

The Many Flavors of SHU SAACS

Sacred Heart University
Fairfield, Connecticut

Members: Stephanie Campbell, Sam Pagliusi, Anthony Marsallo, Amanda Thompson, Sana Mohammad, Kaitlyn Greenhill, Cassidy Karl, Sydni Carroll, Angelina Turcotte, Ryan Lopes, Christopher Besnilian and Linda Farber (advisor)

Participating in the Involvement Fair to spread the word about ACS!

This semester we played Chemistry Jeopardy at one of our bi-weekly meetings.

Decorating the bulletin board in our Chemistry Department.

Our club spread the word of the importance of medicinal chemistry all over campus during National Chemistry Week.

Making liquid nitrogen ice cream at 2024 CASCon at SHU!

Making slime and pH indicators during our meetings.

Celebrating National Mole Day with ACS chapters of neighboring schools.

Sacred Heart University's student affiliate Chapter of the American Chemical Society is actively involved in connecting Sacred Heart with chemistry and promoting science to the community. Throughout the year our club has been involved in many activities like, making slime or pH indicators, participating in panels, playing chemistry Jeopardy, and decorating the science wing bulletin board. In honor of National Chemistry Week and National Mole Day, we held a Mole Bowl in collaboration with nearby colleges. We host exciting and educational science-related events on campus, such as giving out liquid nitrogen ice cream and guest speakers to engage students.

Volunteering to be a part of the IDEAL panel to discuss student perspectives on AI.

We have been able to have guest speakers come present to the club.
