

# The Crossroads of SHU SAACS

## Sacred Heart University

### Fairfield, Connecticut

Members: Caroline Faraday, Jaden Bonfietti, Stephanie Campbell, Amanda Thompson, Sana Mohammad, Kaitlyn Greenhill, Sam Pagliusi, Anthony Marsallo, Nicole Halaga, Reagan Daly, Kimsorn Seng, and Linda Farber (advisor)

**SERVICE**

Volunteering to be a part of the IDEAL panel to discuss "Student Perspectives on Permanent Post Covid Changes"

**THROWBACK**

Keeping our club strong during COVID: Competing in our annual Mole Bowl and playing chemistry bingo!

**COMMUNITY**

Celebrating National Chemistry Week and Mole Day by hosting a Mole Bowl with neighboring ACS chapters!

**OUTREACH**

Making slime during one of our meetings!

Decorating the bulletin board outside of the Chemistry Department!

Making rock candy at one of our meetings!

Participating in Sacred Heart's Involvement Fair to promote ACS!

Making liquid nitrogen ice cream for the Sacred Heart community!

The student affiliate Chapter of the American Chemical Society at Sacred Heart University is very active in bringing science to the community and bringing Sacred Heart closer to chemistry. The chapter accomplishes these goals by performing simple experiments like making rock candy or slime, judging high school science fairs, playing chemistry bingo, and decorating the science wing bulletin board. We celebrate National Mole Day and National Chemistry Week by hosting a Mole Bowl with local universities. On campus, we engage students with guest speakers, liquid nitrogen ice cream, and many more science-related events that are not only educational but fun!
