Coronavirus Update 3-10-22

Dear members of the Sacred Heart University community,

As you know, the deadline for employees to receive a booster shot was March 1, and the deadline for students is March 15. Anyone who has received an exemption or has not complied with the booster deadline will need to be tested weekly throughout the remainder of the semester. We also recommend that those who have not been vaccinated and/or received a booster wear a mask indoors.

Pre-Arrival Testing After Spring Break

We want to remind you to take your at-home COVID test the morning of your return to campus. If you test positive, you will need to report it to SHU by filling out [this online questionnaire](#) and uploading a photo of your positive test to your student health portal. You must then isolate at home until you receive your clearance to return to campus. If you test negative, you do not need to upload a photo of your negative test, but you should bring the test result with you to campus.

Please note: If you tested positive for COVID within 90 days of your return to campus, you do not need to take a pre-arrival test.

We hope you are having a great spring break and are looking forward to seeing you back on campus next week.

The Coronavirus Planning Team

--

Please note: Given the unpredictability of the variants, we will continue to consult with and follow the guidance of the CDC, the Connecticut Department of Health and state and local health officials. We will all need to be flexible and understand that as we continue to work in the best interest of the University community, there will likely be changes and updates. We also suggest that all students have plans in place should there be a need to return home for isolation, quarantining, etc.
