SHU expects okay for on-campus dorms

Construction awaits approval from officials

By Shurtle Dagoo News Editor

A plan to construct four on-campus dormitory buildings at a projected cost of $65 million is scheduled for a public hearing at the Town Planning and Zoning Department in Fairfield on Oct. 9.

"This is the first major building project on this campus in 22 years," said President Anthony J. Cernera. "The last project was the library in 1968."

"The introduction of a residential life component is important to the growth and development of this institution," said Cernera. "We would lose a lot of students without it."

"It's a great step forward for the university," said Patrick Rose, president of Kaspar Architects, the company that designed the plan. "We're very hopeful that the regulators will approve our special exception application for expanded use of the university. It shouldn't be a major issue."

NEWS BRIEFS

It’s just an illusion
Student Government is sponsoring another FREE STUDENT EVENT. “The Illusions of Stuart and Laurie,” a comedy/variety/magic show will be appearing in the cafeteria at 9 p.m.
Everyone is welcome.

More comedy
No Epsilon Omega Sorority has proclaimed Wednesday, October 3 comedy night starting at 8 p.m. in Chubby’s Pub.
Any students interested in being funny on an open mike should come at 7 p.m. to sign-up before the event. There is a $3 fee to participate. There is a $2 admission charge to anyone who wants to attend. Charge includes refreshments.

Scholarships available
The Financial Aid office has announced that the university has applications for the General Electric Foundation Minority Scholarship Program. Any student interested should pick up an application at the Financial Aid office. Julie Savino will assist students in completing their application with the appropriate financial aid forms. For more information, please call 371-9980.

Ready, aim fire
Hey everyone—a new club has formed on the SHU campus! The Paintball Club will be having its first meeting today at 11 a.m. in Chubby’s Pub.

Accounting help
Hours are available now for students in need of tutoring in accounting. Monday 11 a.m.-noon, Tuesday noon-2 p.m., Thursday 11 a.m.-1 p.m. If you want more information, please call 371-8074 or see Sandy in N222.

Let’s go camping
The Outdoors Club is offering Camping at Kettletown in Southington, CT from Oct. 5-7. The prices are as follows:

- 2 persons in a tent $30 (per person)
- 4 persons in a tent $25 (per person)

The fourth will have nine units. Each unit will house six students. Beginning this fall, SHU housed 90 students at the off-campus facility located in Bridgeport about three miles from campus. "Taft is only an interim residential program," said Paul K. Madonna, vice president for finance and administration. He projected that construction, which is financed by 30-year state bonds, will be completed by Aug. 15, 1991.

Recyle cans, from pg. 1
Cans and bottles to be recycled, planning to give refunds to Student Activities. According to Student Government President P.J. Cieselski, that plan "never quite worked out." He is hoping the students show more concern this time and comply with the law.

For the university to be a leader in the recycling effort, Conway would like to get an early start on a plan in October before the January deadline.

Dorms can’t, from pg. 1
The fourth will have nine units. Each unit will house six students. Beginning this fall, SHU housed 90 students at the off-campus facility located in Bridgeport about three miles from campus. "Taft is only an interim residential program," said Paul K. Madonna, vice president for finance and administration. He projected that construction, which is financed by 30-year state bonds, will be completed by Aug. 15, 1991.

If it’s finished on schedule, we will be able to house about 228 students on campus.

The project is part of the university’s goal to attract students from all over Southern New England and the Tri-State area to what was predominantly a commuter school, said James Barquinero, dean of admissions.

If we are not able to develop residential life, we would have to re-think the whole strategic plan," Cernera said. "It’s that fundamental."

We’re recruiting internationally in Japan, Thailand, Korea and Puerto Rico," Barquinero said. Approximately 65 international students were recruited from 37 different countries, said Loreta Winter, executive secretary in the registrar’s office.

Cernera said the finance committee is seeking funding for the project through banks and 30-year state bonds.

“We’re trying to reduce our college budget by 1.5 million,” Cernera said.

The president said that this is the ideal time to develop residential housing because the Most Rev. Edward M. Egan, Bishop of the Diocese of Bridgeport, recently signed a 90-year lease for SHU’s continued use of the 53-acre campus.

GETTING PUMPED

Screamed Heart’s new weight room, sporting Nautilus machines and free weights, are shown here being used by senior Jim Shaham (left), and freshman Jay Ortiz. The room is open 10 a.m.-4 p.m. Monday, 11 a.m.-2 p.m. Tuesday, 11 a.m.-5:30 p.m. on Fri., and 3-5 p.m. Mon. and Fri. 3:30-4:30 Tues. and Thurs. Work study positions are also available, contact Steve Fordyce.

Clarkson University, the self-proclaimed first computerized campus, now lays claim to being the first to use high-tech computer graphics to identify students.

The new "face list" also has aroused fears. Professors especially objected that the new-age photo identifications intruded on people's privacy. It also raised the specter of letting students invent a whole new realm of visual pranks.

Clarkson, however, says the "face list" lets teachers call up the visages of their students at will, and helps them get to know them faster.

"The idea is to make the school feel smaller, with all the resultant benefits," said Russell N. Nelson, a computer software development engineer at Clarkson.

"The possibilities with this technology are limited only by one's imagination. Any group of people can benefit from having a list of faces," he added. "Anything that's got your name on it can easily have your face on it."

To start the program, Clarkson copied and electronically saved the names, faces and ID numbers of the school's 600 new students as they lined up to get their student ID cards at the end of August. The school then gave the computerized photos to each freshman's faculty adviser. Professors can request a face list for any of their classes, five professors had asked for face lists. The idea isn't without detractors.

After the school announced plans to create directories of student and faculty members' names, addresses and faces, several members of Clarkson's Faculty Senate complained it would be an invasion of privacy.

And when the Faculty Senate suggested digitizing the entire faculty for student use, there was more opposition. "The Faculty Senate was concerned that students would choose professors on the basis of appearance, such as gender and race," said Faculty Senate Secretary Jan Wojcik.

Wojcik also worried students might use other software programs to alter professors' appearances, such as removing hair, fixing noses, adding mustaches, or even creating dartboards out of the computerized pictures.

Although the professors didn't want computer copies of their own faces distributed, they have no problem with the idea of digitizing students.

No students have complained about the project, said Dean of Students Michael Cooper, adding that administrators delayed the digitizing a year to consider privacy rights.

"I don't think there's anything wrong with it," said student John Frieley. "You show your face everywhere you go."

"If it makes it easier for the professors to remember us, I think it's okay," said student Glen DeBiasa.

"I like to see the use of technology to make the lives of people easier, and I think this is a great idea."

When a professor asks for a list, workers roll a portable VCR into the classroom at the beginning of the period. Each student is taped individually. The prof can get the list before the end of the class period.

"Before I used a list of faces, it took almost half a semester to learn who my students were," said Morien Roberts, an electrical and computer engineering professor, one of the first to use the new technique. "Last spring when I had a list, it took me two weeks to learn their names."

Clarkson U. adopts a computer 'face list' to ID students
Despite the inadequate security situation we have been facing for the past few weeks, now might be a good time to remind ourselves how lucky we really are to be part of Sacred Heart University.

Expansion of our campus is underway. We have students in temporary off-campus dormitories and we anticipate on-campus dormitories in the fall of 1991. This is a large step for SHU. Kudos to the administration.

Bishop Egan's recently signed lease with SHU for 90 years is also a display of the diocese's confidence in the future of SHU.

Our sports programs are going strong this year. Our soccer team's record is one of the best we've seen in a long time. Football is practicing and lacrosse and women's soccer is anticipating limited schedules in their seasons. Recruiting is still going on so please stop by and join one of our eleven sports. If you can't play, show some school spirit by supporting those Pioneers at a game.

If sports aren't your bag, join a student organization. There are so many that there has got to be something for you. Stop by the Activities Office and someone would be happy to point you in the right direction.

Most importantly, being at SHU means bettering yourself with education. These could be the best years of our lives, so let's enjoy them while we're here.
Dear Students,

The Continuing Education Council discussed the security issue at its meeting Monday night, and we are greatly disturbed at what we believe is a dangerous situation.

We're told that there is 24-hour coverage and that our campus is "safe and secure environment." Yet security at night consists of one stationary guard and one roving guard on campus plus a solitary officer at Taft Commons. Having one patrolling guard for simultaneous internal and external surveillance is just plain unacceptable inadequately.

Timing is one of the obvious problems. By the time the patrolling guard is notified of a problem and can reach the spot, the culprit has fled. Will the funds saved by eliminating OT and/or not filling vacancies be sufficient to cover the potential lawsuit? Is the risk worth it? Already students are making comments about the state of our campus security with UB's. SHU doesn't need that kind of negative image, but how do we counter it when the campus is so noticeably lacking security?

As president of the Continuing Ed Council, I'll work with Student Government and the administration to resolve this issue. You will be kept well informed through the Spectrum of our efforts at effecting an acceptable solution. In the meantime, I urge you, first, not to walk to your car alone at night. Wait for someone from your class or another class. If it is an odd time and no one else is leaving the building, go to the Security office and ask for an escort to your car. It's worth the wait for the patrolling guard to help you. Second, if you have any difficulty, suffer any damage to your car, or see anything suspicious, please report it to Security promptly. And then please report it to the administration.

A quick phone call or note will be greatly appreciated. And let Student Government or Continuing Education know also.

We are concerned about the low level of security for everyone on our campus. We are likewise concerned about the potential and perceived harm this issue is wreaking on our university's image, enrollment, and reputation—things that take years, when damaged, to repair. We like our university and want it to prosper. We see this situation as self-damaging and will work to correct it as quickly as possible.

Linda Browniesky
President Continuing Education Council

Ethnicity defended

To the Editor:

It was certainly distressing to read about the assault of the female student at Taft Commons in the September 20, 1990 issue of the Spectrum. I do hope that the security situation is resolved so that no female student of Taft Commons will experience a similar situation.

However, I was offended by a quote from an anonymous Taft Commons resident. In describing the alleged assailant, the Taft Commons resident said "The kid was Italian...you know how Italians are...they talk with their hands." What a truly ignorant ethnic comment against Italians and Italian Americans. I would not expect such an ignorant statement from a university student. I perceive a university to be a place where diverse groups of individuals may come together to share ideas. Evidently, this Taft Commons resident has no tolerance for individuals of different ethnic backgrounds.

I would like to address a few comments to this Taft Commons spokesperson:

1. What documentation do you have to back up your statement that the alleged attacker is Italian? In this midst of this alleged incident, did you tap the attacker on his back and ask, "Excuse me, Sir, but are you Italian?"

2. When the alleged attacker slapped and grabbed at the victim, did you view this as an example of an individual "talking with his hands" and surmise that the attacker was Italian? In this midst of this alleged incident, did you tap the attacker on his back and ask, "Excuse me, Sir, but are you Italian?"

3. I do not "know how Italians are" but evidently you do. I look forward to your appraising the SHU community of "how Italians are" in a future issue of the Spectrum.

4. After branding all Italians as violent criminals, you then proceeded to doubt that a female student was actually assaulted at Taft Commons. You seem to think that the female victim "freaked out" after she was attacked. You seem to be a very narrow-minded and misoynistic individual. Now I know why you are not identified in this article.

Sacred Heart University is comprised of a large number of international students as well as American students of diverse ethnic backgrounds. Let's keep negative ethnic remarks off campus. Quite frankly, I'm surprised that the Spectrum staff would print the ignorant comments of a very disturbed individual. I certainly hope future issues of the Spectrum will be free of negative ethnic remarks.

"Any issues that are of utmost importance to the students. That covers a large spectrum of issues."
Scorsese Scores with the thirty plus year career of Henry Italian mafia since as far back as he was fascinated with the HUl, Ray Liotta that published in 1999, listing the top top critics in a list published in a piece the greatest director of our time. film of the decade ly the world's Last year, his 1980 film master­ have referred to Martin Scorsese as premiered last Thursday night. CBS six million dollars, character), whose pilot alone cost ratings this season.

It's Flash, man? No, it's not Superman either. a specific moment in time, "Each frame of the film is a detailed work of art that captures a specific moment in time." films of the 1990's you can be sure that Goodfellas will top the list. Goodfellas is the story of Barry Allen (John Wesley Shipp), a mild-mannered police chemist at the Central City Police crime lab. One evening, in an electrical storm, Barry is hit by lightning at the lab which reacts with the lab's chemicals. As a result, Barry finds he can run past the sonic boom at over 500 miles per hour.

In an attempt to help Barry with his newly found powers, scientist Tina McGee of Star Labs (Amanda Pays), runs constant tests on Barry which don't go over very well with him since Tina's husband had died from an experiment performed there earlier. Eventually, Tina and Barry start to gain interest in each other despite the fact that Barry has a girlfriend, Iris (Paula Marshall).

While this is going on, the city is being plagued by the "Dark Riders," a motorcycle gang who are terrorizing the city with their bombings and murders. Leader of the gang Nicholas Pike (Michael Nader), former police partner of Barry's brother Jay (Tim Thomer­)son), attempts to take over the city. As the gang tries to rid Central City of its police force, Jay is brutally killed, and Barry decides to then take the law into his own hands. Having a costume made by Tina, he transforms himself into Flash and with his speed, wipes the city clean of the "Dark Riders." The show overall is very intriguing and impressive. Although a bit corny at times, the show has a certain appeal that makes it worth watching. John Wesley Shipp, although not a great actor, makes for an interesting Flash. The set and special effects are very impressive, and the idea of Flash's costume is creative.

The only problem Flash and CBS will have to face is the fact that it will be running against The Cosby Show and The Simpsons. This will be extremely tough competition, but Flash certainly has a good chance with its originality and intrigue.

By Catherine Gingerella A & E Editor

Many critics, myself included, have referred to Martin Scorsese as the greatest director of our time. Last year, his 1980 film masterpiece Raging Bull was named the film of the decade by the world's top critics in a list published in "Premiere." If such a list is to be published in 1999, listing the top

Bona calls "a perfect example," Diorio, a media studies graduate in 1990 began working at WSHU in May of 1989. Working just 4 hours a week Diorio helped edit the local morning news, "I was lucky to get into this professional field, get my feet wet, and help run the station." Since graduation Diorio has been hired full-time by WSHU, and can be heard by listeners Monday through Friday 11 a.m.-1.p.m., with midday classics.

Although WSHU is a profession­ally run station, students are "extremely important financially to WSHU," they allow us to do bold things that ordinarily would be impossible for us to do," accord­ing to George Lombardi, station manager. WSHU has used art students to design their program guide, and marketing students to conduct surveys. Those programs allow students to build a portfolio.

WSHU has signed up eleven new interns this semester, but the station still has openings for students in the underwriting pro­gram. Anyone interested in helping to attract business in funding WSHU programs, should contact George Lombardi at 371-7909, or walk over to the station's offices in Jefferson House.

Ray Liotta, Robert DeNiro and Joe Pesci make a hit as Goodfellas.
**SHU Loses A Friend**

**Tribute to Ed Macciocca**

By Lori Bogue

Sports Writer

On July 13, 1990 Sacred Heart University lost a good friend. Ed Macciocca was a man who devoted much of his life to the game of softball. Some of Macciocca's accomplishments include the organization of "The Bridgeport Coeds" in 1962, managing many amateur softball teams, and his duty as Assistant coach for the Lady Pioneer softball team for eleven years. Macciocca also handled the upkeep and maintenance of Pioneer Park. Coach Bippy Luckie commented, "Ed Macciocca dedicated his whole life to the game of softball. He was a hard worker and put everything he had into the Sacred Heart softball program. Whether he was coaching or maintaining the field he was always an inspiration. I never realized how much consuming maintaining the field was but since having to do it myself I've learned that it takes a lot of time and effort. In appreciation of Ed's hard work on the softball field I hope to some day rename the field in, "The Edward Macciocca Memorial Field." Ed was a permanent fixture on the softball field, and he will be dearly missed."

Macciocca was also an inspiration to his players, whether it was restructuring a glove, or a small word of enthusiasm; each person that knew Ed took a lesson from him.

Graduated pitcher Paulene Madrid stated, "It's going to be a lot different without him around the softball field, because he picked us up when we were down and made us laugh. He encouraged me to become a better player." Ed will be missed by many but his memory will always be a very dear one to his friends, family, and the Pioneer Softball team as well.

---

**SHU baseball turns it around**

By Rick Ferris

Sports Editor

After an 0-5 start, the Sacred Heart Men's Baseball team has now won five games in a row for an overall record of 5-5.

Senior co-captain Rich Licursi said of the slow start and turnaround, "I wasn't worried about how the team was doing in the beginning, we showed some good signs and I knew that the changeover to becoming a great team was near. Once the team saw, especially the freshmen, that we could win games consistently, the talent finally started to show. With good leadership, hard work, and dedication, we will have nothing but yet another successful baseball season.

On Sunday, the Pioneers evened their record at 5-5 by sweeping Southern Connecticut 5-0 and 6-0. In the opener, Licursi and Bryan Muthersbaugh combined on the seven hit shutout. Licursi improved his record to 2-1 on the fall and Muthersbaugh picked up his first save. Offensively for the Pioneer, Scott Schilling led the way going 2-3 with an RBI single and an RBI. Freshman Jose Mendez also went 2-3 with a double, one stolen base, and an RBI, and with the bases loaded in the second, freshman Pat Scavone blasted a three run double into the alley in left-center field.

Last Wednesday, SHU defeated Housatonic Community College 5-1. Goode, Zanchetti, and Lumley all pitched three innings apiece with Zanchetti picking up the victory and Lumley picking up the save. Offensively, Rail "Funky Cold" Medina went 2-4 with an RBI. Freshman Todd Zup and Marc Durland also added two hit apiece.

---

"I became a Macintosh convert in business school. At our computer lab I'd always find lines of people waiting to use the Macintosh computers, while other computers just sat there. So I had a choice: wait for a Macintosh, or come back at 6 a.m. to grab one before they'd all be taken."

"After business school, I took a job at a large bank and used my Macintosh for producing everything from spreadsheets to a company newsletter."

"Today I use Macintosh to help me run my own management consulting firm. When I give a presentation, I can see in people's faces that they're really impressed. And that makes me feel great."

"Sometimes I take Friday off, put my Macintosh and skis in the car, and head for the mountains. I ski days and work nights. It's perfect.""

"You know, I can't say where I'll be in five, ten, or fifteen years, but I can say that my Macintosh will be there with me."

Men's soccer perfect at 7-0

Last Wednesday SHU won at Mercy College on a single goal by Mike Ferrarin on an assist from Theo Burnett. It would seem by the 1-0 score that the game was a defensive battle, but Coach McGuigan stated, "It sounds like a defensive game but we missed a lot of chances. We could have easily scored four goals in the contest but you live by that, you die by that. Fortunately this time we were lucky enough to get the one goal to win the game." Senior goalkeeper Dino Scacca recorded the shutout for the Pioneers. It was quite a physical game. Mercy committed 17 fouls on the afternoon but the Pioneers took it in stride.Coach McGuigan stated, "It was a physical game. Mercy was the sixth ranked team in the nation last year and they have a very good team this year. I think this game was very important to them as we were ranked nationally this time playing them and I think that's what caused the game to be as rough as it was." The Pioneers will look to extend their undefeated season this week as they travel to the University of Bridgeport on Wednesday and north to Franklin Pierce College in Rindge, N.H. on Saturday. Both are important NECC games.

Cavaliere leads SHU volleyball

By Brian Kearns
Sports Writer

The Lady Pioneers posted their record to 4-4 in volleyball action this week. Quinnipiac challenged the Pioneers Monday night in Pioneer territory. The Pioneer spikers struggled throughout the night to gain some ground on Quinnipiac, but dropped a lose in four games. Maria Cavaliere led the spikers with 46 digs, and 14 kills. Heather Crilly contributed with 35 digs and Donna Charchenko with 32 digs and 19 kills. Jennifer Dankulich had 6 block solos, and Vicki Kennedy had 4 block assists. April King had 41 assists on the night. The Pioneers lost the first two games 16-4, and 15-9, and battled to win the third match but lost the remaining match, 15-12. The Pioneer Spikers played Bryant College Tuesday night, also at home. Bryant stole the game from Sacred Heart by disabling their defense and offense. Bryant won 15-11, 15-10, and 15-3. Standouts for Sacred Heart included: Crilly who had 32 digs, Queen who had 31 digs, and King who had 22 assists, and Dankulich who had 3 block solos. Friday night the spikers wasted no time by blasting Keene State 15-7 and 15-3. Cavaliere led the team with 6 kills, and Dankulich with 4 blocks. Crilly added with 12 digs, and King with 12 assists. Saturday morning Quinnipiac came back to haunt the Pioneers. The Pioneers in the first game posted a 15-8 win, after overcoming Quinnipiac's 5 point lead. The Pioneers dropped the next game 15-4. Quinnipiac and Sacred Heart battled for the last game but the results were heartbreaking for Sacred Heart. Quinnipiac overcome the Pioneer threat 16-14. In afternoon action the Pioneers earned a victory against Pace University 15-8, and 15-10. Charchenko led the attack with 12 kills, and King with 24 assists. In a Championship playoff round, Sacred Heart tried to rally over University of New Haven but dropped both games to a well built UNH team. The Pioneers lost the games 15-7, and 15-10. This loss did not find the Pioneers hanging their heads because the team put up a good fight and were respected for their playing.

The weight room is open for student use on Monday from 8:30-10, and 5:30-8 p.m., on Tuesday and Thursday from 8:30-10, and 4:30 to 10 p.m., Wednesday from 8-10, on Friday from 10-11:30, Saturday from 10-2, and on Sunday from 1-5. The weight room is located below the gym in the psychology department.

Anyone interested in playing Intramural Football should start getting their teams together. Team or Individual registration is on October 15-18 in the Baseball/Intramural Office. Games will commence on Sunday October 21.
