Links to Weekend Booster Clinics (12/11 and 12/12)

Dear members of the Sacred Heart University community,

As you know, Hartford HealthCare will offer clinics for booster shots on Saturday, December 11, and Sunday December 12, from 10 a.m. to 3 p.m. by appointment only in the **Edgerton lobby**. These clinics will be expanded to 200 slots. The link will stop working when the clinic is full. We ask that you please keep your appointment or cancel well ahead of time. We have had as many as 30 no-shows at recent clinics, which is unfair to others who were shut out when they tried to sign up.

To be eligible for the boosters provided (Moderna and Pfizer), you must be at least six months past your second dose. If you are immunocompromised, you can receive a booster after only 28 days from your second dose. If you do not meet the criteria for a booster, you will not receive the shot.

This week, the link you use depends on whether you want to receive the [Pfizer](#) or [Moderna](#) booster.

We want to encourage all eligible members of the community to receive a booster before returning to campus for the spring semester. With the advent of the omicron variant, the CDC is now recommending that all adults 18 and older receive a booster once they are eligible. If you are looking for a booster once you are home, we recommend making an appointment with [Walgreens](#) or [CVS](#).

Good luck with your finals!

The Coronavirus Planning Team

--

Please note: Given the unpredictability of the variants, we will continue to consult with and follow the guidance of the CDC, the Connecticut Department of Health and state and local health officials. We will all need to be flexible and understand that as we continue to work in the best interest of the University community, there will likely be changes and updates. We also suggest that all students have plans in place should there be a need to return home for isolation, quarantining, etc.
