Coronavirus Update 3-23-2021

Dear members of the Sacred Heart University community,

We need to remind students, faculty and staff yet again that **you must stay home or in your dorm room** if you have **ANY** symptoms that are listed on the [CampusClear app](#). You should also check in with your health-care provider. We have been having great success this semester with our numbers, but the pandemic is not over, and we have needed to isolate some contacts that could have been avoided if community members had stayed home when sick. The symptoms include a temperature, new cough, shortness of breath, new loss of taste or smell, sore throat, congestion or runny nose unrelated to seasonal allergies, new unexplained fatigue, muscle or body aches, new headache, nausea or vomiting and diarrhea. We ask if you see anyone with these symptoms or hear someone talking about not feeling well that you remind them they need to be home until they feel better and/or have received a negative test. Thank you.

Update on Appointments at SHU's Mega Vaccination Site

We have been told that there are appointments available on some of the upcoming dates at our mega vaccination site at West Campus. The site operates on Wednesdays, Fridays and Saturdays. If you are eligible for a vaccine, you can check availability and [sign up through Hartford Health Care](#). You may need to set up a My Chart account.

Happiness

The final [Happiness Talk](#) is this week, and the topic is happiness moving forward.

Active Cases

Today's [dashboard](#) shows 26 active cases. There are 12 students with current active cases isolating on campus.

Be safe,

The Coronavirus Planning Team
