Dear members of the Sacred Heart University community,
Because of all the COVID restrictions, we are once again unable to celebrate Founder's Day in our traditional way. Still, we wanted to take a moment to honor the folks who are celebrating landmark anniversaries for their many years of service to Sacred Heart. This year's celebrants range from 15 to 45 years. That is an incredible commitment. We also want to remember the original group of Pioneers who founded this University back in 1963. By building a Catholic University led by lay people, they did something that had not been done before. Today—with our innovative new programs, state-of-the-art facilities and talented faculty and staff, we continue to lead the way. Without people like today's honorees, who remain committed to our mission, values and forward thinking year after year, this would not be possible. So, we thank them and honor them today.
