Dear members of the Sacred Heart University community,

We are continuing our planning for a fully on-ground fall semester. Unfortunately, our student vaccination numbers for COVID-19 are much lower than we hoped. If this continues to be the case, we will need to have stricter policies than we envisioned. These may include, for example, more mask-wearing, no large events and restrictions on visitors.

We are hoping that we will not have to mandate the vaccine in order to be on campus. However, other universities that are experiencing this kind of low COVID-19 vaccination rate are joining the more than 400 higher educational institutions that are mandating vaccines.

If you have been vaccinated for COVID-19, but have not yet uploaded your certificate to your health portal, [please do so](#) to give us an accurate picture of our vaccination rate.

**Please note:** Students who may have uploaded their COVID-19 vaccination information to a site other than their student health portal (health professions, nursing, education, athletics, etc.) will still need to upload it to the student health portal to be included in the University's official count of vaccinated students. Here are the steps to take if you want to check if your COVID-19 vaccination information has been uploaded to your student health portal:

- Login to the portal
- Click on the tab "Immunization Record on File"
- The COVID-19 vaccine dates should be listed under "Immunization Events"

We will continue to update you as decisions are made. Expect more information in a communication next week.
