transformative period in U.S. history from a multidimensional perspective. The clash of arms, military and civilian leaders, lives of ordinary soldiers and civilians, politics and economies of the Union and Confederacy, and "new birth of freedom" that ended slavery are reviewed and discussed.

**tHI 231 The Cold War and American Society 3 CR**
Explores the roots and development of the Cold War between the United States and U.S.S.R. (1946–91); its impact on American social, political, economic and cultural values and practices; and some of its long-term consequences for the nation's society and place in the world.

**HI 234 Catholics in American Society 3 CR**
This course focuses on the social and cultural history of American Catholics beginning with the earliest contact between native Americans and European colonists to the relationship between Catholics and other religious groups, as well as within American Catholic communities up to the present day.

**tHI 236 History of the Arab World I: From Muhammad—Ottoman Empire 3 CR**
A study of the rise of Islam and the emergence of the Arabs as a world power. Discussion focuses on the achievements of Muhammad, the institution of the caliphate, Umayyad and Abbasid empires, Crusades and decline of Arab influence in the Near East under the pressure of Turkish expansion.

**tHI 238 The Modern Arab World 3 CR**
This course begins with the breakup of the Ottoman Empire and delineates the rise of the Arab states in recent times.

**tHI 252 Medieval Europe 3 CR**
Topics include Feudalism and Christendom, Islam and the Crusades, the Carolingian Empire and the rise of national states. Important elements include art and architecture, cosmology and alchemy, hierarchy, the rise of the early Renaissance, as well as different types of work and "callings."

**tHI 253 History, Art, and Culture in the Low Countries 3 CR**
This course examines the history of the Low Countries through art and written texts from 1400 to 1850. It also compares and contrasts the development of Flemish and Dutch art and literature and shows how religion played an important part in the formation of early-modern Low-Country culture.
**tHI 276 The Rise of Modern Science**  
3 CR  
Starting with their origins in the Scientific Revolution of the 16th century, this course presents the major scientific developments in Western life and their impact on society. Topics include the Copernican Universe, Darwinian biology and several major scientific advancements in the 20th century.

**tHI 281 Introduction to the Civilization of East Asia**  
3 CR  
An overview of the history of China and Japan from prehistoric times to the late traditional period (approximately 1800). Intended to enhance students' appreciation of the uniqueness and coherence of these two ancient civilizations.

**tHI 283 The History of Modern China to 1920**  
3 CR  
Presents the history of modern China from approximately 1800 to 1920 emphasizing the decay of traditional culture and the Chinese response to the West.

This course, for second-semester Juniors, is designed for students to begin working on their Senior Thesis projects (HI 398). Prerequisites: HI 301 and IL 302

HI 398 Senior Thesis 3 CR
Students are exposed to the experience of researching, writing and defending a major historical project. Permits students to learn, on a one-to-one basis with a project director, the importance of critical analysis and writing within the disciplines of history.

†HI 399 Independent Study 1–3 CR
Directed study of a specific, well-defined topic, by special arrangement with an instructor and with the prior approval of the department chairperson.

Information Literacy

COURSE DESCRIPTIONS

IL 101 Introductory Information Literacy 1 CR
This course, which meets once a week for nine weeks, acquaints the student with the process of finding, retrieving, organizing, evaluating, using, and distributing information in an ethical manner both in print and electronic formats. Focus is on gaining the necessary skills to conduct research effectively and efficiently as well as being able to properly evaluate and cite sources.

IL 302 Information Literacy for History Majors 1 CR
This course meets once a week for 10 weeks. Each class is one hour and fifteen minutes long. The course is designed to acquaint History students with the process of finding, retrieving, organizing, analyzing, using, and distributing information both in print and electronic formats for the purpose of preparing for and completing their Senior Thesis. Focus is on using the resources provided to create a working bibliography in conjunction with the Senior Thesis (HI 398). Prerequisite: HI 301
Latin American Studies

LATIN AMERICAN STUDIES MINOR
In keeping with students' interest in global and multicultural issues, Sacred Heart University offers an interdisciplinary minor in Latin American Studies. The minor should be particularly attractive to students majoring in Economics, History, Political Science, Business and International Business and Spanish. This minor is also of benefit to students who wish to apply to a graduate program in Latin American Studies or who wish to enhance their prospects in the job market by linking a disciplinary major with a regional specialization.

Requirements
Requirements include six courses, three of which must be from three different disciplines selected from approved courses in Anthropology, Economics, English, History, Music, Political Science and Spanish. Students who minor in Latin American Studies must demonstrate competency in Spanish or Portuguese at the intermediate level.

Coursework
The following courses have been preapproved. New electives must be approved by the director of the Latin American Studies program and the chair of the Department of History. Approval will be based on the centrality of the course topic with respect to the study Latin America.

Mathematics

The primary objective of the Mathematics program is to provide an appropriate mathematical background to all University students, focusing on the ability to think critically and solve problems through oral and written communication, in order to foster quantitative literacy.

In addition, the Mathematics program is designed to:
• Provide Mathematics majors with the basic undergraduate mathematical knowledge necessary for graduate studies, a teaching career or a variety of statistical or business careers.
• Provide Science and professional majors with the mathematical and statistical background for their fields and highlight the wide applicability of mathematics.
• Provide Business majors with a foundation in finite mathematics and calculus and illustrate the relevance of mathematics to increasing complexities of the business world.
• Provide Liberal Arts majors with an introduction to mathematical ideas and promote an appreciation and understanding of the important role of mathematics.

The strengths of the department include small class sizes in developmental and major courses, emphasis on student/faculty interaction and classroom
instruction utilizing relevant software and technology.

Sacred Heart University is an institutional member of the Mathematical Association of America, as well as the American Mathematical Society.

Requirements (16 credits)

MA 140 Precalculus
MA 151 Calculus I
MA 152 Calculus II
MA 261 Linear Algebra

COURSE DESCRIPTIONS

MA 006 Intermediate Algebra 3 CR
Explores the real number system, exponents and radicals, polynomials, rational expressions, linear and quadratic functions and their graphs. Does not carry degree credit. A grade of C or better is required. Prerequisite: Mathematics Placement Exam

†MA 101 Modern College Mathematics I 3 CR
Examines systems of numeration, the real number system, finite mathematical

150
systems, number theory, sequences and basic financial mathematics. **Prerequisite:** C or better in MA 006 or placement by Mathematics Department

**tMA 102 Modern College Mathematics II** 3 CR
Systems of linear equations, inequalities, probability and introductory statistics.

**tMA 104 Mathematics for Elementary School Teachers** 3 CR
This one-semester course is designed specifically for students planning to teach at the elementary school level. Topics include geometry, measurement, rational numbers, ratio, proportion, percents, problem solving, mathematical reasoning and connections, probability and statistics. **Prerequisite:** MA 101

**tMA 105 Mathematical Applications for Health Sciences** 3 CR
Designed exclusively for Nursing students. Topics include college-level algebra, graphing, basic trigonometric functions and appropriate applications for the health sciences. It is a problem-solving approach to mathematics. **Prerequisite:** MA 101

**tMA 106 College Algebra** 3 CR
This is one-semester course is designed to improve algebraic skills. Topics include: functions, equations and inequalities in one variable; linear, quadratic, polynomial and rational functions, exponential and logarithmic functions; systems of linear equations in two variables. Algebraic techniques and applications are stressed. **Prerequisite:** Placement by Mathematics Department

**tMA 109 Mathematics for Decision Making** 3 CR
Designed specifically for the Business major. Focus is on linear functions, systems of equations, matrices, probability and linear programming. **Prerequisite:** C or better in MA 006 or placement by Mathematics Department

**tMA 110 Calculus for Decision Making** 3 CR
Designed specifically for the Business major. Includes study of limits; differentiation of algebraic, exponential and logarithmic functions; integration; and applications of calculus. **Prerequisite:** MA 109 or placement by Mathematics Department

**tMA 131 Statistics for Decision Making** 3 CR
Emphasizes the use of computer software. Descriptive statistics, probability distributions, confidence intervals, correlation and hypothesis testing are studied. **Prerequisite:** One college-level Mathematics course or placement by Mathematics Department

**tMA 133 Business Statistics** 3 CR
Introduces statistics to Business majors. Problem-oriented course discussing the use of statistics, frequency distribution, probability sampling, hypothesis testing, correlation analysis, linear regression analysis and graphic representation of statistical data using Excel. **Prerequisites:** One college-level Mathematics course or placement by Mathematics Department

**tMA 140 Precalculus** 4 CR
Addresses the algebra of functions, polynomial and rational functions, exponential and logarithmic functions and trigonometric functions, including analytical trigonometry. **Prerequisite:** MA 106 or placement by Mathematics Department

**tMA 151 Calculus I** 4 CR
Explores limits and approximation, differential and integral calculus of the elementary algebraic and transcendental functions, applications of differentiation and integration. **Prerequisite:** MA 140 or placement by Mathematics Department

**tMA 152 Calculus II** 4 CR
Covers applications and methods of integration, inverse trigonometric functions, improper integrals, sequences
and series, parametric representation and polar coordinates. *Prerequisite:* C or better in MA 151

**MA 253 Calculus III** 4 CR
Introduces three-dimensional analytic geometry, multivariable calculus, real-valued functions of several variables, limits and continuity, partial derivatives, multiple integration. *Prerequisite:* C or better in MA 152

**MA 261 Linear Algebra** 4 CR
Focuses on sets and linear mappings, vector spaces and subspaces, inner product spaces, matrix theory, determinants and eigenvalues. *Prerequisite:* C or better in MA 152

**MA 299 Special Topics in Mathematics** 3 CR
Designates new or occasional courses on a timely topic or a faculty member's particular interest. Course title is shown on the student's transcript. Consult the current course schedule for available topics and current prerequisites.

**MA 301 Mathematical Structures and Proofs** 3 CR
Introduces students to the understanding and creation of rigorous mathematical arguments and proofs. Includes methods of proof, set theory, relations and functions, properties of the integers, real and complex numbers and polynomials. *Prerequisite:* Sophomore standing or C or better in MA 152

**MA 311 Geometry** 3 CR
Designed specifically for students interested in education. Includes study of axiomatic systems, Euclidean and non-Euclidean geometry, projective geometry, incidence and separation properties in 2 and 3 space, and inversion in a circle and in a sphere. Junior standing or permission of Mathematics Department

**MA 320 Graph Theory** 3 CR
Focuses on structures and properties of graphs and their applications. Topics include: traversability, trees, connectivity, network flow, graph coloring, chromatic number and planarity. Discussion of application of graph theory to computer science, transportation, scheduling, communication, chemistry and a variety of other fields. *Prerequisite:* C or better in MA 301

**MA 331 Probability and Statistics I** 3 CR
Addresses probability, discrete random variables and their distributions. Applied approach to estimation, correlation, regression and hypothesis testing. *Prerequisite:* C or better in MA 152

**MA 332 Probability and Statistics II** 3 CR
Focuses on continuous random variables and their distributions, multivariate distributions, expectation, theory of estimation, method of moments and of maximum likelihood. *Prerequisites:* MA 253 and MA 331

**MA 354 Differential Equations** 3 CR
Focuses on equations involving functions and one or more of its derivatives. Examines first-order differential equations, numerical and qualitative techniques for solving differential equations, linear systems, geometry of linear systems, and applications to forcing/resonance. If time permits, the course will address the Laplace Transform, convolutions, and advanced numerical methods for solving differential equations. *Prerequisite:* C or better in MA 253

**MA 362 Abstract Algebra** 3 CR
Explores algebraic systems, group theory, quotient structures, isomorphism theorems, ring theory and ideals, as well as integral domains and fields. *Prerequisite:* C or better in MA 301

**MA 371 Real Analysis** 3 CR
Addresses real numbers, cardinality, metric spaces, convergence, topology, continuity and differentiability. *Prerequisites:* C or better in MA 301 and Senior standing
MA 372 Complex Analysis 3 CR
Examines the algebra and geometry of complex numbers, analytic functions, integration, Taylor and Laurent series, contour integration, analytic

MA 398 Senior Seminar 3 CR
Capstone course for the mathematics major. Each student works on a research project leading to an oral presentation and the writing of a formal paper. Prerequisite: Senior standing

Media Studies

Media Studies is a program offering a major that combines the study of communications theory and technology with the liberal arts and which examines the theories behind contemporary communication in print journalism, radio and television broadcasting, still photography, film, digital media and the Internet.

The program recognizes that the student must be competent in techniques of production and must understand the historical, social and philosophical aspects of media. Media courses aimed at developing basic competence in multimedia production are an integral part of the program.

FACULTY
James Castonguay, Ph.D.
Associate Professor
Debbie Danowski, Ph.D.
Associate Professor
Gregory Golda, M.Ed.
Clinical Instructor
Sidney Gottlieb, Ph.D.

Assistant Professor

MEDIA STUDIES FACILITIES
The Media Studies multiple-purpose studios are used for digital video, television and audio/radio production. The complex features a multicamera studio, with a lighting grid, surround sound, chromakey, and multitrack audio recording that broadcasts via closed-circuit cable throughout the campus. The studios further provide remote production capabilities in portable video equipment and digital video, with separate editing suites for nonlinear computer-based editing and DVD authoring. Multi-image slide/tape production equipment and digital still cameras offer students additional creative outlets.

MAJOR IN MEDIA STUDIES
The major in Media Studies requires the completion of 48 credits.

Required Courses
EN 375 Advanced Composition
MS 101 Introduction to Media Studies
MS 191, 192, 193, 195 or 197 History of the Motion Picture I, II, III, History of Broadcasting, History of Journalism
MS 201 The Art of the Moving Image
MS/EN 211 News Writing and Reporting I
MS 301 Reading Seminar in Media and Cultural Theory (Senior year)
MS 397 Senior Project I
MS 398 Senior Project II
One approved Literature course, 200 level or above

Eight electives are required of Media Studies majors. Three of these must be in media production courses and three must be in media history or theory. The two additional electives may be in history and theory or production.

Production (choose three)
MS 212 Radio Production I
MS 213 Video Production I
MS 214 Television Production I
MS 215–315 Digital Film & Video Production I, II
MS 216 Digital Photography I
MS 232 DVD and Multimedia Production
MS 288 Democratic Technologies
MS 294 Magazine Publication
MS 295 Television & New Media Journalism
MS 298 Advertising and Public Relations Production
MS 300 Special Topics in Media Production
MS/EN 309 Special Topics in News Production
MS/EN 311 News Writing and Reporting II
MS 312 Radio Production II
MS 313 Video Production II
MS 316 Digital Photography II
MS/EN 233 Screenwriting
MS/EN 370 Newspaper Publication
MS 395 Multimedia Field Production

Two Media Studies electives

COURSE DESCRIPTIONS

†MS 101 Introduction to Media Studies 3 CR
Introduction to media technology, examining the impact of radio, television, newspapers, still photography, film and the computer on the human condition. Trains the student to be a perceptive consumer of contemporary mass media by exploring how each medium codifies reality. Readings, screenings, and written assignments required.

†MS 191 History of Film I 3 CR
Introduction to the historical development of filmmaking from 1895 to 1945, highlighting the evolution of the film as a means of expression. Films from the past are shown at each class meeting followed by a discussion of several aspects of the film.

†MS 192 History of Film II 3 CR
History of the Motion Picture II covers from 1945 to 1975, including extensive screening of classic films. Readings, screenings, and written assignments required. May be taken out of sequence.

†MS 193 History of Film III 3 CR
This course covers the history of motion pictures from 1975 to the present, including extensive screening of classic and contemporary films. Readings.
screenings, and written assignments required. May be taken out of sequence.

**MS 195 History of Broadcasting** 3 CR
Explores the history of radio and television broadcasting, including financing of research, technological developments, regulation, structure of genres, the social context and values of programs, legal and political implications of national and international broadcasting and the effect on cultural identity and national sovereignty.

**MS 197 History of Journalism** 3 CR
Investigates the social history of American journalism from the penny press to the World Wide Web, including technological developments in news gathering and delivery, regulation and consolidation of the press, social and political implications of coverage, effects of changes in literacy and society, comparisons with other models and trends toward globalization.

**MS 198 History of Advertising and Public Relations** 3 CR
Provides a critical overview of the history, purpose, and various methods related to advertising and public relations. Students analyze the semantic and syntactic properties of ads and public relations campaigns from the consumer point of view with special emphasis on how they communicate persuasively. Readings, screenings, and written assignments required.

**MS 200 Mass Media: Special Subjects** 3 CR
An opportunity to study current communications topics revolving around the effects of mass media on individuals, communities and countries. Subjects are determined by their topical interest and importance. Course title is shown on the student's transcript. Consult current course schedule for available topics.

**tMS 201 The Art of the Moving Image** 3 CR
A study of the language of moving pictures. Unlike the linear sequence of speech and the written word, moving pictures create a simultaneity of sensory perception. Through an intensive study of experimental and feature films, this course explores the nature of the moving images and how they are organized to create a whole. Prerequisite: MS 101

**tMS/EN 211 News Writing and Reporting I** 3 CR
An introduction to basic news writing and journalistic reporting principles. Concepts of journalism provide a format for an analysis of the news media and the responsibilities of a journalist in today's society. Workshop sessions utilize the concepts in practical work. Prerequisites: EN 110 and MS 101

**MS 212–312 Radio Production I, II** 3 CR each
An introduction to basic radio production. Students prepare for the FCC third-class license, learn the audio control board and develop concepts of radio broadcasting. Because WSHU is integrated into the courses as a laboratory and program outlet, students are required to function as staff members. Prerequisite: MS 101

**MS 213 Video Production** 3 CR
An introduction to basic video theory and production technique. Classes focus on mastering technical elements of production and developing a familiarity with the grammar of the moving image. Students conceive and produce individual final video projects using portable equipment. Prerequisite: MS 101

**MS 214 Television Studio Production I** 3 CR
An introduction to multicamera studio production.

**MS 215–315 Digital Film & Video Production I, II** 3 CR each
An introduction to the basic techniques of cinematic composition and editing. Presents the basic administrative and aesthetic aspects of filmmaking. Prerequisite: MS 101
MS 216–316 Digital Photography I, II
3 CR each
First semester is an introduction to the fundamentals of digital photography. Topics include camera care and handling; visual literacy; composition; the nature of light, color, portraiture and experimental photography. Second semester is built around advanced techniques in digital production. Critical discussions on the photography of major artists supplements the practical work. A digital camera with manual operative is required. Students are responsible for processing costs. Prerequisite: MS 101

MS/BU 222 Sports Communications
3 CR
Focuses on the fundamentals needed to implement a program in sports information, publicity and promotions. Preparing of news releases; writing local and hometown features; publishing programs and brochures; compiling statistical breakdowns; dealing with the local, regional and national press; and promoting specific events, teams and individuals are included. Prerequisites: C or better in EN 011, EN 012, CA 021 and MS 101

MS 232 DVD and Multimedia Production
3 CR
An introduction to DVD multimedia production techniques. Focus is on mastering the technical elements of advanced digital video editing and DVD authoring technology and developing a familiarity with the grammar of multimedia more generally. Students develop and produce a variety of projects culminating in their own DVD portfolio. Prerequisite: Any other MS production course or permission of instructor

MS 233 Screenwriting
3 CR
An introduction to writing for fiction and nonfiction film and television. Topics include basic dramatic theory, narrative structure, characterization, dialogue, adaptation and the unique demands of the audio/visual media, as well as pragmatic matters of format and the marketplace. Prerequisites: EN 110 and MS 101

MS 280 Digital Culture
3 CR
Considers digital and technologically mediated environments as "mass media" in the tradition of film, radio or television. Using a variety of approaches, including historical, sociological, economic, technological, cultural and aesthetic, the course looks at questions such as how does the Internet codify reality? How are communities both created and thwarted? What are the characteristics of the global media culture? Readings, screenings, and written assignments required. Prerequisite: MS 101 or CT 101

MS 283 History of Photography
3 CR
The history of documentary still photography from its beginning in the 1840s through the present is studied. Focus is on analyzing the photographs, as well as the social and historical contexts in which they were made, to come to some conclusions about the nature of documentary photography. Students with photographic experience and equipment may, with the permission of the instructor, choose to do a documentary photography project instead of a final paper.

MS 287 Media and Democracy
3 CR
Examines the relationships between the mass media (film, television, newspapers and the Internet), the public and politics. Historical case studies analyze from ethical, economic, social, historical, aesthetic and technological perspectives how the media provide (or do not provide) a place through which people express their views as citizens in a democracy. Current media examples are also investigated. Readings, screenings, and written assignments required. Prerequisite: MS 101 or CT 101

MS 288 Democratic Technologies
3 CR
Focuses on the creative use of technologies available to the American consumer. Instruction in alternative audio and visual production encourages students to express
themselves and distribute media content using available consumer and public access technologies. Laptop computers are required to digitize audio and visual projects and for Internet research. 

**Prerequisite:** MS 101 or CT 101

**MS 293 Alternative Media**  
3 CR  
Explores nonmainstream and noncommercial media — mechanical, electronic and digital — to understand their content, form and roles they play in our culture. The course looks at the aesthetic theories and/or social motivations, implicit or explicit in the alternative culture and in individual works. Readings, screenings, and written assignments required.

**MS 294 Magazine Publication**  
3 CR  
Overview of the entire process of magazine publication. Topics include history, theory and status of contemporary publication, concept research and development of new magazines, writing and editing of articles, desktop publishing layout and design, marketing and advertising campaigns, new technologies and the future. Students conceive and produce individual magazines. 

**Prerequisite:** MS 101

**MS 295 Television & New Media Journalism**  
3 CR  
A production course designed to introduce students to the techniques of electronic journalism. Students also learn to analyze and constructively criticize the process and product. 

**Prerequisite:** MS 101

**MS 298 Advertising and Public Relations Production**  
3 CR  
Applies various theories of advertising and public relations to specific practical problems in the commercial and nonprofit world. Students experiment with form and style by producing advertising and public relations campaigns for new products, public service projects and/or political candidates in several different media. 

**Prerequisite:** MS 101

**MS 299 Special Topics in Media Studies**  
3 CR  
Designates new or occasional courses that may or may not become part of the department's permanent offerings. Courses capitalize on timely topics, a faculty member's particular interest, an experimental alternative to existing courses, etc. Course title is shown on the student's transcript. Consult the current course schedule for available topics and required prerequisites.

**MS 300 Special Topics in Media Production**  
3 CR  
New or occasional courses in advanced video production such as approaches to editing, audio recording techniques, digital storytelling or computer-aided design. Course title is shown on the student's transcript. Consult the current course schedule for available topics and required prerequisites.

**MS 301 Senior Seminar in Media History and Theory**  
3 CR  
An interdisciplinary study of contemporary theories of mass communications. Presents an overview of the impact of mass communications by considering them as codes, symbolic systems and manipulative powers on both the conscious and subconscious levels. Reading, writing, discussion and research are required. 

**Prerequisites:** MS 101 and Senior standing in the major

**MS/EN 309 Special Topics in News Production**  
3 CR  
New or occasional courses in advanced newspaper or magazine production such as advanced editing techniques, feature writing, sports writing or investigative reporting. Course title is shown on the student's transcript.

**MS/EN 311 News Writing and Reporting II**  
3 CR  
This advanced workshop simulates a newspaper magazine publishing atmosphere. Students are assigned roles as writers or editors for individual sections.
to create a student news magazine as part of the newspaper staff. Prerequisite: MS/EN 211

**MS 313 Video Production II** 3 CR
Advanced course in single-camera video production. Each student directs an original fiction or nonfiction work and provides technical support on classmates' projects. Prerequisite: MS 213 or permission of the instructor

**MS/EN 370 Newspaper Publication** 3 CR
Introduction to newspaper publication provides editing and publications practice. Emphasis on copy selection, copy editing, story placement, headline writing, use of art, page layout, copy fitting, and use of stylebooks. Students work as part of an editorial team to produce an issue of a news magazine.

**MS 381 Women in Film** 3 CR
Films are cultural artifacts. Each film contains within itself a complex social system reflecting the attitudes, values and mores of the society that produced it. This course uncovers the values that encode the function of women on screen including the images they project; roles they assume; values they encode; and relationships they establish with men, children and each other. Readings, screenings, and written assignments required. Consult the current course schedule for available topics and required prerequisites.

**MS 382 Third-World Cinemas** 3 CR
Concentrating on filmmaking and videomaking in several different Third World cultures (e.g., Senegal, Brazil, Cuba, India and/or the Black workshop movement in Great Britain), the course looks at the history of production, distribution and reception in each culture; considers the practical, theoretical and political implications of aesthetic choices; and relates this to the social circumstances of the different filmmaking practices. Readings, screenings, and written assignments required. Consult the current course schedule for available topics and required prerequisites.

**MS 383 Documentary Film and Video** 3 CR
Examines major epistemological, aesthetic and political concerns of documentary film and video. This course introduces students to a variety of documentary principles, methods and styles in order to explore a series of theoretical issues that are important to documentary production, representation and reception. Readings, screenings, and written assignments required. Consult the current course schedule for available topics and required prerequisites.

**MS 384 National Cinemas** 3 CR
Examines a particular national cinema or moment in national cinemas (e.g., New German Cinema, French New Wave, Italian Neorealism) whose contributions to the history of cinema have been significant. Attention is given to the social and cultural context, production, distribution and reception circumstances and stylistic innovations of the different filmmaking practices. Readings, screenings, and written assignments required. Consult the current course schedule for available topics and required prerequisites.

**MS 390 Television Genres** 3 CR
A study of individual television forms, including the teleplay, the documentary, the docudrama and the situation comedy. Emphasis on the historical development of the genre, the particular characteristics of the genre that affect its content and style and meaning of this kind of programming within a cultural context. Readings, screenings, and written assignments required. Consult the current course schedule for available topics and required prerequisites.

**MS 391 Film Seminar** 3 CR
An intensive course focusing on specific aspects of film history, theory and criticism, with special emphasis on film's relationship to society. Each semester the course concentrates on an individual topic...
of discussion. Readings, screenings, and written assignments required. Consult the current course schedule for available topics and required prerequisites.

**MS 392 Film Genres**  
3 CR  
A study of particular film forms, including western, gangster, science fiction, horror, comedy and other film genres. Attention is given to the themes and stylistics of genres, and to the genre film's contemporary cultural significance and contribution to the history of ideas. Consult the current course schedule for available topics and required prerequisites.

**MS 393 Film Directors**  
3 CR  
Examines individual film directors whose contributions to the history of the cinema have been especially notable. Film directors are studied for their stylistic and philosophical innovations as well as for their historical place in the medium. Each semester a particular director or directors are chosen for study. Consult the current course schedule for available topics and required prerequisites.

**MS 395 Multimedia & TV Field Production**  
1-3 CR  
An opportunity for outstanding Media Studies majors to assist in the planning and production of media projects contracted by Sacred Heart University or by outside agencies. By permission of the chairperson of the faculty of Communication Studies. Offered only when appropriate projects are available. Consult the current course schedule for available topics and required prerequisites. Prerequisite: MS 213

**MS 396 Internship**  
1-6 CR  
An opportunity for qualified upper-division Media Studies majors to gain practical experience at area media/communications companies such as radio or television stations, cable companies, newspapers, magazines and public relations firms. Prerequisite: Permission of instructor and department chairperson

**MS 397/398 Senior Project**  
3 CR  
The purpose of the project is threefold: to create an opportunity for a senior Media Studies student to apply creative theory to practice; to stress the interdisciplinary aspects of media communication; and to provide the student with a "portfolio" product or research project to use as a demonstration of his or her abilities. Consult the current course schedule for available topics and required prerequisites. Prerequisite: Media Studies Senior standing

**MS 399 Independent Study**  
1-3 CR  
Work on a special topic or production to be arranged with an instructor who will direct the work. Permission of the chairperson of the faculty of Communication Studies is granted to qualified Media Studies majors on the basis of a written prospectus. By special arrangement. Consult the current course schedule for available topics and required prerequisites.

Program Director

**MIDDLE EASTERN STUDIES MINOR**

Islam is the fastest growing religion in the world. By 2025, 20% to 25% of the world's population will be Muslim. The Israeli/Palestinian conflict has affected decades of politics and public policy in both Western nations as well as regions of the Middle East and Southeast Asia. The tragic events associated with September 11, 2001, and the subsequent war on terrorism, which has reached global proportions, are signatures of the dramatic shift in global economy/politics/society that have altered perhaps permanently
American perspectives of itself and the world. The deployment of the U.S. military to Afghanistan, the invasion of Iraq, and what now appears to be a prolonged U.S. commitment to establishing a democracy not only in Iraq but in countries throughout the region are all indicators of the complex interlocking of American and Middle Eastern interests for generations to come.

A well-balanced minor in Middle Eastern Studies will enrich the undergraduate experience for students, and should prove beneficial for graduate study and professional careers.

**Interdisciplinary Minor**

The Middle Eastern Studies minor is interdisciplinary and requires a total of 18 credits of coursework in a foreign language, history, political science and religious studies.

**Required Courses**

- AB 101 Arabic I
- AB 102 Arabic II
- HI 236 History of the Arab World I: From Muhammad-Ottoman Empire
- HI 238 The Modern Arab World
- PO 314 Middle East Politics
- RS 215 Introduction to Islam

The University normally offers Arabic in alternate years. Students interested in the minor should schedule accordingly. In the event of late declaration of the minors, substitutions may be approved by the minor program director. Special topics involving the Middle East, if and when offered under History, Political Science, or Religious Studies, can be used as substitutes for a required course only if the required course is not available within the student's four-year course of study. The study of Arabic cannot be substituted by any course other than Middle Eastern language courses. The application of such courses to the Middle Eastern Studies minor requires the approval of the minor program's director.

**Suggested Courses Beyond the Minor Requirements**

- PO 316 South Asian Politics
- RS 205 Ancient Cults and Religions
- RS 217 Introduction to Western Religions

**Military Science**

**COURSE DESCRIPTIONS**

**MI 101 – Part I: Introduction to Leadership**

1 CR

This course introduces cadets to the personal challenges and competencies that are critical for effective leadership. Cadets learn how the personal development of life skills such as goal setting, time management, physical fitness, and stress management relate to leadership, officerhip, and the Army profession. Focus is placed on developing basic knowledge and comprehension of Army Leadership Dimensions while gaining a big picture understanding of the ROTC program, its purpose in the Army, and its advantages for the student. No military obligation.

**MI 102 Introduction to Tactical Leadership**

1 CR

The course reviews leadership fundamentals such as setting direction, problem solving, listening, presenting briefs, providing feedback, and using effective writing skills. Cadets explore dimensions of leadership values, attributes, and competencies in the context of practical, hands-on, and interactive exercises. Continued emphasis is placed on recruitment and retention of Cadets. Cadre role models and the building of stronger relationships among the Cadets through common experience and practical interaction are critical aspects of the course experience. No military obligation.

**MI 201 Introduction to Team Leadership**

2 CR

This course explores the dimensions of creative and innovative tactical leadership strategies and styles by studying historical case studies and engaging in interactive
student exercises. Cadets practice aspects of personal motivation and team building in the context of planning, executing, and assessing team exercises. Focus is on continued development of the knowledge of leadership values and attributes through an understanding of rank, uniform, customs, and courtesies. Leadership case studies provide tangible context for learning the Soldier's Creed and Warrior Ethos.

**MI 202 Foundation of Tactical Leadership**  
2 CR

This course examines the challenges of leading in complex contemporary operational environments. Dimensions of the cross-cultural challenges of leadership in a constantly changing world are highlighted and applied to practical Army leadership tasks and situations. This course provides a smooth transition into MI 301 Adaptive Tactical Leadership. Cadets develop greater self-awareness as they practice communication and team building skills. Contemporary Operating Environment (COE) case studies give insight into the importance and practice of teamwork and tactics in real world scenarios.

**MI 301 Adaptive Tactical Leadership**  
3 CR

The course consists of one class period, physical training sessions and leadership laboratory, and one weekend field training exercise. The course is designed to challenge cadets to study, practice, and evaluate adaptive leadership skills as they are presented with the demands of the ROTC Leader Development Assessment Course (LDAC). Challenging scenarios related to small unit tactical operations are used to develop self-awareness and critical thinking skills. Cadets receive systematic and specific feedback on their leadership abilities. Cadets begin to analyze and evaluate their own leadership values, attributes, skills, and actions. Primary attention is given to preparation for LDAC and the development of leadership qualities.

**MI 302 Leadership in Changing Environments**  
3 CR

The course consists of one class period, physical training sessions and leadership laboratory, and one weekend field training exercise. This course uses increasingly intense situational leadership challenges to build cadet awareness and skills in leading small units. Skills in decision-making, persuading, and motivating team members when “under-fire” are explored, evaluated, and developed. Aspects of military operations are reviewed as a means of preparing for the ROTC Leader Development Assessment Course (LDAC). Cadets are expected to apply basic principles of the Law of Land Warfare, Army training, and motivation to troop leading procedures. Emphasis is also placed on conducting military briefings and developing proficiency in Garrison operations orders. Cadets are evaluated on what they know and do as leaders.

**MI 351 Developing Adaptive Leadership**  
3 CR

The course consists of one class period, physical training sessions and leadership laboratory, and one weekend field training exercise. Cadets learn to develop proficiency in planning, executing, and assessing complex operations, functioning as a member of a staff, and providing leadership-performance feedback to subordinates. Cadets are given situational opportunities to assess risk, make sound ethical decisions, and provide coaching and mentoring to fellow ROTC Cadets. MSL (Military Science Level) IV Cadets are measured by their ability to give and receive systematic and specific feedback on leadership abilities using the Socratic model of reflective learning. Cadets at the MSL IV level analyze and evaluate the leadership values, attributes, skills, and actions of MSL III Cadets while simultaneously considering their own leadership skills. Attention is given to preparation for success at Basic Officer Leadership Course (BOLC) II and III, and the development of leadership abilities.
MI 352 Leadership in a Complex World 3 CR

The course consists of one class period, physical training sessions and leadership laboratory, and one weekend field training exercise. This course explores the dynamics of leading in the complex situations of current military operations. Cadets examine difference in customs and courtesies, military law, principles of war, and rules of engagement in the face of international terrorism. Aspects of interacting with non-government organizations, civilians on the battlefield, and host nation support are examined and evaluated. Significant emphasis is placed on preparing cadets for their first unit of assignment. Case studies, scenarios, and "What Now, Lieutenant?" exercises are used to prep cadets to face complex ethical and practical demands of leading as commissioned officers in the United States Army.

Music

The Academic Music Program, housed in the College of Arts and Sciences, offers music elective courses, individual private lessons, and performing ensembles. The program provides the environment and opportunity to hear, experience, and participate in the art of music. The study of music both as a knowledgeable listener, creator, and/or performer nurtures an important human aesthetic dimension.

Music, in its many cultural manifestations, touches upon the enduring questions of human meaning and value. It serves as an opportunity to develop imagination, creativity, and understanding, and gives students the opportunity to use and further help their own skills and talents. As a non-major program, the program's goal is to encourage students to experience music so that a foundation for continued learning, appreciation and enrichment is created.

Designates new or occasional courses that may or may not become part of the department's permanent offerings. Courses capitalize on a timely topic, a faculty member's particular interest, an experimental alternative to existing courses, etc.

Philosophy

The philosophical experience is considered integral to the intellectual and cultural development of today's student. In our increasingly complex and dynamic culture, the growth of novel and changing ideas unsettles traditional patterns of thought and action. As a result, the role of philosophy becomes more vital, for it addresses the conflict between the enduring insights of the past and the new discoveries and theories of the present in an attempt to attain a coherent philosophy of life.

In whatever way the student comes to Philosophy—whether it be to satisfy a core, major, or elective requirement—the department seeks to enrich the student's life-experience by making available the broad and generous ideas that have shaped the contemporary intellectual world. The program provides a broad range of electives dealing with historical movements, great philosophical figures of the past and present, perennial philosophical themes, and contemporary issues.

COURSE DESCRIPTIONS
†PHCC104 The Human Search for Truth, Justice, and the Common Good 3 CR
This course is the capstone course in Sacred Heart University’s Common Core sequence of study, The Human Journey. As the capstone, this course addresses the Core’s four fundamental questions of human meaning and value. This course will investigate the religious or philosophical understanding of the human condition as a theme running through the four stated questions. Students will study both classic and contemporary texts from a range of religious and some philosophical traditions, particularly the Catholic intellectual tradition. A vital component of the course will be students’ own responses to the four questions, especially as those responses evolve through the enrichment of the course material. As a capstone course, PHCC104 enables students to develop a personal, integrated set of answers to the common core questions through a range of modalities and media, including service projects, research papers, artistic productions, student “portfolios” of completed assignments for all four Core courses, and other similarly integrated and interdisciplinary work.

†PH 101 Introduction to the Problems of Philosophy 3 CR
Philosophy is defined for the beginning student through an exploration of the branches of philosophy and their respective problems.

†PH 212 Practical Logic 3 CR
Practice of logical analysis in classroom exercises. Focuses on informal logic, how to make ideas clear, reason correctly and evaluate evidence used to substantiate a truth claim.

†PH 214 The Philosophy of Human Communication 3 CR
Analyzes the formal structure of rhetoric using a classical model and applies it to contemporary political and social issues in philosophical disputations. Prerequisite: PH 101

†PH 221 Historical Survey of Philosophy 3 CR
Primary texts from the philosophers of ancient Greece, the Hellenistic-Roman period and the Middle Ages. Prerequisite: PH 101
PH 222 Understanding Our Universe 3 CR
Major philosophical, theological, scientific issues in cosmology. Creation, evolution, and fate of the universe. Design and chance, freedom and determinism, God and the universe. Prerequisite: PH 101

PH 225 Philosophy of Plato 3 CR
The nature of the philosophical life is examined through an exploration of selected Platonic dialogues. Prerequisite: PH 101

PH 226 The Philosophy of Aristotle 3 CR
Emphasizes the ethics, politics, and metaphysics of the Aristotelian system and its contrast to the Platonic synthesis. Prerequisite: PH 101

PH 231 Philosophy of Knowledge 3 CR
The conditions that make knowledge possible and the criteria of truth and falsity. Selected representative historical thinkers. Prerequisite: PH 101

PH 241 Medieval Philosophy 3 CR
The Aristotelian tradition as developed within Islam, Judaism, and Christianity. Prerequisite: PH 101

PH 245 The Philosophy of St. Augustine 3 CR
Examines Augustine's contribution to the development of Roman Catholic philosophy and theology. Prerequisite: PH 101

PH 251 Ethics 3 CR
Primary texts from notable moral philosophers in the Western philosophical tradition, from Socrates to Rawls. Prerequisite: PH 101

PH 255 Political Philosophy 3 CR
Primary texts from the history of political thought including Plato, Lao-Tzu, Aquinas, Machiavelli, Hobbes, Locke, Rousseau, Marx, Mill and Rawls. Prerequisite: PH 101

PH 256 The Philosophy of Technology 3 CR
Representative views of the social role of technology. Two fundamental questions are addressed. The extent of technology's impact on social institutions and individual lives. And, to what degree is this impact beneficial or harmful? Prerequisite: PH 101

PH 258 Medical Ethics 3 CR
Examines the ethical and legal issues surrounding abortion, physician-assisted suicide, euthanasia, genetic cloning, genetic therapy/enhancement, genetic patenting, and health care allocation. Prerequisite: PH 101

PH 270 Philosophical Anthropology 3 CR
Reflections on the nature and meaning of human existence, especially in existentialism and Marxism. Writings of Buber and Scheler on human nature are studied. Prerequisite: PH 101

PH 272 Metaphysics 3 CR
Four movements in the development of the Western metaphysical tradition: Aristotle, Thomas Aquinas, Kant and Heidegger. Prerequisite: PH 101

PH 278 East/West Comparative Philosophy 3 CR
Heidegger and East Asian thought, the origin of Greek and Chinese philosophy; the Kyoto school; Nishitani's Religion and Nothingness. Prerequisite: PH 101

PH 283 Philosophical Theology 3 CR
The problem of God before and after Kant's "Copernical Revolution," phenomenology of religion and postmodern theology. Prerequisite: PH 101

PH 284 Philosophy of Film 3 CR
Uses contemporary films to lead students through advanced philosophical examination of issues such as
epistemology, ethics, religion, technology, and the nature of the mind. Prerequisite: PH 101

†PH 299 Special Topics in Philosophy 3 CR
Designates new or occasional courses that may or may not become part of the department's permanent offerings. Courses capitalize on a timely topic, a faculty member's particular interest, an experimental alternative to existing courses, etc. Prerequisites established by the department as appropriate for the specific course. Course title is shown on the student's transcript. Consult the current course schedule for available topics and current prerequisites.

†PH 306 Existentialism 3 CR
Nineteenth- and 20th-century existentialism, especially the thought of Kierkegaard, Nietzsche, Heidegger and Sartre. Prerequisite: PH 101

†PH 322 American Philosophy and Culture 3 CR
Interaction of American philosophical thought and the American experience as revealed in the philosophies of Edwards, Emerson, Thoreau, Peirce, James and Dewey. Prerequisite: PH 101

†PH 331 Oriental Thought 3 CR
An introduction to the philosophies of India, China and Japan. A presentation and analysis of the major schools of philosophy, including Hinduism, Buddhism, the Confucian school, Taoism and Zen Buddhism. Topics include finding one's self, transformation, compassion, moral cultivation, sage-hood and enlightenment. Prerequisite: PH 101

†PH 360 Evolution, Philosophy, and Christianity 3 CR
To gain an understanding of evolutionary biology and the philosophical difficulties it creates for Christianity and our understanding of human nature. Prerequisite: PH 101

†PH 380 Philosophy of Wilderness 3 CR
The concept of wilderness has always both shaped and challenged understandings of nature, humankind, and civilization. The concept is explored in ancient philosophy, modernism, Thoreau, and contemporary ecological thought. Prerequisite: PH 101

†PH 381 Love in the Western Tradition 3 CR
Examines the idea of love in the Western intellectual tradition, from the Greeks to today. Philosophical problems arising from the scientific study of love and altruism are also investigated. Prerequisite: PH 101

†PH 382 Problems in Contemporary Philosophy 3 CR
Topics, selected by the instructor, such as war and peace, near-death studies, the philosophical novel, new directions in philosophy or the crisis in professional ethics. Prerequisite: PH 101

†PH 383 The Philosophy of St. Thomas Aquinas 3 CR
The existence and nature of God, human knowledge, the state, natural and divine law, virtue, grace and the Incarnation as explicated in the Summa Theologica. Prerequisite: PH 101

PH 399 Independent Study 1-3 CR
An area of study for which no course is presently provided. The student must find an instructor competent in his or her proposed topic and secure the permission of the chairperson and the dean. Prerequisite: PH 101
Physics

The physics curriculum, which is a nonmajor program, provides introductory physics courses for students in science majors, Pre-Physical Therapy, Pre-Medical, Pre-Dental, Pre-Veterinary and preprofessional programs in health-related careers. Courses of general interest to meet core science requirements for the nonscience major are also offered.

COURSE DESCRIPTIONS

**tPYCC103 The Human Community and Scientific Discovery 3 CR**
This is the third of four courses in Sacred Heart University’s Common Core Curriculum, The Human Journey. As part of The Human Journey curriculum, this course will address the four fundamental questions of human meaning and value from the perspective of the academic disciplines of Physics and Theology. PYCC103 will examine the relationships between our human explorations of the universe through science, in general, and physics, in particular. We will examine Physics as a fundamental and practical human endeavor which helps us understand and appreciate the natural world as part of God’s provision and revelation for us. As with all of the courses that make up the Common Core, the four fundamental questions will serve as the threads that will serve as the framework for the fabric of the course.

**tPY 045 Physical Geology 3 CR**
Students are introduced to the forces and phenomena that have created earth. The State of Connecticut will be utilized as the laboratory illustrating the theories presented in the classroom. Participants will be involved in process thinking, problem solving, and the application of knowledge in a field laboratory setting. Observation, data collection, and hypothesizing are utilized in individual and group investigations.

**tPY 055 Science and the Bible 3 CR**
This course investigates selected events noted in the Bible: Creation, Eve, Moses’ Ten Plagues, Noah’s Flood, Sodom and Gomorrah, and the Star of Bethlehem.

**tPY 090 Basic Astronomy 3 CR**
Explores the universe briefly. Emphasis is on the solar system and recent space explorations. Observations of the sky and/or visit(s) to planetariums.

**tPY 100 Elements of Physics 4 CR**
Covers the basic laws of mechanics, properties of matter, electricity, magnetism and modern physics with an introduction to quantitative laboratory. Designed for health-related professions. **Prerequisite:** MA 006 or equivalent

**PY 105 First Half of General Physics I 3 CR**
Noncalculus-based course covering the first half of the material in the standard General Physics I (PY 111): units, vectors, 1D and 2D motion, concepts of force, torque and static equilibrium. Intended for students who do not have a strong background in problem solving and math skills, or have never taken physics courses before. Should not be taken with General Physics I Lab (PY 113). **Prerequisite:** MA 140 or equivalent

**PY 106 Second Half of General Physics I 3 CR**
Continuation of PY 105. Noncalculus-based course covering the second half of the material in the standard General Physics I (PY 111): energy, work, momentum, rotational motion, gravitation, fluid mechanics, temperature and thermal expansion. Intended for students who do not have a strong background in problem solving and math skills. Students who have
completed this course may register for General Physics II (PY 112). Prerequisite: PY 105

*PY 111 General Physics I 3 CR*
Noncalculus-based course covering the basic principles of mechanics (units, vectors, 1D and 2D motion, concepts of force, torque, static equilibrium, energy, work, momentum, rotational motion, and gravitation), fluid mechanics, temperature and thermal expansion. Students who do not have a strong background in problem solving and math skills have an option to take the 2-semester sequence (PY 105 and PY 106), instead of PY 111. Prerequisite: MA 140 or equivalent

*PY 112 General Physics II 3 CR*
Noncalculus-based course covering basic principles of thermodynamics, wave motion, sound, electricity, magnetism, light and geometrical optics. Prerequisite: PY 106 or PY 111

PY 113 Physics Laboratory I 1 CR
Fundamental training in physical measurements in mechanics (base physical quantities, vectors, acceleration of gravity, concepts of force, torque, static equilibrium, energy, momentum, rotational motion), and Archimedes’ principle. Corequisite: PY 106 or PY 111; PY 113 can also be taken after completion of PY 106 or PY 111

PY 114 Physics Laboratory II 1 CR
Fundamental training in physical measurements in specific heat, wave motion, sound, electricity, light and optical devices. Corequisite: PY 112; PY 114 can also be taken after completion of PY 112

*PY 151 Principles of Physics I 3 CR*
Calculus-based course, covering basic principles of mechanics (units, vectors, 1D and 2D motion, concepts of force, torque, static equilibrium, energy, work, momentum, rotational motion, and gravitation), and fluid mechanics. Prerequisite: MA 152 or equivalent

*PY 152 Principles of Physics II 3 CR*
Calculus-based course, covering basic principles of thermodynamics, wave motion, sound, electricity, magnetism, light and geometrical optics. Prerequisite: PY 151

PY 153 Physics Laboratory I 1 CR
Same as PY 113. Corequisite: PY 151; PY 153 can also be taken after completion of PY 151

PY 154 Physics Laboratory II 1 CR
Same as PY 114. Corequisite: PY 152; PY 154 can also be taken after completion of PY 152

### Political Science

The Political Science major seeks to awaken in students an appreciation and an understanding of politics and government in the broadest and deepest sense. It considers democratic governance the key to civilization, and ethics as central to democratic life.

Courses are offered in four major areas: American politics, comparative politics, international relations and political philosophy and theory. Classroom learning is enriched in a number of ways, including field trips to the state Capitol, Washington, D.C.; internships with legislators in the Connecticut General Assembly; Washington and district office internships with national legislators; election campaign and party organization internships; and internships with public administrators.

Students who major or minor in Political Science prepare themselves for careers in law, teaching, elective office, government service, many areas of business and not-for-profit management, international business, journalism, campaign management and other endeavors.

COURSE DESCRIPTIONS

POCC103 The Human Community: The Individual and Society 3 CR
This is the third of four courses in The Human Journey, the Common Core Curriculum at Sacred Heart University. The course explores questions regarding human meaning and value by specifically focusing on the social and political dimensions of the Core Questions. This course will include an analysis of the major political philosophers and their perspectives on the following: What does it mean to be human? What does it mean to live a life of meaning and purpose? What does it mean to forge a more just society for the common good? What does it mean to appreciate and understand the natural world? The course will also incorporate key thinkers from the Catholic Intellectual tradition as they approach the core questions.
tPO 121 Introduction to American Government 3 CR
Explores a variety of areas that collectively comprise the American political system. Examines the theoretical foundation of American government, the U.S. Constitution, political behavior, Congress, the presidency and the Supreme Court.

tPO 122 Introduction to International Relations 3 CR
Focuses on fundamental factors in understanding international relations. Sovereignty, nation-states, national interests, power, diplomacy, United Nations, war, terrorism, ethnicity and low-intensity warfare, the environment and global politics are studied.

tPO 200 Approaches to Political Science 3 CR
What is politics? And how best can we study it? This course examines how the study of politics has changed since Aristotle coined the term “political science” more than 2,000 years ago. Particular emphasis is on the development of political science as a discipline in the 20th century.

tPO 212 American State and Local Government 3 CR
Examines the subnational level of American politics. Topics include the constitutional position of state governments, federal-state interaction, financing of state governments, political parties, group activity and public policies. Prerequisite: PO 121

tPO 213 Lobbying and the Legislative Process 3 CR
Focuses on the central role of lobbyists and interest groups within the context of the lawmaking process. Lobbying strategies and linkages between lobbyists and lawmakers are explored. Guest speakers and trip to the state Capitol supplement class lectures.

tPO 215 Political Parties 3 CR
Focuses on the role of political parties in American democracy. Examines the structure and function of party organization, behavior of the American electorate and effectiveness of parties in the governing process. Platforms and categories of minor parties are also discussed. Prerequisite: PO 121

tPO 216 Congress and the Legislative Process 3 CR
Examines the constitutional powers of Congress, historical development, legislative process and relationship with executive branch of government. Prerequisite: PO 121

tPO 217 The American Presidency 3 CR
Traces the role of the chief executive in the American political system. Attention is given to the evolution, functions and limits of executive leadership, relationship with Congress, public opinion, and impact of individual presidents are explored. Prerequisite: PO 121

tPO 218 The Politics of Presidential Elections 3 CR
Explores the dimensions of presidential elections and controversial issues associated with the selection process. Topics include political coalitions, campaign strategy, the role of media and money, conventions and presidential debates. Prerequisite: PO 121

tPO 240 War and Conflict 3 CR
Topics include the causes of war, case studies of major wars, theories of instinctual aggression, psychological behavior, ethnicity, national interests, imperialism, economics, international systems and other topics.

tPO 242 International Organizations 3 CR
Focuses on the origin, evolution, structure and functions of regional and global intergovernmental and nongovernmental organizations. Special attention is given
to the changing role of the post-Cold War United Nations.

**tPO 243 Terrorism** 3 CR
History and evolution of terrorism in its global, cultural, psychological, religious and secular contexts. Special focus on military, diplomatic, political and economic responses as nuclear, chemical, biological and cyberwarfare capabilities spread in the 21st century.

**tPO 244 American Foreign Policy** 3 CR
Examines themes of American foreign policy. Topics include containment, deterrence, détente, changing bases of national power, foreign policy development, terrorism, narco-criminality and environmental issues.

**tPO 285 Future Politics** 3 CR
Explores the transformation of America and the planet. Consequences of shift from industrial to informational to networked economy on environment, society, careers, domestic and international politics are studied.

**tPO 291 Ethics and International Politics** 3 CR
Role of ethics and morality in international politics. Synthesis of religion and Idealism, national interest and Realism in foreign policy.

**tPO 299 Special Topics in Political Science** 3 CR
Designates new or occasional courses that may or may not become part of the department's permanent offerings. Courses capitalize on a timely topic, a faculty member's particular interest, an experimental alternative to existing courses, etc. Prerequisites established by the department as appropriate for the specific course. Course title is shown on the student's transcript. Consult the current course schedule for available topics and current prerequisites.

**tPO 301 Ancient and Medieval Political Thought** 3 CR
What is justice? What is the best way of life? This course examines such thinkers as Plato and Aristotle as they address these concerns. This course also includes the medieval response to this tradition, those who sought to reconcile the ancients with revealed religion.

**tPO 302 Modern Political Thought** 3 CR
The problem with the ancient way of thinking, a modern would say, is that it concentrated on how we ought to live, rather than how we do live. Readings include those by the originators of modern political thought as well as those questioning whether the modern project is desirable or even possible.

**tPO 303 Radical Political Thought** 3 CR
Have the benefits promised by liberal democracy been realized fully and by all individuals equally? This course focuses on those who claim to be neglected, alienated or oppressed by conventional politics and its institutions.

**tPO 304 American Political Thought** 3 CR
The Constitution of 1787 was based on speculation and a series of untested principles: it is possible for a territory as large as the United States to be self-governing; self-interest can be made to serve the common good; and minority rights can be protected in a system based on majority rule. This course examines documents related to the founding and other readings that shape, question and are inspired by political life in our country.

**tPO 305 Ethics and Politics: Profiles of Practicing Politicians** 3 CR
Readings in ethics and the lives of practicing politicians from George Washington to the present that reaffirm foundations of democratic life, including virtue, integrity, honor and trust. Class time includes dialogue with public officials.

Psychology

The Psychology program provides its students with a basic foundation in the scientific study of human behavior. This background is of value to two groups of students: those who enter the employment market after completion of the Baccalaureate degree and those who further their education through graduate study and pursue a career in psychology or a related field.

The department offers courses on conducting experimental research, as well as providing internship opportunities and a wide range of elective courses covering many different areas of interest.

10 Religious Studies electives selected in consultation with a department advisor

MINOR IN RELIGIOUS STUDIES
The minor in Religious Studies requires the completion of 18 credits.

Required Courses for Minor
RS 101 Introduction to the Study of Religion
Five Religious Studies electives selected in consultation with a department advisor

Throughout human history, religion has played an enormous role in shaping human actions and perceptions, as well as social institutions and values. The academic study of religion involves a sympathetic yet critical examination of the human attempt to answer the questions, "Who are we and why are we here?" It also allows us to understand better the complex world in which we live. The study of religion uses the methods of several disciplines, including theology, philosophy, history, psychology, sociology, anthropology, and literary criticism. The goals of the program are that students engage in critical dialogue with their own religious traditions and other traditions; understand these traditions in their complexity; and articulate coherent, religiously informed answers to basic questions of human meaning.

CERTIFICATE IN CATHOLIC THEOLOGICAL STUDIES

The Certificate in Catholic Theological Studies is awarded to students who take Religious Studies 101, plus three more courses from a special list of Religious Studies and Philosophy courses, and who write a capstone paper in their fourth course. The goal is for students to make an in-depth exploration of some of the issues studied in Roman Catholic fundamental, systematic, and moral theology. One of the courses selected fulfills the University-wide requirement to take one course in either Religious Studies or Philosophy beyond the 101s.

COURSE DESCRIPTIONS

†RSCC104 The Human Search for Truth, Justice, and the Common Good 3 CR
This course is the capstone course in Sacred Heart University's Common Core sequence of study, The Human Journey. As the capstone, this course addresses the Core’s four fundamental questions of human meaning and value. This course will investigate the religious or philosophical understanding of the human condition as a theme running through the four stated questions. Students will study both classic and contemporary texts from a range of religious and some philosophical traditions, particularly the Catholic intellectual tradition. A vital component of the course will be students’ own responses to the four questions, especially as those responses evolve through the enrichment of the course material. As a capstone course, RSCC104 enables students to develop a personal, integrated set of answers to the common core questions through a range of modalities and media, including service projects, research papers, artistic productions, student “portfolios” of completed assignments for all four Core courses, and other similarly integrated and interdisciplinary work.

†RS 101 Introduction to the Study of Religion 3 CR
A critical and constructive study of the nature of religion, its functions in human life and its various forms and manifestations.

†RS 205 Ancient Religions and Cults 3 CR
Explores the beliefs, practices, and teachings of ancient world religions including those of ancient Egypt and Mesopotamia; the mystery cults of the ancient Greco-Roman civilizations, and the religious traditions of pre-Christian northern Europe (Scandinavia) and ancient Iran. The focus of study is on the sacred writings of the religions, with emphasis on such major topics as deities and divine powers, rituals of birth and death, gender studies, and the relationships between ancient faith traditions and the emergence of monotheism.

†RS 210 Modern Biblical Criticism and the Gospels 3 CR
An in-depth analysis of the development of modern biblical criticism and its impact on understanding the Gospels of the New Testament. Prerequisite: RS 101

†RS 211 Introduction to the Hebrew Bible/Old Testament 3 CR
Development of the major traditions of the Hebrew Bible. Authorship of these traditions, why they were written and what historical circumstances they were responding to. Prerequisite: RS 101

†RS 212 Christology 3 CR
Examines the theological interpretation of Jesus as the Christ in the history of the Christian tradition. Prerequisite: RS 101
†RS 213 Comparative Religion 3 CR
Comes the central themes in the major religions of the world: Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity and Islam. **Prerequisite:** RS 101

†RS 215 Introduction to Islam 3 CR
A theological and phenomenological exploration of beliefs, practices, and symbology of Islam, incorporating extensive readings from the Qur'an, the hadith and shari'a, and Sufism. This course analyzes contemporary topics such as religion and gender, and religion and politics. **Prerequisite:** RS 101

†RS 216 Celtic Religious Traditions 3 CR
The course is concerned with the mythic history of Ireland, and "beginning" of the Irish, and the traditions by which the Irish have come to identify themselves and give meaning to their world. Students study the religious function of social institutions; gods, goddesses and ruling powers; holy places; feasting and sacrifice; spirits and ancestors; and the other world. The class also looks at the role of women in these traditions and what these traditions mean with regard to such issues as our own estrangement from the natural order. The continuation of "myth" in modern Ireland is also studied in this course. **Prerequisite:** RS 101

†RS 217 Introduction to Western Religions 3 CR
A theological and phenomenological exploration of the beliefs, history and practices of Judaism, Christianity, and Islam with particular emphasis on the sacred scriptures and spiritual traditions of each religion. **Prerequisite:** RS 101

†RS 218 Cults, Sects and New Religious Movements 3 CR
Explores beliefs and practices of new religions in America, including Mormonism, Unification Church, Christian Science, Scientology, Theosophy, New Age, Neopaganism and UFO cults. Presents both sociological and theological approaches to understanding new religions. **Prerequisite:** RS 101

†RS 219 Women in World Religions 3 CR
An analysis of women's role in Christianity, Judaism, Hinduism, and Islam—both historical and contemporary—using theories and methods of gender study. **Prerequisite:** RS 101

†RS 220 Women in Christianity 3 CR
A theological, textual and gender-based examination of women in the history of Christianity, incorporating critical analysis of texts written about and by Christian women. Topics include the image of women and women's spirituality in the Bible, writings of the Church Fathers, mystics, sectarian movements, and the feminist reconstruction of tradition. **Prerequisite:** RS 101

†RS 222 Women in American Religion 3 CR
A critical analysis of women and religion within the context of American history and culture. This course examines religious writings/narratives by Native American women, and American women in Christianity, Judaism, and Islam. The impact of race, class, history, and/or ethnicity upon religious experience is also explored in the writings of feminist, Womanist (African-American) and Mujerista (Latina) theologians. **Prerequisite:** RS 101

†RS 224 The Gospel of John 3 CR
A critical interpretation of the Gospel of John. **Prerequisite:** RS 101

Social Work

Social work is both a profession and a method of helping. As a profession, social work assists individuals, families, groups, organizations, and the community to meet their needs, solve problems, obtain resources, and achieve goals. As a method of helping, social work involves purposeful use of professional knowledge, skills, and values to facilitate development and change in individuals or larger systems.

The Baccalaureate Social Work Program employs a liberal arts perspective that provides students with analytical, conceptual, and interactional skills that allow them to identify client strengths and resources, to implement planned change, and to intervene in problem situations.

The major in Social Work prepares students for professional generalist social work practice at the beginning level and for graduate study. The baccalaureate degree program is accredited by the Council on Social Work Education.

Sociology

Sociology aims to describe and explain the social structures and dynamics central to social change and relationships within and between human societies. The purpose of the Sociology program at Sacred Heart University is to provide students with the opportunity to analyze and understand these structures and dynamics with particular attention to their implications for the quality of human life. The program fosters the development of critical and analytical skills needed to understand social phenomena and problems in a systematic and objective way. The program provides an excellent foundation for careers in professional sociology and social research, teaching, community service, human resources, journalism, public relations, public administration, government service, and law. The curriculum of the Sociology program includes courses in human cultural diversity, poverty and socioeconomic inequality, diversity and oppression, society and the environment, changing patterns of American family life, youth and contemporary society, changing human populations, health and health care, criminology, globalization, economic change, social psychology, sociological theory, and methods of social research. In addition, the curriculum emphasizes an applied approach to sociology that seeks to connect the study of social structure and dynamics and sociological theory and method to practical examples and contemporary problems and issues.

MAJOR IN SOCIOLOGY
The major in Sociology requires the completion of 36 or 39 credits. There are three concentrations that students can choose from: General Sociology Concentration, Concentration for Elementary and Secondary Certification, and the Social Research Concentration. Students interested in any of the concentrations should consult their advisor before selecting courses.

Required Courses
AN 110 Human Cultural Diversity
SO 110 Sociological Imagination
SO 372 Sociological Theory
SO 373 Applications of Sociological Theory
SO 382 Methods of Social Research
SO 383 Applications of Social Research
SO 398 Senior Seminar in Sociology
Two Sociology electives (other than electives used toward concentration)

Additional Requirements for General Sociology Concentration: 9 credits
SO 392 Sociology Internship

Two courses from the following:
SO 201 Poverty and Inequality in the United States
SO 239 Diversity and Oppression
COURSE DESCRIPTIONS

†SOCC103 The Human Community: The Individual and Society 3 CR
This is the third of four courses in The Human Journey, Sacred Heart University's Common Core Curriculum. As part of the University's Common Core: The Human Journey, this course takes up the enduring questions of human existence: 1) What does it mean to be human? 2) What does it mean to live a life of meaning and purpose? 3) What does it mean to appreciate and understand the natural world? 4) What does it mean to forge a more just society for the common good? Investigations are primarily guided by insights from sociology about the social nature of human beings and the structure of societies while also including the contributions from the natural sciences and the Catholic intellectual tradition.

†SO 110 Sociological Imagination 3 CR
Students are taught how to investigate social issues as sociologists do—by tracing the troubles of men and women back to broader social forces and problems. The relevance of sociology is demonstrated through examples of applied sociology and through the students' use of social theory and methods to address social problems.

†SO 201 Poverty and Inequality in the United States 3 CR
The aim of this course is for students to develop an understanding of the nature, causes, and consequences of poverty and socioeconomic inequality in the contemporary United States. These problems are examined from theoretical, descriptive, historical, and comparative perspectives. The intersection of the problems of poverty and inequality with gender, race, ethnicity, and political power are also examined. Students will have an opportunity to examine critically current public policies designed to deal with the problems of poverty and inequality in American society. Prerequisite: SO 110
†SO 215 Social Psychology: Macroprocesses 3 CR
Explores social and cultural forces that influence individual social interaction. Covers components of individual social behavior and interpersonal social behavior. Prerequisite: SO 110

†SO 216 Changing Families 3 CR
Examines family in terms of structure, roles, and functions. Emphasis is on understanding: family life cycles; the shift in perspective about the family; the conflict between family values and individual values; the interplay between individual families and the larger society; and the flexibility and diversity of the family as an institution. Prerequisite: SO 110

†SO 220 The Graying of America 3 CR
The aging of the American population is the subject of this course. Emphasis is placed on the imminent retirement of the "baby boomers" and its impact on the structures of society and future generations. Prerequisite: SO 110

†SO 222 Sociology of Education 3 CR
This course focuses on education as a social institution and an agent of socialization. The formal organization of education, education and the family, education and social stratification, and education as a vehicle for examining and solving social problems are explored. Prerequisite: SO 110

†SO 234 Sociology of Health and Health Care 3 CR
Focuses on the social nature of illness in contemporary society, the changing health care system and the ethical issues raised by advances in medical technology. Prerequisite: SO 110

†SO 235 Criminology 3 CR
Analyzes criminal behavior, including a review of theories of crime causation, society's efforts to cope with criminal behavior and the public perceptions of crime. Prerequisite: SO 110

†SO 237 Deviance and Social Control 3 CR
Explores the creation of deviance, the process of becoming deviant and society's reactions to such issues as civil disorder, crime, mental illness, addiction and sexual deviance. Prerequisite: SO 110

†SO 238 Youth and Contemporary Society 3 CR
The course analyzes youth as a stage in life made both promising and problematic by contemporary social structure and culture. Attention is given to the origins and forms of youthful conformity and achievement as well as misconduct and crime, with an emphasis on how those issues differ by gender, social class, race/ethnicity, and variations in the organizations and social institutions that constitute the context of daily life for youth. Prerequisite: SO 110

†SO 239 Diversity and Oppression in Contemporary Society 3 CR
Emphasis is on human diversity. This course is designed to give students an understanding of the conditions that lead to minority emergence and the consequence of minority status; it fosters acceptance of diversity, cultural pluralism, and social change. Prerequisite: SO 110

SO 240 Studying Changing Human Populations 3 CR
This course (1) identifies what kinds of changes have been occurring in the size, composition, and geographic distribution of human populations at the local, national and global levels; (2) analyzes the impacts those changes have been exerting on social patterns; and (3) develops basic skills for studying those changes and impacts. Focuses on birth and fertility rates, death rates, migration rates, and changes in specific aspects of populations: size, age, sex ratio, socioeconomic status, and cultural heritage/identity. Prerequisite: SO 110
**SO 242 Statistics for Social Research** 3 CR  
This course shows how to use statistics for specific purposes in social research and how to interpret the results of statistical analysis. Attention is given to distributions, central tendency, dispersion, estimates, inference, hypothesis testing, statistical significance, measuring the presence, strength, and direction of relationships between variables, analysis of variance, chi-square analysis, and correlation and regression analysis. SPSS is the Required Software. Prerequisites: SO 110 and C or better in MA 101 or higher level Mathematics course; to be taken prior to SO 382.

**SO 245 The Contemporary World Social System** 3 CR  
Emphasis is on the emerging regional subsystems of the world social system, and the consequences of this change on the processes of interaction among these subsystems and their interaction with the developing countries. Prerequisite: SO 110.

**SO 254 Society and Economic Change** 3 CR  
Major socioeconomic developments in 21st-century capitalism (e.g., consumer culture, global labor market, media empires) are studied. The persistence of inequality and poverty, fragmentation of family and community, unhealthy constructions of self-image, and other social problems are explained in terms of these developments. Prerequisite: SO 110.

**SO 257 Technology, Culture and Society** 3 CR  
With the increasing saturation of biotechnology, cybertechnology, communication/media technology, etc., in the world, it is prudent to study the overall relationship of technology to culture and society and to consider the social impact of the next wave. While identifying serious problems and risks, the course also explores the proposition that technology can be shaped and guided to be a positive force. Prerequisite: SO 110.

**SO 258 Society and the Environment** 3 CR  
This course (1) examines how human activities contribute to environmental problems, such as climate change, pollution, disappearance of natural habitat, decreasing biodiversity, diminishing natural resources, deforestation, erosion, and desertification, (2) analyzes the impact of environmental degradation on human populations and human societies; and (3) identifies those steps taken and yet to be taken to end degradation and restore environmental health. A project in which students take action in some group, organization, or community to make its impacts on the environment more positive is required. Prerequisite: SO 110.

**SO 259 Social Movements** 3 CR  
Social movements are a powerful form of collective action with the capacity to alter societies for the better (e.g., Civil Rights Movement) or worse (e.g., fascism). Utilizing a rich vein of social theory and social scientific studies, this course offers an in-depth analysis of these fascinating social phenomena. Prerequisite: SO 110.

**SO 263 Sexual Differentiation in Contemporary Society** 3 CR  
This course develops students' gender awareness in order for them to realize that acceptance of males and females as equal human beings is an orientation that requires understanding of institutions and structures. Prerequisite: SO 110.

**SO 299 Special Topics in Sociology** 3 CR  
Detailed and comprehensive analysis of a sociological issue or problem of current interest. Specific topic is announced in the course schedule of any given semester. Prerequisite: SO 110.

**SO 372 Sociological Theory** 3 CR  
This sociological theory course gives students an understanding of the works of the major classical theorists whose ideas played a central role in the development of sociological theory and...
introduces students to the dominant contemporary perspectives in social thought. Emphasis is on developing the students' knowledge of the range of thinking that exists concerning social issues, what the strengths and weaknesses of each position are, therefore, enabling them to work within any point of view. A seminar format is used, requiring students to do assigned readings before a topic is discussed in class since it is through class discussions that ideas are analyzed, dissected, and critically assessed. Prerequisites: AN 110, SO 110, and two Sociology electives

SO 373 Applications of Sociological Theory 3 CR
Emphasis is on sociology as an applied discipline that provides scientific explanations of important social issues. Students review several existing sociological studies framed within the various theoretical approaches studied in the Sociological Theory (SO 372). Students are expected to identify the theoretical framework used by the researcher in each study; to explain the impact of the theoretical framework on the methodology used in the study; and to propose another theoretical framework that could have been used and its impact on the selection of a research method to study the social phenomenon covered in the study. This course helps students understand the relationship between theory and method and provides a critical foundation for the design and development of their Senior thesis. Prerequisites: SO 372, SO 382; Corequisite: SO 383

SO 382 Methods of Social Research 3 CR
Students learn how to design, conduct, and report the results of social research. Attention is given to: experimental and evaluation research, field research, unstructured exploratory interviewing, content analysis, analysis of published statistical data, survey research, conceptualization and operationalization of variables, analysis of data, the writing of research reports, and the logic of cause and effect in research. The course also includes learning how to use the Statistical Package for the Social Sciences (SPSS) software to analyze quantitative data. Prerequisites: AN 110, SO 110, and two Sociology electives

SO 383 Applications of Social Research 3 CR
This course involves additional exercises with the analysis of published statistical data, content analysis, survey research, sampling theory, the use of SPSS for quantitative data analysis, with emphasis on applications of multivariate analysis for the purpose of examining evidence for cause-and-effect relationships. Other topics include the relationship between theory and research; examining studies which researchers have used to test and/or refine sociological theories; learning how to use one's own research to test, refine, and develop sociological theories; and developing the ability to relate the findings of existing studies to one's own research questions. This course is a critical part of the foundation for the Senior Seminar in Sociology. Prerequisites: SO 382, SO 372; Corequisite: SO 373

SO 392 Sociology Internship 3-6 CR
The internship in Sociology offers an opportunity for qualified Sociology majors to gain practical experience in an area to which sociology applies. Internships are arranged in advance of the semester they are to be taken. Prerequisite: Permission of the instructor. SO 398 Senior Seminar in Sociology 3 CR The capstone course in the Sociology major. Students write and defend a sociological thesis under the guidance of a faculty mentor. Prerequisites: SO 373 and SO 383, Senior Sociology major standing

SO 399 Independent Study in Sociology 3 CR
Designed for students interested in advanced study or in pursuing areas within Sociology for which no course is offered. By special arrangement. Prerequisite: Permission of Sociology faculty
MISSION STATEMENT
The John F. Welch College of Business mission is to foster a learning community rooted in the Catholic intellectual tradition, to provide students with business knowledge and appropriate skills, and to develop undergraduate and graduate students prepared to achieve their personal and professional goals in the business community and global society.

Who we are.
Our learning community includes faculty members who are teachers, scholars, and experienced professionals supported by administrative staff members, undergraduate and graduate business students, alumni, and members of companies and organizations who provide employment, internships, and advice.

What we value.
Rooted in the Catholic intellectual tradition, we value scholarship as contributing to learning, understanding, and the search for truth. We stress the primacy of teaching as the focus of our work and value active, engaging, and personalized learning experiences in and outside of the classroom. We believe personal attention fosters the growth and development of our students, and strive to develop individuals who will act ethically and responsibly. We find strength in the rich diversity of the human family and invite participation in our community by persons of varied races, faith traditions, ethnic backgrounds, and diverse opinions and beliefs.

What we do.
To fulfill our mission, we teach and advise students. We emphasize ethical dimensions in our curricula, promote active participation by students in the learning process, include experiential learning, and incorporate appropriate technology and teaching techniques in our classes. As faculty, we engage in research to understand and contribute to the development of our discipline, its practice, and ways in which it is taught. We partner with the business community to improve practice and align our curricula to evolving business needs, and also work collaboratively to ensure that students develop an awareness of and appreciation for the resources and expertise available to them from the faculty and Sacred Heart University community. We give service to our college, University, profession, and the wider community, and emphasize to our students the importance and intrinsic rewards of being good citizens and the responsibilities of being educated persons.

Accounting

The effective use of financial information is vital for decision makers in business, industry, banking, government, education, law and many related fields. Individuals with a strong background in accounting and finance are in great demand for positions such as financial analysts, estate planners, investment counselors, market researchers, auditors, comptrollers and accounting managers. The Accounting program is designed to meet both the short- and long-term needs of students who enter the accounting profession. The program meets the needs of students who plan to start a career after graduation or who plan to continue their education on the graduate level.

ACCOUNTING COURSE DESCRIPTIONS

AC 101 Financial Accounting and Reporting 3 CR
Emphasis on the information that the language of business provides for decision makers. This is accomplished by using a transactions-analysis approach. Individual and team-based problems and cases are used to stress accounting fundamentals as well as the global and ethical issues of accounting decisions.

AC 105 Managerial Accounting and Control 3 CR
Covers the role of managerial accounting in corporate management. Emphasis is on the introduction of product and service costing, profit planning, cost analysis and the cost allocation process. Current
financial accounting and control matters are reviewed and evaluated. Individual and team-based problems and cases are used to explore global ethical issues.

**AC 201 Intermediate Accounting I** 3 CR

Further discusses accounting concepts, principles and practices, placing more emphasis on the theoretical aspects involved. While intended for the Accounting major, this is also a most useful course for other majors in the College of Business. Prerequisite: AC 101

**AC 202 Intermediate Accounting II** 3 CR

Covers specialized topics in accounting, including leases, pensions and accounting for income taxes. Emphasis is on the most recent pronouncements of the Financial Accounting Standards Board. Prerequisite: AC 201

**AC 301 Advanced Accounting I** 3 CR

Examines financial accounting and reporting topics such as business combinations and consolidated financial statements. These topics are analyzed from the perspective of ongoing developments in business mergers and acquisitions and their ethical implications. Prerequisite: AC 202

**AC 302 Advanced Accounting II** 3 CR

Covers topics such as accounting for partnership, bankruptcies, not-for-profit enterprises and foreign currency transactions. This course includes elements acknowledging its status as a capstone course within the accounting program. These include an extensive overview of accounting ethics, analyses of recent ethical problems in accounting and business and a focus on global issues. Prerequisite: AC 301

**AC 313 Cost Management** 3 CR

Explores critical issues facing accounting and financial managers in the current business environment. Topics include: introduction to state-of-the-art managerial accounting practices, in-depth understanding of cost management, product and service costing methods, performance evaluation and managerial compensation systems. Global and ethical issues are examined. Written assignments, case studies and team discussions comprise much of classroom interaction. Prerequisite: AC 105

**AC 314 Advanced Management Accounting** 3 CR

Introduces modern theory of management accounting and control and strategic cost management. Financial and managerial controls issues faced by multinational corporations are examined. Topics include: cost analysis, activity-based accounting and management, strategic cost control, agency theory, decentralization issues and incentive and compensation systems. Case studies and development, team discussions and empirical study comprise much of classroom interaction. Prerequisite: AC 105

**AC 321 Auditing I** 3 CR

Studies audit practices used by independent public accountants in examining accounting records and statements. Emphasis is on "generally accepted auditing standards" of evaluation of internal control as well as ethical issues. Prerequisite: AC 202

**AC 322 Auditing II** 3 CR

Continues AC 321 emphasizing completion of the audit engagement. Includes preparation of various reports, other services offered by CPAs, legal liability, ethical and professional responsibilities. Prerequisite: AC 321

**AC 383 Federal Taxes I** 3 CR

Introduces individual income taxation. Topics include: formulation of tax statutes, research methodology, tax planning, analysis of taxable income as well as ethical considerations.
Prerequisite: AC 202

AC 384 Federal Taxes II 3 CR
Examines federal corporate, partnership, estate and trust taxation. IRS practices and procedures are examined, as well as international and ethical considerations.
Prerequisite: AC 383

AC 390 Internship 3–9 CR
Students are directly involved in various dimensions of accounting. Emphasis is on the practical application of accounting principles and skills to a specific industry or organization. An on-site accounting professional supervises students.
Prerequisite: Permission of the department chairperson

AC 397 Volunteer Income Tax Assistance Program (VITA) 3 CR
The VITA Program provides low- to moderate-income taxpayers assistance in the preparation of their tax returns. Students receive Internal Revenue Service (IRS) training to help prepare basic tax returns in the local community. Once training is completed, students must pass the IRS's written examination to become VITA certified and complete the required staffing hours during tax filing season. Emphasis is on the application of current tax law, communication skills, and community service.

Prerequisite: IS 272

Business Administration

The Business Administration major is a broad-based degree program enabling students to understand how organizations operate in the contemporary global environment. Business Administration majors acquire an understanding of the external environment of business and how it affects the internal activities of an enterprise. Drawing on management theory as well as current business practices, students develop knowledge, skills and competencies that will enable them to assume positions in a wide variety of industries and organizations. The Business Administration curriculum places special emphasis on personal ethical accountability and corporate social responsibility.
In addition to coursework in business
Disciplines such as accounting, economics, finance, law, marketing, management information systems and operations management, students complete management courses that explore how resources—whether human, information, technology, knowledge or materials—all strategically combine to achieve the goals of an organization. The communication, teamwork and leadership skills needed in managerial roles are emphasized across the curriculum. Students also choose a three-course concentration and are encouraged to complete an internship.

BUSINESS COURSE DESCRIPTIONS

BU 103 Business: Its Nature and Environment (Non-Business majors only)  
Provides an overview of business functions and activities in today's global environment. Explores how the external social and business environments both affect and are affected by organizations and how managers use the various functional disciplines to achieve the goals of the organization. The roles of ethics, globalization, and information technology are explored as key integrating themes.  
3 CR

BU/HI 128 History of American Business Enterprise (Non-Business majors only)  
Examines the growth and development of business in America from early Colonial times to present. Topics include: role of the entrepreneur, business specialization, rise of the corporate form and of "big" business, innovations in management and marketing, and the interplay of business enterprise and other aspects of American society. Qualifies for Area B-1 and Humanities elective core history credit.  
3 CR

BU 201 Organization Management  
An interdisciplinary study of the management of organizations and decision-making, utilizing behavioral and quantitative approaches. Topics include: decision-making, motivation and behavior, leadership, group behavior, organizational change, planning, control and allocation of resources. These topics are addressed against a backdrop of management responses to issues of ethics, social responsibility, and globalization. Lecture and case study format.  
3 CR

BU 202 Organizational Behavior  
Organizational behavior is about people and how they act and interact, mostly as members of groups. Current theories of
organizational behavior are examined through the use of self-administered tests, experiential exercises, discussion and case analysis.

Prerequisite: BU 201

**BU 203 Cross-Cultural Relations**  
3 CR

Being able to work well with people from other cultures, both outside and inside your country, is vital in the changing global environment. Cultural sensitivity and awareness of different perceptions, values, and traditions are important individual skills. Many people identify with more than one culture, adding to the complexity of cross-cultural relations. In this course students learn to be alert to possible cultural differences. Students come to understand these differences and learn not to rely on self-referential criteria.

**BU 207 Management of Human Resources**  
3 CR

Explores the contemporary human resources function and basic processes involved in the recruitment, selection, training, development, and evaluation of an organization’s human resources. Additional topics include today’s emphasis on talent management as well as legal issues in HR management, labor relations, performance assessment and improvement, career paths, termination, compensation and benefit systems, and managing diversity.

Prerequisite: BU 201

**BU/CA 221 Business Communications**  
3 CR

Corporate business-focused oral and written communication skills are analyzed and practiced. Individual and group presentations, memos, letters, reports, resumes, and interview preparation are included. Laptop required.

Prerequisites: C or better in EN 110 and CA 101

**BU 231 Business Law I**  
3 CR

Provides a general survey of law adapted to the business environment. Areas of study include the judicial system, constitutional law, criminal law, tort law, contract law, international law, and employment law.

**BU 232 Business Law II**  
3 CR

Provides an advanced survey of law adapted to the business environment. Areas of study include certain articles of the Uniform Commercial Code, agency law, business organizations, property law, securities law, secured transactions and bankruptcy.

Prerequisite: BU 231

**BU 233 International Business Law**  
3 CR

A general survey of international law including treaties and international organizations. Topics include: the European community, WTO, U.S. trade policy, international contracts and international payment mechanisms.

Prerequisite: BU 231

**BU237 Human Resources Law**  
3 CR

A survey of the laws which create, regulate and terminate the relationship between the employer and the employee, including contract law, federal and state anti-discrimination statutes, wage and hour statutes, and other applicable law. With a micro analysis of the life of an employee complaint, from internal filing to litigation.

Prerequisite: BU 231

**BU 257 Business Ethics**  
3 CR

Investigates the ethical questions that arise in normal business situations. The case study method is used to examine topics such as justice and the market system, whistle-blowing, trade secrets and conflict of interest, privacy, discrimination and affirmative action, marketing, safety and employment issues. Special emphasis is given to ethics as it relates to finance, corporations and international business.

Prerequisites: PH 101 and BU 201
BU 275 Operations Management 3 CR
This course serves as the introduction to the operations function of business. All organizations, for profit or not-for-profit, manufacturing, processing, or services, have operations as their central function. Despite their diversity, these organizations share common objectives and problems; in most cases, the same principles can be applied to help manage the operations. Major topics include determining operations strategy and objectives, planning the operations process, controlling operations, and managing its quality. The course introduces concepts to help understand how operations are organized and how operations decisions affect virtually every aspect of the firm.
Prerequisites: BU 201 and MA 133

BU 278 Principles of International Business 3 CR
Surveys the scope of international business with special emphasis on various environments including political, economic, legal, technological, and sociocultural. Also discusses the managerial process of planning, organizing, controlling, and leading in a global context, and its application to achieve success in international business.
Prerequisite: BU 201

BU 299 Special Topics in Business 3 CR
Designates new or occasional courses that may or may not become part of the department’s permanent offerings. Courses capitalize on a timely topic, a faculty member’s particular interest, an experimental alternative to existing courses, etc. Prerequisites are established by the department as appropriate for the specific course. Consult the current course schedule for available topics and current prerequisites.

BU 301 Business Policy 3 CR
Explores the formulation and administration of policy, integration of the various specialties of business and development of an overall management viewpoint.
Prerequisite: Senior standing

BU 303 Frontline Supervisory Skills 3 CR
Explores supervisory skills required to effectively manage and deal with people in the workplace. Emphasis is on strategic human resource issues of recruiting and managing to retain talent. Includes skill-building applications to practice supervisory skills such as interviewing, providing feedback, conducting effective meetings, resolving team conflict, dealing with emotional behavior, and managing separations, terminations, and outplacement.
Prerequisite: BU 202

BU 311 The Welch Way 3 CR
Introduces Senior Business majors to methods and ideology pioneered by Jack Welch during his stewardship at General Electric. Students gain a deep understanding of Welch-like leadership methods through study and debate. Human resource aspects of management are also covered. Emphasis is on practice rather than theory. Guest speakers, in-class exercises and simulations, and applications of methods are the fundamental elements of this course.
Prerequisites: BU 201 and Senior standing

BU 373 Entrepreneurship 3 CR
Students utilize their skills in various business disciplines to explore the passion of creativity. The course enables students to conceptualize and pursue the development of a new idea or concept or the improvement/new application of an existing product or service. Students utilize their knowledge of the market and competitive landscape, research, financial models, and management skills to determine the feasibility of a project and evaluate risk and the process of raising venture or risk capital.
Prerequisites: BU 201, FN 215, and Junior or Senior standing
BU 380 Creativity in Management 3 CR
This interdisciplinary course is designed to help students understand the genesis of an idea for a new product or service and how that idea is converted into a commercially viable business using marketing and finance concepts. Guest speakers illustrate the creative process, and case studies are used to demonstrate their conversion in the context of a business environment.
Prerequisites: BU 201, FN 215, and MK 201

BU 390 Internship 3–9 CR
Students are directly involved in various dimensions of business. Emphasis is on the practical application of business principles and skills to a specific industry or organization. An on-site business professional supervises students.
Prerequisites: Junior or Senior status plus permission of the internship coordinator and department chairperson

BU 399 Independent Study 1–3 CR
Students work on a special topic under the direction of an instructor. Permission of the instructor and department chairperson is granted to qualified Business majors on the basis of a written proposal from the student.

Business Economics
The Business Economics major gives students a solid understanding of today's global business environment and market structure. It combines in-depth study of economic theory with business applications within an ethical framework. The program enables students to understand market forces and their interplay with government policies and business decisions. It emphasizes the application of economic concepts and the use of critical thinking to resolving economic and managerial problems. Students acquire the analytical and problem-solving skills needed to investigate and critically evaluate economic trends and business conditions. They learn to interpret current issues confronting society (e.g., deficits, inflation, unemployment, poverty) as well as individuals (e.g., wages, cost of living, taxes). The major in Business Economics requires completion of 48 major credits. The curriculum is designed to enable students to succeed in business and government careers, graduate schools, and law schools as well as to become better-informed and productive citizens.

EC 299 Special Topics in Economics 3 CR
Designates new or occasional courses that may or may not become part of the department's permanent offerings. Courses capitalize on a timely topic, a
faculty member's particular interest, an experimental alternative to existing courses, etc.

Prerequisites established by the department as appropriate for the specific course. Course title is shown on the student's transcript. Consult the current course schedule for available topics and current prerequisites.

EC 301 Intermediate Macroeconomic Analysis 3 CR
A course in aggregate economic analysis. Examines theories of the determination of national income and employment. Policies associated with these theories are critically examined.
Prerequisite: EC 203

EC 302 Money and Financial Institutions 3 CR
Studies of the operations of commercial banks and other financial institutions. Examines the significance of money, credit and interest rates. Overviews monetary theories and policies.
Prerequisites: EC 203

EC 313 Managerial Economics 3 CR
Analyzes the structure of industry, business firms and the application of analytical tools of economics to decision making. Topics include: the determination of relevant costs for decisions within the business firm, pricing and capital budgeting problems, risk and uncertainty, and cases involving actual managerial situations that require the use of economic analysis.
Prerequisite: EC 203

EC 315 Game Theory 3 CR
Game theory is a collection of tools used to study and model strategic decision making. These methods can be used to study optimal decision making in contexts ranging from those normally viewed as "games" such as poker to situations that economists are more concerned with that can include how to place a bid in an auction, how to set prices to draw business from a competitor etc. This class will begin by developing the formal tools of game theory and then alternate between showing interesting applications of that theory and developing additional theoretical tools. The types of applications that will be discussed will include a study of optimal auctions, pricing games, and models of election games. The goal for this class is that by the end of it, students should be able to engage in complex strategic analysis of real world situations.

EC 321 Labor Economics 3 CR
Applies the fundamentals of microeconomic and macroeconomic analysis to important decisions that people make in labor markets. Topics include the understanding of the wage and employment determination in the labor market, the wage differential, investing in human capital (i.e. education and training), labor mobility (including immigration), discrimination, unions and unemployment. The course will cover both theoretical and empirical aspects of these issues.
Prerequisite: EC 203

EC 322 International Economics 3 CR
Examines international trade theory and policy, balance of payment mechanisms and international monetary systems. Emphasis is on current problems of trade restrictions and tariffs, gold and international flow of funds and the role of international reserves.
Prerequisite: EC 203

EC 342 European Economic Integration 3 CR
Examines the process underlying economic and political integration of the European Union from the Treaty of Rome to present. Special emphasis is on the European Monetary Union and the EU enlargement.

EC 373 Public Finance 3 CR
Examines the role of the public sector in the economy. Provides an understanding of the reasons for government
intervention in the economy, the extent of that intervention, and the response of private agents to the government's actions. Analyzes both the taxation and the expenditure sides of the government budget. Discusses the impact of taxes on income distribution and explores the expenditure programs, their nature, importance, purposes and economic effects.

Prerequisite: EC 203

EC 391 Quantitative Methods in Economics and Finance 3 CR
Aimed at developing advanced quantitative skills needed for modern economic and financial analyses. Time-series multivariate regression is examined as well as cointegration tests, ARMA procedures, causality tests and recursive stability tests. Computer applications of econometric programs are required.
Prerequisite: MA 133 or equivalent

EC 392 Economic and Financial Forecasting 3 CR
Survey and applications of core time-series techniques of economic and financial analysis. Incorporates standard and advanced models of trend, seasonality and cycles as well as recursive techniques, volatility measures, simulation methods, and stochastic trends. Extensive use of the EViews software program for both modeling and forecasting purposes.
Prerequisite: EC/FN 391

EC 399 Current Issues in Economics 3 CR
Examines major contemporary economic issues. Demonstrates how economists deal with the difficult problems of the day. Open to both prospective majors and non-majors.
Prerequisite: EC 203

Finance

The Finance major provides students with knowledge and skills required to apply the tools and techniques of financial management in all types of organizations. The discipline focuses on financial management as it relates to the raising and investing of capital consistent with the stated goals of an organization. The Finance major also covers topics related to personal investing from the perspectives of both the individual investor and the people entrusted to manage investment funds. Internships are widely available and strongly encouraged.

COURSE DESCRIPTIONS

FN 215 Financial Management 3 CR
Provides an overview of the principles and techniques used in financial management and an introduction to financial markets. Topics include time value of money, measures of risk, models for pricing bonds and stocks, financial analysis, capital structure, cost of capital, capital budgeting and working capital management. Students are introduced to financial problem solving using Microsoft Excel.
Prerequisite: AC 101

FN/SM 243 Sport Finance 3 CR
Examines the application of financial methodology for sport enterprises. Emphasis is on understanding the important sources of revenue (e.g., ticket sales, sponsorships) and media as well as the principal expenses of managing a professional team (e.g., salaries). The course also provides insight to the financing of stadiums and arenas and the valuation of teams.
Prerequisites: AC 101 and FN 215

FN 251 Corporate Finance 3 CR
Emphasizes corporate financial management. Covers financial analysis, working capital management, cost of capital, capital budgeting, valuation, and capital structure.
Prerequisite: FN 215

FN 314 Financial Analysis 3 CR
Develops students' ability to analyze financial statements to determine both asset value and earning capacity of the public corporation's securities. Requires an understanding of the positive and negative effects of operating and financial leverage, as well as ratio analysis as it concerns the capitalization, stock and bond markets. Proof of students' ability lies in the preparation of an analysis of annual report of a major, publicly held corporation.
Prerequisite: FN 215

FN 315 Investments 3 CR
Introduces students to the various types of investment products and markets both in the United States and globally. Topics include valuation techniques and risk measurements for common stocks, mutual funds and bonds; use of options; socially responsible investing; and expected returns for each type of investment.
Prerequisite: FN 215

FN 316 International Finance 3 CR
Explores the principles of financial management from an international perspective. The course provides a broad introduction to the operations of international financial markets and instruments. Students develop an understanding of the workings of international financial markets, the risks of doing business in the international arena, and management of exchange risk exposure. Among the topics covered are foreign exchange markets, foreign exchange risk, management of exchange risk exposure, impact of different exchange rates, taxation systems and inflation rates on financial decisions, project evaluation and interaction among various national financial markets.
Prerequisites: EC 202 and FN 215
FN 318 Current Problems in Finance 3 CR
Seminar on special current topics in finance. Open to seniors majoring in Finance and to Seniors majoring in Business Economics, Business and Accounting with permission of the Finance department.
Prerequisite: FN 215 or departmental permission.

FN 319 Derivatives and Risk Management 3 CR
Designed to help undergraduate students understand the basic derivative markets such as forward, futures, options and swap markets. Key concepts needed to price these basic claims, such as the law of one price, the cash and carry arbitrage and the put call parity, are introduced and explained. Explores the pricing of these claims, as well as arbitrage and hedging in these markets.
Prerequisite: FN 215

FN 320 Personal Finance 3 CR
Examines the financial planning, management and investment needs of individuals and households as they pursue their financial goals. Topics include: personal budgeting, credit buying, banking and borrowing, home ownership, insurance and investing. Upon successful completion of the course, students should have gained a basic understanding as to how to (1) prepare their personal financial plan or program; (2) budget and control their income and expenses; (3) economically and wisely purchase major expense items such as a house or an automobile; (4) purchase needed insurance thoughtfully and purposefully; and (5) begin a program for retirement and investments so that their personal financial objectives can be reached.

FN/EC 390 Internship 3–9 CR
Students are directly involved in various dimensions of finance. Emphasis is on the practical application of finance principles and skills to a specific industry or organization. An on-site finance professional supervises students.
Prerequisites: FN 215 and permission of the department chairperson.

Marketing

The Marketing major provides an opportunity for students to not just develop the knowledge and skills required of today's marketing professionals but also the business acumen to negotiate the global business environment. The curriculum of the Marketing major is a well balanced course of study with a common business knowledge core and specialized courses that provide an understanding of a multitude of topics within the marketing discipline. Within the curriculum students learn to develop new and unique marketing opportunities, think independently, communicate effectively, and appreciate the impact of marketing on their own and other cultures. Graduates in the Marketing major should be well prepared and positioned to achieve increasingly higher levels of marketing management positions in corporations, marketing agencies, or entrepreneurial enterprises.

Prerequisite: MK 201

MK 235 Digital Marketing 3 CR
This course is designed as an introduction to the rapidly evolving world of digital marketing. Changes in consumer behavior and opportunities, problems, tactics and strategies associated with incorporating electronic methods into the marketing function are examined. Internet-specific tools such as search engine marketing and online viral marketing are discussed.
Prerequisite: MK 201

MK 299 Special Topics in Marketing 3 CR
Designates new or occasional courses that may or may not become part of the department's permanent offerings. Courses capitalize on a timely topic, a faculty member's particular interest, an experimental alternative to existing courses, etc. Prerequisites are established by the department as appropriate for the specific course. Course title is shown on the student's transcript.
Prerequisite: MK 201

MK 390 Marketing Internship 3-9 CR
Students are directly involved in various dimensions of marketing management. Emphasis is on the practical application of marketing principles and skills to a specific profit or non-profit enterprise. On-site marketing professionals supervise students.
Prerequisites: MK 201 and permission of the Marketing internship coordinator.

MK 399 Independent Study 1-3 CR
Directed study of a specific, well-defined marketing topic. Permission of the instructor and departmental chairperson is granted to qualified Marketing majors on the basis of a written proposal from the student.
Prerequisite: MK 201

Sport Management

The increasing complexity of the sport industry, the globalization of sport, and the increasing influence of media and technology underscore the importance of specific and comprehensive preparation for sport management professionals in the new economy. The Sport Management curriculum emphasizes the unique management, business, and legal principles and practices necessary to succeed in a dynamic global industry. The Sport Management major prepares professionals who are self-directed in their learning, critical thinkers and problem-solvers, interdisciplinary in their approach, and capable of effectively managing complex sport enterprises and marketing sport-related services and products to diverse markets.

College of Education and Health Professions
College of Education and Health Professions

Patricia Wade Walker, Ed.D.
Dean and Professor of Medical Technology

Michael J. Emery, Ed.D.
Associate Dean and Professor of Physical Therapy

The College of Education and Health Professions seeks to foster the development of women and men who demonstrate intellectual and professional integrity, who value compassionate service to others and who take leading roles in communities governed by spiritual and moral values.

As a professional college within a Catholic university rooted in the liberal arts tradition, the College of Education and Health Professions is committed to providing an education built upon deep respect for the dignity of the human person, and a recognition of the responsibility of each individual to contribute to the building of a more just society.

Specifically, the college strives to teach the skills necessary for developing ethical responses to new and ever changing circumstances of a future filled with discoveries, technological advancements and social change.

The college provides opportunities for students to gain knowledge, experience, skills and values necessary to begin a first career; to advance in an existing career; and to prepare for new career challenges in response to the changing needs of society.

The college’s cooperation with professional partners in the community ensures that students benefit from an integration of academic, internship and clinical experiences. This collaboration also enriches the education and health care endeavors of the community and instills an ethic of community service among students.

The college is committed to professional and academic excellence, and measures this by the quality of its faculty, programs, resources and student achievements.

Health Sciences Curriculum

The Health Sciences curriculum is designed for students who want exposure to issues impacting health care delivery due to their interest in advancing their career in health care or to become better consumers of health services. Courses offered in the Health Sciences curriculum are interdisciplinary, drawing faculty from across the health professions departments of the college, and focus on health promotion for individuals and communities.

COURSE DESCRIPTIONS

HS 300 Health Care Today  3 CR
Examines contemporary health care issues and their impact on the role of health professionals and the delivery of care. Topics include health promotion, access, workforce, costs, and outcomes.
Prerequisites: SO 101 or PS 101; Sophomore standing or above

HS 301 Spirituality in Health Care  3 CR
Explores the spiritual dimension of health care and the incorporation of spirituality into the caring relationship. The intersection of religion, spiritual practices, culture, diversity, life stages and health issues are examined. Other topics include the identification of one’s personal spirituality, discussion of the ethical provision of spiritual care by the health care professional, importance of the consideration of spiritual care needs by the health care team, and the difference in the roles of the health care professional and pastoral care professional.
Prerequisite: Sophomore standing

Minor in Geriatric Health and Wellness

The minor in Geriatric Health and Wellness is designed for students who wish to gain specialized knowledge and skills in preparation for working with older adults. Students must have Sophomore status or above. The minor is designed for students who have an interest in pursuing careers in the health care or human service fields. The minor is organized to help students explore issues and factors that influence health status, functional status and quality of life for older adults, in a variety of settings. The course of study models and encourages interdisciplinary care-team interaction and evidence-based practice, with a focus on health promotion and wellness for older adults. The minor also draws significantly on coursework in the related social sciences and humanities for a broad perspective on the issues associated with aging. Students who complete the minor will engage in a variety of classroom learning experiences. In addition, students will engage in community-based, clinical-learning experiences that address the health promotion, health protection and rehabilitation needs of multicultural elders living in a variety of residential sites in the greater Bridgeport/Fairfield communities.

FACULTY
- Salome Brooks, P.T., MBA, MA
  Program Director

Respective faculty of the disciplines will teach the elective courses.

COURSE REQUIREMENTS

The student must complete two required courses, and choose at least four related elective courses across a minimum of two related disciplines as outlined below. The required courses provide foundational knowledge and skills for working with healthy, impaired and frail elders. The elective courses allow students to focus on
at least two areas of interest in geriatrics or gerontology. Courses for the minor can be used to meet respective departmental and University requirements per existing policies.

**Required Courses**

HS 201 Health and Wellness in Later Life  
HS 203 Chronic Illness and Frailty in Later Life

**Electives**

Four courses from at least two disciplines. Prerequisites as noted in parentheses.

HS 301 Spirituality in Health Care  
NU 243 Cultural Issues in Health Care Delivery  
NU 380 Community Health Nursing for RNs  
NU 381 Community Health Nursing (NU 360)  
PH 258 Medical Ethics  
PH 382 Problems in Contemporary Philosophy  
PS 251 Life Span Development (PS 101)  
PS 274 Adult Development (PS 101)  
PS 295 Health Psychology (PS 102)  
PS 350/BI 205 Essentials of Neuroscience  
RS 281 Religion, Health, and Healing (RS 101)  
SO 240 Studying Changing Human Populations (SO 110)

Students may use other electives to meet this requirement with review and approval by program faculty.

**COURSE DESCRIPTIONS**

**HS 201 Health and Wellness in Later Life**  
This course is designed to guide the student interested in health promotion topics for elders through an experiential learning process using contemporary literature and films, as well as real-life applications of health promotion in local health and human service organizations. The student gains both an appreciation and an understanding of the issues, service systems and resources pertinent to health promotion efforts for those in later life. A service learning project is a required course activity.  
Prerequisite: Sophomore standing

**HS 203 Frailty and Chronic Illness in Later Life**  
This course is designed to introduce students interested in careers in health and human services to the various aspects of living with chronic illness or physical frailty as experienced by older adults and their families. The course includes a didactic component that focuses on the medical, functional, psychological, spiritual, and sociocultural issues associated with chronic illness and/or frailty, and uses the research literature as well as contemporary literature and films as resources. The course will meet both for on-site (classroom) discussion, and for online learning using the Blackboard system. The community-based service component of the course is an "adoptive grandparent" friendly visiting program with older adults who are living in assisted living or long-term care facilities near the campus. Students also explore the formal and informal support networks that impact on quality of life for frail or chronically ill older adults.  
Prerequisite: Sophomore standing.

**Human Movement and Sports Science**

The Human Movement and Sports Science program is based on a solid liberal arts and science education designed to foster development of human values, effective interpersonal skills and a scientific foundation for the major area of study. The program consists of two distinct majors: Athletic Training and Exercise Science. The Athletic Training and Exercise Science majors are based on strong science-oriented core curriculum, providing students the necessary framework to build on during their
Both majors consist of didactic and clinical components that provide students with the knowledge base necessary to work in allied health as well as opportunities to enhance their knowledge through practical experience and application.

DIFFERENTIAL TUITION
Sacred Heart University has implemented a differential tuition for the Human Movement and Sports Science program. The cost of Athletic Training and Exercise Science education is increased relative to other majors due to intensive clinical laboratory courses and clinical supervision required to maintain the professional standards of athletic training and exercise science education in addition to the associated expenses of clinical education. This charge will be reflected as a program fee each semester in addition to undergraduate tuition and fees. The fee will be initiated for Human Movement and Sports Science students starting their Sophomore year.

All Human Movement and Sports Science students must maintain a minimum grade point average (GPA) of 2.5 and receive a C or better in all prerequisite and required courses. This undergraduate program leads to a Bachelor of Science (BS) degree in the specific areas of study (either Athletic Training or Exercise Science).

PPD AND CPR REQUIREMENT
All Human Movement and Sports Science students are required to have current PPD (Tuberculosis Testing) and CPR for the Professional Rescuer certification or its equivalent certification when engaged in clinical rotations or clinical-related activities where patient interaction may occur. The Human Movement and Sports Science program offers the CPR certification annually and PPD testing can be obtained from University Health Services. Athletic Training students are required to have the certification by Spring of their first year; Exercise Science students, prior to EX 365, Clinical Exercise Science.

ATHLETIC TRAINING
The Athletic Training major is designed for those students interested in pursuing a career in athletic training. Students who complete the Athletic Training major will be eligible to sit for the Board of Certification (BOC) examination. Furthermore, students are prepared to pursue post-professional education in athletic training or other areas of allied health (i.e., physical therapy, exercise physiology, biomechanics, cardiac rehabilitation, occupational therapy, wellness, nutrition, etc.). Students interested in pursuing an undergraduate degree in Athletic Training and a professional graduate degree in Physical Therapy should contact the Department of Physical Therapy and Human Movement and Sports Science for additional information.

The Athletic Training Education program has a competitive admissions process. The Athletic Training major enrollment is limited to 30 students per class. Students interested in pursuing Athletic Training at Sacred Heart University should consult with the Office of Admissions and the Athletic Training Education program for current admission criteria. Two routes of Athletic Training Education program admission are available, early acceptance as a high school senior and also as a first-year Sacred Heart University student.

Early acceptance into the undergraduate Athletic Training Education program is available for high school seniors. Early admission is based on several factors including: high school academic performance (3.0 cumulative GPA), completion of three to four years of science during high school, SAT (1050) or equivalent ACT scores, and an expressed interest in the Athletic Training Education program. For students who qualify, a seat will be reserved in the program and they will be designated as an Athletic Training major upon entry to the University. Additionally, to retain early acceptance status in the program, students must meet and maintain the following criteria as they move through their first year of study at Sacred Heart University:
• Complete the required First year prerequisites and meet or exceed a minimum GPA of 2.5, with no grade lower than a C in the science courses.
• Attend athletic training orientation and training events.
  • Attend one information/advising session held once each semester.
  • Complete health verification and personal information (available via the program's website)

Students who do not fulfill the above conditions will lose their reserved seat in the Athletic Training Education program; however, they may still apply on a competitive basis at the end of their first year. Preferential consideration for the majority of seats in the program is given to Sacred Heart University undergraduate applicants.

Students who do not meet the early admission criteria, or who decide to apply during their first year or who are transfer students should apply for available seats by completing the formal application for admission to the Athletic Training Education program. The application can be found on the program's website. Transfer students should inquire with the Athletic Training Education Program Director regarding their potential admission status before applying.

Acceptance into the Athletic Training Education program for students who have not been granted early acceptance is based on university or college scholarly achievement, overall GPA, science GPA, letters of recommendation, and a personal statement. Athletic Training Education program acceptance is also conditional upon meeting the program's technical and medical standards. The program requires the completion of a certificate of health following a physical examination by a physician. All students must show proof of vaccination, immunization and hepatitis B vaccine series or signed waiver, prior to beginning the program. In addition, athletic training students are required to meet physical and behavioral technical standards to successfully complete all program requirements. Complete written information on required technical standards can be obtained from the Human Movement and Sports Science–Athletic Training Program Director, the Human Movement and Sports Science Policy and Procedure Manual, and the program website.

The opportunity to participate in intercollegiate athletics while pursuing a career of study in athletic training is available. However, it is the responsibility of the student to manage the time commitment of both endeavors. Students should discuss the time commitments for participation in this major and their specific sport with their major advisor and coach.

PROGRAM ACCREDITATION
Sacred Heart University's Athletic Training Education program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). Accreditation status was granted in October 2001.

CLINICAL EDUCATION
Clinical education provides students the opportunity to apply classroom knowledge with clinical experience. All clinical experiences, traditional and non-traditional, are under the direct supervision of certified athletic trainers. Students are exposed to a variety of settings including high school, college and outpatient clinical activities. In addition, the clinical education program requires students to amass a minimum number of clinical hours per semester, as outlined in the syllabi of each practicum course. All students are required to maintain current CPR for the Professional Rescuer certification, annual PPD verification and blood-borne pathogen training (or its equivalent) throughout the clinical experience. Students will not be able to participate in the clinical experience without current certification. Students are responsible for providing transportation to off-campus sites.

Beginning first semester of the Sophomore year, students enroll in six sequential graded practicums for which they receive credit. These six practicum courses are didactic and clinical in nature and utilize
a problem-based approach. Each practicum is designed to foster critical thinking and allows an opportunity for students to practice clinical skills they have been taught previously in the classroom. Small self-directed student groups are posed problem-based situations or cases requiring identification of pertinent strategies and clinical decisions to address the problem or case. The learning goals and new information discovered by the group during directed investigation of the problem, is researched by individuals of the group and then examined and processed by the entire group before presentation, discussion and evaluation. Facilitators (tutors) provide feedback to students regarding their decisions and guide students toward understanding the interconnections between their actions and the implications of their actions in the clinical environment.

Exercise Science

The Exercise Science (EX) major is designed for those students who are seeking a broad background in exercise and fitness. It can also serve as a foundation for graduate study in athletic training, physical therapy, exercise physiology, biomechanics, cardiac rehabilitation, wellness and conditioning and nutrition. The didactic and clinical components allow students the opportunity to explore related areas of study, including exercise physiology, strength and conditioning training, exercise prescription and fitness assessment. Graduates from the EX major are prepared to pursue either employment opportunities in health and fitness settings, or graduate school in those health professions noted above. No additional application process is required for students in the EX major.

All students are required to maintain current CPR for the Professional Rescuer certification (or its equivalent) and annual PPD verification throughout the clinical experience. Students will not be allowed to participate in the clinical experience without current certification. Students are responsible for providing transportation to off-campus sites.

HUMAN MOVEMENT AND SPORTS SCIENCE

COURSE DESCRIPTIONS
*All students in the HMSS program must complete all major required courses

HM 250 Exercise Physiology 4 CR
Presents a workable knowledge of the body's response to physical activity. Exercise metabolism, cardiopulmonary function, adaptations to training and environmental factors are addressed as well as exercise training guidelines. Assessment, clinical skills, aerobic testing, strength and power testing, and flexibility testing are among lab activities.
Prerequisites: BI 131/133 and 132/134

HM 253 Pathophysiology and Pharmacology 3 CR
A systematic study of the disease process and disorders commonly seen in an exercise setting. Emphasis is on the effect of disease symptoms, management, and pharmacological agents on physical activity.
Prerequisites: BI 131/133 and 132/134

HM 255 Nutritional Aspects of Human Health and Performance 3 CR
Provides an examination of the six classes of nutrients with strong emphasis on chronic disease prevention and improving athletic performance. Issues concerning dietary supplements, functional foods, and the ethics of food choices are also explored.
Prerequisites: BI 131/133 and 132/134

HM 260 Kinesiology, with Lab 4 CR
Investigates basic mechanical and kinesiological principles and their functions, interrelationships, and involvement with the mechanics of human motion.
Prerequisites: PY 100, BI 131/133; Corequisite: BI 132/134

ATHLETIC TRAINING COURSE DESCRIPTIONS

AT 100 Principles of Athletic Training 3 CR
This course is an introduction to basic principles of the athletic training profession. Content includes history of the athletic training profession, sports medicine team concepts and applications, environmental influences, health assessment screenings, basic injury and illness assessment, management and treatment, protective equipment, strength and conditioning concepts, and health risks related to the physically active.
Risk factors associated with blood-borne pathogens and common diseases that affect the active population are also addressed.

Prerequisites: CPR for the Professional Rescuer or its equivalent, PPD verification, and Blood Borne-Pathogen training

**AT 125 Athletic Training Basic Skills**

Course meets on a regular basis for formal competency development. Includes skill development in taping, wrapping and splinting techniques, therapeutic modalities, basic evaluation techniques, emergency care and topical anatomy. Prerequisite: AT 100 and CPR for the Professional Rescuer or its equivalent

**AT 129 Athletic Training Clinical Practicum I**

Specific content includes emergency procedures, heat and cold illnesses, environmental issues, and basic assessment and evaluation. Students also obtain clinical athletic training experience under the supervision and guidance of a clinical instructor. Weekly maximum of 10 hours of practical experience required. Only those clinical hours performed under a certified athletic trainer will be used toward meeting the course requirement. The nature of the didactic portion of this course is problem based. Prerequisites: AT 100 and CPR for the Professional Rescuer or its equivalent

**AT 220 Athletic Training Clinical Practicum II**

The nature of the didactic portion of this course is problem based. Specific content includes case-based scenarios focusing on lower extremity and spinal orthopedic assessment and treatment, taping and bracing, biomechanical assessment and orthodic fabrication, assessment of pre-participation examinations. Students also obtain clinical athletic training experience under the supervision and guidance of an approved clinical instructor. Weekly maximum of 15 hours of practical experience required. Prerequisites: AT 125, AT 129, AT 239, and CPR for the Professional Rescuer or its equivalent

**AT 221 Athletic Training Clinical Practicum III**

The nature of the didactic portion of this course is problem based. Specific content includes case-based scenarios focusing on upper extremity orthopedic assessment and treatment, taping and bracing, therapeutic modalities, and biomechanical assessment. Students also obtain clinical athletic training experience under the supervision and guidance of an approved clinical instructor. Weekly maximum of 15 hours of practical experience required. Prerequisites: AT 220, AT 241, and CPR for the Professional Rescuer or its equivalent

**AT 222 Athletic Training Clinical Practicum IV**

The nature of the didactic portion of this course is problem based. Specific content includes case-based scenarios focusing on advanced orthopedic spine, head and neurological assessment, treatment, taping and bracing, basic therapeutic modalities, research skills, and professional development. Students also obtain clinical athletic training experience under the supervision and guidance of an approved clinical instructor. Weekly maximum of 15 hours of practical experience required. Prerequisites: AT 221, AT 241 and CPR for the Professional Rescuer or its equivalent

**AT 239 Orthopedic Evaluation I, with Lab**

Focuses on the evaluation process, management, and treatment of orthopedic and neuromuscular injuries of the lower extremity. Course content includes the evaluation process, medical terminology, nomenclature and documentation, basic principles of goniometry and manual muscle testing, concepts of universal precautions, and OSHA standards and training. An overview of athletic training professional organizations and the role the athletic trainer plays in the health care system is also introduced. Lab portion
of the class focuses on the skills needed to perform a comprehensive orthopedic evaluation.

Prerequisites: BI 111/113, BI 112/114, and currently taking BI 131/133

AT 240 Orthopedic Evaluation II, with Lab 4 CR
Focuses on the continued development of skills and knowledge needed for conducting comprehensive orthopedic evaluations. Course content includes the evaluation, management, and treatment of orthopedic and neuromuscular injuries to the upper extremity, head, and spine. Lab portion of the class focuses on the clinical skills needed to perform a comprehensive orthopedic evaluation of the upper extremity, head, and spine.

Prerequisites: AT 239, BI 131/133, and currently taking BI 132/134

AT 241 Therapeutic Modalities, with Lab 4 CR
Utilizing the injury-response cycle as a foundation for clinical decision making and a problem-solving approach to treatment planning, this course prepares students to investigate and analyze indications, contraindications, and set-up procedures for therapeutic agents, including pharmacological influences that aid the healing of injury, reduction of pain, and assistance in the rehabilitation process among the active population.

Prerequisites: AT 129, AT 240, and PY 100

AT 242 Therapeutic Rehabilitation, with Lab 4 CR
Explores foundational theories and techniques of various therapeutic approaches to rehabilitation through discussion, laboratory and lecture. Common surgical techniques and their implications on the rehabilitation process are examined. Students have opportunity to enhance their research and writing skills through a term paper assignment.

Prerequisites: HM 260, AT 241

AT 275 Organization and Administration in Athletic Training 3 CR
This course presents an overview of administrative concepts and organization of an athletic training education program and facility in a variety of settings, including university, secondary school, and private clinic.

Prerequisites: AT 241 and AT 220

AT 310 Aspects of Clinical Medicine, with Discussion 4 CR
This course introduces athletic training students to the etiology of normal and abnormal responses to injuries/illnesses and diseases and presents an opportunity for students to acquire the necessary evaluation skills needed to provide immediate treatment or referral. Discussions center on general medicine topics: etiology, pathology, clinical evaluation, medical management, and prognosis of common types of musculoskeletal, reproductive, cardiovascular, visceral and neurological injury and disease. Students will also participate in a general medicine clinical rotation. This course also utilizes allied health practitioners to deliver specific course content pertinent to their professional field.

Prerequisites: AT 222, AT 242, and CPR for the Professional Rescuer or its equivalent

AT 322 Athletic Training Clinical Practicum IV 3 CR
The nature of the didactic portion of this course is problem based. Specific content includes case-based scenarios focusing on nutrition, rehabilitation, organization and administration and professional development. Students will begin a two semester capstone research project focused on either development of a case study or literature review. Students also obtain clinical athletic training experience under the supervision and guidance of an approved clinical instructor. Weekly maximum of 20 hours of practical experience required.

Prerequisites: AT 222, and CPR for the
Professional Rescuer or its equivalent

AT 323 Strength and Conditioning for Rehabilitation Professionals 3 CR
This course prepares the athletic training student to apply a scientific basis and functional approach to the development of strength and conditioning programs for patients and clients.
Prerequisite: AT 242

AT 324 Athletic Training Clinical Practicum VI 3 CR
The nature of the didactic portion of this course is problem based. Specific content includes case-based scenarios focusing on general medicine, psychosocial issues, professional development and strength and conditioning. The capstone project will continue culminating in presentation. Students also obtain clinical athletic training experience under the supervision and guidance of an approved clinical instructor. Weekly maximum of 20 hours of practical experience required.
Prerequisites: AT 310, AT 322, and CPR for the Professional Rescuer or its equivalent

EXERCISE SCIENCE COURSE DESCRIPTIONS

EX 100 Introduction to Health and Fitness 3 CR
Aspects of a healthy lifestyle including physical activity, nutrition, and public health are examined in addition to strategies to promote wellness.

EX 320 Special Application of Exercise 3 CR
This course provides practical exercise science experience in a field setting serving special populations under direct supervision. Course includes a service-learning component in addition to a weekly seminar.

EX 358 Human Development and Exercise 3 CR
Examines the theory and practice of selecting age-appropriate fitness-promoting activities. The course also reviews the effects that growth and maturation have on physical performances.
Prerequisite: HM 250

EX 362 Exercise Testing and Prescription, with Lab 4 CR
This lab course explores various methods to evaluate musculoskeletal strength/endurance, cardiopulmonary endurance, flexibility and body composition with emphasis on assessment, screening, developing a test battery, and the creation of individualized exercise programs for healthy populations. The lab component is designed to refine students' clinical skills and provide an opportunity to use advanced techniques in exercise testing.
Prerequisite: HM 250

EX 363 Developing Strength and Conditioning Programs 4 CR
Reviews the scientific basis and practical concerns related to the development of safe, effective strength, and conditioning programs. Emphasis is on both proper exercise technique/instruction and the creation of programs utilizing numerous systems and modalities.
Prerequisites: HM 250 and HM 260

EX 365 Clinical Exercise Science, with Lab 4 CR
Explores diagnostic testing, exercise prescription, and lifestyle modification in health and chronic disease rehabilitation. Primary and secondary prevention and treatment of heart, lung, immune, and metabolic diseases are also addressed. Lab component consists of a clinical rotation, which exposes students to cardiac and pulmonary rehabilitation centers, sports medicine clinics, corporate fitness centers, community fitness centers, and sports performance centers.
Prerequisites: HM 250 and CPR for the Professional Rescuer
Nursing

The Baccalaureate of Science in Nursing (BSN) degree is designed to meet a variety of educational needs beginning with the initial preparation necessary to enter the profession of nursing as well as faster professional growth and advancement for returning registered nurses (RNs).

MAJOR IN NURSING
Two tracks are offered in the Nursing major: First Professional Degree program and Nursing Completion program for RNs who wish to achieve a BSN. The BSN programs are fully accredited by the Commission on Collegiate Nursing Education (CCNE). For information, contact the CCNE at One Dupont Circle, NW, Suite 530, Washington, DC 20036-1120; phone: 202-887-6791; or web site www.aacn.nche.edu. In addition, a 6-credit certificate in Home Health Care Management is available online. This certificate meets the current requirements for the position of Home Health Supervisor in Connecticut, for RNs who do not have a bachelor's degree.

FIRST PROFESSIONAL DEGREE PROGRAM
The BS in Nursing program provides a first professional degree for entry into the nursing profession. At the conclusion of four years of study, students are eligible to take the National Certification Licensure Examination (NCLEX) developed by the National Council of State Boards of Nursing (NCSBN) in the United States. Qualified applicants are admitted into the University as pre-Nursing students and are guaranteed a seat as a sophomore Nursing student if they meet or exceed freshman prerequisite coursework and GPA requirements. During the following three years, nursing students participate in simulated laboratory learning and clinical experiences at a variety of health related facilities in the area.

Upon successful completion of freshman prerequisite coursework with an overall GPA of 2.8 or higher and grades no lower than C in science courses, students enter the Nursing major in the fall semester of the sophomore year. The course sequence is outlined in the Plan of Study below. To receive a BS in Nursing, First Professional Degree Program students must successfully complete 122 credit hours, 54 of which are the Nursing major requirements. In addition, students must maintain the overall GPA and course grade requirements cited above. Students must also demonstrate safe and competent practice in all nursing clinical and laboratory settings while adhering to the published professional standards of conduct.
DIFFERENTIAL TUITION
Sacred Heart University has implemented a differential tuition for the First Professional Degree Nursing program. The cost of nursing education is increased relative to other majors due to intensive clinical laboratory courses and clinical supervision required to maintain the professional standards of nursing education in addition to the associated expenses of clinical education. This charge will be reflected as a program fee each semester in addition to undergraduate tuition and fees. The fee will be initiated for nursing students starting their Sophomore year.

**Program Competencies**

**NURSING**

**Caring**

5. Provide empathetic care that incorporates the dignity and worth of clients.

**Collaboration**

6. Work collaboratively with others using a process grounded in respect and knowledge of others’ roles.

**Communication**

7. Use appropriate, accurate and effective communication processes.

**Critical Thinking**

8. Demonstrate critical thinking as evidenced by the ability to analyze, synthesize, evaluate and reflect.

**Therapeutic Intervention**

9. Provide competent holistic care based on scientific principles to promote health and reduce illness.

**Health and Illness**

**Clients**

10. Provide care to diverse clients across the lifespan.

**Health Care Needs**

11. Determine client needs through health assessment and use of standard data sources.

**Health Care Goals**

12. Develop a plan of care based on client needs that is realistic, outcome oriented, cost-effective and mutually agreeable.

**Professionalism**

**Leadership**

13. Coordinate health care of individuals and groups utilizing principles of interdisciplinary models of care delivery and case management.

**Policy**

14. Incorporate basic knowledge of health care policy and systems to inform practice, advocate for clients and meet society’s needs.

**Standards and Conduct**

15. Demonstrate accountability for competent practice guided by ethical, legal and professional standards.

**Nursing Laboratory**

The nursing laboratories are equipped with sophisticated simulation mannequins and models, exam tables,
hospital beds, computers, and a variety of audiovisual material. The laboratories are designed to promote critical thinking and skill proficiency for all major content areas of nursing practice. Under the direction of a full-time nurse, faculty members and nursing lab assistants assist students to practice and demonstrate competency in skills in a simulated clinical setting. In addition to scheduled class times, laboratories are open and staffed for students' individual practice during specified hours.

NURSING COMPLETION PROGRAM (RN TO BSN)

The Registered Nurse to Bachelor of Science in Nursing program provides registered nurses who have graduated from accredited diploma or associate degree programs educational mobility in a program designed for the adult learner. No entrance exams are required for practicing, licensed nurses. The upper-division curriculum has been specially designed for RN students returning to finish their baccalaureate education. All Nursing courses and most non-Nursing courses are offered via web-based formats. Personal attention and interaction between the faculty and student are a major focus in the Nursing Department.

The RN to BSN program is student-friendly and tailored to meet the needs of adult learners. There are two courses in the curriculum with a practicum component: care management and public health nursing. Students select preceptors and design learning objectives and strategies, with faculty approval, based on their personal learning needs and areas for growth. Students do not have to repeat previous clinical experiences. Required Nursing courses are upper-division courses and are designed specifically for RN students.

To receive a BS degree in Nursing, the RN must complete 124 credit hours of study: 68 credit hours in prescribed general education courses and 56 credit hours in the major with at least a 2.5 GPA. A minimum of 30 nursing credits are awarded through the Connecticut Nursing Education Articulation Plan. The professional major is built on a core of sciences, humanities, social sciences and mathematics courses. Prior to entry into the major, specific prerequisite courses must be completed at Sacred Heart University or another accredited college, or by college-level examinations (CLEP). Credit for prior learning is also an option for selected courses.

ACCELERATED RN TO MSN PROGRAM

This program is for registered nurses who have graduated from accredited diploma or associate degree programs in Nursing and provides an accelerated path into the Masters in Nursing program. The baccalaureate upper-division Nursing major includes both undergraduate and graduate-level courses to satisfy the requirements for the baccalaureate degree. The basis of the acceleration is the substitution of graduate credits for credits toward the BSN. All required undergraduate nursing courses for this degree are available online, as are the graduate nursing core courses and nursing courses required for the MSN in Patient Care Services Administration track. Approximately 60% of the required courses for the MSN in Family Nurse Practitioner and 80% of the Clinical Nurse Leader courses are also available online. Please refer to the Sacred Heart University Graduate catalog for additional information.

Admission Requirements

The program is limited to academically strong students who have experience in nursing and demonstrate a commitment to nursing leadership and advanced practice. Students apply through Graduate Admissions directly for the RN to MSN program. Students are granted provisional admission to the graduate program pending completion of their BSN requirements. Application materials must include:

- an undergraduate GPA of 3.0 or above,
- official transcripts,
• an application,
• two letters of recommendation,
• a resume, and
• statement of professional goals.
An interview with the graduate Nursing faculty is also required. Applicants must provide a copy of their Connecticut RN license or, for online students an RN license in their state of practice, and must carry liability insurance. One year of nursing experience is preferred.

Nursing Major Requirements—BSN
NU 290 Validation of Prior Learning

Courses in the Nursing major are generally taken after the majority of general education courses have been completed. Nursing 305, 315, 325 and 365 (or NU 401, 430, 431, and 433 for RN to MSN students) must be taken before NU 375 or 385. Students are encouraged to review the University catalog for other policies and requirements related to timing of various course requirements, CLEP availability and timing, and credit for prior learning application procedures.

NURSING MAJOR REQUIREMENTS—MSN

Please refer to the Graduate catalog for Nursing major requirements—MSN.
CERTIFICATE PROGRAM
IN HOME HEALTH
CARE MANAGEMENT
FOR RNS—ONLINE

The certificate program in Home Health Care Management is designed for nurses in management positions in home health agencies to meet the State of Connecticut's Department of Public Health (DPH) requirements. DPH requires nurses in managerial positions in home care who do not have a BSN to complete at least six credits in health care management or community health from an accredited college, university or school of nursing.

ADMISSION REQUIREMENTS

Students must apply to the Department of Nursing for the certificate program and enroll as a Special Student at Sacred Heart University. There is a $15 fee for processing the application. Students must take the course for credit, which may later be applied to the RN to BSN degree.

REQUIRED COURSES

NU 355 Leadership in Contemporary Nursing Practice
NU 382 Management of Home Health Care Agencies

NURSING EDUCATION CERTIFICATE

The certificate in Nursing Education consists of a 10-credit course sequence covering educational theory and curriculum design and evaluation, culminating in a role practicum experience. The certificate will develop the student's knowledge and skills in education to apply to practice as a faculty member in schools of nursing or positions in educational departments in hospitals or other health care organizations. This certificate in Nursing Education can be awarded at either the baccalaureate or graduate level depending on the educational background of the student.

Students already enrolled at SHU or enrolling for a degree in the RN-BSN or RN-MSN program, and MSN students in any track can take the certificate courses as electives and additional credit in the degree programs. Registered Nurses not enrolled at SHU with a BSN or MSN, and applicants without a degree in nursing can enroll.

ADMISSION REQUIREMENTS (FOR CERTIFICATE-ONLY APPLICANTS)

Applicant must apply for the certificate program through graduate admissions. The application fee is $50. Courses cannot be audited or taken for Pass/Fail. Credit may later be applied to a degree if the student enrolls in a degree program within 5 years. Students must achieve a grade of C or better (undergraduate) or B or better (graduate) in the courses to be awarded the certificate. If certificate students later apply for a MSN, only grades of B or better will be applied to the degree. 'Students enrolled in degree programs will meet the admission and progression criteria for the degree.

NU 489 Curriculum Development and Evaluation in Nursing Education (3 CH)
NU 490 Nursing Education Role Practicum (4 CH)

COURSE DESCRIPTIONS

NU 205 Foundations of Professional Nursing 3 CR
This course introduces the student to the profession of nursing. The student builds upon foundational knowledge from the liberal arts, sciences and humanities and applies this to the content and process of nursing. The metaparadigm of nursing is presented in conjunction with the
University's mission and organizing framework. Students are introduced to the concepts of health and effective communication and demonstration of the teaching/learning process. Theories for nursing practice are introduced. Laboratory and clinical experiences are coordinated to offer the student practical experience with selected clients in providing basic nursing care in a professional, caring manner. Students will also incorporate principles of nutritional and pharmacological therapies, including medication administration and documentation, while providing supervised clinical care. Students will demonstrate effective use of available technologies to assess, monitor and evaluate patient care.

Prerequisite: Acceptance to the Nursing major

NU 210 Health & Wellness & Cultural Diversity 2 CR
This course introduces the entering Nursing student to basic concepts, theories and methods of exploring the health, wellness and cultural diversity of individuals. Common factors that promote the health and wellness of individuals across the life span are explored. Cultural diversity expands this discussion to include the meaning and impact of culture on health and wellness through the exploration of cultural phenomenon such as perception toward time, communication, social organization and healing traditions.
Prerequisite: Acceptance to the Nursing major

NU 215 Health Assessment 3 CR
Introduces assessment parameters including interviewing, history taking, physical examination and functional assessment. Students formulate nursing diagnoses based on the North American Nursing Diagnosis Association nomenclature. Adequate data collection and careful analysis for diagnostic and planning purposes are stressed.
Prerequisite: Acceptance to the Nursing major

NU 220 Pharmacology and Nursing Implications 3 CR
This course focuses on the major actions of drugs on body systems with an emphasis on the role of the nurse to promote patient safety during all aspects of medication administration. Legal, ethical, and professional responsibilities related to medication administration and promotion of patients' health and wellness are also addressed. Correct drug calculation and safe medication preparation and administration are discussed and practiced in the nursing simulation laboratory.
Prerequisite: Acceptance to the Nursing major

NU 277 Pathophysiology for RNs 3 CR
This course is designed to examine alterations in functions affecting individuals across the lifespan. Students will explore pathophysiological concepts utilizing biology, microbiology and physiological sciences as a basis for their approach. The scientific approach will provide a further understanding of the mechanisms of disease and the student will incorporate critical thinking skills with practical application. The course is designed in two parts; Basic concepts which introduce basic principles and process and the Body systems and Diseases which provide a comprehensive approach to common alterations in body systems.
Prerequisite: Acceptance to the RN-BSN Nursing Major

NU 299 Special Topics in Nursing 3 CR
Designated new or occasional courses that may or may not become part of the department's permanent course offerings. Prerequisites are established by the department as appropriate for the specific course. Course title is shown on the student's transcript.
NU 300 Psychiatric-Mental Health Nursing 4 CR
Introduces students to the practice of mental health nursing for individuals, families and groups with commonly occurring mental health disorders. Course content stresses the interpersonal process, nurse self-understanding and current mental health practice. Commonly occurring mental health disorders such as addictive behaviors, personality disorders, schizophrenia and mood disorders are presented. Stresses critical thinking in relation to the provision of care to clients with mental health needs.
Prerequisites: NU 215

NU 305 Transition to Professional Practice 3 CR
This course is designed as a transition to the nursing major and as a forum to facilitate comparison between the scope of practice of the registered nurse and the baccalaureate prepared nurse. Role behaviors of the baccalaureate practitioner will be analyzed and applied within a framework of the health care environment and the ethical, legal and social issues that influence nursing practice. Critical Thinking skills are developed as an essential component of professional practice.
Prerequisite: Acceptance to the RN-BSN Nursing Major

NU 310 Pathophysiology 3 CR
This course focuses on nursing actions and responsibilities to manage and provide care for clients who are experiencing acute or chronic physiologic health conditions. Reduction of risk potential, including complications from existing conditions are also be explored. Content builds on prior anatomy and physiology concepts learned in prerequisite coursework.
Prerequisite: NU 215

NU 315 The Human Journey of Nursing 3 CR
*The Human Journey* in Nursing utilizes the four questions posed in the University Common core to address Nursing's role in building a just society. Concepts such as human vulnerability, resiliency, spirituality and cultural diversity will provide the platform from which discussions about the professions and the professional nurse's role in shaping past, current and future health care will be based. Reflection on service learning experiences will personalize and professionalize the meaning and responsibility for addressing health inequities within the workplace and the perpetuation of health disparities in society.
Prerequisites: Acceptance to the RN-BSN Nursing Major and Completion of University Common Core courses.
This course is not a substitute for the Common Core Courses

NU 325 Health Assessment for RNs 3 CR
Utilizing the conceptual framework of the nursing program, this course focuses on comprehensive health assessment. Adequate data collection and careful analysis for diagnostic and planning purposes is stressed. The student will use the diagnostic reasoning process to formulate nursing diagnoses based on the North American Nursing Diagnosis Association (NANDA) nomenclature. The nursing laboratory experience is available for students but not required. Videotaping assessment skills is a required course tool.
Prerequisite: Acceptance to the RN-BSN Nursing Major

NU 330 Care of the Childbearing Family 4 CR
Focuses on the application of the elements of critical thinking to the care of women and families in their childbearing experiences. Culturally sensitive nursing practice embodies the care of women and families who range from healthy to at-risk states along the continuum of their growth and development. Nursing interventions are supportive, restorative and promotive in nature, and include principles of effective communication and teaching. Clinical experiences provide students with opportunities to apply their critical thinking and knowledge base to
care for expectant women in a variety of settings.
Prerequisite: NU 215

NU 335 Information and Technology for Nursing Practice 3 CR
This course provides an introduction to information and technology needed for the practice of nursing today. It will focus on providing material to enable nurses to be computer literate by exploring the use of emerging information sources and communication technology and their impact on health care. Emphasis will be placed on trends and issues in clinical technology. It will also examine key issues such as security and the use of data bases.
Prerequisite: Acceptance to the RN to BSN Nursing Major

NU 340 Introduction to Adult Nursing 5 CR
The first of two adult nursing courses, this course emphasizes the nursing roles in health promotion, health restoration and health maintenance. Classroom and clinical learning experiences focus on integration of knowledge from previous coursework. Consistent with the organizing framework of the Nursing program, this course incorporates aspects of critical thinking into classroom and clinical learning experiences. Students have the opportunity to provide nursing care to clients with common health problems from young adulthood to older adults. Course content focuses on the common health problems of the population of clients, which include: urinary, intestinal, neurologic and musculoskeletal disorders; problems of metabolism, sensation and perception; and perioperative nursing care.
Prerequisite: NU 310

NU 355 Leadership in Contemporary Nursing Practice 3 CR
This course will focus on the professional nurse's role in applying theory and principles of leadership and management in organizations across the health care continuum. Focus will be placed on strategies necessary to function effectively in a changing health care system by exploring interrelated process of thinking systematically, developing reflective judgment, and exercising leadership. Strategies for managing the quality and cost of health care, as well as research utilization, are emphasized to promote effective practice.
Prerequisite: Acceptance to the RN-BSN Nursing Major

NU 360 Adult Nursing II 6 CR
The second in the two-course sequence of adult nursing, this course emphasizes the nursing roles for the supportive, promotive and restorative functions of nursing practice, and continues to incorporate critical thinking into learning experiences. Students have the opportunity to provide individualized nursing care that includes the psychosocial and cultural aspects of care to adults with complex health problems, including the critically ill.
Prerequisite: NU 340

NU 365 Evidence Based Practice 3 CR
This course prepares nursing students to critically evaluate evidence developed through methodologies such as research and research protocols for its application to the practice of professional nursing. The course reviews levels of evidence and provides a foundational overview of quantitative and qualitative research methodologies. Ethical issues and policy agendas that influence research are considered throughout the course.
Prerequisites: Acceptance to the RN-BSN Nursing Major, EN 110 or SO 242
Corequisite: MA 131

NU 370 Nursing Leadership 3 CR
This course focuses on leadership and management activities integral to the provision of health care for individuals, families and/or communities. These activities require assessment, collaboration and evaluation. The ability to work and
communicate with others is fundamental to these activities.
The transition to the role of the professional nurse is also explored.
Themes of the course are health care as a system, professionalism and the role of the nurse in the provision of cost-effective quality care. Concepts and theories of leadership and management are integrated. Students analyze the health care delivery system and its relationship to the practice of nursing.
Prerequisites: NU 340, NU 365

NU 374 Concepts in Child Health Nursing 4 CR
Focuses on the application of the elements of critical thinking to the care of children and families in their child-rearing experiences. Incorporating content from the liberal arts, sciences and humanities, students explore the roles of the nurse in relation to current research, issues, concepts and trends in family and child health. Culturally sensitive nursing practice embodies the care of children and families who range from healthy to at risk states along the continuum of their growth and development. Nursing interventions are supportive, restorative and promotive in nature, and include principles of effective communication and teaching. Clinical experiences provide students with opportunities to apply their critical thinking and knowledge base from family and child nursing to a variety of healthy to at-risk situations, and across a variety of settings.
Prerequisite: NU 340

NU 375 Populations and Public Health Nursing 4 CR
This course focuses on family and community as consumers of health services. The different perspectives, sensitivities and application of knowledge unique to nursing of populations and the community are identified. Effectiveness of nursing practice is explored in relation to the problems, priorities, attitudes, culture and resources of aggregates, groups and the community.
Prerequisites: Permission of instructor one semester in advance of enrollment; NU 305, 315, 325, 335, 355, and 365 or NU 401, 430, 431, 433

NU 381 Public Health Nursing 5 CR
This course focuses on the family and community as consumers of health services. Priorities and intervention strategies for health promotion, health protection and health restoration promoting optimal level of functioning of populations at risk are stressed. The effectiveness of nursing practice will be explored in relation to the problems, priorities, attitudes, culture and resources of populations along the lifespan with emphasis on aging populations in the community. Collaboration with community agencies/institutions and the health care delivery system result in health promotion activities that address current or emergent health needs of specific populations.
Prerequisite: NU 360

NU 382 Management of Home Health Care Agencies 3 CR
This course takes basic management concepts and applies them specifically to home care. Content includes financing home care including Medicare, Medicaid and private insurance; State and Federal regulations; accreditation regulations including quality improvement concepts of case management; trends and issues in home care; legal and ethical consideration in home care, and community resources. This course is only offered online.

NU 385 Care Management and Capstone 4 CR
This course is for registered nurse students and is focused on the elements of care management across the health care continuum. Care management requires an integration of understanding, skills and professional practices of clinical leadership, collaboration, communication, teaching and learning, evidence based practice and evaluation. Students will engage in analytic discussion and analysis of the influence of standards,
systems of care, clinical practice and personal reflection on one's practice in contemporary nursing.
Prerequisites: Acceptance to the RN to BSN Nursing Major, NU 305, 315, 325, 335, 355, 365

NU 390 Senior Synthesis Seminar  
2 CR

This course prepares the student for the role of graduate registered nurse. Topics such as time management, malpractice, role development, lifelong learning and interdisciplinary care are addressed in an informal class setting. Theoretical information is shared through student presentations, guest speakers, lecture, case studies and small group work. Students apply and synthesize previous course content, while demonstrating accountability to self, peers, and the program while preparing for the NCLEX exam. Students identify individual learning needs and develop a learning contract to meet deficiencies. Content mastery testing is utilized to prepare students for the NCLEX exam and also to calculate student grades for the course. Prerequisites: NU 360

NU 395 Transition into Professional Nursing Practice  
4 CR

This clinically based immersion experience supports objectives identified in the Senior Synthesis Seminar. Students demonstrate and utilize evidence-based research to support clinical decision-making or to question experiences they encounter during their clinical experience. Focus is on moving the student toward autonomous professional nursing practice within their clinical setting. Prior to graduation, students must identify, demonstrate and emulate the SHU nursing programs core competencies. Prerequisites: NU 360

NU 401 (NU 501) Impact of History and Policy on Nursing and Health Care  
3 CR

The first of two integrated, required nursing courses in the core curriculum of the graduate nursing programs, this course focuses on history and policy. Current practices in nursing and health care are viewed from the past and present as a way to contemplate the future. Building on a framework of critical thinking, students explore through discussion, written critiques, readings, research and class participation, the history of nursing and medicine, analysis of current policy development and implications of the past for present and future actions in nursing and health care.

NU 430 (NU 601) Principles of Health Care Research for Contemporary Nursing Practice  
3 CR

This course, the first of two research seminars, reviews nursing and health care research literature according to criteria. Course content focuses on the development of a researchable problem, integrative literature review and research design. Content, related to quantitative, qualitative and evaluative methods, is outlined. Concepts are developed to promote an understanding of the research process within the context of a research proposal.

NU 431 (NU 602) Evidence-Based Practice for Quality Care  
3 CR

Builds on the content of NU 601 and begins with principles inherent to a sound research methodology. Included in the course are both philosophical and pragmatic differences between qualitative and quantitative methods of data collection and analysis. Content areas of substance include both data collection methods and analysis using computer software. Graduate students complete the methods section of the thesis prospectus during this semester.

NU 433 (NU 530) Theory and Professional Roles for Contemporary Nursing Practice  
3 CR

Focuses on ethical dimensions of clinical and administrative practice in nursing.
Broad philosophical issues that have direct impact on health care are explored. Beginning with a reflection of one's own values, the course examines the philosophical basis of nursing ethics, applications of ethical principles and the ethical decision-making process. Because reflection, dialogue and critical thinking are essential to understanding ethical practices, the majority of the classes use a seminar format.

**NU 488 (NU 588) Theoretical Basis of Teaching and Learning in Nursing Education** 3 CR
Explores research-based theories of education, teaching, and learning. Theories will be examined for their application in a variety of settings, levels of education, and for the adult learner. Emphasis is on how the learner is and how they learn. External issues and trends impacting on nursing education are explored.

**NU 489 (NU 589) Curriculum Development and Evaluation in Nursing Education** 3 CR
This course prepares the student to design and implement curriculum based on evidence-based teaching/learning theory. Focus is on the process of curriculum development for an individual course including course objectives, content, learning activities, delivery of the content, and student evaluation. The role of faculty in program evaluation of the curriculum is explored.

**NU 490 (NU 640) Nursing Education Role Practicum** 4 CR
This is the last course in the nursing sequence for the certificate in nursing education. Students apply and analyze the theories, competencies and concepts of the two previous courses in a designated role practicum experience using a preceptor. Students will be required to spend time with a preceptor in a College or staff development site. Further, the student applies theory to practice in seminar discussion and readings. Current issues and trends in health care and nursing are integrated within each topical area.

Prerequisite: By permission and NU488, 489

### Pre-Occupational Therapy

The Pre-Occupational Therapy program in itself is not a major field of study at Sacred Heart University; rather, it consists of a series of required prerequisite courses that undergraduate students take while completing an undergraduate major leading to a traditional Bachelor of Arts or Bachelor of Science degree. Undergraduate students may select any major field of study they wish as most of the prerequisite course requirements also fulfill core curriculum requirements for the Bachelor of Arts or Bachelor of Science degree. The Occupational Therapy program is a graduate program, and requires an additional two calendar years, including summers, of graduate coursework and fieldwork education beyond the baccalaureate degree to complete the Master of Science degree in Occupational Therapy (MSOT). Sacred Heart University undergraduate students are offered preferential application to the graduate program in occupational therapy through the Early Decision option, which occurs during the senior year of undergraduate study. Sacred Heart University Seniors who have successfully completed the following prerequisite coursework are eligible for Early Decision: Biology I with laboratory, Human Anatomy and Physiology I with laboratory, Statistics, Psychology, and at least one additional prerequisite course. Early decision application option is also available to outstanding incoming Freshmen. Early Decision requirements for entering Freshman include:

- successful completion of four years of Science, and two of the following three criteria:
  - high school GPA of 3.2 or higher in academic courses (Math, Science, History, English and Language);
  - SAT scores of 1100 or higher; and
• rank in the top 30% of their high school class

Entering freshman who meet Early Program Decision Option criteria will have a seat reserved in the graduate Occupational Therapy program contingent upon successful completion of all prerequisites and an undergraduate major, maintenance of a 3.0 GPA throughout Sacred Heart University tenure, completion of a graduate admission application by December 15 of their Senior year, and an interview with the Occupational Therapy Admissions Committee.

PROGRAM ACCREDITATION
The Occupational Therapy Program is fully accredited under the "Standards for an Accredited Educational Program for the Occupational Therapist-2006" by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA). For information about accreditation, contact ACOTE at AOTA, 4720 Montgomery Lane, PO. Box 31220, Bethesda, MD 20824-1220, phone number (301) 652-2682; web address www.aota.org. Graduates of the program are eligible to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). Most states, including Connecticut, require licensure to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination.

Note: A felony conviction may affect a graduate's ability to sit for the NBCOT certification examination and/or attain state licensure. Some fieldwork sites require students to undergo criminal background and/or substance use checks as well.

Students are admitted to the program on a competitive basis. Admission is based on successful completion of admission requirements, including completion of a baccalaureate degree in a field other than occupational therapy, and completion of all prerequisite courses by the end of the spring semester prior to enrollment. If students require the summer prior to enrollment to complete prerequisites, any acceptance for admission into the program will be provisional to successful completion of all prerequisite coursework and the baccalaureate degree. See the Sacred Heart University Graduate Catalog or contact the Office of Graduate Admissions for admission criteria, further information about the program, and application.

REQUIREMENTS
The Pre-Occupational Therapy course of study includes the necessary prerequisite courses, and completion of a Bachelor of Arts or a Bachelor of Science degree in a field other than Occupational Therapy. Volunteer experience in or observation of occupational therapy practice is highly recommended.

Prerequisite Course Requirements
Students must take the following prerequisite courses while fulfilling requirements for their major field of study in earning a traditional Bachelor of Arts or Bachelor of Science degree:

- Only grades of C or better meet prerequisite requirements.
- Biology I with lab (4 credits)
Human Anatomy and Physiology I and II with laboratories (8 credits)
Life Span Development or Developmental Psychology (course content must include the entire life-span from birth to old age) (3-9 credits)
Sociology (3 credits)
Statistics (3 credits) (Must include descriptive statistics, probability, confidence intervals, correlation and hypothesis testing)
Interpersonal Communication, or Group Dynamics, or Family Dynamics (3 credits)
Diversity, or Multicultural Studies, or advanced language with documented fluency in that language (3 credits or, one semester or the equivalent of AmeriCorps or Peace Corps experience is also acceptable**
Ethics, or Bioethics, or Medical Ethics (3 credits)**
*Must have been taken within the past 10 years.
**May be taken concurrently with the program but must be completed before beginning the second Level II Fieldwork experience.

Recommended Electives
Neuroscience (3 or 4 credits) or
*Physics with lab (4 credits)

Pre-Physical Therapy

Pre-Physical Therapy preparation is a three- or four-year course of study leading to graduate study in Physical Therapy at Sacred Heart University. Pre-Physical Therapy preparation can be done using any undergraduate major, but can only be accomplished in three years if a major in Biology, Exercise Science, or Psychology is selected. Students should declare their undergraduate major no later than the end of the Freshman year. Regardless of undergraduate major, students must successfully complete the physical therapy prerequisite coursework described below. Only grades of C or better will be considered as prerequisites.

The professional phase of the graduate

Physical Therapy is an additional three years. Application to the professional phase occurs at the end of the Pre-Physical Therapy preparation and the undergraduate major. For details, see the graduate admissions process. Admission to the professional phase is on a competitive basis..

Teacher Preparation and Initial Certification

The Teacher Education program offers a professional curriculum approved by the state of Connecticut for certification as elementary and secondary schoolteachers. Prospective teachers must major in an academic discipline, in addition to completing the teaching certification sequence. Thus, the teacher-graduate not only enters the job market with more than one skill but also possesses a solid academic background and a high level of professional competence.

Teacher Education programs focus on the personal growth of the teacher, the enhancement of a positive self-image, and the social and emotional qualities conducive to teacher effectiveness. The components of the program, such as coursework, fieldwork, candidate teaching and supervision, are designed to assist candidates in broadening their knowledge of theory, pedagogy, various instructional approaches and the ability to engage in active inquiry. Fieldwork and candidate teaching are specially designed to help candidates experience the interrelationship between theory and practice.

There are two routes by which a candidate can achieve recommendation for initial teacher certification through planned programs at Sacred Heart University: the Five-year program and the Post-Baccalaureate program.

FIVE-YEAR PROGRAM

Sacred Heart undergraduates apply for admission to the education program in their Sophomore year, begin taking professional education courses in the Junior year, complete seven Education courses prior to satisfying the BA/BS requirements, and complete the initial certification requirements — along with the requirements for the Master of Arts in teaching degree during their fifth year. During the fifth year, candidates also serve as interns in public schools for 180 days. This internship includes a benefit equal to the tuition cost of 33 graduate credits. The clinical requirement of student teaching is accomplished during 50 of those internship days. For students in the five-year program only, the 400-level methods or curriculum courses are also applied to the requirements of the MAT degree. Candidates in this program complete total of 60 credits of professional education.

POST-BACCALAUREATE PROGRAM

Candidates seeking teacher certification may elect to participate in the planned program leading to recommendation for initial certification after they have completed the bachelor's degree. Sacred Heart undergraduates choosing this route apply for admission to the graduate school during fall of their Senior year and can begin Education coursework in the late Spring semester following undergraduate commencement. Candidates may elect to concurrently work on requirements for the Master of Arts in teaching degree. Internship opportunities are also available for the full program (including certification and MAT requirements), which requires 48 credits of graduate work and typically can be completed within two years. Specific details of the Post-Baccalaureate program are provided in the Graduate school catalog.

MISSION

Guided by the University and College mission statements, the Faculty of the Isabelle Farrington School of Education at Sacred Heart University engage in "preparing men and women to live in and make their contributions to the human community." Our primary purpose is to develop the capacities, talents, and abilities of our teacher candidates through an integration of theory and practice in a performance-based program. Our teacher candidates possess the knowledge, skills, and dispositions to facilitate the learning of all children.

CONCEPTUAL FRAMEWORK

The National Council for the Accreditation of Teacher Education states that "the conceptual framework establishes the shared vision for a unit's efforts in preparing educators to work in P–12 schools." The School of Education at Sacred Heart University actively uses its conceptual framework to develop, implement, monitor, and assess its programs and to articulate and evaluate candidates' competencies in content mastery, skill development, the integration of technology and appreciation of diversity; and the development of dispositions in which the intellect and heart are focused on a greater good in teaching, leadership, and serving others. The overarching theme of our conceptual framework is "Promoting a Culture of Excellence in a Changing World" and it is based on our belief that a culture of excellence is promoted when four underlying principles are met: the educational practitioner possesses a comprehensive, integrated and context-dependent professional knowledge base; the educational practitioner effectively utilizes natural and acquired personal and professional skills; the educational
practitioner cultivates and consistently demonstrates professional dispositions and commitments; the educational practitioner is responsive to cultural and technological influences that affect change in the educational environment. We further contend that to be an educator committed to promoting a culture of excellence, the candidate must demonstrate proficiency in each of the five domains of professional excellence—context, content, learner, pedagogy, and educator—identified by the School of Education. Our system of assessing the learning outcomes of our candidates is based on these five domains.

APPLICATION PROCESS
Undergraduate candidates should apply for admission to the five-year program early in the fall of their sophomore year and anticipate beginning professional education course work in their junior year. Applicants who are more advanced in their studies may be recommended to apply directly to the graduate school. All applications are managed through the Graduate Admissions office.

The Education Department offers two teacher certification programs: the Elementary School program prepares teachers of children in kindergarten to grade six of an elementary school; and the Secondary School (7-12) program prepares teachers of an academic subject in a secondary school setting. The elementary and secondary school certification programs require the completion of 36 credits in the professional education sequence. Additional University-approved credits are also required in each of the programs. Sacred Heart University adheres to all state regulations regarding teacher preparation programs. Therefore, the candidate must meet the following entrance requirements:

- Pass the Praxis I Exam or qualify for waiver by meeting the following alternative testing requirement: A waiver may be granted to candidates furnishing official proof of achieving high scores on the SAT, ACT or PAA tests. Complete information and test registration materials may be obtained from the School of Education.
- Present an essay demonstrating a command of the English language, explaining reasons for wanting to enroll in the program and emphasizing experience relevant to teaching.
- Present at least two letters of recommendation from people able to testify to the candidate's suitability as a prospective teacher.
- Attend an interview by members of the faculty of the School of Education.
- Maintain a GPA of at least 2.75.

CERTIFICATION REQUIREMENTS
Candidates admitted to the elementary or secondary school certification program must complete the courses listed below. Each course in the program is identified by its undergraduate course number (UG No.) and its graduate course number (GR No.). The courses are grouped in sequentially ordered blocks. It is recommended that candidates progress sequentially through the program, completing the courses and field experiences in a block before enrolling in courses scheduled in the next block. Candidates must complete all 10 prerequisite courses before entering student teaching. Candidates must complete the courses with an average grade of "B" or better.

Elementary Certification Course Requirements

Block I (9 Credits)
ED 101 Educational Psychology
ED 152 Education in the United States
ED 271 Introduction to Computers in Education (or an advanced computer technology course)

Block II (12 Credits)
ED 205 Education of Special Needs Students
ED 229 Multicultural Education
ED 430 Elementary Curriculum and Methods: Social Studies and Health*
ED 207 Classroom Management
Block III (9 Credits)
ED 387 Children's Literature
ED 413 Elementary Curriculum and Methods: Reading, Writing and Language Arts*
ED 459 Elementary Curriculum and Methods: Mathematics and Science*

Student Teaching (6 Credits)
ED 491 Student Teaching Seminar: Elementary School**

General and Course Requirements and School of Education policies and interpretations of certification regulations are subject to change.
* Credits applicable to MAT degree for Five-year program candidates only. ** Credits not applicable to MAT degree.

Secondary Certification Course Requirements

Block I (9 Credits)
ED 101 Educational Psychology
ED 152 Education in the United States
ED 271 Introduction to Computers in Education (or an advanced computer technology course)

Block II (12 Credits)
ED 205 Education of Special-Needs Students
ED 229 Multicultural Education
ED 272 Societal Issues in Adolescence
ED 207 Classroom Management

Block III (9 Credits)
ED 428 Secondary Curriculum*
ED 429 Secondary Methods in the Content Areas*
EDR 510 Content Area Reading Instruction (7-12)

Student Teaching (6 Credits)
ED 495 Student Teaching Seminar: Secondary School**

Course considerations for discipline and management in the classroom. Candidates learn practical approaches for the establishment of routines and codes of conduct. Group dynamics; assertive discipline; conflict resolution; and the legal rights of teachers, parents and students in Connecticut are examined.
ED 221 Elementary Curriculum and Methods: Reading, Writing and Language Arts  
Methodology in the areas of reading instruction and language arts. Field experience is an integral part of this course.

ED 222 Elementary Curriculum and Methods: Mathematics and Science  
Candidates learn the basic concepts, scope and sequence of instruction and current methodology in elementary mathematics and science. Attention is given to lesson planning and unit planning/skill development utilizing application of current research in effective mathematics and science instruction. Emphasis is placed on students as learners and the role of teacher as facilitator of math and science investigation.

ED 223 Elementary Curriculum and Methods: Social Studies and Health  
Examines the scope and sequence of curriculum as well as content and methods of instruction in elementary grades. Special attention is focused on lesson and unit planning and skill development in the subject areas.

ED 229 Multicultural Education  
This course is designed to foster understanding of ethnicities through literature and storytelling. Candidates attain problem-solving and listening skills necessary for attitudinal changes for appreciation of diversity. Group process activities are presented to help candidates understand biases and stereotypical assumptions, and how these affect decisions in the classroom. Portions of this course are experiential. There is a 10-hour service-learning requirement.

ED 262 Secondary Curriculum  
Explores national and state curriculum standards for grades 7 to 12. Philosophical, psychological, and practical implementation of curriculums in the secondary classroom is emphasized. Candidates develop subject-specific curriculums appropriate to secondary disciplines.

ED 264 Secondary Methods  
Examines various methods of instruction applicable to all academic areas. Candidates plan and teach microlessons in content areas, develop short- and long-range lesson plans and complete a subject-specific portfolio for an extensive unit. Philosophical, psychological, and practical implications for instruction process learning and cooperative learning are discussed and practiced.

ED 271 Introduction to Computers in Education  
Investigates the use of computers in the classroom and how to operate an instructional computer (programming not included). Commercial software is demonstrated and criteria for the evaluation of educational software discussed.

ED 272 Societal Issues in Adolescence  
Focuses on the current school and community responses to problems such as substance abuse, AIDS, gender issues, etc. Through classroom presentations, speakers and audiovisual materials, students gain practical insight and understanding of contemporary issues in adolescent life.

ED 342 Content Area Reading Instruction (7-12)  
Examines fundamental principles of teaching reading and writing in middle and secondary schools. Candidates learn to effectively integrate reading and writing skills in subject-specific content areas; create classroom writing workshops, and thematic units; and utilize subject-specific trade books. In addition, candidates learn strategies for developing positive attitudes toward reading and writing as lifetime skills.
University College
Mary Lou DeRosa, MBA, Dean
University College brings Sacred Heart University’s resources and programs to adults, part-time students and to the community. It is also the college that develops and implements innovations in pedagogy, delivery and content.
University College administers Weekend University, Summer Intersessions, Winter Intersession, English as a Second Language, the Center for Spirituality and Ministry and the Center for Financial Education (CFE). The campus in Stamford is home to the CFE, part-time undergraduate studies, education courses and graduate-level business certificates.
A major objective for the college is to maintain and expand its position as the regional leader in providing learning opportunities to adult students. This is accomplished by stressing teaching, student service and access, responsiveness to emerging educational needs and Sacred Heart University’s mission and values.
University College develops, markets and delivers certificate and degree programs designed for adult learners. It is responsive to the education needs of business, social service and professional and governmental organizations.

ADMISSIONS PROCESS
FOR PART-TIME STUDY
All part-time undergraduate day, evening, weekend, visiting, and summer school students are admitted through University College. Students seeking admission to University College do not need prior college experience to begin their studies and standardized tests are not required.
All applicants for admission to University College must submit a high school transcript or equivalent. Students who have an Associate’s degree must provide an official transcript with notation of degree. An official transcript must be received and evaluated before acceptance can be complete. After receiving acceptance into a degree program, the student will review the individualized plan of study worksheet with an advisor, and use this worksheet when registering for future classes.
All admissions requirements must be fulfilled prior to eligibility for financial assistance. A prospective student may be issued an “in-process status” and may register for classes.
New students should follow these steps:

First Time Students
- Schedule an appointment to meet with an academic advisor.
- Complete an application form and submit with the non-refundable application fee. The application form is available online at http://uc.sacredheart.edu.
- Submit a copy of your high school transcript or GED.
- Provide documentation of adequate immunization against measles and rubella.
- You may register with an advisor’s signature as an in-process student prior to receipt of your application requirements.

Transfer Students
- Fax an unofficial copy of your college transcript(s) to University College at 203-365-7500. The advisor will do a preliminary evaluation of all transfer credits prior to your appointment if possible.
- Schedule an appointment with a University College advisor.
- Complete an application form and submit with a non-refundable application fee. The application form is available online at http://uc.sacredheart.edu
- Provide documentation of adequate immunization against measles and rubella
- You may register with an advisor’s signature as an in-process student prior to receipt of your application requirements.
- An official transcript must be received and evaluated before acceptance can be complete.
RN/BSN Students

- Student must have an AD or Diploma in Nursing
- Schedule an appointment with a University College advisor
- Student must have an interview with nursing faculty advisor
- Student must have RN license in state of practice and provide a copy
- Complete a RN/BSN application form and submit with the non-refundable application fee.
- Submit official transcripts of all prior nursing and academic work
- Submit a resume and two letters of reference

Following the completion of the Admissions requirements an acceptance determination is made. A letter stating this determination is sent by University College to the applicant.

Visiting Students

- Confirm with your college that they will accept Sacred Heart University credits.
- Visiting students are required to have completed all prerequisites.
- Contact University College regarding class availability.
- Complete a registration form and have it signed by a University College advisor.
- Bring your registration form to University College or fax it to 203-365-7500. There is a non-refundable registration fee per semester.

VISITING STUDENTS

Connecticut law requires that students born after December 31, 1956, provide proof of measles immunization: www.sacredheart.edu/download/27_2008_shu_uc_student_health_services_form.pdf

Registration is ongoing.

Although not required, it is recommended that students meet with an advisor from their major periodically to ensure completion of the program in a timely manner. Students seeking admission to University College do not need prior college experience to begin their studies, and standardized tests are not required.

SPECIALIZED SERVICES AND PROGRAMS OF UNIVERSITY COLLEGE

Academic Services

Academic Services are designed to assist adult students in establishing and achieving educational goals. Services include pre-admission and new student advisement, degree planning information, academic support and referral. Academic support assistance is available in the areas of academic advisement, major options and declaration, early and mid-term assessment indicators, course selection and registration.

Academic Skills Assessment

University College ensures that students in the program are well prepared to handle any and all situations connected with the college experience. Through the Jandrisevits Learning Center, assistance is provided in the areas of critical thinking, memory skills, problem solving, reading comprehension, test taking, time management and public speaking.

Assessment of Prior Learning

Recognizing that higher education also occurs outside the classroom, the University awards academic credit to students for what they have learned through life and/or work experience in very exceptional circumstances. This experience can be the result of self-education, professional certification, in-service training programs, volunteer work or management work.

To apply for credit, the student must be
enrolled at the University in the semester in which the portfolio is submitted. Credit is awarded only for experience that parallels the University's courses and programs. This credit can be used in the core curriculum, in the major or as free electives, as long as the student completes at least 30 credit hours in the classroom, with one-half of the major taken in the classroom at Sacred Heart University. No more than 60 credits can be awarded for prior learning and CLEP, DANTES and EXCELSIOR combined. This credit is not awarded in areas where National Testing Programs are applicable.

The portfolio should include a brief work resume, a detailed description of the individual's experience tailored to particular courses offered by the University and supporting documentation. Supporting documentation may include certificates, awards, letters of recommendation, job descriptions and samples of work. As the portfolio is being composed, the student should be reflecting on the learning that has been derived from his/her experience.

The portfolio and application form are submitted to University College, along with the application fee. The portfolio is referred to the appropriate faculty for a determination of any credit award. Some academic departments review the portfolio as a committee, while other departments prefer to test the student in the particular subject matter.

After the faculty committee has evaluated the portfolio, it is then reviewed by the department chairperson. A letter of award is prepared.

For additional information on the Assessment of Prior Learning program, contact University College at 203-371-7830.

COLLEGE CREDIT BY EXAMINATION—NATIONAL TESTING PROGRAMS

EXCELSIOR, CLEP and DANTES

These are national programs awarding college credit by examination.

The University awards credit for CLEP, DANTES, and certain EXCELSIOR exams, but does not administer these exams. College credit is awarded when a student successfully passes an exam with a score of at least 50. Credit is awarded only in areas where the student does not have prior credit applied toward a degree. Students may not take exams in a graduating semester.

Sacred Heart University offers the Nursing student the opportunity to take EXCELSIOR exams in Anatomy and Physiology I and II, and the National League for Nursing (NLN) challenge exam in Microbiology. For additional information concerning these exams, contact the Nursing Programs Office at 203-371-7715.

Adult learners have accumulated a wealth of experience throughout life. Sacred Heart University recognizes that knowledge and expertise are not exclusively delivered in a college classroom. University College can provide mechanisms for adult students to convert life's education to college credit. Through CLEP, DANTES and EXCELSIOR national testing, portfolio presentation, and American Council on Education and New York Regents'-sanctioned noncollegiate sponsored learning, students can earn as many as 60 credits.

CAREER COUNSELING SERVICES

Professional staff members work with students to assess abilities and interests in order to formulate a potential study plan. Emphasis is on planning for life. Services are offered to identify and establish career goals, address current career issues and research new options. In-depth career consultation, testing, résumé writing and employment search assistance are available on an appointment basis.

ENGLISH AS A SECOND LANGUAGE (ESL)

The ESL program is designed for students whose native language is not English and who wish to study English either full or part-time (in compliance with their visa as applicable). The program is designed to help students improve their oral and
written communication skills in English, preparing them for successful study in an American academic institution.

The program offers six levels of English language courses, from beginning to advanced. Levels 1-4 are noncredit, pre-academic, intensive courses. Full-time ESL students enroll in eight-week sessions, taking a cluster of oral communication, written communication, pronunciation, and service learning, totaling 20 hours per week.

Levels 5 and 6 are credit-bearing, semester-long courses that focus on college reading and writing. Students in these levels may take University classes while they complete their language training.

Placement in both the noncredit and credit ESL Programs is determined by the University College English Placement Test, SAT scores, TOEFL, an oral interview, and the student's language profile. For more information regarding the program, contact the Director at 203-365-7528. For further support, tutoring is also available at the University Learning Center.

**FINANCIAL ASSISTANCE SERVICES**

The Office of Student Financial Assistance counsels part time students regarding all of the options available to meet the cost of education. To be considered for financial aid, part time students must be officially accepted and matriculated into a degree granting program. By combining grant money, government guaranteed loans, low fixed-interest loans, deferred payment plans, employer reimbursement opportunities, Veterans Administration eligibility programs, a plan will be designed for the specific requirements of each student.

**CURRICULAR FORMATS IN UNIVERSITY COLLEGE**

University College allows students to pursue undergraduate study in a variety of formats. Classes are offered at Sacred Heart University campuses in Fairfield and Stamford. Students can elect from the following choices:

**Accelerated Classes**

Traditional collegiate study terms run anywhere from 15 to 18 weeks. Depending on the course, students can choose 51/2- or 71/2-week terms, with class meetings either once or twice per week, intensive sessions of varying lengths or a weekend schedule. Many students are able to accumulate more than 30 credits in just one year.

**AHEAD Classes (Adults in Higher Education working for Accelerated Degrees)**

AHEAD is an accelerated scheduling format. The core curriculum is the same for all University majors, therefore AHEAD core courses are available to all part-time students. AHEAD provides working adults 23 years or older the unique opportunity to complete an Associate or Baccalaureate degree program of study in less time than a traditional part-time program. It consists of five terms per year. Each term is seven and one-half weeks in duration. Classes meet two nights per week for 2 hours and 15 minutes per night, or one night per week for 4 hours and 15 minutes.

**Online Learning**

Sacred Heart University offers on-line and blended courses through Blackboard. Blackboard is the standard university Web-based courseware that enables faculty to deliver courses totally or partially online and to supplement a course with on-line material. Students must activate their Sacred Heart University network account and be registered for the course to have access to Blackboard course material and on-line applications.

Courses require that students work independently and interdependently with their instructor and with fellow students. A commitment to do this is required of the students in order to sustain their participation. Participants must maintain their own access to the Internet, with e-mail capability and have Microsoft Word or compatible word processing software.
Guided Independent Learning

University College provides qualified students the option to engage in advanced or specialized independent study in a given academic area. Faculty members guide students through all phases.

Traditional Semester Study

Adults who prefer standard course presentation and time intervals can elect to tailor their programs in the traditional format, both during the day and in the evening. Many students take courses in a variety of formats, depending on subject, content and degree of difficulty.

Weekend University

The Weekend University offers University core curriculum courses that facilitate the pursuit of a degree. There are two sessions offered in an alternating weekend schedule, allowing students to take two courses per semester.

Winter Intersession and Summer Sessions

Students may take only one course during the Winter and May Intensive sessions at Sacred Heart University. Students may take 2 courses during each of the summer sessions (summer session 1 and summer session 2.)

Taste of College—Lifelong Learner

Adults 62 years of age or older interested in lifelong learning may take college courses on a seat-available basis. Adults may take college courses at a reduced tuition per course. Selected course offerings vary each semester. Interested adults should contact 203-371-7830 for more information.

BACCALAUREATE DEGREE IN GENERAL STUDIES

The General Studies program was developed specifically for adult students interested in custom-designing their own multidisciplinary curriculum. It allows students to investigate areas of study that best serve their life and/or work situation. Students select courses from either one or two broad areas of study. With the help of a faculty advisor, a cohesive plan of study, which culminates in a project to synthesize the learning experience, is designed. Classes may be taken in any number of formats.

Program Structure

Students select 36 major credits from either one or two broad areas of study plus a capstone project (3 credits). The broad areas of study are:

- Arts and Humanities
- Natural Science, Numerical and Symbolic Reasoning
- Professional Studies
- Social Science

A capstone project course is required at the end of the program to synthesize learning. In developing the General Studies major, students, with the help of a faculty advisor, formulate a comprehensive plan of study thus ensuring the pursuit of a meaningful program.

THE CENTER FOR FINANCIAL EDUCATION

The Center for Financial Education was established on the Stamford Campus of Sacred Heart University to offer greater Fairfield County opportunities for continuing education in the financial services area. The center assists the university in carrying out the mission of being “able to respond to an ever-changing world” and “combining education for life with preparation for professional excellence.”

Admission to the Financial Planning Certificate program is open to individuals with a baccalaureate degree in any discipline. Transfers from other board-approved programs are also welcome.

Offerings include:

- The Financial Planning Certificate Program
- Project Management (online)
- Series 7 Prep
- Registered Paraplanners Program
Course Scheduling

Students may select courses from the University's regular day and evening offerings in the Fall, Winter Intersession, Spring and Summer terms. Students can also take courses in an accelerated format, as well as on weekends. The program is available at the main campus in Fairfield, with selected courses offered at the Stamford campus.

Qualifications for Admission

Admission to the General Studies program is open to individuals with a high school diploma or its equivalent. Students who already have transfer credits are also welcome. Credit through CLEP, DANTES and EXCELSIOR exams and through the Assessment of Prior Learning Program is also available.

ASSOCIATE'S DEGREE

University College offers associate's degree programs in two general categories: Associate of Arts (AA) in General Studies and the career-based Associate of Science (AS). All programs are designed for upward mobility to earn the bachelor's degree. Each program has its foundation within the liberal arts.

All candidates must complete 60 credits, with a minimum of 30 credits taken at Sacred Heart University. A minimum GPA of 2.0 is required.

CREDIT CERTIFICATE PROGRAMS

Sacred Heart University offers credit certificate programs as a short-term goal and as a way to enhance students' knowledge and skills in a particular area, by providing specialized in-depth instruction. Credits earned can be later applied to an associate or baccalaureate degree program.

Programs in Arts and Sciences include the Certificate in Catholic Studies, Catholic Theological Studies, and Computer Science and Information Technology.

Certificate in Catholic Studies

The goal of this certificate is to provide students an interdisciplinary exposure to the ideas that constitute the Catholic Intellectual Traditions. To complete the certificate, a student must take four courses identified by The Center for Christian Thought, Ethics, and Culture (CCTEC) as part of the Catholic Studies Program. The courses must come from at least two different departments/disciplines, one of which must be Religious Studies. The fourth and final course is considered a capstone course that allows the student to bring together the various aspects of the Catholic Intellectual Tradition into one focus for analysis. The Certificate in Catholic Studies is part of the traditional academic program that will allow students to explore the Catholic Intellectual Tradition as it is manifested in every academic field.

Certificate in Catholic Theological Studies

The Certificate in Catholic Theological Studies is awarded to students who take Religious Studies 101, plus three more courses from a special list of Religious Studies and Philosophy courses, and who write a capstone paper in their fourth course. The goal is for students to make an in-depth exploration of some of the issues studied in Roman Catholic fundamental, systematic, and moral theology. One of the courses selected fulfills the University-wide requirement to take one course in either Religious Studies or Philosophy beyond the introductory courses. Contact 203-365-7657 for additional information.

Certificate Programs in Computer Science and Information Technology

The Computer Science and Information Technology certificate programs provide a foundation for scientific use of computers and information technology applications. Students earn a certificate by completing six courses from either the regular computer science option or the
information technology option, provided that the prerequisites are met.
