Coronavirus Update 3-3-22

Dear members of the Sacred Heart University community,

For those of you who will be around this weekend, we have scheduled a booster clinic on campus on Saturday. The clinic will run from 10 a.m. to 2 p.m. in the Edgerton Center atrium. Griffin Health will provide 100 doses to members of the SHU community and their families. You may walk into the clinic between 10 a.m. and 1:30 p.m. No appointment is needed. Moderna, Pfizer and Johnson & Johnson boosters will be available. As a reminder, the deadline for students to receive a booster shot and upload the information to their student health portal is March 15.

Pre-Arrival Testing After Spring Break

We want to remind you to make sure you have picked up your at-home COVID test before you leave for break. Please take the test the morning that you first plan to return to campus. If you test positive, you will need to report it to SHU by filling out this [online questionnaire](#) and uploading a photo of your positive test to your student health portal. You must then isolate at home until you receive your clearance to return to campus. If you test negative, you do not need to upload a photo of your negative test, but you should bring the test result with you to campus. If you do not have a test, you can pick one up in the following locations:

- All residence halls
- The campus concierge in the Main Academic Building
- The IT help desk at West Campus
- The IT help desk at the Center for Healthcare Education

Please note: If you tested positive for COVID within 90 days of your return to campus, you do not need to take a pre-arrival test.

Have a fun and relaxing break,
The Coronavirus Planning Team

--

Please note: Given the unpredictability of the variants, we will continue to consult with and follow the guidance of the CDC, the Connecticut Department of Health and state and local health officials. We will all need to be flexible and understand that as we continue to work in the best interest of the University community, there will likely be changes and updates. We also suggest that all students have plans in place should there be a need to return home for isolation, quarantining, etc.
